

"HY-X" TOMATO SEEDS and PLANTS

Henry Field's Amazing New Tomato

Home Gardeners Love It!

Hy-X, the sensational new tomato originated by Henry Field's, is a determinate variety, which means its vines don't run all over the garden but grow bushy and compact. Without staking, its fruit are held up, not laying on the ground to ripen unevenly or rot.

Its vigor goes into fruit, not vine, producing heavy yields. It is very disease resistant, and grows well anywhere, even in semi-

arid sections too dry for ordinary tomatoes. The fruits are medium in size, flat globe shape, rich deep scarlet. Do not scald or crack, and the quality and flavor are unusually good. Grows well too in areas too dry for ordinary tomatoes.

408—(67 days), Pkt. 25c; 3 pkts. 50c; 1/2 oz. 1.00; 1 oz. 1.75, postpaid.

468—Hy-X TOMATO PLANTS. Vigorous, husky, outdoor grown. State inspected. Safe delivery guaranteed. 12 plants for 1.25; 24 for 2.00; 50 for 3.75; 100 for 6.95, postpaid.

BURNING BRONZE

EMPEROR

SHOWPIECE

4 New "All-America" MUMS

In January 1958, it was announced that these four mums had won coveted All-America Awards, the first mums ever to be so honored. They were chosen from the many varieties growing in the All-America Selections Test Gardens throughout the U. S.

CB1496—RUBY KING (Plant Pat. Applied for). A low-growing, cushion-type mum with beautiful dark-green foliage and shapely form. Covered in the fall months with double blooms of vivid, shining, crimson.

CB1498—EMPEROR (Plant Pat. Applied for). Prom to top to bottom, a blaze of golden light. Its rich yellow flowers cover the plant so fully that foliage is almost hidden. Buds open bright bronze.

turn richest of yellow. 2 1/2-inch, broad-petaled flowers are fully double. Excellent cut flower.

CB1497—SHOWPIECE (Plant Pat. Applied for). Huge blooms are 4" or better wide, and fully double. Color is sparkling rose with silver-mist centers and reverse. The long-stemmed flowers are wonderful to cut in sprays or single stems. Plant grows 2 1/2 feet high; has rich green foliage.

CB1496—BURNING BRONZE (Plant Pat. Applied for). A brilliant medley of fall colors: tangerine, bronze, and orange. Vigorous 2 1/2-foot bush loaded with fully double 2 1/2" flowers. Fine sprays for cutting.

POSTPAID PRICES for All-America Mums: 1.50 each; 3 for 3.75, ppd.

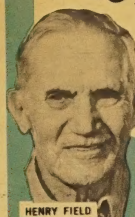

CB3163X—1 each of all four for only 4.95, ppd.

NEW GLAD WITH STARTLING BEAUTY "GUNSMOKE"

BG276—If we did not believe this was the most sensational Glad of the year, we would not put it right in the center of the front cover of our catalog. We have never seen another Glad like it.

The nearest we can come to describing its color is to say that it is smoky blue, like gunsmoke. It really is more brown than any other color—a warm, reddish brown saturated with blue. Has a spike four to five feet tall carrying twenty buds. Opens eight flowers at one time, each one 5 1/2 inches across and heavily ruffled. 65c each; 2 for 1.00; 4 for 1.75, postpaid.

FOR SHADE IN A HURRY!

America's Fastest-Growing Shade Tree Now Offered this New Way:

POTTED HYBRID ELM

We still ship the larger sized Hybrid Elm, bare-root and dormant. But it is too large to send by parcel post and so must be sent by express. Therefore, some of our friends have said they would like a potted tree small enough to be sent to them by prepaid parcel post. See prices below and choose the size and price you prefer.

Fastest Growing Tree in U.S. Often Grows 8 to 14 Feet Per Year

If you want shade in a hurry, yet want a tree that is hardy, long-lived, and hard-working, Henry Field's Hybrid Elm is the tree for you. It combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. It evidently is a hybrid (but we don't know the cross) combining all the good points of both parents, but none of the bad. It is extra hardy—keeps right on growing in weather hot or cold, wet or dry.

And apparently it is immune to the serious elm diseases. We have sold

Larger Size HYBRID ELM
Shipped Express, Not Prepaid
Bare-root and Dormant

No.	A4234	Each	Per 2
4 to 5' size...	3.29	6.39	
5 to 6' size...	3.69	7.19	
6 to 8' size...	4.25	7.95	
8 to 10' size...	5.25	9.85	

(See page 2 for express rates.)

HOW WE SHIP POTTED HYBRID ELM: Live tree, still with roots in soil it grew in, is wrapped in plastic sheet to prevent drying out. Heavy box prevents shipping damage.

Susan was 3 when this Henry Field Hybrid Elm was planted. When she was 5, the tree was over 25 feet tall!

thousands during the past 15 years, and know of not one case of loss from the elm diseases.

POTTED HYBRID ELM

A4229—This is a 2 to 3-foot size; ordinarily by fall it will have grown six to eight feet tall. A potted tree suffers less shock in transplanting, and we do not see how you could possibly lose one shipped in this manner—direct from grower to you. Since these are trees in green leaf (not dormant), we ship after there is no danger of frost damage either at the parcel post docks here or in your area after arrival. 2.98 each, postpaid to your door.

HOW WE SHIP

Practically everything listed in this catalog is sent to you by parcel post, and we pay the parcel post charges. Some few items are too large to send by parcel post, so must be sent by express; where that is so, we say it when we give the price. Field Seeds are priced f.o.b. Shenandoah, Iowa, and may be sent as you choose, but freight is cheapest.

If your first package does not include everything you ordered, don't worry, because we often make separate shipments of various items of your order. This usually is because we ship the various items at their proper planting time in your area. However, the following are sent in separate packages even when sent on the same day: garden seed and non-perishable goods; perennials; house plants; evergreens; deciduous plants such as roses, shrubs, etc.

Read the papers that come inside your package; they tell you what, if anything, is being shipped separately.

NO C.O.D.'s, Please

We don't ship C.O.D. for these two reasons, both of which are for your benefit:

First, it sometimes delays delivery, and nursery stock should be planted as soon as possible after we ship it. If it has to wait around to get delivered, it may not do too well.

Secondly, it increases your cost, and ours. It costs us extra to handle a C.O.D. shipment, and it costs you extra because you pay the C.O.D. fee when you receive the package. If you don't like what you receive, return it promptly at our expense and we'll return your money to you at once, with no questions asked and no arguments.

About Substitutions

We never substitute unless we have to, and most of the time we don't have to. But, unless otherwise directed by you, we reserve the right to substitute a similar variety of equal or greater value when our supply of an item becomes exhausted. If you are not satisfied with the substitution, you may keep it with our compliments and, upon advice from you, we will either refund the purchase price of the original item or book it to your shipment when the item is again available, as you choose. Fair enough?

Railway Express Rates

Some trees are too big to ship by parcel post; in that case we ship them express charges collect. That is, you pay the express charges when you receive the package. If a tree is too big for parcel post, and must be sent express, we say so in giving the price.

At the time of going to press with this catalog, the minimum charge for railway express west of Chicago is 2.01, plus 3% Federal tax, or a total of 2.07. East of Chicago, the minimum is 2.25, plus 3% Federal tax, or a total of 2.29. Most packages do not exceed this minimum because we can ship 16 pounds 800 miles, or 20 pounds 300 miles, before going over the minimum. However, to cut your express costs per tree, we suggest you order several trees at once if you need them. Five trees in a package, for instance, would reduce the express charge per tree to about 40c.

You Don't Lose If We Ship Parcel Post Items with Express Items

Almost all the items we sell are shipped parcel post prepaid, but some few trees are too big to send parcel post and must be sent express. Now, if your order includes both parcel post items and express items, we sometimes (not often) put them together in one bundle and ship the whole order by express. This very seldom increases your express charges. But, to be sure of being fair, we always include a little extra nursery stock free of charge in every express shipment.

Henry Field's MONEY-BACK GUARANTEE

Nursery Stock Guarantee

We guarantee the nursery stock we send out to be completely satisfactory. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and it will be replaced or your money refunded, whichever you prefer. After you have planted it, if it fails to grow, we think we should both take part of the blame: We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock if you notify us not later than August 1, 1958.

Garden Seed Guarantee

We guarantee the vitality and purity

Henry Field's Convenient MONTHLY PAY PLAN

Henry Field's offers you a monthly pay plan if you wish to use it when your order totals \$40.00 or more. You may find this very convenient if you want to do extensive landscaping now, either on a new lot, or in re-doing an old planting. Sometimes, when you have a lot of planting to do, you may have to spread the planting over several years if you have to pay all cash in advance. But, with Henry Field's Monthly Pay Plan, you can get all the planting done at once. You don't have to wait—the plants can be growing, and you can be enjoying them.

This Monthly Pay Plan is good on the purchase of anything in our catalog excepting Field Seed or Baby Chicks. Write for further information if you are interested—no obligation, of course, and we'll be glad to explain how it works, telling you how much to send with order, and how much to pay each month.

ABOUT THIS CATALOG

With this catalog, you can shop pleasantly in the comfort of your home, choosing from a wide array of seeds, nursery stock, and gardening helps. You see not only the latest and best varieties but also the popular old-time favorites.

All illustrations of plants in this catalog are from actual photographs, with colors as near to nature as is possible with paper and printer's ink. The descriptions of these plants are accurate and honest, written by trained, experienced people who devote all their working time exclusively to the seed and nursery business.

IT'S EASY TO ORDER FROM THIS CATALOG

For your convenience, we have enclosed an order blank with this catalog. We prefer that you use it, but write your order on any kind of paper and it will look good to us.

Please print, or write very plainly, your full name and complete address on all orders. Also, if you are ordering items which must be shipped by express, give location of your nearest express office.

Please order by catalog number, and list quantity, variety, and size if any. Please enclose payment with your order. It is safer for you, and better for us, if you make payment by check, draft, or money order. If you send coins or currency, wrap them carefully and register your letter.

Add Sales Tax If You Live in Iowa

It is requested that customers living in Iowa add 2% for sales tax on everything excepting field seed and seed corn. This does not apply to customers living in other states.

Henry Field's SELECTED TOMATOES

The Sensational New "HY-X" *

407—(67 days). Hy-X, originally introduced by an "Tomato X," is the most amazing tomato we have ever offered. Our customers who have tried it have seen the difference too because hundreds of them have written us, praising it.

The first difference you will notice, if you grow Hy-X in your garden, is that it is determinate, which means it won't run all over the garden. Instead, it grows a short, bushy vine. It bears early, and always has an abundant crop of fine quality tomatoes.

Hy-X does well anywhere, but especially well in semi-arid sections that are too dry for ordinary tomatoes. The fruits are bright scarlet, medium in size, and of highest quality. Vines are resistant to most diseases. Pkt. 25c; 3 for 50c; ½ oz. 1.00, postpaid.

2 Heavy - Yielding HYBRIDS

FIELD'S RED KNIGHT HYBRID

427—(60 days). The extra early hybrid tomato we all have been looking for. Our pick of over 60. Brilliant scarlet color, firm flesh, mild flavor. Packed with hybrid vigor. Resistant to numerous diseases. Doesn't crack open and, best of all, medium size fruit. Pkt. (40 seeds) 35c; extra large pkt. (125 seeds) 1.00, postpaid.

FIELD'S RED RIVAL HYBRID

428—(75 days). A main crop hybrid with fruit weighing 10 ounces or better. Fruit perfectly smooth with scarlet red flesh, thick-walled, wonderful flavor. Vigorous grower with plenty of foliage. Was developed in the Midwest for mid-west conditions. Thrives where many others fail. Pkt. (40 seeds) 35c; extra large pkt. (125 seeds) 1.00, postpaid.

Field's EARLY RED HEAD

Heavy Yielding—Doesn't Crack

401—(76 days). Red Head was introduced a good many years ago but since then we have been working on it constantly to make it better. It is heavy yielding, bears over a long time. The tomatoes are round and smooth, ripen evenly, and seldom crack. The firm flesh makes it a fine canning sort. Pkt. 15c; ½ oz. 35c; 1 oz. 60c; ¼ lb. 1.50, postpaid.

ORANGE and SCARLET SLICER

These two tomatoes have heavy foliage which protects the fruits from the sun and hot winds. Their deep roots protect them against dry weather, and they are sure yielders. But, best of all, they are big, smooth, round, juicy and meaty to the core. They also are disease resistant.

410—SCARLET SLICER (72 days). Pkt. 15c; ½ oz. 50c; 1 oz. 90c; ¼ lb. 1.90, ppd.
413—ORANGE SLICER (76 days). Pkt. 15c; ½ oz. 50c; 1 oz. 90c; ¼ lb. 2.25, ppd.

CLIMBING TOMATO

430—A tomato that will cause the neighbors to marvel because it grows ten to eighteen feet tall and often yields two or three bushels per vine. The tomatoes are good too—big, meaty, and with a small seed cavity. Fine for slicing. You'll probably need a ladder to pick the tomatoes. Occasionally the newspapers run a picture of such a tall tomato vine; this is the one that grows that way, so grow this tomato and have your newspaper print your picture with the vine. It's sensational. Packet, 25c, postpaid.

GRAPE TOMATO

425—(73 days). Fruit about the size of grapes, borne in clusters. We've never seen a rotten one or a vine that wasn't loaded. Grows vigorously and bears when others fail. Good eating, but especially good for canning, preserves and sauce. Pkt. 15c, ppd.

Big Yellow GROUND CHERRY

230—Easy to grow. Fruits resemble large yellow berries and are enclosed in loose paper-like husks. Vine grows close to ground but does not spread much. Delicious preserved, especially in combination with lemons and orange. An old-time favorite. Pkt. 15c; ½ oz. 40c, postpaid.

MAYAN HUSK TOMATO

434—Grown in Guatemala long before white man came to America. Brought to U.S. by Iowa State College. Grows like ground cherry. Makes fine sauce, preserves. Thrives even in hot, dry weather. Pkt. 25c, ppd.

FAVORITE TOMATO SELECTIONS

Tomatoes are America's most popular garden plant because they give a lot of fruit from a small garden space, are easy to grow, and taste so good. A vine-ripened tomato from your own garden has a mouth-watering goodness that puts to shame the high-priced, green-packed, store-bought ones. To discover how really flavorful tomatoes can be, grow some yourself.

See page 47 for information on how to grow tomatoes.

405—MARGLOBE (115 days). Main crop variety. Vigorous grower, medium large, nearly globe-shaped, smooth and solid. Good canner too. Pkt. 15c; ½ oz. 45c; 1 oz. 75c; ¼ lb. 1.85, ppd.

404—GOLDEN SUNRAY (72 days). Has a mild but rich flavor. Good garden tomato, but sells well at local markets and roadside stands. Makes delicious juice. Pkt. 20c; ½ oz. 75c; 1 oz. 1.25, ppd.

403—SNOWBALL (75 days). Flesh is almost white. Has few seeds and practically no acid. Lots of folks who can't eat other tomatoes can enjoy this one. Pkt. 20c; ½ oz. 65c, ppd.

409—OXHEART (80 days). The flesh is thick but tender; few seeds and an appealing, mild flavor. Pkt. 20c; ½ oz. 65c; 1 oz. 1.10; ¼ lb. 2.75, ppd.

416—SUPER SIOUX (68 days). Has hybrid vigor. Almost globe-shaped, medium size, medium early. Fruit is solid, deep red, thick walled, and small seeded. Pkt. 15c; ½ oz. 50c; 1 oz. 85c; ¼ lb. 2.15, ppd.

417—RUTGERS (110 days). Flesh is firm and of fine quality. Deep red coloring, very uniform. Excellent for canning. Pkt. 15c; ½ oz. 40c; 1 oz. 75c; ¼ lb. 1.90, ppd.

PEAR TOMATOES. The old-fashioned, pear-shaped, pear serving tomato. Fruit is borne in clusters. 419—YELLOW (75 days). 406—RED (90 days). Pkt. 15c; ½ oz. 40c; 1 oz. 75c; ¼ lb. 1.90, ppd.

418—PINK PONDEROSA (86 days). An old-time favorite. Fruit is huge, very tender and meaty. Slices beautifully with few seeds. Vigorous grower. Pkt. 20c; ½ oz. 65c; 1 oz. 1.10; ¼ lb. 2.25, ppd.

433—ORANGE PONDEROSA. This is an improved type of the pink Ponderosa. A lovely orange-yellow. Grows large and smooth. Pkt. 25c, ppd.

424—F2 (74 days). An extra vigorous second generation of a hybrid of outstanding quality. Brilliant scarlet, medium sized, round, smooth red fruit. Pkt. 20c; ½ oz. 75c, ppd.

421—RED BIRD (75 days). For several years we have advertised this variety in magazines and newspapers to win new friends and customers for us. Last year over 50,000 people bought it. It deserves its popularity because it is a heavy yielder of deep scarlet fruit that is mild and firm. Pkt. 15c; ½ oz. 40c; 1 oz. 75c; ¼ lb. 1.90, ppd.

SNOWBALL

MARGLOBE

GOLDEN SUNRAY

OXHEART

PEAR TOMATO

SPECIAL TOMATO OFFER

450X—1 packet of the popular Red Head; 1 packet of early-bearing Earliana; and 1 packet of Marglobe for canning and slicing—all 3 for only 33c, ppd.

411—EARLY EARLIANA (66 days). One of the best of the early reds. Vigorous, spreading vines. Medium size, early globe-shaped fruit in clusters. Pkt. 15c; ½ oz. 40c; 1 oz. 75c; ¼ lb. 1.90, ppd.

MIXED TOMATOES

402—Many of our customers have requested a packet of tomato seed containing several different kinds so that it would not be necessary for them to buy several packets to get a variety. This mixture contains equal parts of Marglobe, Golden Sunray, Hy-X, Ponderosa, and Yellow Pear. This will give you all sorts, early to late; large to small; yellow, orange, and red. Large packet, 25c; 2 packets, 35c, ppd.

FOR EARLIER, LARGER TOMATOES . . .

The "No Seed" Blossom Set. It stops blossom drop, makes blossoms set fruit. Also gives you earlier, larger, better tomatoes. See page 40 for descriptions and prices.

Have an **EARLIER** Garden this Spring...Plant Henry Field's

Vigorous VEGETABLE PLANTS

TOMATO SEED on Page 3

"HY-X" PLANTS

405—People from coast to coast have written us how they like the way Hy-X tomato plants grow upright and bushy. They do not get straggly and spread all over the garden. They need not be supported by staking, yet hold fruit up off the ground.

It is a very heavy yielder because it has less vine and more fruit. The tomatoes are medium-sized, firm, heavy-meated, and deep red. Flavor and quality are exceptionally good. It thrives anywhere, even in areas too dry for other tomatoes.

Sold only by Henry Field's, 12 plants for 1.25; 24 for 2.00; 50 for 3.75; 100 for 6.95, postpaid.

TOMATO PLANT SPECIAL
0081X—8 "Hy-X," 10 F2, and 10 Red Knight Hybrid—all 26 plants for only 1.50, postpaid.

HYBRID TOMATO PLANTS

Hybrid Vigor—Larger Yield—Better Fruit

These are husky, hardy, outdoor-grown plants—not greenhouse grown. And they are grown from the finest seed only. All beds are inspected regularly by State Inspectors to guarantee you disease-free plants. All pollination is done by hand.

4013—HENRY FIELD'S EARLY F2, a second generation hybrid. This is one of our finest. It is a firm, scarlet-fleshed, mild-flavored, disease resistant tomato. 25 plants for only 1.25, postpaid.

409—HENRY FIELD'S EARLY RED KNIGHT

HYBRID. Packed with hybrid vigor, resistant to most tomato diseases. Doesn't crack; best of all, it is a tremendous yielder. 20 plants for only 1.00, postpaid.

EVERY VEGETABLE PLANT CERTIFIED

Each week, all our plants are inspected carefully by certified state inspectors. Every package we ship carries an Inspection Certificate showing the plants to be free of insects and disease.

We start with only the best of certified seed, and grow the plants outdoors. They're stocky, sturdy, and vigorous. Plants grown in pots, flats, or greenhouses are, by comparison, soft and tender, and no more disease or insect free.

Safe Delivery Guaranteed

We guarantee safe delivery of all plants. They are shipped separately, direct to you from our grower in the south. Cabbage and onion plants don't mind frost and are shipped earlier than tomatoes, peppers or sweet potatoes. If you wish plants sent at some certain date, tell us on your order. Otherwise, we'll ship at what we consider proper planting time in your area.

Henry Field's PEPPER PLANTS

4017—YOLO WONDER. A new strain that is resistant to Mosaic. The vigorous, upright-growing plants are very productive. Peppers are mild and sweet, rather blocky in shape. Thick flesh. Color is dark green changing to brilliant red. 8 plants for 1.50, postpaid.

4015—CALIFORNIA WONDER. Mild and sweet. Thick and blocky. Color is a bright crimson. Fruit grows up to four inches in size. Postpaid prices (approximate count): 25 plants for .95; 50 for 1.49; 100 for 2.50; 200 for 3.25.

Texas-Grown ONION PLANTS

Note: we ship you onion plants in bunches of approximately 100. Actual number varies with size of plants.

All varieties make excellent "green" onion. For mild, sweet, early onion, plant White Bermuda. For long-keeping for winter, plant White Sweet Spanish. For an extra good all around onion, plant Yellow Sweet Spanish.

Harvest onion when about half the tops have fallen. Let them dry out and then store them in a cool, well ventilated place. If you use crates, shallow ones are best.

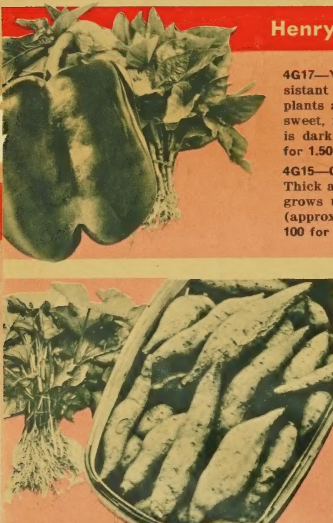

2010—YELLOW SWEET SPANISH. Very large, globe-shaped, light yellow skinned onion. Mild and sweet.
2011—WHITE BERMDA (Crystal Wax). Exceptionally mild, crisp and sweet. Medium-sized, white skin and flesh.
2013—WHITE SWEET SPANISH. Keeps all winter.

HYBRID YELLOW SWEET SPANISH ONION PLANTS

2012—These plants are husky and hardy because they are grown outdoors, not in a greenhouse. They are produced on disease-free soil—state inspected. Every package shipped carries the State Inspection Certificate.

These are more uniform and better in every way than the regular kind. They keep better and yield more. Light straw-colored bulbs have ample shell, or covering, to protect the bulbs. Supply is limited so please order early. 100 plants for 79c; 200 plants for 1.55; 1,000 plants for 4.59, postpaid.

SWEET POTATO PLANTS

STRAIGHT EIGHT

368—(66 days.) A fine slicer—one of the best. It is a vigorous grower and heavy yielder. The cucumbers are cylindrical, uniform, and of dark green color. Has thick flesh and a small seed cavity. The flesh is of very fine quality. Packet 15c; 1 oz., 40c; ¼ lb., 1.10; 1 lb., 2.70, postpaid.

Famous EARLY FORTUNE

353—(60 days.) One of the finest of the medium-early sorts. Disease resistant and a very vigorous grower. Flesh is white, crisp and very tasty. Produces an enormous crop of dark green, high-quality cucumbers. Holds color well and has a small seed cavity. Pkt. 15c; 1 oz., 40c; ¼ lb., 1.10; 1 lb., 2.75, postpaid.

WEST INDIA GHERKINS

350—(60 days.) For mixed pickles. A little, oval-shaped prickly pickle about 1" to 1¼" thick by 2" long. Pale to medium green in color. Makes excellent "melon pickles." Heavy bearer. Strong grower anywhere. Practically bug and disease proof. 20c; 1 oz. 45c; ¼ lb., 1.25, postpaid.

Field's EARLY SURECROP

The All-America Hybrid Cucumber

370—(60 days.) This cucumber, introduced by Henry Field's, is the only hybrid cucumber ever to win an All-America award. ("Smoothie," shown below, is not a hybrid.)

The fruits are a handsome deep green, 8" or more long, with rather blunt ends and small seed cavity. The flesh is unusually delicious, crisp, and of excellent quality.

Highly resistant to heat, drouth, mosaic and downy mildew. And it is so productive that one packet of seed usually produces enough cucumbers for a whole neighborhood. Bears early and long. Pkt. (30 seeds) 35c; ½ oz. 3.00; 1 oz. 5.00; ¼ lb. 13.00; ½ lb. 25.00, postpaid.

HYBRID TWINS

CUCUMBER OFFER

310X—1 pkt. of Early Surecrop Hybrid, the All-America Winner, and 1 pkt. of Hycrop Pickling, the best of the pickling cucumbers—both for 49c, postpaid.

NATIONAL PICKLE

352—(54 days.) One of the best; developed by the National Pickle Packers Assn. Dark green, cylindrical, with block ends retained through all stages of growth. Can be used for all pickles, from small sweets to large sours and dills. Pkt. 15c; 1 oz., 40c; ¼ lb., 95c; 1 lb., 2.40, postpaid.

MR17

367—(58 days.) A new, extra-fine quality pickling cucumber developed by Ohio Experiment Station. Small, uniform, blocky-shaped, dark green fruit. Mosaic resistant. Very heavy bearer. Packet 20c; 1 oz. 45c; ¼ lb., 1.20; 1 lb., 3.00, postpaid.

HYCROP Hybrid Pickling

351—(56 days.) A hybrid pickling cucumber worthy of being a running mate for "Early Surecrop" hybrid slicer. Has everything—disease resistance, quality, uniformity, and attractiveness. Best of all, it is a tremendous yielder. Pkt. (30 seeds) 35c; ½ oz., 3.00; 1 oz., 5.00; ¼ lb., 13.00; ½ lb., 25.00, ppd.

HOW TO GROW CUCUMBERS

Cucumbers like rich soil but do fairly well almost anywhere. Plant the seed liberally because bugs sometimes take some of the seedlings. Don't crowd cucumbers—give them plenty of room. Make the hills at least 1 x 6 feet, and more if you have space. Plant when the ground is warm, and figure about 36 hills to a packet of seed, or 100 hills to the ounce. For the pickles, plant in June.

CLIMBING CUCUMBER

366—(58 days.) A distinct climbing variety, used to cover trellises and fences. Cucumbers are dark green, very uniform in size and of good quality. Resistant to most cucumber diseases. Pkt. 15c; 1 oz. 40c; ¼ lb. 98c, postpaid.

BABY CUCUMBER

359—Grows only 4" long. Vines bushy. Early and productive. For fine, uniform pickles. Pkt. 15c; 2 for 25c, postpaid.

WHITE WONDER

363—(58 days.) Very popular novelty because white. Heavy producer. Has fine flavor. Well worth trying. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.25, postpaid.

SPECIAL CUCUMBER OFFER

1 Pkt. National Pickle
1 Pkt. Early Fortune
1 Pkt. "Giant Improved"
Long Green
for only **25c** ppd.
No. 300X

MARKETER

362—(58 days.) An All-America winner. One of the newer slicing varieties. Deep green fruits, 8 to 10 inches long, 2½ inches thick, fairly round ends. Solid, white, delicious flesh. White spines. Packet 15c; 1 oz., 45c; ¼ lb., 1.25, postpaid.

"Giant Improved" LONG GREEN

361—(58 days.) A medium late variety which has a small seed cavity and is ideal for slicing. Vines are vigorous and long-lived. Produces abundantly. One of the most popular and widely used varieties. Pkt. 15c; 1 oz., 40c; ¼ lb., 1.15; 1 lb., 2.85, postpaid.

Dark Green Slicer

364—(60 days.) A long-time favorite because it is a remarkably good early slicing variety with a delicious flavor. Bears a heavy crop. Dark green color, straight, and rather blunt ended. Pkt. 15c; 1 oz., 35c; ¼ lb., 1.00; 1 lb., 2.50, postpaid.

All-America SMOOTHIE

365—(63 days.) An All-America slicing cucumber from North Carolina Experiment Station. Does well wherever cucumbers grow. Has no warts. Flesh is white with slight greenish tinge next to skin. 8 inches long. Pkt. 25c; 1 oz. 75c, postpaid.

303—UTAH SWEET SPANISH (110 days.) Very heavy producer and early. Light straw colored skin with pure white flesh. Good keeper. Pkt. 20c; 9c, 75c; ¼ lb. 2.25, ppd.

308—LARGE RED GLOBE (120 days.) Most popular onion. Flesh fine grained. Deep, rich red; good keeper. Fine for either fall or winter market. Pkt. 15c; 1 oz. 70c; ¼ lb. 1.85, postpaid.

315—WHITE BUNCHING ONIONS. A fine variety for bunching or early green onions. Good quality—sweet and tender. Sow seed in early spring or fall for early spring onions. Pkt. 20c; oz. 75c; ¼ lb. 2.10, postpaid.

308—ENCORE HYBRID (100 days.) Large, deep bulbs. Bright straw color. Uniform, hard cream white flesh. Heavy yielder, adaptable over wide area. Uniform maturity. Dandy for market grow-

ONION SEED

UTAH SWEET SPANISH

LARGE RED GLOBE

WHITE SWEET SPANISH

WHITE BUNCHING ONION

ers. Pkt. 25c; ½ oz. 65c; oz. 1.00; ¼ lb. 3.00; 1 lb. 10.00, postpaid.

314—DOWNING YELLOW GLOBE (112 days.) More globe shaped. One of the most popular "hard" onion. Bright straw color; good sized; a wonderful keeper.

313—WHITE SWEET SPANISH (110 days.) "Winter keeper" strain. Large mild and sweet. Better keeper than Bermuda. Does better in north. Pkt. 20c; oz. 75c; ¼ lb. 2.15, postpaid.

Sow onion seed early — just as soon as you can get it in the ground. One ounce to 100 feet of row. See page 4 for onion plants.

MIDGET VEGETABLES

Small varieties for a complete garden in the smallest back yard, but good to grow even if you have plenty of room. Every one tops in quality.

TINY GREEN BEANS

140—Seeds small and white. Flavor unbelievably good. Quality fine. Pkt. of 30 seeds, 25c, postpaid.

TOM THUMB LETTUCE

504—Tennis ball size head lettuce just right for individual salads. Pkt. 15c; 2 for 25c, postpaid.

MIDGET SWEET CORN

179—Tender. Flavorful. Sweet. Ears 4 inches long. Stalks 2½ feet tall. Very early. Pkt. 25c; 2 for 40c, postpaid.

TINY TIM TOMATO

426—Plants 15" tall, covered with ¾" red tomatoes. Also grow well and look well in porch box or potted. Pkt. 20c; 2 for 35c, postpaid.

BABY CUCUMBER

360—Cucumbers only 4" long. Vines bushy. Early and productive. For fine uniform pickles. Pkt. 15c; 2 for 25c, postpaid.

MIDGET WATERMELON

712—7 to 8 inches long. Red, crisp flesh. Wonderful flavor. Pkt. 15c; 1 oz. 50c; ¼ lb. 1.35, postpaid.

Yellow Ebenezer ONION SETS

The Famous Hazelnut Size

317—For fine tender green onions or early fully matured ones. These hazelnut-size small sets go farther than the large ones and will give you just as big onions at lower cost per acre. They cost us more but we sell at the same price as unaccreted sets. Beautiful solid sets. 1 qt. 40c; 2 qt. 69c; 4 qts. 1.20; peck 2.20, postpaid.

We sell only the yellow onion sets because they are better than the red or white ones. Write for special prices on larger lots.

GARLIC LEEK

240—CALIFORNIA WHITE GARLIC (110 days.) The best variety. Divide the bulbs into "cloves" plant and tend just like onion sets. Store like onions. Or, since garlic is hardy, may be left in garden over winter. 15¢ per single bulb; ½ lb. 80c; 1 lb. 85c, postpaid.

231—(130 days.) Member of onion family. Sweeter than onions. Nice-flavored stems for soups, stews, or creamed. Pkt. 15c, postpaid.

Henry Field's SEED POTATO SETS

From the Finest Certified
Stock in North America

READY-TO-PLANT SEED SETS

We send you ready-to-plant seed sets like this, taken from finest certified stock in North America. Each set has just the right amount of meat with the eye to insure germination. And each one already is treated.

POSTPAID PRICES

All varieties of Seed Potato Sets listed at left: box of 100 sets, 1.89; 2 boxes (your choice, alike or different), 3.59; 3 boxes (your choice, alike or different), 5.00, postpaid.

USE FIELD'S POTATO DUST

4078—For control of Colorado Potato Beetle, Flea Beetle, Leaf Hopper, Blister Beetle, Cucumber Beetle, Thrip, Psyllids, late and early blight. Easy to use. 1-pound sifter can, 65c; 3 lb. sack, 1.48; 5 lb. sack, 1.98, postpaid to your door.

DORMATONE prevents sprouting

4005—Lets you store potatoes 12 months without cold storage. No sprouting, no shrinking. Improves quality; harmless. May be used on other root crops too. Complete directions for use sent. 12 oz. sifter can (treats 8 bu.), 1.00, postpaid.

NO CUTTING, NO TREATING REQUIRED

Each set has just the right amount of meat with the eye to insure best germination. And all sets are treated to eliminate surface fungus, to protect them against soil-borne organisms, and to enable you to plant when the ground still is cold.

These sets are easier to plant, germinate quicker, produce more and better potatoes. Therefore, they cost you less in the long run.

New "Redkote"

268—This new potato looks plenty good to us and we recommend you try it. We call it a mid-season potato, a little later than Triumph. Cooks up mealy and white. Good round oval shape. Shallow eyes. Has made tremendous yields in Iowa and Minnesota. Sets are cut from finest Certified Stock, and treated, ready for planting.

Cherokee

263—One of the best whites. Ready to dig a week later than Cobbler, but smoother and more scab and blight resistant.

Red Pontiac

262—The most popular of all "red" potatoes. It matures early and yields big. Has a shallow eye and cooks well. We think Red Pontiac will be a "front rank" potato for a long time to come.

Dazoc

266—This is the sensational new potato developed by Dr. Werner of the Nebraska State Experiment Station. It is one of the best hot weather potatoes we have ever seen. Dazoc's color is a beautiful red. It has fine cooking qualities, and is a dependable yielder.

White Cobbler

260—This is the yardstick by which all other potatoes are measured. It is a potato any way you consider it. Has wonderful eating qualities.

Kennebec

269—A smooth and white potato with shallow eyes. Has wide adaptation—will grow almost anywhere. Very resistant to blight and mosaic. Cooks beautifully.

Russet Burbank

270—Similar to the famous Idaho baking potatoes. Rather long in shape. Bakes well and is a good all around potato. Worth a trial anywhere.

"All Season" POTATO SEED SETS

655X—A combination deal if you want several kinds of potatoes and don't want a whole box of each variety. 40 Red Pontiac sets, 40 White Cobbler, 20 new Redkote. All 100 sets for 3.50, both postpaid.

CABBAGE SEED

See Page 4 for FROST-PROOF CABBAGE PLANTS

EARLY CABBAGE VARIETIES

528—EARLY WONDER. (62 days.) For a long time we have been looking for a small "apartment size" cabbage to fit the refrigerator. At last we have found it—in Holland. It is brand new. Heads are solid, fine flavored, and of unusually good quality. Weighs about 3 pounds. You can set the plants close together in the garden. Pkt. 25c; 1/2 oz. 60c; 1 oz. 1.00, ppd.

529—COPENHAGEN MARKET. (68 days.) A strain of Copenhagen; has all its good points, plus resistance to disease. Heads are almost round and weigh 5 1/2 to 7 lbs. Quality is excellent. Pkt. 20c; 1/2 oz. 50c; 1 oz. 85c; 1/4 lb. 2.25, ppd.

526—YELLOW RESISTANT GLOBE. (105 days.) Heads are solid, round, and somewhat flat. Its quality is good. Flesh is crisp and of fine flavor. An excellent keeper that always does well. Pkt. 20c; 1/2 oz. 50c; 1 oz. 85c; 1/4 lb. 2.25, ppd.

527—EARLY JERSEY WAKEFIELD. (63 days.) Heads pointed, solid, tightly folded, tender and crisp. Weighs 2 1/2 to 3 lbs. For home or market. May be set close together as grows compactly. Pkt. 15c; 1/2 oz. 45c; 1 oz. 75c; 1/4 lb. 1.95, ppd.

525—EARLY GOLDEN ACRE. (64 days.) Crisp, tender and sweet. Forms a small, solid 3 1/2 to 4 lb. head that doesn't burst open. A sure, heavy

garden. Quality excellent. For home gardens, kraut and market. Pkt. 15c; 1/2 oz. 45c; 1 oz. 75c; 1/4 lb. 1.95, ppd.

519—COPENHAGEN MARKET. (85 days.) Norseman strain. 8 to 10 lb. white heads of high quality, round, solid, crisp. A dependable early variety. Yields heavily. Pkt. 15c; 1/2 oz. 45c; 1 oz. 85c; 1/4 lb. 2.10, ppd.

518—CHIEFTAIN SAVOY. (88 days.) All America Award Winner. Has attractive crumpled leaves. Mild flavored and sweet.

517—SUREHEAD. (95 days.) If you have trouble getting late cabbage to head, try this one. Always does well. Heads are large, round and flat, uniform. Crisp and tender. Good keeper. Makes fine kraut. Pkt. 15c; 1/2 oz. 42c; 1 oz. 80c; 1/4 lb. 1.98, postpaid.

LATE CABBAGE VARIETIES

535—PREMIUM LATE DUTCH. (105 days.) A sure header and a good keeper. Heads are large, usually 12 to 14 lbs., round, solid, broad, flat on top. Fresh, crisp, tender. Grows low. Pkt. 15c; 1/2 oz. 40c; 1 oz. 72c; 1/4 lb. 1.90, ppd.

533—RED ROCK. (100 days.) A delicious cabbage. Heads are very solid and red throughout. For cooking, salads or pickling. Perfectly round and hard. A sure cropper. Pkt. 20c; 1/2 oz. 50c; 1 oz. 88c, postpaid.

532—SUREHEAD. (95 days.) If you have trouble getting late cabbage to head, try this one. Always does well. Heads are large, round and flat, uniform. Crisp and tender. Good keeper. Makes fine kraut. Pkt. 15c; 1/2 oz. 42c; 1 oz. 80c; 1/4 lb. 1.98, postpaid.

531—CHIEFTAIN SAVOY. (88 days.) All America Award Winner. Has attractive crumpled leaves. Mild flavored and sweet.

DISEASE-RESISTANT CABBAGE

523—MARION MARKET. (75 days.) A strain of Copenhagen; has all its good points, plus resistance to disease. Heads are almost round and weigh 5 1/2 to 7 lbs. Quality is excellent. Pkt. 20c; 1/2 oz. 50c; 1 oz. 85c; 1/4 lb. 2.25, ppd.

526—YELLOW RESISTANT GLOBE. (105 days.) Heads are solid, round, and somewhat flat. Its quality is good. Flesh is crisp and of fine flavor. An excellent keeper that always does well. Pkt. 20c; 1/2 oz. 50c; 1 oz. 85c; 1/4 lb. 2.25, ppd.

yielder. Pkt. 20c; 1/2 oz. 50c; 1 oz. 80c; 1/4 lb. 2.25, ppd.

522—EARLY JERSEY WAKEFIELD. (63 days.) Heads pointed, solid, tightly folded, tender and crisp. Weighs 2 1/2 to 3 lbs. For home or market. May be set close together as grows compactly. Pkt. 15c; 1/2 oz. 45c; 1 oz. 75c; 1/4 lb. 1.95, ppd.

SPECIAL CABBAGE SEED OFFER

225X—1 packet each of Early Jersey Wakefield, Copenhagen Market, Premium Late Flat Dutch—all 3 for 29c, postpaid.

518—CHIEFTAIN SAVOY. (88 days.) All America Award Winner. Has attractive crumpled leaves. Mild flavored and sweet.

Everyone can eat this variety as it doesn't have strong taste. Pkt. 20c; 1/2 oz. 45c; 1 oz. 85c; 1/4 lb. 2.20, postpaid.

MARION MARKET

Chinese Cabbage PE TSAI

539—(70 days.) A great salad vegetable. Serve like lettuce or prepare like cabbage. Heads grow 12 to 14" tall, with leaves tightly folded around tender white heart. Leaves are creamy white. Pkt. 15c; 1/2 oz. 30c; 1 oz. 60c; 1/4 lb. 1.50, ppd.

KOHLRABI

216—WHITE VIENNA. (60 days.) A member of cabbage family with an edible turnip-like bulb which grows above ground. Some say it is a cross between turnip and cabbage. We say it is as good or better than either. Grow it as you would cabbage. Use when about 3" in diameter. The flesh is tender, creamy white, and of fine flavor. Serve cooked like turnips or eat raw. Easy to grow. Pkt. 15c; 1/2 oz. 30c; 1 oz. 45c, postpaid.

BRUSSELS SPROUTS

225—(90 days.) Brussels Sprouts belong to the cabbage family too but they have a milder, more delicate flavor. Dozens of miniature, tender cabbage heads, each one 1 1/4 to 1 1/2 inch in diameter, grow from the sides of the stems. Heavy yielder. Easy to grow. Delicious eating. Pkt. 15c; 1 oz. 45c, postpaid.

Henry Field's Garden PEAS

INOCULATE PEAS for BIGGER YIELDS

If you inoculate your peas, beans and sweet peas with NITRAGIN inoculation you will get bigger yields and faster growth. It takes just a minute to treat the seed; you do it at the time you plant, and it is well worth doing. A 25c packet is enough for 5 lbs. of seed. Full directions on packet. 4015—NITRAGIN, 25c per packet, postpaid.

When to Plant Peas

Plant the smooth varieties just as soon as you can work the ground. Plant the wrinkled varieties a little later. For a fall crop, use the early sorts, planting them about the middle of August. One pound of seed will plant a row 50 feet long.

Incidentally, all Henry Field peas are northern-grown and carefully selected for type, disease resistance and vigor.

**BEST
FOR
FREEZING**

FREEZONIAN

150—(63 days). An All America Winner especially recommended for freezing because the skin does not loosen and peel. The peas are large and tasty; the quality is excellent. The vines grow about 30 inches tall, producing dark green, blunt-ended pods about 3½ inches long. Resistant to fusarium wilt.

Although Freezonian is especially fine for freezing, it also is ideal for canning, and is an excellent variety for both home and market gardeners. Triple size pkt. (3 oz.), 15c; ½ lb., 42c; 1 lb., 70c; 3 lbs., 1.75, postpaid.

EXTRA EARLY ALASKA

146—(56 days). This is the earliest pea known, and one of our biggest sellers. It is an improved, wilt-resistant strain of an old favorite, is very hardy, and is a heavy yielder. Sure to crop and easy to grow. Produces medium sized, well-filled pods.

The peas are of excellent quality and, as they ripen all at once, are easy to gather. If you want a lot of good early peas, plant this one. Triple size pkt. (3 oz.), 15c; ½ lb., 35c; 1 lb., 65c; 3 lbs., 1.65, postpaid.

PREMIUM GEM—Extra Early One

154—(58 days). This is one of the most popular of the early garden peas. The vines are dwarf, growing about 15 inches in height. The pods are blunt ended, 2½" long, with 6 to 7 peas to the pod. Very productive, and fine flavored. Considered by many to be the sweetest of the early peas. Triple size pkt. (3 oz.), 15c; ½ lb., 42c; 1 lb., 65c; 3 lbs., 1.65, postpaid.

ALDERMAN—Prolific Late

167—(75 days). Alderman is the largest, and the latest maturing, pea in our list. It is a vigorous grower so give it plenty of room. The vines grow tall, and the pods are big and heavy, so give them some kind of support. The pods measure 4½ to 5" long, plump and well-filled, with 8 to 16 peas in each pod. Wilt resistant. Some prefer Alderman for freezing. Triple size pkt. (3 oz.), 15c; ½ lb., 42c; 1 lb., 70c; 3 lbs., 1.75, pd.

WORLD'S RECORD—Large, Sweet

166—(62 days). This is another one that has large peas of good quality, but it matures earlier than Alderman. It has vigorous dark green vines that grow 20 to 24 inches tall that you don't have to stake (but they'll probably do better if you do stake them). The pods are large, and filled with from 7 to 9 green big sweet peas. Triple size packet (3 oz.), 15c; ½ lb., 35c; 1 lb., 65c; 3 lbs., 1.65, postpaid.

EDIBLE PODDED PEAS

Dwarf Gray Sugar

160—(62 days). Here is the pea that you can eat just like green beans—pods and all—and you'll like them. This means you don't have to bother shelling them. And besides, they give you more food value. They're easy to grow, easy to cook, and, best of all, sweet and delicious in flavor. Triple size packet (3 oz.), 20c; ½ lb., 40c; 1 lb., 70c, postpaid.

BLACK EYED COWPEAS (Not Illustrated)

168—As Southern as corn pone. Usually called "Black-Eyed Peas," but really more of a bean than a pea. Use green in the summertime and dried for winter. Grows as easily as any other garden peas. Triple size pkt. (3 oz.), 15c; ½ lb., 35c; 1 lb., 65c; 3 lbs., 1.65, postpaid.

"ALL SEASON" PEA COLLECTION

For a continuous supply of peas—early, main crop, and late. Fine varieties:
½ lb. Extra Early Alaska—wilt resistant.
½ lb. American Wonder—main crop.
½ lb. Alderman—the late one.
No. 155X—all 3 for only 85c, postpaid.

AMERICAN WONDER

The Drouth Resister

149—(60 days). This one always comes into bearing ahead of the other wrinkled varieties. The dwarf vines grow only about one foot tall and are covered with medium sized pods. Peas are of good quality, tender, and of fine flavor. Especially well liked because of resistance to drouth. Triple size packet (3 oz.), 15c; ½ lb., 35c; 1 lb., 65c; 3 lbs., 1.65, postpaid.

"Wrinkled" ALL SWEET

Sweet Alaska Peas

156—(55 days). This wilt-resistant pea is best described by saying it is a "wrinkled Alaska." It makes a vine growth like the Alaska, and is fully as hardy. The pods, which are 2½ to 3 inches long, are chock full of tiny, sweet, tender peas. A good variety for canning and freezing too. Triple size packet (3 oz.), 15c; ½ lb., 40c; 1 lb., 70c; 3 lbs., 1.75, postpaid.

Little Marvel

Tender, Heavy Yielder

152—(62 days). It will be a long time 'til we find a better one than Little Marvel. For quality, yield, earliness, or any other point, it is hard to beat.

It is a vigorous grower and a heavy yielder. Vines get about 18 inches high, and are loaded with dark green, nearly round, square-ended pods

about 3 inches long. 7 or 8 large peas to the pod. 3 quarts of pods often will shell out a quart of peas. Tender and sweet, and of finest quality.

One of the favorites because it is one of the best of all peas. Triple size packet (3 oz.), 15c; ½ lb., 40c; 1 lb., 75c; 3 lbs., 1.90, postpaid.

LARGE PODDED MARVEL The Little Giant Marvel

153—(65 days). This is like Little Marvel excepting that the pods are larger. The vine is dwarf, but the well filled pods always contain plenty of large peas that are sweet, tender and juicy. Triple size packet (3 oz.), 20c; ½ lb., 45c; 1 lb., 65c; 3 lbs., 1.65, postpaid.

PREMIUM GEM

ALDERMAN

WORLD'S RECORD

EDIBLE PODDED PEAS

7

You should plant plenty of beans because they are so easy to grow and are sure yielders. And they not only are tasty (much better than store-bought ones), but they are healthful and help reduce the grocery bill.

You can eat them fresh from your garden all summer and still have plenty to can or freeze for winter. They are very easy to can or freeze too.

Fill in your empty garden spaces with beans. Sow about every two weeks for a constant crop. For variety, plant all three kinds—bush, pole and lima.

INOCULATE BEANS for GREATER YIELD

Of course you can grow good beans without inoculating them with Nitragin. But if you do inoculate them, you will get plants that grow faster and yield more. The reason is that the inoculation helps the plant take nitrogen from the air, and fertilize the soil.

It's easy to inoculate beans. Just dust Nitragin on the seed. An easy way is to put the seed in a paper bag, add Nitragin, and shake the bag. A 25c packet is enough for five pounds of seed. No. 4015—25c, p.pd.

GREEN BUSH BEANS

SEE ILLUSTRATIONS AT RIGHT

Bush beans also are known as snap beans. They are the most popular kind of garden bean, growing not over 15 to 20 inches tall. The beans taste best if picked from the bush when young and tender. Plant them in rows at least 30 inches apart, and 4 inches apart in the row. Cover the seed with about an inch of soil and firm gently.

BOUNTIFUL Famous Canner

144—(50 days). This is one of the best beans for you if you live in the corn belt. We have never had a failure with it. Its pods are big, green and showy, with excellent quality and savory flavor. One of the best for canning, and fine for marketing too. Bountiful is the right name for it because it yields heavily. 3 oz. packet 15c; 1/2 lb. 38c; 1 lb. 70c; 3 lbs. 1.75, postpaid.

STRINGLESS GREEN POD

107—(51 days). An ideal family bean and the standard by which all other varieties are compared. It is an early dwarf green bean that bears a heavy crop of choice, plump pods. Very meaty, fine flavored, and tender. No strings whatever. One of its best qualities is its ability to withstand more drouth than most varieties. 3 oz. packet 15c; 1/2 lb. 40c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

YELLOW BUSH BEANS

Seems like when most folks think of beans they think of green beans only and forget the kind that, to our way of thinking, is best of all—the yellow bush beans.

If you have never planted or eaten yellow bush beans, don't pass them this year. They yield as well or better than the green ones, are as tender, and just as stringless. And, almost without exception, they have a better, more pleasing flavor. This year, try several varieties. You'll like them. Give them the same care and culture as the green bush beans.

SURECROP STRINGLESS

A Heavy Bearer

120—(51 days). Has handsome 6 to 6 1/2 in. golden yellow pods are meaty, tender, brittle and sweet. Completely stringless. Plants are disease and drouth resistant, vigorous, branching, and never fail to bear a big crop. An especially fine bean for canning, freezing, or market. 3 oz. packet 15c; 1/2 lb. 40c; 1 lb. 78c; 3 lbs. 1.95, postpaid.

POLE BEANS (or Climbing Beans)

You don't need a lot of room to grow pole beans. Just put them on a fence, a trellis, or any other support, and they'll be happy.

A popular way is to space the hills about four feet apart each way. Then stick a six-foot pole into each hill and tie four poles together at the top. These "teepees" look nice, are easy to tend, and the beans are easily gathered.

Try a few pole beans this year. A three-ounce packet will plant 35 hills.

FILLBASKET POLE BEANS

If You Want the Biggest Yield, Plant This One

121—BLUE LAKES, Stringless (66 days). Really fills your basket in a hurry. Yields are enormous. Strong grower, vigorous climber. Pods very dark green, brittle, long and slender. Beans small, white, kidney-shaped. Delicious bean flavor, very meaty, and of good quality. Especially fine for home canning and freezing. Makes finest shelled beans in the world. 3 oz. packet 20c; 1/2 lb. 40c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

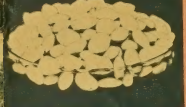

LIMA BEANS

FORDHOOK 242

Early, Large-seeded Bush Lima

126—(75 days). An All-America selection; best and earliest of the big-seeded limas. Originated by U.S.D.A. Strong, upright bushes. Holds pods high and clean. 4 to 5 large, white, meaty, nut-like beans to the pod. Wonderful for freezing. Pkt. (3 oz.) 20c; 1/2 lb. 45c; 1 lb. 85c; 3 lbs. 2.10, postpaid.

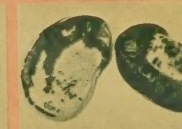

DWARF BABY POTATO LIMA

115—(72 days). An All-America Silver Medal winner. Seeds small, thick, bright green, good flavored. Prolific yielder. Fine for canning or freezing. 3 oz. Pkt. 15c; 1/2 lb. 40c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

GREEN SEEDED BABY LIMA

114—(67 days). An improvement over old-fashioned baby limas. Beans are bright green during shelling stage. Fine for canning, good for dry beans too. An excellent grower, stands hot dry weather well. Tremendous yielder of good flavored beans. 3 oz. packet 15c; 1/2 lb. 40c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

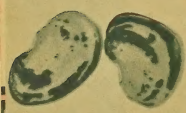

HENDERSON'S BUSH BABY LIMA

127—(67 days). Best lima yielder. Small white bean. Great for shell beans, canning or winter drying. Stands dry weather well. Dependable, sure yielder. 3 oz. packet 15c; 1/2 lb. 40c; 1 lb. 70c; 3 lbs. 1.60, postpaid.

FLORIDA BUTTER BEANS

131—(68 days). Was the most popular pole lima among Henry's Missouri neighbors. It grows six to eight feet tall. Use green, shelled, or dry. Big yielder. Seeds white with purple-red markings when dry. 3 oz. packet 15c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. 1.50, postpaid.

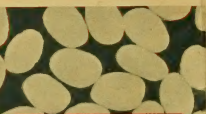

The Unusual SPECKLED CALICO POLE LIMA BEAN

141—(78 days). This was the prize bean of Henry's Ozark garden. It loves hot summer weather and keeps on bearing over a very long period. Prolific and vigorous. Pods grow 3 to 4 in. long with 3 to 4 big, flat beans in each pod. Flavor is excellent. Pods borne in easy-to-pick clusters. Fine for winter storing. 3 oz. packet 15c; 1/2 lb. 40c; 1 lb. 70c; 3 lbs. 1.75, postpaid.

CLIMBING BABY LIMA

145—(72 days). Earliest of white limas. Pods look like regular baby limas. One of first to bear—continue until frost. Grows 3 to 10 feet tall with 3 to 4 seeds per pod. Medium green color. Excellent eating. 3 oz. packet 20c; 1/2 lb. 45c; 1 lb. 80c; 3 lbs. 2.00, postpaid.

SOUP BEANS

Old Standbys for Winter Use

WHITE WONDER Navy or Soup Bean

102—(85 days). Favorite standard bean. Heavy yielder. Long uniform bean. Pods carried well off the ground. 3 oz. packet 15c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. 1.50, postpaid.

GREAT NORTHERN Large and Flat

104—(90 days). Montana White. Larger than Navy bean and tastes even better. Easier to pick over. A good yielder and early. 3 oz. packet 15c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. 1.50, postpaid.

RED KIDNEY

Well Known Favorite

128—(90 days). Good yielder of large, dark red, dry beans. Just the thing for baking or soup. Easy to grow too. 3 oz. packet 20c; 1/2 lb. 45c; 1 lb. 75c; 3 lbs. 1.75, postpaid.

YARD LONG

(Asparagus Bean)

129—(70 days). Grow some of these and then call your local newspaper to come and take a picture of them. Everyone will be surprised because the pods actually get to four feet long! This is one of the most fabulous plants you can grow, and you'll have a lot of fun with it. 3 oz. packet 20c, postpaid.

SPECIAL OFFER for POLE BEANS

- Any three 3-ounce packets for 35c.
- Any six 3-ounce packets for 65c.
- Any two 1/2-pound packets for 49c.

ALL POSTPAID

GREEN BUSH BEANS

"TOP CROP"

ALL-AMERICA AWARD WINNER

112—(51 days). Developed by the United States Department of Agriculture. One of the heaviest yielders, and also very resistant to mosaic. The pods are straight, smooth, 5½ to 6 inches long, filled from end to end with round, mottled brown seeds. Completely stringless, fiberless, and very meaty. High in quality and flavor. One of the best for cooking, and excellent for freezing, canning, and market. 3 oz. packet 20c; ½ lb. 45c; 1 lb. 80c; 3 lbs. 2.00, postpaid.

★ ALL-AMERICA BEAN OFFER ★

Two Prize Winners for only 69c
125¢—½ pound of Top Crop Green Bean, the 1950 All America Winner, and ½ lb. Cherokee Wax, the 1948 All America Winner—both for only 69c, postpaid.

BOUNTIFUL

STRINGLESS GREEN POD

WADE

SEMINOLE

WADE the 1952

All-America Winner

117—(54 days). The pods, which are kept off the ground because the bush grows upright, are deep green, 5½ to 6 inches long, round, and slender. It is tops in quality and flavor and, because of its smoothness and uniformity, ideal for canning and freezing. It is the favorite for marketing because it is so slow wilting. Very resistant to mosaic and powdery mildew, and a heavy yielder. 3 oz. packet 20c; ½ lb. 50c; 1 lb. 75c; 3 lbs. 1.75, postpaid.

TENDERGREEN

Stringless, Fiberless

106—(54 days). This is a very meaty, fine quality, smooth green bean. The pods are plump, long, dark green, and completely free from fibers and strings. Plants grow strong and upright and bear an enormous crop. One of the best green beans on the market today, and a dandy for home cooking, canning, and freezing. 3 oz. packet 15c; ½ lb. 40c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

TENDERGREEN

SEMINOLE the 1955

All-America Winner

124—(55 days). Seminole won the All America Medal in 1955, and also in government trials it proved extremely disease resistant. The vines are vigorous

CHEROKEE—All America Award Winner

PENCIL POD BLACK WAX

105—(51 days). One of the best of the early wax varieties. Round, slender, stringless, light yellow. Very tender and productive. A vigorous plant that will survive hot, dry summers. 3 oz. packet 15c; ½ lb. 45c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

GOLDEN "NO WILT"

123—(49 days). Improved Rust-proof Golden Wax type. Finest of its kind. Resists disease, and a sure grower. Pods are stringless, meaty, tender, and deliciously flavored. Vines are

vigorous and covered with pods for long period of season. 3 oz. packet 15c; ½ lb. 45c; 1 lb. 85c; 3 lbs. 2.10, postpaid.

Rust-Proof GOLDEN WAX

116—(50 days). Everybody likes this one. It is early and has a heavy flat pod. The vines grow erect, holding beans well off the ground. Never has string. Heavy yielder and hardy. Good quality. 3 oz. packet 15c; ½ lb. 45c; 1 lb. 72c; 3 lbs. 1.80, postpaid.

Rust Proof GOLDEN WAX

119—(50 days). A new early wax bean developed by the U. S. D. A. Without doubt, one of the very best. Hand-some, straight, 6-inch pods are completely stringless. Flesh is tender, crispy, and has an unbeatable flavor. Plants are highly productive and heat resistant. Black seeded. Does well everywhere. 3 oz. packet 20c; ½ lb. 48c; 1 lb. 75c; 3 lbs. 1.85, postpaid.

IMPROVED MISSOURI WONDER

KENTUCKY WONDER WAX

PURPLE POD

IMPROVED MISSOURI WONDER

133—(66 days). We got this one in Missouri and it is a dandy. Pods come on early, are crease backed and well filled. They are huge in size, light green in color, and have a fine "real bean" flavor. Makes a fine snap bean. 3 oz. packet 15c; ½ lb. 35c; 1 lb. 65c; 3 lbs. 1.65, postpaid.

KENTUCKY WONDER WAX

139—(67 days). Most popular of all wax pole beans. Beautiful large yellow pod, are oval shaped. Vigorous grower. Seed is chocolate brown color. Plant bears until

frost. There is none better for canning, and it is good for green shell beans too. 3 oz. packet 20c; ½ lb. 45c; 1 lb. 75c; 3 lbs. 1.90, postpaid.

PURPLE POD POLE BEAN

122—(65 days). This is not a new bean. Henry Field found it growing in some of the neighbors' gardens in the Ozarks. Evidently it was brought from Europe many years ago.

It grows like Kentucky Wonder. Climbs well, yields abundantly. Meat is thick, of excellent quality, and stringless. Pods are a beautiful reddish purple, but turn a light

green when cooked. They freeze well. You will know when they are properly blanched by the bright green color. One of our favorite varieties. You will like it too. 3 oz. packet 25c; ½ lb. 50c; 1 lb. 85c, postpaid.

KENTUCKY WONDER POLE BEAN

134—(65 days). Many claim this is finest of all pole beans. Without a doubt it is the most popular, and one of the most dependable. Early and highly productive. Pods are 7 to 9 inches long, round, wrinkled, crease backed, brittle, meaty, and of an extra fine flavor. Seeds are brown. 3 oz. packet 15c; ½ lb. 40c; 1 lb. 65c; 3 lbs. 1.65, postpaid.

POLE BEANS

KENTUCKY WONDER POLE BEAN

Make Money Growing POPCORN

Culture of popcorn is about the same as field corn. Plant after frost danger is past; first part of May is about right. Put about three or four kernels to the hill and space the hills about 15 in. apart, with width of rows 2 or 2½ ft. apart, depending on how you are going to tend it. If you plant by the acre you will need 5 to 6 pounds per acre.

Henry Field's

POPCORN

All popcorn listed on this page is hybrid. We've found that hybrids are so much better in all respects that we no longer grow the open pollinated kinds.

Henry Field's Hybrid POPCORN SEED

HYBRID WHITE HULLLESS

196—(100 days.) A new white rice hybrid. Much larger and better than the old-fashioned Jap type. Stands better, yields enormously, pops with tremendous volume. Moist tender and best tasting of all. Triple size pkt. (3 oz.) 20¢; ½ lb. 45¢; 1 lb. 75¢; 3 lbs. 2.10; 10 lbs. 6.50, ppd. 50 lbs. 26.00; 100 lbs. 50.00, f.o.b. Shenandoah.

IOPOP 8

192—(110 days.) The latest hybrid yellow popcorn; released by Iowa State College. Said to be their finest yellow hybrid. Vigorous grower, good yield and best of all the latest popping volume of any. The flavor is the very best anywhere. Be grown wherever yellow hybrids succeed. Triple size pkt. 15¢; ½ lb. 42¢; 1 lb. 75¢; 3 lbs. 1.80; 10 lbs. 4.80, postpaid. 50 lbs. 22.50; 100 lbs. 42.50, f.o.b. Shenandoah.

YELLOW HYBRID Y-10

195—(95 days.) A new hybrid originated in Minnesota. Earliest of all yellow hybrids. Pops

with big volume—unusually better than 30 to 35. Tender and tasty. Can be grown in So. Dak. and Minn. Triple size pkt. 20¢; ½ lb. 48¢; 1 lb. 78¢; 3 lbs. 1.95; 10 lbs. 4.40, postpaid. 50 lbs. 18.00; 100 lbs. 35.00, f.o.b. Shenandoah.

YELLOW HYBRID No. 400

194—(107 days.) Will mature in northern edge of corn belt. Has uniform ears. Yields are terrific. Pops up in large grains with tremendous volume. Fine flavor. Triple size pkt. 20¢; ½ lb. 45¢; 1 lb. 80¢; 3 lbs. 1.85; 10 lbs. 4.40, postpaid. 50 lbs. 20.00; 100 lbs. 38.00, f.o.b. Shenandoah.

YELLOW HYBRID N-104

197—(110 days.) A new hybrid developed by the University of Nebraska. It can be described as an improved P-32 type—a three-way cross with strong, sturdy stalks. Yields with the best of them, and with the best popping volume and unusually fine flavor. Medium size kernel. Pkt. 20¢; ½ lb. 45¢; 1 lb. 75¢; 3 lbs. 1.85; 10 lbs. 4.80. Please write for prices on larger quantities.

Yes, you folks in the Midwest can grow peanuts. Plant just like beans, in soft loose soil, after it gets thoroughly warm in the spring. This to a foot apart in the row and keep well watered. Note: Our peanuts are already shelled and ready to plant!

JUMBO PEANUTS EARLY NORTHERN

218—Great big kind, enormously productive. Plant them the same time you plant beans. Not as early as the Early Northern, but you are reasonably sure of a crop with this variety in most sections. Do best on light sandy soil. Dig in the fall before frost, and hang them under a shed or in any airy room to cure. Pkt. 20¢; ½ lb. 45¢; 1 lb. 80¢; 3 lbs. 1.85, ppd.

219—The early peanut for the Midwest. Will ripen anywhere in the corn belt. Nuts are small and of fine flavor. Contains a high percentage of oil. Pods usually contain two kernels with lots of them on the vine. Adhere well to the plant when digging. Baste some for hog feeding as well as plenty for the kiddie to roast during the winter. Pkt. 20¢; ½ lb. 45¢; 1 lb. 80¢; 3 lbs. 1.85, ppd.

Peppers do well on any soil except that which is too low and too wet. Give them plenty of room. Too low in the house or in the hot bed and from them on handle just as you would tomatoes. One ounce will make 1,500 plants. We offer both early and hot varieties. See Page 4 for Plants.

WORLD BEATER—The Thick-Fleshed One

641—(75 days.) Early, heavy, sure yielder. As good, if not better, than any of them. One of our heaviest sellers. Flesh thick, mild and sweet. Stands shipping well. Pkt. 15¢; ½ oz. 40¢; 20¢, postpaid.

CALIFORNIA WONDER

Mild and Sweet

648—Large, thick meat, unusual, cold. Fruit four-lobed and very uniform. Color bright red. Fruit 1½ to 4 inches in size. Beautiful in salad. Pkt. 15¢; ½ oz. 40¢, postpaid.

HUNGARIAN YELLOW

649—(83 days.) Grows a thrifty 18 to 22" plant; very compact. Foliage light green. Produces heavily. Fruits are about 1½ to 2 inches long, smooth wax yellow turning to crimson when ripe. Very sweet; excellent for canning. Pkt. 15¢; ½ oz. 50¢; 1 oz. 90¢, ppd.

LONG RED CAYENNE

The Hot Best Pepper

636—(70 days.) The leading and best hot one for canning, drying or pickling. Grows anywhere and bears with the best of them. Fruits 3 to 4 inches long. Pkt. 15¢; ½ oz. 45¢; 1 oz. 75¢, ppd.

EARLY SWEET

Red hot Mild

639—(73 days.) Flat, tomato-shaped pepper, 2½ to 3 in. in cross. Fruits are smooth, brilliant scarlet. Exceptionally mild and sweet. Pkt. 15¢; ½ oz. 48¢; 1 oz. 85¢, postpaid.

HYBRID SWEET CORN

What, When, and How to Plant

Hybrid sweet corn is a great improvement over old open pollinated corn. Our hybrids have uniform maturity, extremely high yields, and disease resistance. Plant almost as soon as you can get them into ground in spring. ½ lb. seed is enough for 100 hills. Use 10 to 12 lbs. per acre. Plant every 10 days 'til middle of July for corn all summer.

FOR CORN EAR WORMS: Use Henry Field's Bug Duster. Dust silk when 1 inch long and at 3- to 5-day intervals until corn is ready to eat.

Our Sweet Corn Now Specially Treated

All of our sweet corn seed is treated with a special seed treatment. This special treatment protects seed; stimulates growth of feeder roots; assures better, faster germination; and gives bigger yields. You get all this at no extra cost!

SPECIAL OFFER

Our 3 Best Hybrids

Below are three low priced special offers of the best sweet corn you've ever eaten. You get: **EARLY**—GOLDEN CROSS BANTAM, the earliest; **GOLDEN CROSS BANTAM**, standard main crop; **GIANT BANTAM HYBRID**, second early.

SPECIAL OFFER	SPECIAL OFFER	SPECIAL OFFER
160X	165X	170X
A 3 oz. pkt. of each of the above.	½ lb. of each of the above.	1 lb. of each of the above.
40¢ PPD.	98¢ PPD.	1.75 PPD.

HYBRID SWEET CORN MIX

173—A blend of 12½% each of Golden Beauty, Early Golden Bantam, Giant Bantam, Y-81, Golden Bantam, and Iochief—all Golden hybrids. Everything from first early (65 days) to main crop and late kinds (115 days). 3 oz. pkt. 15¢; ½ lb. 40¢; 1 lb. 70¢; 3 lbs. 1.60, ppd.

Best OPEN POLLINATED SWEET CORN COUNTRY GENTLEMAN

189—(93 days.) Long slender grains with ears right size for eating on the cob. Very tender, white and sweet. Heavy producer. Fine for canning. Triple size pkt. (3 oz.) 15¢; ½ lb. 38¢; 1 lb. 65¢; 3 lbs. 1.60, postpaid.

STOWELL'S EVERGREEN

188—(96 days.) Giant white corn. For canning and drying and roasting ears. Always has more corn on the cob than any other variety. Triple size pkt. (3 oz.) 15¢; ½ lb. 38¢; 1 lb. 65¢; 3 lbs. 1.60, postpaid.

GOLDEN BANTAM

177—(80 days.) The old reliable 8-row variety. Recognized as the standard yellow. Grows 4½ to 5 ft. tall, very productive, early, sweet, tender. A favorite. Triple size pkt. (3 oz.) 15¢; ½ lb. 38¢; 1 lb. 60¢; 3 lbs. 1.50, postpaid.

TRUCKER'S FAVORITE

187—(85 days.) Southern Sweet Corn. A good white garden corn, though actually not a sweet corn. Grows anywhere. Ears large—7 to 9 in. long. 12 to 16 rows of kernels. Triple size pkt. (3 oz.) 15¢; ½ lb. 35¢; 1 lb. 50¢; 3 lbs. 1.25, postpaid.

ORNAMENTAL CORN

170—We grow many different kinds in our trial grounds, and all the brightly colored ones go into this mixture. You'll get reds, blues, purples, yellows, brown, black, with most ears in mixed colors. Wonderful fall decorations for pots. (3 oz.) 15¢; ½ lb. 35¢; 1 lb. 50¢, postpaid.

GOLDEN BEAUTY

All America Silver Medal Winner

186—(68 days.) Finest of the early sweet corns. Exceptionally good in short season areas. Heavy yields, disease resistant. Wonderful quality. Grows anywhere. Ears 6½ to 7 in. long. 12 to 14 rows of rich, tender yellow kernels to the ear. An excellent variety for early market. Triple size pkt. (3 oz.) 20¢; ½ lb. 50¢; 1 lb. 90¢; 3 lbs. 2.10, postpaid.

IOCHIEF—An All America

185—(87 days.) A Gold Medal Winner. Has large, deep, golden yellow kernels that are sweet and tender. Ears 16 rows, as large as Golden Cross Bantam, but mature 2 days later and remain edible longer. Plants tall and sturdy. An excellent variety for freezing and canning. Triple size pkt. (3 oz.) 20¢; ½ lb. 45¢; 1 lb. 80¢; 3 lbs. 2.00, postpaid.

Y-81—Most Tender

180—(81 days.) We've tried most all sweet corns and this hybrid is about tops in every way. Extremely fine quality. Has distinct nutty flavor all its own. Stays in top eating condition over 10 days after harvest. Outstanding for freezing or canning. Best of all is vigorous grower, with withstanding midwest summers. A main crop variety. Triple size pkt. (3 oz.) 20¢; ½ lb. 45¢; 1 lb. 80¢; 3 lbs. 2.00, postpaid.

GIANT GIANT GOLDEN BANTAM HYBRID

176—(65 days.) Matures by the 4th of July. Early variety in our trials. Ten days earlier than the ordinary Golden Bantam. Grows short stalks. Plants so can be planted close. Stalks heavy, vigorous growers, stand up well. Ears 6 to 6½ in. long, rich yellow color, 2 ears to stalk. Kernels long and plump. 12 row variety. Triple size pkt. (3 oz.) 20¢; ½ lb. 40¢; 1 lb. 80¢; 3 lbs. 2.00, postpaid.

GIANT BANTAM HYBRID

175—(75 days.) A second early variety. Was developed especially for the market garden trade. About 4 days earlier than the Golden Bantam open pollinated. Runs almost 100 lbs. on 12 rows to an ear. Kernels long, uniform, resistant to smut and to root diseases. Fine flavor, a good canning variety. Triple size pkt. (3 oz.) 20¢; ½ lb. 44¢; 1 lb. 78¢; 3 lbs. 1.85, postpaid.

GOLDEN CROSS BANTAM HYBRID

171—(85 days.) The standard by which all Hybrid Sweet Corn is judged. A big Golden Bantam. Has 12 to 14 rows of kernels, quality exceptionally fine, noted for uniformity. Strong grower, resistant to smut. Ears 8 in. long. About 6 days later than regular long Golden Bantam. Best for freezing. Triple size pkt. (3 oz.) 20¢; ½ lb. 40¢; 1 lb. 75¢; 3 lbs. 1.85, postpaid.

HYBRID GOLDEN EVERGREEN

182—(90 days.) The biggest and best of all the Golden Hybrid Sweet Corn. Ears 8 in. long, 12 to 16 rows, big, deep kernels. Delicious sweet flavor and excellent quality. Stalks are 7½ to 8 ft. tall and have a strong root system. For years it has led in yields in our trial grounds. Triple size pkt. (3 oz.) 20¢; ½ lb. 40¢; 1 lb. 70¢; 3 lbs. 1.75, postpaid.

HYBRID STOWELL'S EVERGREEN

184—(97 days.) A deepkerneled hybrid. High quality and sturdy. One of the heaviest yielders. Stalks 7½ to 9 ft. tall; ears 14 to 18 rows, about 8 in. long. Outyields ordinary Stowell's Evergreen and better in quality. Unexcelled for canning. Commercial canners like it too. Triple size pkt. (3 oz.) 20¢; ½ lb. 45¢; 1 lb. 80¢; 3 lbs. 2.00, postpaid.

IOANA—Drooth-Resistant

176—(87 days.) An All America bronze medal winner, developed by In. State College. Resists drooth and wilt. Ideal for market gardening or canning. Marvelous for freezing. Deep yellow variety but not as dark as Golden Cross. Tall sturdy stalks with many leaves. Ears 8 in. long. 12 to 14 rows, medium kernels. Triple size pkt. (3 oz.) 18¢; ½ lb. 40¢; 1 lb. 70¢; 3 lbs. 1.75, ppd.

POPPING CORN

Much better than the old-fashioned kind. Guaranteed to pop better and to taste better. Too. A leadet of new popcorn recipes sent with each order.

190—Yellow Hybrid. (80 American type.) Big, creamy yellow flakes. 5 lbs. 1.35.

191—Hybrid White Hulless. (Small white kind.) Very tender, no hulls. 4 lbs. 1.35.

We pay postage to Iowa, Missouri, Nebraska and Kansas. If you do not live in one of those states, please add 5c a pound to help cover postage.

PEANUTS

PEPPERS

RUBY KING

One of Most Popular 645—(68 days.) A large, sweet, early pepper. Very popular with home and market gardeners. Fruit of 6 to 8 inches long, three-lobed, slightly tapered. Pkt. 15¢; ½ oz. 40¢; 1 oz. 70¢, postpaid.

READY TO EAT BY JULY 4th

CARROTS

Healthful, Delicious, Easy to Grow

Carrots grow almost anywhere. Sow some early in the spring for mid-summer use, and later on some more to put in the basement for winter. Cover seed $\frac{1}{2}$ in. deep in rows 18 to 24 in. apart. Thin to 2 to 4 in. between plants. One ounce of seed will sow 100 ft. row. Most commercial growers control weeds by spraying with dry cleaning solution. Write your state college about it.

GOLD-PAK

The All-America Carrot

634—(76 days). All-America Award Winner for 1956, a new one worth getting acquainted with. Has very short, strong tops so bunches easily. Grows about $1\frac{1}{2}$ inches in diameter and 8 or 9 inches long—slender, very smooth, and gently tapered. Most uniform carrot yet developed. The flesh is a rich deep orange color, sweet, tender, and coreless. Keeps top quality a long time without becoming overgrown or coarse. None better for table use, and freezes and cans well too. Recommended both for commercial and home gardening. Pkt. 25c; $\frac{1}{2}$ oz., 40c; 1 oz., 75c, postpaid.

SPECIAL CARROT OFFER

3 of Our Best Sellers
1 Pkt. Imperator
1 Pkt. Red Cored Chantenay
1 Pkt. Oxheart
250X—All for 24c, postpaid.

DANVERETTE

628—(74 days). A greatly improved strain of Danver's Half Long. Is smaller, remarkably uniform, free from side roots, and has a deep orange color. One of the best for freezing or canning. Ideal for home garden. Pkt. 15c; 1 oz., 60c; $\frac{1}{4}$ lb., 1.59, postpaid.

DANVER'S HALF LONG

627—(75 days). A half long sort; very heavy yielding and usually outweighs all others. Popular with both home and market gardeners. Wonderful for canning or storing. Excellent quality. Bright orange flesh. Crisp and flavorful. Pkt. 15c; 1 oz., 60c; $\frac{1}{4}$ lb., 1.45, ppd.

IMPERATOR

632—(75 days). Another All-America winner. Beautiful carrot with rich orange color both inside and out. Long and smooth with slightly sloping shoulders free of side roots. Almost cylindrical in shape. Small tops, excellent table quality and very attractive. Ideal for bunching. Pkt. 15c; 1 oz., 55c; $\frac{1}{4}$ lb., 1.65, postpaid.

OXHEART

GIANT SHORT VARIETY

629—(74 days). Heaviest yielder of table carrots. Short, broad, heart-shaped carrots, about 5 inches long. Best variety for growing on heavy soil. Easy to harvest. Fine quality. Pkt. 12c; 1 oz., 48c; $\frac{1}{4}$ lb. 1.48, postpaid.

STOCK CARROTS

631—(82 days). Large White Mastodon. Finest of the feeding carrots. Roots large and thick; ideal for poultry or livestock. Use 4 pounds of seed to acre. 1 oz. 30c; $\frac{1}{4}$ lb. 75c; 1 lb. 1.80, postpaid.

CHANTENAY

633—RED CORED CHANTENAY (70 days). Tender, crisp and sweet. Orange-scarlet all the way through. Grows 6' long and $2\frac{1}{2}$ " thick at shoulder. Blunt ended, smooth, free from side roots. Excellent for storing or canning. Good shipper. May be grown as spring, summer or fall crop. Pkt. 15c; 1 oz. 50c; $\frac{1}{4}$ lb. 1.50, ppd.

626—STANDARD CHANTENAY (70 days). Highly recommended for winter storage. Good color and fine flavor. Exceptionally smooth. Pkt. 18c; 1 oz. 45c; $\frac{1}{4}$ lb. 1.25, ppd.

LARGE CHEESE

JUMBO

SMALL SUGAR

JACK O'LANTERN

PRIZE PUMPKIN MIXTURE

770—From the smallest to the largest. Made up of 20% each of Red Sugar, Jack O'Lantern, Large Cheese, Cargold and Jumbo. You'll get a lot of pumpkins from this one packet of seed. Large packet, 15¢; 1 oz. 25¢; ¼ lb. 75¢; 1 lb. 1.40, ppd.

PUMPKINS

**Fun to Grow—
Delicious to Eat**

783—LARGE CHEESE or BUFF PIE (110 days). A fine cream-colored, sweet, pumpkin. Very flat in shape, slightly grooved, with hard shell. Rich yellow, thick flesh of fine flavor. For stock or table use. Pkt. 15¢; 1 oz. 30¢; ¼ lb. 65¢; 1 lb. 1.60, ppd.

786—SMALL or RED SUGAR (118 days). One of the best for pies. If you don't grow any other variety, plant a few of these. You will appreciate the quality, smoothness and sweetness. Orange-yellow inside and out. Prolific yielder. Doesn't grow very large—about 7 to 9" in diameter. Pkt. 15¢; 1 oz. 25¢; ¼ lb. 75¢; 1 lb. 1.40, ppd.

789—JUMBO (120 days). This is the "King of the Mammoth." If you want an extra big one to take to the fair, here it is. Often weighs more

than 100 pounds. A heavy yielder—4 or 5 pumpkins per vine not unusual. The flesh is a little coarse but extra fine for stock feed. Pkt. 15¢; 1 oz. 40¢; ¼ lb. 88¢; 1 lb. 1.95, postpaid.

782—CANGOLD (110 days). This is a new one from Iowa State College. Its outstanding feature is its thick, fine-quality flesh. Medium size, oblong shape, rather tan in color. Short vine, so can be planted in space 3 by 6 feet. Dandy variety for pies. Pkt. 15¢; 1 oz. 35¢; ¼ lb. 1.00, ppd.

784—JACK O'LANTERN (120 days). The Jack-o'-lantern pumpkin. Just the right size, shape and color for making good Jack-o'-lans— the result of years of selection of the Yankee Field type. Deep orange color; stays about 12" x 14". It also is very good for pies. Pkt. 15¢; 1 oz. 40¢; ¼ lb. 1.00, postpaid.

Squash like rich loose soil and plenty of room—at least 10 to 15 feet apart. Use plenty of seed. Plant after soil is well warmed up. Bugs sometimes play havoc with seedlings, but not if you use Henry Field's Bug Dust (see page 41). For large-seeded squash, figure about 25 hills to the ounce of seed; for the small-seeded ones, about 50 hills to the ounce.

WINTER SQUASH
739—STRIPED CUSHAW (115 days). A large crookneck pumpkin (though looks, cooks and tastes like squash) of fine quality. Very fine grained. The neck is the edible part. Pkt. 10¢; 1 oz. 25¢; ¼ lb. 70¢; 1 lb. 1.75, postpaid.

745—GENUINE HUBBARD (110 days). One of the finest for Thanksgiving time; in fact, all winter. Often keeps until late spring. Large, warty, dark green. Hard shelled. Deep orange-yellow flesh. Pkt. 15¢; 1 oz. 25¢; ¼ lb. 70¢; 1 lb. 1.75, postpaid.

736—BANANA SQUASH or BLUE BANANA (115 days). Good all-purpose squash. Stands squash bugs and pests better than other kinds. Color is bluish slate gray. The flesh is light, orange. Pkt. 15¢; 1 oz. 30¢; ¼ lb. 75¢; 1 lb. 1.85, postpaid.

733—BUTTERNUT SQUASH (80 days). Fruits 10 to 12 inches long, bottle-shaped, dark tan color, hard shell. Wonderful for pies, boiled or

baked. Flesh is thick, dry, of fine texture, deep orange in color, and very fine flavored. Pkt. 15¢; 1 oz. 30¢; ¼ lb. 1.50, postpaid.

752—DES MOINES TABLE QUEEN (80 days). The Winner Squash. Sometimes called Acorn. If you like squash pie, use this variety. Also fine for baking. Just right size to serve two. About 6" long, shell is thin, hard, dark green. Flesh yellow and tender. Pkt. 15¢; 1 oz. 30¢; ¼ lb. 80¢; 1 lb. 1.85, postpaid.

742—BABY BLUE SQUASH. Originated by the New Hampshire University. A cross between Blue Hubbard and Bush Butternut. Has the Blue Hubbard color and the Butternut quality. Flesh is thick, dry, deep yellow, with high sugar content and rich flavor. Attractive in appearance. Fruits are small, 3 to 5 lb. The plant is semi-bush. Ideal for the home garden. Edible in all stages of growth from the newly set fruits to maturity. Pkt. 15¢; 1 oz. 50¢; ¼ lb. 1.25, postpaid.

TURNIPS

The Best Varieties

Plant some of the early ones in the spring, just as soon as you can work the ground. The main crop turnips are best sown in the latter part of July. One ounce of seed will drill 150-foot row. Use 2 to 3 lbs. seed to the acre.

807—PURPLE TOP GLOBE. (55 days). The leading turnip. Yields heavy crops of large, round, purple top turnips. Very tender, crisp and sweet. Flesh pure white. Stores well for winter use. Unusually good. Pkt. 12¢; 1 oz. 22¢; ¼ lb. 44¢; 1 lb. 1.00, postpaid.

803—EXTRA EARLY WILAN (40 days). One of the earliest turnips. Fine for home or market. The roots are flat, white with purple top. Flesh pure white, very fine grained, sweet and tender. Pkt. 12¢; 1 oz. 20¢; ¼ lb. 45¢; 1 lb. 1.30, ppd.

806—PURPLE TOP STRAP LEAF (46 days). Very similar to Purple Top Globe except is flatter in shape. One of the finest garden sorts for either spring or fall planting. Pkt. 12¢; 1 oz. 15¢; ¼ lb. 35¢; 1 lb. 95¢, postpaid.

805—RUTABAGA MAMMOTH TOP (90 days). Has large, smooth, cabbage-like leaves. The root is large, globe-shaped, with a small yellow crown and a purple top. The flesh is tender and crisp. Grown extensively in the northern sections. Pkt. 12¢; 1 oz. 20¢; ¼ lb. 45¢; 1 lb. 1.35, postpaid.

810—POULTRY BEETS. You who have fed mangels to poultry know their value as a winter feed to take the place of green stuff to keep the hens on production. This is a mixture of all kinds. Makes real feed.

812—SUGAR BEET (Klein Wanzleben) (90 days). Large, smooth, white, wedge-shaped root rich in sugar content. It grows mostly below the surface of the soil. Roots not quite so large as the mangel.

819—MAMMOTH LONG RED MANGEL. The largest and most productive of all. Often called "Gate Post" because of its size. Usually reaches 24 to 30 inches in length, with individual weight from 25 to 35 lbs. Easily harvested as the root grows half out of the ground.

RUTABAGAS

Good Keepers—Firm Flesh

805—RUTABAGA MAMMOTH TOP (90 days). Has large, smooth, cabbage-like leaves. The root is large, globe-shaped, with a small yellow crown and a purple top. The flesh is tender and crisp. Grown extensively in the northern sections. Pkt. 12¢; 1 oz. 20¢; ¼ lb. 45¢; 1 lb. 1.35, postpaid.

STOCK BEETS

Nutritious, inexpensive livestock and poultry feed. Make 15 to 20 tons of beets to the acre. Sow seed in April and May in rows 2½ to 3 feet apart, at rate of 10 or 12 lbs. per acre. Mature in 90 to 120 days. Harvest before severe frost and store in pits or cellar. Prices on all varieties below: Oz. 24¢; ¼ lb. 73¢; 1 lb. 1.90; 5 lbs. 9.00.

819—MAMMOTH LONG RED MANGEL. The largest and most productive of all. Often called "Gate Post" because of its size. Usually reaches 24 to 30 inches in length, with individual weight from 25 to 35 lbs. Easily harvested as the root grows half out of the ground.

OKRA

236—PERKINS MAMMOTH (55 days). Plants grow 3 to 4 feet tall and very prolific. Pods are pointed, dark green, slender and slightly ribbed. Best if used when young and tender. Use in soups, stews and relishes. Sow seed in open ground when soil warms up. Pkt. 15¢; 1 oz. 25¢, postpaid.

223—VINING OKRA. Here's something new and different. We hope you will try it. It grows on a vine and produces many pods of fine flavor. Prepare and use like regular okra. Pkt. 15¢, postpaid.

Henry Field's BEET

Lots of time has been spent to get you only the finest kind of beets. On some of the varieties we have even sent to Europe for the seed. We like beets of uniform shape and color, with small tops, small tap root, free from the straggly side roots. One ounce of seed will grow a 100-foot row. Plant as soon as you can get in the ground in the spring and make several sowings throughout the season.

SPECIAL BEET OFFER
A real bargain!
1 Pkt. Improved Detroit Dark Red
1 Pkt. Gate Post
1 Pkt. Early Wonder
200X
All 3 Only 33¢ postpaid

MUSHROOM SPAWN

241—Grow your own delicious mushrooms. Easy and inexpensive to do. Easy to grow in cellars, caves, barns or outbuildings. Full cultural directions with every order. One package plants 10 to 12 sq. ft. Package, 45¢; 3 packages, 1.25, postpaid.

SALSIFF (Vegetable Oyster)

205—MAMMOTH SANDWICH ISLAND. One of the best vegetables for soup. Also delicious baked or creamed. Has flavor like oysters. Flesh is white, tender and sweet. Plant early in spring, cultivate, harvest and store like parsnips, or may be left in ground until spring. Pkt. 15¢; 1 oz. 48¢; ¼ lb. 1.20, postpaid.

PARSNIPS
Sow the seed early as it starts slowly. We always sow radish seed with it as radishes come up early and mark the rows so cultivation can be started. Leave parsnips in the ground over the next winter. One ounce sows 200 feet of row.

EGGPLANT

657—HYBRID MISION BLON (70 days). Unusually good quality. Vigorous upright grower. Earlier, more uniform, and yields better than ordinary kinds. For home garden or market. Pkt. 35¢, postpaid.

656—BLACK BEAUTY (83 days). Grows 5 to 6" "vase" to plant, each about size of a quart can. Color rich, purple-black. Flavor unusually fine. Pkt. 20¢; 1 oz. 45¢; 1 lb. 75¢, postpaid.

653—(95 days). Finest of all parsnips. Has white skin; flesh is fine grained, tender, sweet. Roots are slender, smooth, medium-long, and broad shouldered. Pkt. 15¢; 1 oz. 25¢; ¼ lb. 69¢; 1 lb. 1.95, postpaid.

ALL-AMERICAN

RADISHES

Everyone who has a patch of ground as big as a table top should raise his own radishes. Plant 4 or 5 different kinds. One packet of seed will plant a row 25 feet long, 1 ounce, 100 feet. When you figure how many bunches you get from a 100-foot row, you see what a money maker it is. Make successive plantings.

SPECIAL RADISH OFFER

3 of the Most Popular

1 Pkt. Early Scarlet Globe } All 3 for
1 Pkt. White Icicle } 25c, ppd.
1 Pkt. Scarlet White Tip } No. 400X

CHERRY BELLE An All-America Winner
441—(24 days). A new round, red, smooth radish from Holland. The flesh is white, crisp, solid, sweet and mild. Its earliness, extreme uniformity and high quality make it a popular market and garden variety. Packet 15c; 1 oz. 25c; ¼ lb. 65c; 1 lb. 1.60, postpaid.

LONG WHITE ICICLE Crisp, Sweet
448—(27 days). Most popular and earliest long white radish. Flesh is white clear to the top, and is crisp, juicy, mild, and sweet. One of the most tasty ones. Tops are small. It grows quickly and doesn't get pithy. Pkt. 15c; 1 oz. 25c; ¼ lb. 60c; 1 lb. 1.50, postpaid.

CHAMPION New All-America
445—(28 days). All-America Award Winner for 1957. Grows as large as a silver dollar and still does not get pithy. Stands real early planting. Glowing scarlet color with crisp white flesh. Fine quality. Will be favorite in the home garden. Can be forced in the greenhouse. We think it is tops in every way. Pkt. 25c; 1 oz. 75c, ppd.

FRENCH BREAKFAST It's 2-colored
442—(25 days). A brilliant scarlet, with a white bottom. Oblong in shape. Flesh is crisp, juicy, mild and sweet. A quick grower. Popular with both home and market gardeners. If you've never tried French Breakfast, do so this year. Pkt. 15c; 1 oz. 30c; ¼ lb. 75c; 1 lb. 1.85, postpaid.

CRIMSON GIANT Large but Crisp
437—(28 days). Noted for getting large without getting pithy. Gets almost twice as large as most radishes. Flesh is a snowy white, and the color an attractive deep crimson. A vigorous, quick grower; one of the best for the home garden. Pkt. 15c; 1 oz. 25c; ¼ lb. 65c; 1 lb. 1.60, ppd.

SCARLET WHITE TIP Earliest 2-color
444—(25 days). A bright scarlet red with contrasting white tip. Early, round, attractive. Does not get hollow or pithy. Its sweet, crispy flesh stays fresh and crisp a long time after maturing. Pkt. 15c; 1 oz. 28c; ¼ lb. 70c; 1 lb. 1.75, postpaid.

TENDERSWEET the Sweetest

439—(24 days). Here's a radish improved for its taste—not its size. It is early, round and red, like a ball. And there has been bred into this new strain all the tender crispness a radish could have and still be deliciously sweet. Ready in 3 to 4 weeks. Pkt. 15c; 1 oz. 30c; ¼ lb. 90c, postpaid.

LONG SCARLET the Red Icicle
451—(26 days). The short top kind. Standard sort for home gardeners and truckers too. Smooth and uniform. Five to six inches long, crisp white flesh. Pkt. 15c; 1 oz. 25c; ¼ lb. 75c; 1 lb. 1.85, ppd.

EARLY SCARLET GLOBE

Earliest Red

440—(22 days). On good soil, ready to eat in 3 to 4 weeks. Grows crisp and sweet, round as a ball, bright scarlet in color. For home gardeners and commercial growers. Pkt. 10c; 1 oz. 25c; ¼ lb. 60c; 1 lb. 1.50, ppd.

HAILSTONE

Sweet, Round, White

450—(28 days). This is a re-selected strain of the early globe radish that is very good. Crisp, sweet, tender. Larger than most round radishes. Pkt. 15c; 1 oz. 25c; ¼ lb. 80c; 1 lb. 1.80, ppd.

SPECIAL RADISH MIXTURE

453—Start pulling radishes early, and use different kinds all season long as they are ready. Mixture contain 20% each of Early Scarlet Globe, French Breakfast, Icicle, Crimson Giant and Long Scarlet. Large pkt. 15c; 1 oz. 25c; ¼ lb. 65c; 1 lb. 1.60, ppd.

TWO FALL RADISHES

White Mammoth Big and White

456—(58 days). 7 to 9" long. Solid white flesh. Sow middle summer. Pkt. 15c; 1 oz. 25c; ¼ lb. 60c; 1 lb. 1.50, ppd.

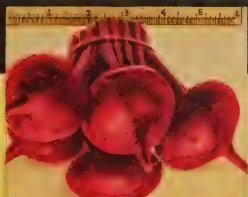

Chinese Rose WINTER

454—(50 days). For storage. Most popular winter variety. 5 to 6" long. Crisp white flesh. Pkt. 15c; 1 oz. 25c; ¼ lb. 65c; 1 lb. 1.60, ppd.

SEED

DARK RED CANNER

606—GOOD FOR ALL (59 days). Exceptionally fine for pickles. Small and globe-shaped. Very uniform. Quality excellent; tender and fine-grained. Color is rich, dark red; doesn't fade or wash out during cooking or pickling. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.10, ppd.

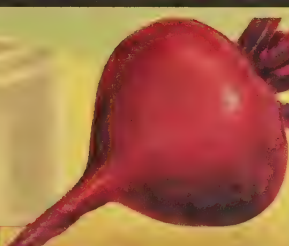

DETROIT DARK RED—an Improved Variety

604—(58 days). There are no white streaks or rings in this one. It is a deep, rich red, inside and out. Tender, fine-grained and sweet. Globe-shaped. Has small tap roots. Excellent for home gardener for freezing and canning. Also a good one for market gardeners. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.10, postpaid.

EARLY WONDER—Market Gardener's Favorite

607—(52 days). Very early, tender and small. Flat globe shape; small collar and tap roots; good color. A favorite with market gardeners. Many home gardeners use it too, particularly for fall planting. Also good for winter use and bunching. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.10, ppd.

PERFECTED DETROIT DARK RED

An All-America Winner

602—(58 days). This is a re-selected strain of the Detroit Dark Red. In our own trial grounds, it has made the best showing of any for color, shape, and uniformity. In fact, we don't know how it can be improved.

Medium in size, and runs as regular and uniform as you could wish. Its color is a rich, deep dark red with absolutely no white rings or streaks. No side roots either. Fine quality, sweet, tender flesh. Packet 15c; 1 oz. 45c; ¼ lb. 1.15, postpaid.

RUBY QUEEN

The 1950 All America Winner

608—(53 days). The finest home garden beet. Very uniform in shape and maturity. The tops are medium to short, about ten inches tall. Leaves are dark green, slightly wrinkled. Beets are round, very smooth, good clear skin, small tap root. Has exceptionally dark red interior coloring and fine flavor. Packet, 25c; 1 oz. 65c; ¼ lb. 1.50, postpaid.

Ornamental GOURDS

This is a good hobby; lots of fun. Make pitchers, dippers, birdhouses, centerpieces, pipe bowls, cups, vases, lamps, animals, etc. They make fine decorations, painted or unpainted.

1106—SMALL-FRUITED MIXTURE. There is no end of kinds, colors, and varieties in this mixture. Pkt. 15c, postpaid.

1105—LARGE-FRUITED MIXTURE. A dozen or more of the finest large varieties. Pkt. 15c, postpaid.

HERBS

245—DILL. An annual. This is the favorite for making dill pickles. Also good flavoring for soups and sauce. Easy to grow—does well everywhere. Pkt. 15c; 1 oz. 35c, pdd.

246—SAGE. Perennial. For seasoning meats and for medicinal purposes. Pkt. 15c, pdd.

251—SWEET MARJORAM. (70 days). Annual. For seasoning soups, stews, sausage, etc. Pkt. 20c, pdd.

252—THYME (85 days). Perennial. 6 to 12 inches. Aromatic foliage. Good for seasoning. Pkt. 20c, pdd.

224—BORAGE (80 days). Annual. 1½ ft. Young leaves used for salad and in lemonade and other cooling drinks. Pkt. 15c, pdd.

For seasoning, flavoring, medicine, fragrance

250—SWEET BASIL (85 days). Annual. 1½ to 2 ft. Seasoning for soups, stews, omelets, salads, etc. Pkt. 15c, pdd.

249—ROSEMARY (78 days). Leaves for seasoning. Also used for medicine. Pkt. 15c, pdd.

255—CARAWAY. (70 days). Biennial. 1½ to 2 ft. Seeds are used to flavor bread, cakes, pastries, confections, cheese, sauce, etc. Young leaves and shoots for flavoring salads. Pkt. 15c, pdd.

235—LAVENDER (60 days). Sweet scented. Place dried flowers in linen for fragrance. Pkt. 20c, pdd.

KITCHEN GARDEN HERB COLLECTION

MUSTARD

213—CHINESE CURLED. Wonderful tasty greens. Pkt. 15c; 1 oz. 25c, postpaid.

214—TENDERGREEN. A quick grower. Large, broad, thick leaves. Resistant to cold and heat. Heavy yielder. Pkt. 15c; 1 oz. 25c; ¼ lb. 65c, pdd.

CELERIAC

244—(120 days). Turnip-rooted celery. Used for celery-like flavoring in soups and salads. Pkt. 15c; ½ oz. 35c; 1 oz. 50c, postpaid.

MANMOTH SUNFLOWER

239—(80 days). For chicken feed. You can also parch sunflower seed—its delicious. Pkt. 10c; 1 oz. 15c; ½ lb. 35c; 1 lb. 65c, pdd.

Curled Garden Cress

243—Pepper Grass (40 days). Has agreeable peppery taste. Excellent for garnishing and in salads. Best if used young. Easy to grow; hardy. Pkt. 15c; ½ oz. 35c, pdd.

NEW GUINEA BEAN

222—Climbing vines get 20 to 30 feet long. Pods 15 to 18" long, weighing 15 pounds! Fry like eggplant. Pkt. 15c; 1 oz. 30c; ¼ lb. 85c, postpaid.

CHIVES

211—(Schittlauch). A perennial of the onion family used for seasoning soups, salads, and stews. Easy to start. Grows for years. Pkt. 15c, postpaid.

KALE

232—(Half Dwarf) (110 days). Hardest of all winter greens. A beautiful curled sort. Pkt. 15c; 1 oz. 35c, postpaid.

GARDEN HUCKLEBERRY

233—For delicious pies, preserves, jams. Care for like tomatoes. Pkt. 15c, postpaid.

CITRON

227—(95 days). Good for pickles and preserves. Will not harm regular melons if planted beside them. Pkt. 15c; 1 oz. 35c, postpaid.

TOBACCO

238—White Burley. A fine standard, all-purpose variety. Does well almost everywhere. Pkt. 15c; 1 oz. 50c, postpaid.

MUSKMELONS

Plant seed after ground is warm. Figure about three dozen hills from one packet of seed or 100 hills from an ounce. Give plenty of room, at least 6 to 8 feet each way.

339—SUPER-MARKET HYBRID (82 days). This is a new genuine F1 first generation hybrid. Fruits are 7 inches long, 6 inches wide, and weigh 4 to 5 pounds. This flesh is a deep orange in color, thick, firm yet juicy, and has a most delicious flavor. It's a fast, rugged grow-

er and has lots of disease resistance. Pkt. of 40 seeds for 65c; 2 packets, 1.25; ¼ oz. 2.25, postpaid.

335—FAR NORTH (72 days). Earliest to bear. Does well everywhere, but especially fine for northern areas. Developed in Canada, 4 to 5" melons. Small vines. Flesh is salmon colored, sweet and juicy. Pkt. 20c; 1 oz. 60c; ¼ lb. 1.35, pdd.

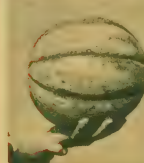

327—GOLDEN HONEY (73 days). This is the finest of the

disease-resistant kinds. A new, extremely early, mildew-resistant melon of the early Hale's type. Very solid, heavily netted. Quality is outstanding. Ships well. Vigorous vines; a big yielder. Pkt. 20c; 1 oz. 50c; ¼ lb. 1.25; 1 lb. 3.00, pdd.

333—PENNSWEET. This is a new All-America selection. Originated by the Penn. Horticultural Dept. Very early. Ideal for short season areas. Fruit is small—1½ to 2 lbs. A tremendous yielder. Quality very high. Fresh salmon to orange colored; thick; practically no seed cavity. Sweet; sugar content 11% to 15%. Especially fine for home gardens. Pkt. 25c; 1 oz. 75c, postpaid.

MUSKMELON SPECIAL

350X—1 packet each of Heart of Gold, Hale's Best and Standard Rocky Ford—three fine melons for 35c, postpaid.

Field's Giant Muskmelon

Often Grows to 14 lbs.!

329—(97 days). A truly outstanding muskmelon that is a favorite of so many of our customers. One of the very largest grown, yet it is sweet and of good flavor. It is a selection from the old-fashioned perfection, having deep orange flesh. Packet, 20c; 1 oz. 50c; ¼ lb. 1.25, postpaid.

WATERMELONS

Melons like warm, loose soil. Give them plenty of room—at least ten feet each way. Figure about an ounce of seed for 50 hills, or 3 pounds to the acre. Our seed comes only from melons grown especially for seed.

GOLDEN HONEY

702—(90 days). This is the best yellow-fleshed watermelon. It grows large and oblong shaped, and weighs around 20 pounds. The rind is dark green, with irregular stripes. Flesh is tender, crisp, delightfully flavored,

bright yellow. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.20; 1 lb. 2.95, postpaid.

GARRISON

707—(88 days). This is an improved "rattle-snake" type, and probably the sweetest, most flavorome of all. It grows long, with blunt ends. Flesh is bright red, firm, and of fine texture. Melons weigh 35 to 40 pounds. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.20; 1 lb. 3.00, postpaid.

CHARLESTON GRAY

705—Developed by South Carolina Vegetable Breeding Lab-

oratory. One of the finest of all watermelons. Resistant to both fusarium wilt and anthracnose. Uniform in shape, being long with light green net pattern. Flesh is deep red with unsurpassed eating quality. Very productive; no hollow heart; resists sunburn. Pkt. 20c; 1 oz. 50c; ¼ lb. 1.50; 1 lb. 4.00, postpaid.

STATE FAIR

701—(90 days). Largest of all melons. We used to take some of these around to the State Fairs and challenge anyone to raise bigger ones. They mature nicely here in the midwest. Melons often weigh 100 pounds or more! Its bright red flesh is deliciously flavored. Pkt. 15c; 1 oz. 40c, postpaid.

DIXIE QUEEN

722—(80 days). A good shipper, and a fine melon for the home garden too. Produces an unbelievable number of melons. Flesh is red, sweet, crisp and tender. Has fewer seeds than most varieties. Thin rind too. Pkt. 20c; 1 oz. 40c; ¼ lb. 1.10; 1 lb. 2.50, postpaid.

Delicious MIDGET WATERMELON

Easier to Store—Easier to Serve

711—This is an improved ice-box style melon. Fruit gets only 7 to 8 inches long—just right for individual serving, and easy to store in the refrigerator. Flesh is delicious, sweet, rich red, of fine quality, and very crisp. Rind is very thin. An outstanding melon every home gardener should grow. Pkt. 20c; 1 oz. 50c; ¼ lb. 1.30, postpaid.

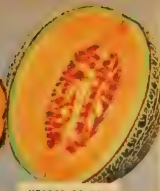

ROCKY FORD

GREELEY WONDER

GOLDEN DELIGHT

HEARTS OF GOLD

328—HALE'S BEST (80 days). A carefully selected strain of Hale's Best that won't take mildew. Melons slightly oblong. Small seed cavity. Flesh is sweet, thick and deep orange color. Pkt. 15c; 1 oz. 42c; ¼ lb. 90c; 1 lb. 2.25, postpaid.

344—ROCKY FORD (84 days). This is the "grand daddy" of all the green-fleshed kind. A selected early strain which you'll like. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.05; 1 lb. 2.50, postpaid.

334—GREELEY WONDER (80 days). One of the largest. Has exceptionally fine quality and good, sweet flavor. If you want something extra big to take to the Fair, here it is; grows almost as large as Field's Giant. Pkt. 20c;

1 oz. 45c; ¼ lb. 1.00; 1 lb. 2.50, postpaid.

338—GOLDEN DELIGHT (90 days). An All-America award winner. For home garden or market. Has thick orange flesh, extra good quality with spicy flavor. Inclined to be oval shaped. Has wide, shallow ribs with open netting. Pkt. 20c; 1 oz. 46c; ¼ lb. 1.00; 1 lb. 2.50, postpaid.

345—HEARTS OF GOLD (95 days). This is the sweet table melon. Medium sized, round, and well netted. Flesh is orange colored, sweet and extra delicious. A heavy cropper. Excellent for shipping. A very popular melon. Pkt. 20c; 1 oz. 45c; ¼ lb. 1.05; 1 lb. 2.60, postpaid.

MIXED MUSKMELONS

331—Made up of equal parts of Rocky Ford, Far North, Golden Honey, Banana, Hearts of Gold, Hale's Best, Greeley Wonder, and Field's Daisy. Large packet 15c; 1 oz. 40c; ¼ lb. 1.00, postpaid.

BANANA MELON

326—(96 days). Fun to grow because fruit looks like a huge banana. And it has delicious banana-like flavor. One of the oldest varieties we grow, and one of most popular. Children love it. Pkt. 15c; 1 oz. 50c; ¼ lb. 1.20; 1 lb. 2.35, postpaid.

MELON PATCH COLLECTION

355X—If you want to plant both Watermelons and Muskmelons, but don't want too much seed, buy this. One 1-ounce packet of mixed watermelon seed and one 1-ounce packet of mixed muskmelon seed—both for 35c, ppd.

The Famous FIELD'S DAISY MELON

The Best "All Around" Melon

332—(76 days). We don't think you will ever find a sweeter, better, all-around muskmelon than this. We introduced it years ago, and have been working on it ever since, making a careful selection of seed each season. It is easy to grow and a prolific bearer. Medium in size, round, perfect in quality. Thick, smooth, deep orange flesh. Always makes customers come back for more year after year. Be sure to try it this year. We know you will like it. Melons are too tender for shipping but ideal for home garden. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.00; 1 lb. 2.50, postpaid.

DIXIE QUEEN

BLACK DIAMOND

KLECKLEY SWEET

FOURTH OF JULY

CONGO

704—(88 days). Won a Bronze Medal at the 1950 All-America trials. Developed by the United States Department of Agriculture. Resists anthracnose and wilt. A long melon with deep red, sugar-sweet flesh (9.4% sugar by actual tests). Rind is tough. Ideal for market gardeners. Pkt. 15c; 1 oz. 35c; ¼ lb. 90c; 1 lb. 2.25, postpaid.

BLACK DIAMOND

717—(90 days). This is the popular market melon—the big, round, dark green one you see so often in the stores. May be a little late for northern states, but a dandy from Iowa south. Flesh is crisp, very flavorful and sweet. Pkt. 15c; 1 oz. 40c; ¼ lb. 90c; 1 lb. 2.50, postpaid.

KANSAS SWEET

716—(85 days). A new big, round melon that looks like the old Kolb Gem. Has thin rind, light green with broad, dark green, irregular stripes. The flesh is solid, red, and very sweet. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.10; 1 lb. 2.35, postpaid.

KLECKLEY SWEET No. 6

706—(90 days). Originated by Iowa State College. Has all the good qualities of Kleckley, plus resistance to wilt, and similar diseases. Flesh is bright red, tender, and extremely sweet. Doesn't grow bottle-necked. Stands handling and shipping well. Pkt. 15c; 1 oz. 35c; ¼ lb. 85c; 1 lb. 2.15, postpaid.

FIELD'S FOURTH OF JULY

708—(70 days). Twenty thousand of our customers swear by this melon year after year. It is one of the earliest grown. Average weight 8 to 10 pounds. Rind deep green, marked with lighter stripes, and exceptionally thin (not over ¼ inch). Flesh is dark red, tender, fine grained, unusually sweet and rich. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.20; 1 lb. 3.00, postpaid.

HYBRID "DIXIE QUEEN"

726—Probably the sweetest, firmest, most delicious melon you have ever eaten! The fruits are uniform in shape, usually weigh from 35 to 50 pounds. Flesh is rich red, crisp, sugar-sweet and of excellent quality. It withstands dry weather and stays in eating condition longer than the ordinary Dixie Queen. Ripens in mid-August. You certainly should try this one. Packet (30 seeds) 35c; ¼ oz. 60c; 1 oz. 1.75, postpaid.

Henry Field's Famous SUGAR LUMPS

Sweet as Sugar

We call them "Sugar Lumps" because they are the sweetest ever, with flesh of excellent quality and flavor (not stringy). The rind is very thin. Matures early too, some by June 30. All varieties ripe by July 10, and bear over long period of time.

Small Size

They get only 8 to 9 inches in diameter, so fit into the refrigerator without cutting. No left-overs to get tough either.

MIXED SUGAR LUMPS

719—All three colors in a mixture. Packet 15c; 1 oz. 35c; ¼ lb. 95c, postpaid.

Buy by Color

724—YELLOW SUGAR LUMP. Golden yellow.

725—WHITE SUGAR LUMP. If you've never tasted a white-fleshed melon, here's a treat for you.

721—RED SUGAR LUMP. Rich, red, firm flesh.

INDIVIDUAL PRICES: packet 20c; 1 oz. 50c; ¼ lb. 1.25 postpaid.

500X—1 packet each of all 3 colors for 39c, postpaid.

The New "ICE BOX" SIZE

713—(75 days). The newest in "ice-box" size melons. Grows 6 to 8" in diameter, and weighs 8 to 10 pounds. The rind is quite hard. Outside coloring is a greenish-black with a few faint stripes. Flesh is a deep dark red, unusually fine flavored, and very attractive when cut. The seeds are dark brown and about the size of apple seeds. Pkt. 15c; 1 oz. 50c; ¼ lb. 1.50, postpaid.

Novel SEEDLESS WATERMELON

It's Easier to Eat

727—Yes, it's true—we have an honest-to-goodness Seedless Watermelon. It has no seeds excepting a few soft, undeveloped ones, about like those of cucumbers, that you eat without noticing. Seedsmen have finally discovered the way to produce seedless melons. One of the parent plants is treated with a special chemical which unsets structure. The treated plant is crossed with a normal plant and the offspring is seedless.

The size is small—3 to 10" in diameter, round, with deep red flesh that is sweet and delicious. Average weight is 12 pounds. Pkt. of 10 seeds, 60c, postpaid.

BOYS and GIRLS!

HERE'S AN EASY WAY TO WIN CASH OR VALUABLE PRIZES!

YOU NEED NO MONEY TO GET STARTED

Join the Thousands Who Sell Henry Field's Garden Seed to Friends and Neighbors

LAST YEAR WE GAVE \$10,000 IN CASH AND PREMIUMS TO BOYS AND GIRLS FOR SELLING OUR SEED

Every year thousands of boys and girls win cash and prizes by helping us sell seeds. For every 12 collections of seeds you sell, you get \$2.50 in cash. Or, if you prefer, you can earn one of the premiums pictured on this page. Take your choice. And you might win the GRAND PRIZE.

The premiums actually are a bigger value for you than cash because all are worth more than \$2.50. Look them over. All are first class merchandise.

Here's All You Do

Fill out the coupon at the bottom of this page and send it to us. Send no money. We will send the collections of seeds to you at once. After you sell the seeds to friends and neighbors, keep your share in cash and send us the rest. Or, send all of the money in to us and tell us which premium to send you.

It Pays to Start Early

Get an early start. You'll sell more and sell it easier. Lots of boys and girls sell out quickly and then order a second and third time, and so get more cash or more premiums. You can do it too. If you don't sell all the seed, just return to us what you don't sell, and we will pay you for what you do sell.

This is What We Send You

We send you 12 collections of seeds. Each collection is in a big envelope by itself. 8 of the envelopes contain regular-sized packets of vegetable seed. However, some of your customers will want flower seeds only so we send you 4 envelopes containing packets of flower seed only.

You make 12 sales at 69c each. (Seeds must be sold in collections only—not by individual packets). And each person who buys a collection from you gets 10 packets of seed, enough for a whole garden, at the low price of 7c per packet! This is our regular, high-quality seed, priced low to make your selling easy, and so low we cannot change the assortment.

It's easy to sell Henry Field's seeds to your friends and neighbors. Get started now. Mail this coupon today. Send no money.

To: Henry Field Seed & Nursery Co., Shenandoah, Iowa

Please send 12 Junior Seedman Collections of Seed. I will do my best to sell all of them at 69c each, but if I don't sell all of them I will send you your share of the money for those sold and return the unused packages. I will tell you which premium I want, or cash, when I settle up.

HEAD LETTUCE

GREAT LAKES—All-America

Prize Winner

508—Great Lakes does well anywhere, but especially where hot summers come on early. Stands heat and sun well. A sure header. Heads are of medium size, very solid. Of finest quality and flavor. Distinctive dark green color. Pkt. 20c; 1 oz. 60c; ¼ lb. 1.75, postpaid.

CREAMY HEART

the Heavy Yielder

515—A cabbage-head sort with bright green leaves heavily curled. The hearts are a rich golden yellow, very crisp and buttery, tightly folded. Fine producer, sure header. For home use or for market. Our special strain is noted for its fine flavor. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.20, postpaid.

ICEBERG for Salads

508—(82 days.) A standard variety for forcing or for garden culture. Has large, compact heads, curly leaves, and is good to eat at any stage. Tender, sweet, and of excellent quality. Wonderful for salads—adds to their flavor and makes them look more attractive and appealing. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.20, postpaid.

NEW YORK or WONDERFUL

The Market Type

507—(78 days.) This is the big favorite with commercial growers, and will make a good one for your garden. Practically all of the head lettuce you buy in the stores is this variety. It forms a good-sized, compact head. It is of exceptionally fine quality and stands handling wonderfully well. Easy to grow too. Pkt. 20c; 1 oz. 60c; ¼ lb. 1.50, ppd.

ENDIVE

234—Broad Leaved Batavian (90 days.) Makes large plant up to 16 inches across. Heart very deep and of thick, buttery texture. Eat like lettuce, cook like spinach, or use in soups and stews. Easy to grow. Pkt. 20c; 1 oz. 45c; ¼ lb. 1.10, ppd.

CHICKEN LETTUCE for Poultry Feed

514—A special lot of best varieties for poultry feed. Every chicken raiser ought to make plantings every two weeks throughout the season for lots of good, green, inexpensive chicken feed. Pkt. 10c; 1 oz. 35c; ¼ lb. 90c; 1 lb. 1.10, ppd.

- 1 pkt. Hale's Best Muskmelon 15c
- 1 pkt. Imperator (Tender-sweet) Carrot.....15c

Regular price.....2.50

**OUR SPECIAL COLLECTION
PRICE ONLY 1.49, PPD!**

EARLY CURLED SIMPSON

The Sweetest One

513—(45 days.) This is the sweetest one of all. And the crinkly leaves form a tight cluster in the center; you can use it as a loose leaf or a bunching variety. The color is light green. A long-time favorite because of its unusually good flavor. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.20, ppd.

GRAND RAPIDS

Easiest to Grow

510—(43 days.) One of the best flavored. Came from Michigan. Crisp, curled, light green leaves grow erect and do not wilt. Good for growing outdoors in spring, summer and fall, and especially tender and sweet when grown under glass. Early and disease resistant. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.20, ppd.

FIELD'S LETTUCE BARGAIN No. 525X

1 Pkt. Black Seeded Simpson) All 3 **33c**
1 Pkt. Grand Rapids) for only
1 Pkt. New York) ppd.

BRONZE BEAUTY

Tender, Crisp, Nut-like

501—This unusual lettuce will be a real taste thrill for you because of its unusual nut-like flavor. It is tender and crisp, with leaves so different in appearance you'll be proud to serve them. Colorful in a salad; makes your salad look different. Pkt. 15c; 1 oz. 70c, ppd.

PRIZEHEAD

Delicate Pink Edges

511—(45 days.) This quick grower makes a world of delicious tasting leaves, reddish-brown in color. Edges are delicate pink. Stays tender a long time and lasts well into hot weather. Packet, 12c; 1 oz. 40c; ¼ lb. 1.20, postpaid.

SALAD BOWL

All-America Winner

502—Well named because one head just fills a salad bowl. A loose-leaf variety that grows fast and large. They are a rich green color, short, closely set, wavy and notched—very decorative. Holds its tenderness a long time. Pkt. 20c; 1 oz. 70c, postpaid.

BLACK-SEED SIMPSON

Heaviest Yielder

509—(45 days.) A nationally known variety of loose leaf or bunching type (does not form a head). Often grows larger than a gallon crock. Light green or creamy leaves, closely folded. Quality is very good. Stands summer heat extremely well. Pkt. 15c; 1 oz. 40c; ¼ lb. 1.20; postpaid.

SWISS CHARD

"Spinach-Beet"

220—(60 days.)

The finest greens in the world. Really a beet but always used as greens. Bears tender leaves all season, even after light frost. Fine, too, for poultry. Pkt. 15c; 1 oz. 30c; ¼ lb. 85c, postpaid.

How to Cook Chard: Use tender leaves. Wash thoroughly, drain. Put in kettle, but don't add water. Lay strips of bacon on top and add small sliced onion, salt and pepper. Cover. Cook slowly until tender. Don't overcook.

You grow cauliflower, and care for it, as you would cabbage.

559—**ROYAL PURPLE.** Same as white except for color of heads. Said to be more nutritious. Adds color to your meals. Pkt. 25c; ¼ oz. 1.00; ½ oz. 1.95; 1 oz. 3.25, ppd.

558—**EARLY SNOWBALL.** (54 days.) Heads are deep, smooth, compact, and snowy white. Very hardy. Pkt. 20c; ¼ oz. 95c; ½ oz. 1.85; 1 oz. 3.00, ppd.

CAULIFLOWER

PARSLEY—for Seasoning or Garnish

217—**MOSS CURLED.** (70 days.) Use for garnishing and seasoning. Fine for soups and salads. Very curly, dark green leaves. Can be grown indoors in pots during winter. Pkt. 15c; 1 oz. 45c; ¼ lb. 95c, ppd.

221—**TURNIP-ROOT-ED (Hamburg).** (90 days.) Has the same flavor as regular parsley, but the roots, which resemble small parsnips in shape and color, are the edible part of the plant. Use for soups and flavoring. Can be grown indoors in pots during winter. Pkt. 15c; 1 oz. 35c; ¼ lb. 90c, ppd.

AMERICA

All-America Award Winner

208—(50 days.) The leaves are succulent, tender, crisp and delicious. Leaves are glossy, dark green and heavily crumpled. Normally grows about 8" in height. Stands a long time without seeding. Pkt. 15c; 1 oz. 45c; ¼ lb. 1.25, postpaid.

GIANT THICK LEAF

Largest of All

207—(43 days.) Nobel strain. A very heavy yielder with the largest leaf of any. Somewhat crumpled, medium early. Plants large and spreading. Leaves large, thick, broad, arrow-shaped. Crisp and tender. For fresh greens, canning or freezing. Pkt. 15c; 1 oz. 30c; ¼ lb. 50c; 1 lb. 1.25, ppd.

RE-SELECTED BLOOMDALE

The Earliest

206—(40 days.) The earliest and one of the finest of all. Plants grow upright, usually 10 to 12 in. tall with a spread of 12 to 15 in. Leaves very crumpled and a rich dark green. Pkt. 15c; 1 oz. 30c; ¼ lb. 50c; 1 lb. 1.25, postpaid.

BIG GREEN LEAF

King of Denmark Strain

209—(48 days.) A second early that bears longer than other varieties. Leaves medium large, and somewhat crumpled. Crisp and tender. Pkt. 15c; 1 oz. 30c; ¼ lb. 48c; 1 lb. 1.29, postpaid.

"CUT-AND-COME-AGAIN"

The New Zealand Spinach

210—(70 days.) Tender, dark green leaves that you pick all summer. The more you pick, the more it grows. Good eating too. Pkt. 15c; 1 oz. 30c; ¼ lb. 75c, ppd.

SPINACH

Spinach makes dandy greens—whole, some, vitamin-packed and delicious when properly prepared. Easy to grow, it always does well.

ASPARAGUS PLANTS

HOW TO PLANT: 15 inches apart in rows three feet apart (10,249 per acre) and on well-enriched soil.

SIZE TO PLANT: For quickest returns, plant 3-year Jumbo size. The 1-year plants will give you a nice bed at low cost.

CALIFORNIA 500

Here is a new variety that is proving very popular in the areas where it is known. The Eastern States Farmer's Exchange writes us that they are very enthusiastic about California 500 because the variety starts quicker in the spring, is more uniform in the size of the spear, and is highly resistant to rust. The University of California informs us that it likes this new variety because it yields well, has a lighter head than most, and is considerably earlier.

Henry Field's Special ASPARAGUS-RHUBARB COLLECTION

These two plants always go well together in the garden, so we make you a special combination offer to make it easy for you to start both.

RHUBARB PLANTS

Famous Chipman's CANADA RED RHUBARB—Best of the New

When once tried, you'll agree this is the best of all rhubarbs. The stalks are large and completely red from bottom to top, and even the flesh is red—a rich cherry red. Cooking does not take away its rich color but makes it more appetizing for pies and sauce. It is the sweetest of all rhubarb, so takes less sugar. Extremely productive. You can pull the big stalks all spring and summer and almost until fall. Ordinarily does not seed. Plant early and you can get some rhubarb this year.

A1955—Large No. 1 root divisions, 98¢ each; 3 for 2.69, postpaid.

Our Own Special TENDERSTALK

Our special strain of rhubarb does not get woody. It grows vigorously, and it is much juicier, more tender,

and has a better flavor than the ordinary strains of rhubarb. This is the plant with the pale green stem; makes very good eating.

A1961—Select clean plants, 1/4" whole roots, 3 for 69¢; 6 for 1.25; 12 for 2.25; 25 for 4.25, postpaid.

A1962—Extra heavy plants for quick results, 1" to 1 1/2" whole roots, 3 for 98¢; 6 for 1.75; 12 for 3.19; 25 for 4.98, postpaid.

Special RHUBARB BARGAIN

A2520X—10 of our Tenderstalk Rhubarb for 1.30, postpaid, in a special grade of 1/4" whole roots—good transplants.

Asparagus is easy to grow, takes little care, and produces delicious food year after year.

Mary Washington Rust-Proof

ASPARAGUS

Mary Washington is more tender, less stringy, and more rust-proof. This is the variety most commercial growers use because it gives them both heavy production and good quality.

CURRENT COLLECTION

1 Wilder Current
1 New Red Lake
1 Improved Perfection
A2500X—All 3 for only 1.49, postpaid.

Improved CURRENT

Currents are among the most satisfactory of all garden berries. Very popular for jellies, preserves and pies. Perfectly hardy clear to the Arctic Circle! Our currents are all 1-year No. 1 grade.

A1923—NEW RED LAKE CURRENT. The bigger, better, heavier-bearing red currant. Rushes thrifty, long-stemmed. 89¢ each; 3 for 1.69; 10 for 4.98, postpaid.

A1928—WILDER CURRENT. Exceedingly vigorous and productive. Fruit red, firm and juicy, and large. Hangs longer after ripening. 55¢ each; 3 for 1.49; 10 for 3.98, postpaid.

A1918—IMPROVED PERFECTION. Large berries just cover the plant. Good flavor; very popular. 55¢ each; 3 for 1.49; 10 for 3.98, postpaid.

WHERE WE SHIP CURRENTS & GOOSEBERRIES

We can ship gooseberries and currents to these states only: Iowa, Missouri, Kansas, Illinois, Nebraska, Oklahoma, Arkansas, Alabama, Arizona, Colorado, Florida, Indiana, Kentucky, Louisiana, Mississippi, Nevada, New Mexico, North Dakota, South Carolina, South Dakota, Texas, Utah and Wyoming.

Current-Gooseberry Collection

A nice collection which will give most folks all the currents and gooseberries they want:
2 Red Lake Current
2 Wilder Current
2 Oregon Champion
2 Oregon Gooseberry
A2526X—all 6 plants for only 2.98, postpaid.

Luscious GOOSEBERRIES

Many people think gooseberries are sour; that is because they pick them green. When fully ripe, gooseberries are sweet and delicious.

A1940—PIXWELL. This is the finest of the dark red gooseberries. The berries hang away from the thorns so that you can pick them easily. And Pixwell can be grown farther north, and also farther south, than other varieties. Will thrive in almost any climate or soil. 1 year No. 1 plants, 89¢ each; 3 for 2.49; 12 for 9.50, postpaid.

A1939—OREGON CHAMPION. This is a dependable, regular, heavy bearer of the finest quality. Medium size berries are pale green and creamy yellow when ripe. It thrives in ordinary garden soil. 1 Year No. 1 plants, 79¢ each; 3 for 2.25; 12 for 8.35, postpaid.

SAGE (not illustrated)

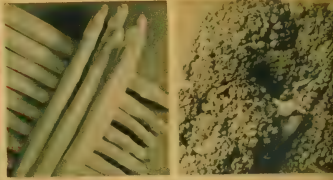

A1970—Sage is so easy to grow that there is no reason for not growing your own. It will provide you with all the seasoning you want to flavor sausage and other meats. A few plants will give you a season's supply even the first year planted. Plants are attractive enough to be grown in your potential border. 60¢ each; 3 for 1.49, postpaid.

EVERBEARING FIGS

A3706—The finest fig. None better for preserves or eating fresh. Ripens big, well-flavored figs from July until frost. Most hardy of all figs, and often bears the first year. Reliably hard in Arkansas and south. 2 to 3-foot size, 1.35 each; 3 for 3.75, postpaid.

HORSE RADISH New Bohemian

This is the horseradish that is larger, whiter, and of such superior quality that we sell no other kind. It is hardy anywhere. A1945—Heavy Crown: 5 for 1.25; 10 for 1.70; 25 for 3.75, postpaid. A1946—Cuttings: 12 for 98¢; 25 for 1.75; 100 or more at 5.00 per hundred, postpaid.

RHUBARB SEED

237—VICTORIA. An especially nice variety with large, thick, juicy, red stalks. Flavor is sweet and rich. Especially fine for pies and sauce. It is easy to grow. Produces abundantly. Grow one year in nursery row. Second year, transplant to 2 feet apart in rows 4 feet apart. Pkt. 15¢, postpaid.

ASPARAGUS SEED

201—California 500 is the newest and best of all asparagus. It is rust-resistant, tender, of excellent flavor, not stringy. Easy to raise, and once a bed is established, it will last a lifetime. Seed should be sown as early in spring as the ground can be worked. Pkt. 15¢; 1 oz. 25¢; 1/4 lb. 62¢, postpaid.

BROCCOLI

242—ITALIAN GREEN SPROUTING (70 days). Plants grow tall, erect, vigorous. Heads are 5 to 6 in. across, not solid, but with an abundance of light green, tender sprouts that are delicious creamed or used as greens. Good start for freezing. Sow early for summer crop; mid-summer for fall crop. Pkt. 15¢; 1/2 oz. 35¢; 1 oz. 65¢, pdd.

Grow Your Own CELERY...It's Easy!

Fresh, home-grown celery is so much better than the store-bought kind. And it is easy to grow too. Complete cultural directions come on each seed packet. One packet makes 50 feet of row, or 100 bunches.

682—GOLDEN SELF-BLANCHING (118 days). Choice of all, with thick, heavy-ribbed stalk.

Blanches evenly to a clear waxy yellow. Crisp, solid, sweet and stringless. Pkt. 20¢; 1/2 oz. 55¢; 1 oz. 85¢, postpaid.

661—GIANT PASCAL (40 days). The largest of all. Branches are thick, solid, crisp and stringless. Flavor is nut-like and rich. Pkt. 20¢; 1/2 oz. 55¢; 1 oz. 85¢, postpaid.

Large, Sweet, Mild DEWBERRY

A2035—We offer just one variety of Dewberry, Julietta, because it is the best one and the hardest. It grows large, sweet and coreless. It is milder than a blackberry, and much

larger. Be sure to mulch with straw in late fall and see what a wonderful crop you'll have. No. 1 plants. 6 for 1.25; 12 for 2.15; 25 for 4.10; 50 for 7.39; 100 for 13.50, pdd.

Blueberry bushes not only furnish you loads of delicious fruit, but also make fine ornamental plants.

Delicious Hybrid BLUEBERRIES

Now You Can Grow Them in Your Own Yard

Blueberry bushes thrive almost anywhere in the U. S. If the soil is sour, or acid. If your soil is sweet, simply add a little Aluminum Sulphate when planting. We send enough with each blueberry shipment to last you two years. Plant Three Kinds. To get a good set of berries, plant three different varieties. Set them 6 feet apart.

All the following are 3-year-old plants, 12 to 18" size:

A2025—COVILLE. A new late variety with berries of tremendous size, extending the blueberry bearing season beyond Labor Day in most localities. Berries are tart until fully ripe, so don't pick too soon; flavor then will be delicious, highly flavored. A good freezer, fine for preserving, and makes wonderful pies. Very productive. 2.25 each; 3 for 5.99, postpaid.

A2026—RANCOCAS. Very heavy fruiting, even on small plants. Rarely get

Hybrid Blueberry Collection

3 FINE PLANTS

A2560X—1 Rancocas, 1 Rubel, 1 Stanley—big 3-year-old plants 12 to 18" tall. Shipped with 1 lb. Aluminum Sulphate free and complete directions. All 3 plants for 3.99. Two collections (6 plants) for 7.50, ppd.

over 6' tall. Large, high quality berries. Midseason. 1.60 each; 3 for 4.50, postpaid.

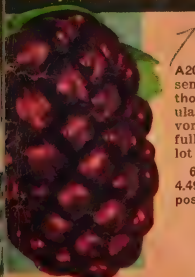

A2027—STANLEY. New, and outstanding. Very productive. Under good conditions, fruits get nearly as large as marbles; highly perfumed, and very delicious. Late midseason. 1.60 each; 3 for 4.50, postpaid.

A2528—RUBEL. A widely planted, profitable, and popular variety. Berries medium to large, in abundance. Flavor rather tart; excellent for pies and canning. Bears midseason. 1.60 each; 3 for 4.50, postpaid.

ALUMINUM SULPHATE

4055—1 lb. roll on Aluminum Sulphate—enough to last 3 blueberry plants for 2 years. 66¢; 3 lbs., 1.45, ppd.

Henry Field's Giant BOYSENBERRIES

Thornless Boysenberry Immense Size Berries

A2031—Here's the popular Boysenberry, but a variety without thorns. Bears as well as the regular Boysenberry. Same high flavor and immense size berries—fully 2 to 2½" long—but a whole lot easier to pick. No. 1 plants.

6 for 1.49; 12 for 2.59; 25 for 4.49; 50 for 8.25; 100 for 15.89, postpaid.

The SENSATIONAL BOYSENBERRY

A2030—Often called the "Wonderberry" because of its huge size and goodness. Largest berries we have ever seen. They often are 2½ inches long. Rich dark purple in color. Flavor a little from the Loganberry, the Raspberry, and Blackberry. A real moneymaker. No. 1 plants.

6 for 1.39; 12 for 2.49; 25 for 4.29; 100 for 15.49, postpaid.

All Henry Field's Raspberry Plants Are No. 1 Grade

All Henry Field raspberry plants are guaranteed free from disease, including Mosaic disease. That is important. And we ship No. 1 plants only.

Raspberries are one of the best fruits for you to grow because they produce a lot of fruit in a little space, are easy to grow, are a treat eaten fresh, stand up well for local delivery, and are fine for preserves, jams and freezing. And they rank right with strawberries as a cash crop.

BLACK RASPBERRIES

"Black Hawk"

The New Variety from Iowa State College

MORRISON—Large Fruit

A2080—This new black raspberry has a larger fruit than older strains. Also better quality. We ship disease-free plants that give you larger yields and top-quality berries.

6 for 1.45; 12 for 2.49; 25 for 4.45; 50 for 9.49; 100 for 15.99, postpaid.

CUMBERLAND Standard of All Black Raspberries

A2042—Here's the favorite of everybody. Has been for years. Strong, upright-growing, vigorous plants always loaded with berries. Fine for shipping, roadside market or home use. Berries large, firm and of fine flavor. Strong, well-rooted plants.

6 for 1.29; 12 for 2.39; 25 for 4.49; 50 for 7.99; 100 for 14.25, postpaid.

BLACK RASPBERRY BARGAIN COLLECTION

6 Cumberland, the favorite } ALL 12 } \$239
6 Morrison, fine new variety } for only } ppd.

RED RASPBERRIES

INDIAN SUMMER—the Better Red Everbearer

A2075—Indian Summer is superior on these six points:

1. Exceedingly high quality
2. Earlier season
3. Heavier fruiting
4. Hardier (thrives even in Canada)
5. More disease-resistant
6. Produces two big crops a year

6 for 1.70; 12 for 3.10; 25 for 5.98; 50 for 10.98; 100 for 20.00, postpaid.

GIANT LATHAM—Giant in Size and Extra Hardy

A2078—A Minnesota development. Berries are large, dark red and firm, pick easily, and ship well. Bears large crop and is a real money-maker. Returns on commercial plantings often run as high as \$400 to \$800 per acre in a single year.

For the price of one crate of berries, you can buy enough plants to give you fresh berries galore—and not just for one year, but for many years. 6 for 1.60; 12 for 2.99; 25 for 5.75; 50 for 10.49; 100 for 19.50, postpaid.

FREEZE BOX COLLECTION

A2642X—3 finest varieties for freezing, or canning: 3 Black Hawk, 3 Indian Summer, 3 Sodus—all 9 for 2.98, postpaid. FREE GIFT: A Giant Boysenberry plants.

SODUS

Cross Between Red and Black Best for Freezing

A2056—A cross between best red and best black varieties. Missouri State Fruit Station says: "Extremely vigorous; no spraying required to date; last year Sodus averaged 6½ plants per plant. Fruit larger, and firmer than Latham."

6 for 1.58; 12 for 2.89; 25 for 5.49; 50 for 9.98; 100 for 18.75, postpaid.

RED RASPBERRY COLLECTION

A2618X—Here are two of the leading red raspberries at a real bargain price. We will send you 6 Indian Summer and 6 Latham, 12 No. 1 plants—all for 2.89, postpaid.

FINEST PURPLE RASPBERRIES

New BURGUNDY PURPLE

A2057—(Plant Pat. 1567). This is a chance seedling discovered on a fruit farm in western New York. During six years of testing, it showed itself far superior to all other purple raspberries. It is extremely vigorous and resistant to disease, harder, and yields more.

Burgundy has a strong, upright growth. It is resistant to disease, adverse weather, and soil conditions. Fruit is large and sweet, firm, attractive. When canned, retains its fine flavor and remains firm.

We think Burgundy is destined to be the most popular of all raspberries, both for home gardens and commercial plantings. 3 for 1.40; 6 for 2.28; 12 for 3.98; 25 for 7.60; 50 for 13.98; 100 for 24.98, postpaid.

LARGE 2-YEAR TRANSPLANTED BERRY BUSHES

These berry plants, after growing one year in the nursery field, are dug up and replanted. Thus, when they are dug for shipping at the end of the second year, they have a heavier, more compact root growth.

We wish we could sell nothing but these 2-year transplanted berry plants because they are so much more satisfactory in every way. The plants are larger, stronger, heavier rooted, and the danger of your losing them in planting is greatly reduced. They'll even bear some fruit the first year. They are a good buy, particularly for every day backyard planting where only a few plants are used. You will find the small added cost over regular berry plants well worth while.

Our supply of these transplanted plants is not too large so, if and when we run out, we will ship twice the number in a smaller size.

**BEARING SIZE

STRAWBERRY

JUNE BEARING STRAWBERRIES

All Henry Field June Bearing Strawberry plants are indexed virus free by the United States Department of Agriculture. See story at left below on this very important feature.

ROBINSON

B4123—Robinson is one of the top new berries that is gaining popularity wherever it is grown. It has everything. It grows very large, has a delicious flavor, and the berries are a bright red color. It ripens right after Dunlap. 25 for 1.25; 50 for 1.98; 100 for 3.25; 200 for 5.50; 500 for 11.49; 1,000 for 22.00, postpaid.

SURECROP

Considered by Many Experts the Finest All-around Strawberry

B4128—This new June Bearer from the U. S. Dept. of Agriculture at Beltsville, Md. has everything that both the home grower and the commercial grower want in an all-purpose strawberry. The U.S.D.A. named it "Surecrop" because they believed you would be surer of getting a crop with it, year after year, than with any other June bearer.

The berries are deep red all the way through, and chock-full of delicious, honey-sweet goodness. The plants are in polyethylene plastic bags, and the berries stay large and firm throughout the picking season. Surecrop is ideal for shipping, canning, or freezing.

If you want a tasty strawberry, one that you will relish because it

If you can grow just one fruit, make it strawberries. No fruit grows better, and they will grow anywhere for anyone. Besides, they bear so heavily; ordinarily they give about one quart of berries per plant each season. And you can get 50 plants in a space no bigger than a blanket.

All Henry Field's June Bearing Strawberry Plants Indexed Virus- free by U. S. Dept. of Agriculture

All of Henry Field's June bearing strawberry plants are field grown from virus free foundation stock furnished by the United States Department of Agriculture of Beltsville, Maryland.

This is very important. There are three distinct types of virus affecting strawberry plants, and any one or all of them weaken the plants so they become sickly and drop sharply in their bearing. Therefore, it certainly is not advisable to buy anything but virus-free plants. In addition, it is unnecessary, because Henry Field's virus-free June bearing plants cost you no more.

The U.S.D.A. has not yet completed the program of indexing the overbearing plants. However, our overbearing strawberries are grown by the same selection methods and with the same care as our June bearers, so we feel positive they are virus-free too—certainly as virus-free as any similar varieties in the United States. As soon as the U.S.D.A. completes its indexing of overbearing varieties, so they can be certified, we will have them in our catalog.

ALL-SEASON SPECIAL

B4202X—Each plant ready to yield 1 pint to 1 quart of fresh strawberries every year. 50 Senator Dunlap, the popular June bearer, and 25 Concord, the one that yields all summer. 75 plants in all for 2.89, postpaid, or 2 collections (150 plants) for 5.25, postpaid.

Henry Field's BLACKBERRIES

EBONY KING the new improved Blackberry

A2003—We believe Ebony King will bear a heavy crop of large, luscious berries for you year after year. They are upright-growing, the bushes very strong, and they bear a heavy crop without breaking down.

Withstood temperatures of 22 below zero without damage to the buds. Berries are large, firm, and have true sweet blackberry flavor. Can well. Bear heavily one year after planting. 3 for .98; 6 for 1.79; 12 for 3.39; 25 for 6.30, postpaid.

A2000—ALFRED. An early ripening, long-bearing and heavy-bearing blackberry. 6 for 1.00; 12 for 1.89; 25 for 3.49; 50 for 6.49; 100 for 11.49, ppd.

A2004—ELDORADO. Most resistant to rust. Ripens over an earlier, large, firm berries borne in abundance. 6 for 1.00; 12 for 1.89; 25 for 3.49; 50 for 6.49; 100 for 11.49, postpaid.

JAM-MAKER BLACKBERRY OFFER

6 Eldorado
A2540X—all 12 for only 1.69, postpaid.

A Word of Caution About Sterile (Non-bearing) Blackberry Plants

We advise you not to make a large planting of blackberries without first testing a few plants in your locality. No one seems to be sure what causes sterility (non-fruitfulness) in some blackberries but it generally is considered to be caused by a hard-to-identify virus.

We recommend Ebony King, which we think is free from this trouble, but if you want to grow the fine old varieties of Alfred and Eldorado, you should first test a small quantity in your locality.

Henry Field's GRAPES

Nothing is finer than a grape vineyard, but if you don't have space for a vineyard, plant them so they can be tied up on a fence. And nothing is better to cover an arbor, giving both shade and fruit. Plant them 6 to 8 feet apart. If in rows, place the rows 6 feet apart.

Each variety is superior for some reason. It usually is best to plant several varieties so you have grapes all season. All plants are big, heavy-rooted, one-year, N. Y. vines.

"Seibel 1000"

A1829—Very good cross of a leading French wine grape and an American wild grape. Fruit jet black, with a high percentage of sugar. Very good for juice, wine or jelly, and also good eating. The skins are tender and good too. 12 for 2.00; 25 for 3.49; 50 for 6.49; 100 for 11.49, ppd.

BARGAIN GRAPE COLLECTION

1 Caco, the best red
1 Niagara, the leading white
5 Concord, the favorite blue

All 7 only
2.15, ppd.
No. A2450X

BUFFALO Best Early Blue

A1802—Originated at the New York State Experiment Station. Finest flavored of all early blue grapes. Juicy, sweet, with melting, tender flesh and delicious aroma. Vine is healthy and regular bearer. Clusters and fruit large. Vigorous grower, hardy, and relatively free from disease. Makes fine grape juice and jelly. 85c each; 2 for 1.59; 6 for 4.25, ppd.

NIAGARA The Popular White

A1818—This is the most popular "white" grape; holds the rank among grapes of this color that Concord maintains among black varieties. Highest quality. Excellent eating grape. Clusters very compact with many grapes in each. 50c each; 2 for 89c; 6 for 2.45; 12 for 4.65; 25 for 7.98, postpaid.

NEW WHITE PORTLAND

A1825—We know that you will like this one. One of the first to ripen (a few days before Concord) and larger and sweeter than any other white grape. Delicious, rich, spicy flavor. Fine for eating off the vine. Plant is vigorous, hardy, productive and healthy. 70c each; 2 for 1.29; 6 for 3.80, postpaid.

FREDONIA 2 Weeks ahead of Concord

A1808—The grape we have all been waiting for. Experts say it will be one of the leading varieties in a few years due to its high quality and early ripening date. Big, compact clusters of black grapes. 2 weeks ahead of Concord. 50c each; 2 for 89c; 6 for 2.45; 12 for 4.65; 25 for 7.98, postpaid.

RED CACO

A1803—A bigger, finer, sweeter flavor. Always loaded even in the hottest summer. Makes finest red jelly. Don't fail to plant Caco. Clusters about 6 inches long. Do not pick for eating until dead ripe. 50c each; 2 for 89c; 6 for 2.45; 12 for 4.65; 25 for 7.98, ppd.

MOORE'S EARLY A1814—Very early, rich black variety, always loaded and always enjoyed. The first mammoth clusters taste so good picked right from the vine. Does well over the middle west. Fruit very large. 50c each; 2 for 89c; 6 for 2.45; 12 for 4.65; 25 for 7.98, postpaid.

CONCORD

A1804—You should have Concord if you can't plant any other variety. Fruit sweet and juicy. Rich blackish-purple. Vines always loaded. Never fails. Extra hardy. 45c each; 2 for 79c; 6 for 1.85; 12 for 3.19; 25 for 5.75; 100 for 19.75, postpaid.

NEW INTERLAKEN SEEDLESS

A1811—A cross of Calif. Thompson Seedless with Ontario. Clusters and berries medium size, but of quality beyond description. Better than those sold in stores, can so that the plant can be eaten whole with no seeds to bother. Vine hardy to 15 below. Vigorous and disease resistant. 1.25 each; 2 for 2.49; 6 for 5.40, postpaid.

STUBEN

A1831—New creation of New York State Experiment Station. Exquisite flavor—melting, tender and succulent, perfectly formed, long, slender clusters. Vine very hardy; late producer, full crop after 20 below. Free from rot and mildew in most areas. Ripens few days before Concord, but keeps until Christmas. One of the finest blue grapes. 1.25 each; 2 for 1.98; 6 for 5.40, postpaid.

PLANTS from Field's

Henry Field's STRAWBERRY BARGAIN

25 **SUPERFECTION**, the big well-colored, extra sweet one.
25 **GEM**, the heavy bearer, even first year.
10 **RED RICH**, the new ever-bearer.
B4207X—all 60 plants for only 5.75, postpaid.

is so good to eat, plus a vigorous, disease-resistant plant that produces many runners—Surecrop is the one for you.

25 for 2.00; 50 for 3.50; 100 for 5.98; 500 for 24.98; 1,000 for 44.98, postpaid.

VARMORE

B4101—A fine new June bearer that ought to be just right for the midwest because it was developed by Dr. Swartwout at the University of Missouri Department of Agriculture. It is a cross between Blakemore and Aroma. Records show it outyields both, and is very disease resistant. A fine, heavy bearer of excellent quality fruit. 25 for 1.35; 50 for 2.25; 100 for 3.75; 200 for 5.98; 500 for 12.50; 1,000 for 22.50, ppd.

JUMBO

B4120—(T.M. Reg. U. S. Pat. Office.) This is a heavy-bearing plant, one of the newer June bearers that really gives you your money's worth in huge berries and lots of them. They are rich red to the core, are fine flavored, and borne in abundance. Good for freezing too. For both home gardeners and commercial growers. 25 for 2.00; 50 for 3.50; 100 for 5.98; 500 for 24.98; 1,000 for 44.98, postpaid.

SENATOR DUNLAP

B4107—This is the old reliable favorite that everyone knows and plants. It has flavor, quality, drought resistance, and good color. Bears midseason. Berries are bright red, smooth, large. We sell more Dunlaps than any other strawberry; it must be good to stay so popular so long. 25 for 1.25; 50 for 1.98; 100 for 3.25; 200 for 5.50; 500 for 11.49; 1,000 for 22.00, postpaid.

Henry Field's GIANT (Catskill)
B4110—Bears profusely, and with its giant size, makes an enormous yield. Fruits are clear red right straight through. Berries held off ground on

FREEZE BOX SELECTION

B4219X—These were selected for those who want all their plants to bear at the same time so that they can freeze their berries and get it over with in a hurry, but who still would like several different flavors. 25 Dunlap, 25 Surecrop, and 25 Robinson—all 75 June bearing plants for only 3.69, postpaid.

JUNE-BEARER SPECIAL

B4214X—50 Robinson, the popular new variety, and 50 Senator Dunlap, the old favorite—all 100 plants for only 2.98, postpaid.

strong stems; clean and easy to pick. Extra sweet. Neither extra early or extra late. Very hardy. 25 for 1.59; 50 for 2.85; 100 for 4.98; 200 for 8.98; 500 for 19.50; 1,000 for 34.75, postpaid.

Drouth-Resistant BLAKEMORE

B4104—You'll like this for your own use, and it also is especially good to raise for selling to commercial freezers because of its high color and because it holds its shape so well. Will stand more hot, dry weather than any other variety. Really dependable. A heavy bearer, and early fruiting. Especially good for Missouri and south. 25 for 1.25; 50 for 1.98; 100 for 3.25; 200 for 5.50; 500 for 11.49; 1,000 for 22.00, postpaid.

EVERBEARING STRAWBERRIES

SUPERFECTION

B4125—Superfection bears two crops a year of big, red berries, richly flavored and juicy. It is hardy everywhere and, unlike most everbearers, is a good plant maker. Dr. Dennison of Iowa State College tested several everbearers, keeping runners removed and the ground mulched with sawdust or cracked corns. Superfection outbore them all, yielding up to 120 quarts per 100 row feet—the equivalent of 13,000 quarts per acre. 25 for 2.10; 50 for 3.65; 100 for 5.98; 200 for 10.79; 500 for 24.98; 1,000 for 42.50, postpaid.

GEM

B4113—The new Gem gives you fruit early in the spring, in the summer, and in the fall. It is a wonderful plant maker, being healthy and vigorous. The berries are quite round with very few seeds. And it will bear heavily the first summer. 25 for 1.50; 50 for 2.50; 100 for 3.98; 200 for 6.98; 500 for 15.98; 1,000 for 29.98, postpaid.

20th CENTURY

B4130—This is an outstanding ever-bearer recommended highly by experiment stations and strawberry experts. It is superior in size, quality, and vigor to most everbearers. Makes a good plant growth that produces heavily. Has brilliant red berries of fine texture and delightfully aromatic flavor. Bears fruit within 60 days of planting and up until freezing weather. 25 for 2.95; 50 for 4.95; 100 for 8.95; 200 for 15.98; 500 for 37.50; 1,000 for 55.00, postpaid.

Giant MASTODON

B4119—Bears lightly 90 days from planting, and soon is bearing heavily.

Keeps on bearing until frost. The berries are giant in size, often 2 inches in diameter, but still very sweet and juicy. This is one of the first true everbearers introduced and it still holds its own against all comers. Many nurseries have dropped this fine variety for the newer ones, but not us. Our customers like it and we like it because it performs. 25 for 2.10; 50 for 3.65; 100 for 5.98; 200 for 10.79; 500 for 24.98; 1,000 for 44.98, postpaid.

RED RICH

B4122—(Pat. No. 993). A cross of Wayzata everbearing and Fairfax June bearer by Marion Hagerstrom of Enfield, Minn. A chance seedling that retained all the good qualities of both parents. High quality and honey-sweet because it carries lots of natural sugar. Extra large and deep red through and through. Excellent for freezing; does not get mushy when thawed. Very high yield. Crown and root system very large. 10 for 2.98; 25 for 5.00; 50 for 8.49; 100 for 15.00; 200 for 25.00; 500 for 55.50; 1,000 for 97.50, all ppd.

Tried-And-True EVERBEARING COLLECTION

B4201X—25 Giant Mastodon and 25 Superfection—all 50 plants for 3.69, postpaid.

MOST POPULAR VARIETIES

B4232X—50 Senator Dunlap, the most popular June bearer, and 50 Mastodon, the most popular Everbearer—all 100 plants for 4.98, postpaid.

How to Plant Strawberries

Pulverize the ground thoroughly. Set the plant with the crown just at the surface of the earth. **DO NOT GET CROWN COVERED.** Be sure roots are spread out fan shaped and hang down full length without crowding. Then press soil firmly, and remove dry or bruised leaves from tops.

Plant as early as you can work the soil in spring. For field, set the plants 24 inches apart in rows 3 feet apart. For the garden, set them 24 inches apart each way. Mulch with 3 or 4 inches of straw in fall. This mulch can be left on the following season to retain moisture and keep down weeds.

Strawberry plants will not cross fertilize, so you can plant different varieties together if you choose. If bed gets too crowded, thin out old plants.

Everbearing varieties will produce some fruit the first season. The June Bearers produce fruit the following year.

Fine Grapes Collection

A2456X—These are the fine and, in many ways, the best. It will pay you to try them.
1 Interlaken Seedless
1 Steuben, 1 Buffalo
All 3 for only 2.49, postpaid.

CONCORD BARGAIN
A2451X—10 big Concord Vines at only 23c each
2.30 PPd.

Henry Field's CHERRY TREES ILLUSTRATED AT RIGHT

Set cherry trees 18" apart, each way, or 130 to the acre. Keep the ground around them cultivated if you can but they do well even if surrounded by heavy sod.

Sweet cherries need protection on the southwest side of the trunk in late winter and early spring. Use Aluminum Tree Protectors as listed on page 44, or wrap the trunk in heavy wrapping paper.

Do not trim a cherry tree any more than you have to excepting when you plant it; then trim back the branches at least half way. However, we ship you cherry trees already cut back partially for planting. This also allows us to ship all sizes via parcel post prepaid right to your door.

EARLY RICHMOND (Pie Cherry) The Early Bearing Red

A3312—The first to ripen each spring—always appreciated because it is so early. It is super-hardy, and a heavy bearer, with fruit of medium size, shiny red. Often called the "May Pie Cherry."

	Each	Per 3	Per 5	Per 10
2 to 3 ft., p.p.d....	1.39	3.90	6.28	11.98
3 to 3 1/2 ft., p.p.d....	1.59	4.49	6.98	13.45
3 1/2 to 5 ft., p.p.d....	1.89	5.40	8.25	15.50
4 to 6 ft., p.p.d....	2.15	6.15	9.65	

MONTMORE (Pie Cherry)

A3336—Grows much lower than Montmorency, getting only 10 to 12 feet high, and still produces a full-sized crop. Trees never get so tall but what most of the fruit can be picked from the ground.

Big Crop in 3 Years

Ideal commercial cherry. Gets in full bearing in 3 or 4 years. Fruit is often larger than Montmorency and quality as good or better. Will bear anywhere from Georgia as far north as cherries will grow. Absolutely hardy. Fruit turns black before ripe.

Sold Only by Henry Field's

DELUXE GRADE CHERRY TREES DESCRIBED BELOW

METEOR (Pie Cherry)

A Great New Pie Cherry from Minn.

A3334—This is a fine new variety of pie cherry originated by the University of Minnesota, and tested for some years by them as "Minn. No. 66."

Being a Minnesota cherry, it is really hardy, both in tree and fruit buds, even in exceptionally rigorous winters. Meteor is very much like Montmorency in style; its fruit are a light, bright red, large in size, and mildly acid in flavor. It is excellent for sauce and pies and, if you enjoy pie cherries as a dessert, you will enjoy Meteor very much.

	Each	Per 3	Per 5	Per 10
2 to 3 ft., p.p.d....	1.69	4.89	7.95	
3 to 3 1/2 ft., p.p.d....	1.95	5.64	8.98	
3 1/2 to 5 ft., p.p.d....	2.20	6.15	9.75	

MONTMORENCY (Pie Cherry)

The Standard for Red Cherries

A3337—Montmorency is the standard by which all cherries are judged. It has big rich red fruit which always loads down the trees. Juicy but firm, making it ideal for pies or preserves. And good to eat right off the tree.

If you have any in excess of your own needs, they always bring a premium on the market.

	Postpaid	Each	Per 3	Per 5	Per 10
2 to 3 ft.	1.39	3.90	6.25	11.98	
3 to 3 1/2 ft.	1.59	4.49	6.98	13.45	
3 1/2 to 5 ft.	1.89	5.40	8.25	15.50	
4 to 6 ft.	2.15	6.15	9.65		

GOLDEN SWEET (sweet cherry)

Birds Don't Bother It!

A3318—This is our new yellow hardy sweet cherry. It always bears a heavy crop of golden yellow cherries with flavor just as fine as any Bing cherry you ever tasted. But, because the cherry is yellow, the birds don't eat the fruit.

	Postpaid	Each	Per 3	Per 5	Per 10
2 to 3 ft.	1.69	4.89	7.95	15.39	
3 to 4 ft.	1.90	5.39	8.75	16.79

5 to 7 ft.	2.40	6.90	10.98		

BLACK TARTARIAN (Sweet Cherry)

Most Popular Sweet Cherry

A3303—Giant black sweet cherry. Rich purplish black berries that have a delicious flavor. The best known and most popular of all sweet cherries. Grows well in wide variety different soils and climates. Bears well and regularly and lives for years. Fruit very resistant to brown-rot. Has been a garden favorite for better than 200 years.

	Postpaid	Each	Per 3	Per 5	Per 10
2 to 3 ft.	1.39	3.90	6.25	11.98	
3 to 4 ft.	1.59	4.49	6.98	13.45	
4 to 6 ft.	1.90	5.39	8.75	16.79	
5 to 7 ft.	2.40	6.90	10.98		

KANSAS SWEET (Sweet Cherry)

A3325—Large deep mahogany-red cherries, deliciously sweet and just as firm and shiny as can be. Well adapted to midwest conditions and those of the southwest. In fact, it will do well wherever sweet cherries can be grown. Rich green, broad foliage on handsome shaped trees. Bears its large cherries in abundance. Fine for eating out of hand, as well as for pies and freezing. We suggest you plant it with Montmorency for good cross pollinization.

	Postpaid	Each	Per 3	Per 5	Per 10

BUSH CHERRIES

SELECTED NANKING CHERRY VARIETIES—

The Bush Cherry—That's Better Than Tree Cherries for the Average Back Yard

These are new selections of Nanking Hybrid Bush Cherries. Originated under the direction of Dr. Alderman at the Minnesota Experiment Station, Dr. Dr. is a variety from Morden, Manitoba. They are highly satisfactory as a shrub, screen plant or hedge because:

1. Not affected by leaf spot or other diseases.
2. Not affected by insects.
3. Cherries hidden by foliage; very few eaten by birds.
4. Cherries of delicious flavor, and nearly as large as pie cherries. Fine for eating right off the bush and make wonderful pies, jam, and jelly.
5. Just a few bushes bear more than the average family can use.
6. Make a beautiful, clean, ornamental shrub. Have abundance of white flowers in spring.
7. Ideal for planting in a row as tall screen (grow ten feet high and keep).
8. Can be planted as a hedge and kept as low as five feet by a couple of trimmings a year.
9. Can be trimmed as severely as desired.
10. Even when trimmed, they bear plenty of cherries because the fruits are borne inside of the branches.
11. The cherries are easier to pick. No tree climbing, no ladder scaling.

There is some variation in fla-

vor so we list several varieties. All are self-fertile.

A3350—Dr. Dr. A3351—Minn. No. 4 A3352—Minn. No. 42 A3353—Orient

2 to 4-foot shrubs, 1.89 each; 3 for 5.25, postpaid. Shipped already cut back for planting.

Nanking Hybrid Cherry Barga A2750X—1 each of all four varieties for only 6.79, postpaid. This is one of the best buys in this catalog.

NANKING CHERRIES AS HEDGE

(see photograph at right)

Nanking Bush Cherries make the best dual purpose shrub we know of; they are highly ornamental and also bear lots of delicious fruit.

The pretty blooms; the dense growing, clean, green foliage; and the bright red fruit are beautifully ornamental. They make a good shrub for lawn or house foundation plantings. And we know of nothing better for a screening hedge. Will grow to 10', but can be kept lower by shearing, as was done with the hedge in the picture to the right.

Nanking Hedge Collection A2754X—10 Nanking Bush Cherries for a hedge. Set at least 4' apart. Enough plants for at least 10' of hedge. Hybrids. All will be labeled for variety but our choice. We want to use any surplus we may have. Your chance to save. 13.98, postpaid.

NANSEN'S FAMOUS BUSH CHERRY

Loaded with Delicious Fruit the Improved Bush Cherry

A3360—A miracle plant. Grows like a bush (4 to 5-foot high). Makes a beautiful ornamental shrub. Bears almost as much fruit as a plum tree. No waiting for fruit. This new strain makes it better eating than ever—fresh, canned, or in preserves. Very hardy. Stands intense heat and cold. Plant 3 to 4 feet apart. 59c each; 3 for 1.65; 10 for 4.89, postpaid.

FIELD'S GIANT RED-FLESHED BUSH CHERRY

Purplish-Red Skin and Flesh A3359—(OKA). A bush cherry as loaded as the regular bush cherry, but has giant (plum size) fruit. Dark purplish red skin and flesh. Is actually a plum. Best looking fruit we've seen. Good eaten just like plums or cooked or canned. Grows 4 to 6 feet tall. Plant 6 feet apart. Makes a lovely shrub. Plant it in the border and enjoy delightful blooms and fruit too. 1.75 each; 3 for 4.98, postpaid.

Henry Field's DELUXE GRADE Fruit Trees

☆ **REDI-PRUNED** by experts so trees grow properly, bear better
☆ **POSTPAID!** No express charges to pay

Whole Tree VIGORSEALED in Polyethylene Plastic Film

Every Henry Field DeLuxe Grade fruit tree is individually wrapped in polyethylene plastic film. This method of wrapping nursery stock is the result of 3 years of research by the Iowa State College. This magic-like film keeps the tree from drying out, yet allows it to "breathe," as it must to live. Extensive tests have proved that trees so wrapped do better for you.

This method of wrapping is one reason we are able to make our famous one-year guarantee, as explained at right, on this DeLuxe Grade.

HERE'S WHY HENRY FIELD'S DE LUXE GRADE FRUIT TREES ARE BETTER:

1. Big, Jumbo-size, selected trees
2. Points at which your tree will be pruned by us before shipment
3. Tag gives complete, detailed planting instructions
4. Proper planting depth marked with white tape
5. Roots wrapped in heavy kraft paper to prevent damage; whole tree then wrapped in polyethylene plastic film, as pictured above

Henry Field's DeLuxe Grade of fruit trees are better for you because you get only well-branched, heavy-rooted, straight-trunked, jumbo-size trees. The roots are special wrapped in heavy kraft paper to prevent damage, and then the whole plant is enclosed in polyethylene plastic film.

In addition to that, our experts prune the tree properly before it is shipped to you. This is important.

Also, the proper planting depth is indicated on the trunk of the tree, thus preventing the most common cause of poor growth of newly planted trees.

Jumbo Size But Postpaid to Your Door

While we select the thickest, tallest, straightest trees, we postpay them to your door. We can do this because we prune them. If we did not prune them, they would be too big to go via parcel post and have to be shipped via express, which costs at least \$2.07 minimum.

DeLuxe Trees Guaranteed to Live

We are so confident that you will not lose one of these DeLuxe Grade trees that we will replace it absolutely free if it is not in vigorous growing condition one year from date you receive it, provided you plant it within 48 hours after receiving it, water and care for it properly, and so state in your letter should you report loss. Of course, we are not liable for damage from drought, flood, mice and rabbits.

POSTPAID PRICES ON DELUXE GRADE

Make an Ideal Bush or Hedge that Bears Delicious Fruit

NANKING HYBRID BUSH CHERRY

Nanking Cherries as Hedge
Make an ideal hedge or screen too, as shown in picture above. See article at left on how to plant.

Heavy Foliage Hides Fruit from Birds

To take this picture, we spread the outer foliage apart to disclose the cherries growing inside close to the branches—almost entirely hidden from birds.

NANKING BARGAIN
A2757X—3 Nanking Cherries, 1 each of Drilea; Minn. No. 41; and Orient—all 3 for only 4.99, postpaid.

HANSEN'S BUSH CHERRY

RED-FLESHED BUSH CHERRY

BUSH CHERRY COLLECTION

A2751X—3 Hansen Bush Cherry and 2 new red-fleshed Bush Cherry (above), enough to give you bush cherries galore, for canning and eating. All for 3.99, postpaid.

HYBRID Bush Cherries

(shipped already cut back for planting)

A Beautiful Bush That Bears Delicious Cherries

Much larger and tastier fruit than the old Hansen Bush Cherries and better growers. Budded on American plums, and should be hardy anywhere. Should a wild plum stalk with large, dull leaves come shooting up through the shiny leaf Bush Cherry, be sure and trim it out. You folks who are out of the regular cherry country can grow these new hybrid bush cherries and enjoy the fruit just as much as you would regular cherries.

A3345—BROOKS. Dark red, fruit, almost as large as regular cherries. Bear heavily the second year from planting. Bush is compact and shapely. 1.69 each; 3 for 4.89, postpaid.

A3344—BLACK BEAUTY. This is the newest selection of the Bush cherry. The fruits are a very dark, glossy, black maroon-red; almost as large as tree cherries. Fruit is dark red from the skin right to the pit. Fine eating and fine for canning pies. 1.69 each; 3 for 4.89, postpaid.

A3346—SIOUX. Extremely large cherries—¾" or better across. Purplish black, shiny with greenish flesh. Juicy and sweet. In the vicinity of Minnesota this cherry fruits about the second week in August—earlier south of there. 1.69 each; 3 for 4.89, postpaid.

A3347—GOLDEN BOY. The cherries are large and a bright, golden yellow. Mild and tasty on clean growing bush. You certainly will enjoy them. 1.75 each; 3 for 4.95, postpaid.

All 4 for \$5.98

A2756X—1 each of Brooks, Black Beauty, Sioux and Golden Boy—all 4 for only 5.98, postpaid.

Henry Field's DWARF FRUIT TREES

These Small Trees Bear Full-Size Fruit
Trees Take Less Room—Ideal for Home Planting

Dwarf Fruit Trees are much smaller than regular-sized fruit trees, yet their fruit is of full quality and size. In fact, the dwarf apple trees usually bear larger fruit. And, as a general rule, dwarf fruit trees bear sooner, often the second year.

DWARF APPLE TREES

Grown on Malling IX dwarfing root stock. Get 8 to 10 feet tall at maturity.

A3004—RED DELICIOUS. The very popular sweet red apple.

A3005—YELLOW DELICIOUS. Tasty, large, golden yellow fruit.

A3006—JONATHAN, Red. The favorite of all apples.

A3007—RED MCINTOSH. Glistening red. To our mind, the tastiest of all.

A3008—YELLOW TRANSPARENT. The extra early butter-yellow. POSTPAID PRICES for three-year, sturdy, 4 to 6-foot size dwarf apple trees in above varieties, 3.95 each.

You can plant from 3 to 9 dwarf fruit trees in same area needed by one regular size fruit tree.

Dwarf Apple Tree Collection

A2684X—1 ea. of Red Delicious, Jonathan, and Yellow Delicious—all 3 for 9.75, postpaid.

DWARF CHERRY TREES

A3339—NORTH STAR. An extra hardy, fine new origination of the Minn. Fruit Breeding Farm. A true natural dwarf. Original tree is little more than six feet tall and bears heavily every year. Cherries are large, dark red, and of fine sprightly flavor. 2 to 3-foot size, 2.25 each; 3 for 6.75. 3 to 4-foot, 2.60 each; 3 for 7.50. 4 to 6-foot size, 2.98 each; 3 for 8.95. All postpaid.

A3307—DWARF RICH CHERRY SHRUB. Grows like a shrub, yet bears full size Montmorency cherries. A hardy new variety originated by the U.S.D.A. Field Station at Cheyenne, Wyo. Makes bushy shrub about 5' tall and wide. Can be used in ordinary shrub planting, as specimen on lawn, or as part of foundation planting. 12 to 18-in. size, 2.25 each, postpaid.

DWARF PEACH TREES

Just like the ordinary peaches excepting that they never grow more than about one-half as large. Fruits are very large, often larger than those of regular trees. Trees bear young and well. Are self-pollinating.

A3433—ELBERTA. Most popular of all yellow freestone peaches.

A3434—POLLY. Finest, hardest, and largest-fruited of all white peaches.

POSTPAID PRICES on both above Dwarf Peach Trees, 1.98 each.

DWARF CHINESE PEACH

A3432—(Dwarf Flory Peach). A true peach that grows like a shrub, never getting over five feet tall. Has dense foliage of bright green. Bears abundance of peaches that are medium-sized, juicy, white-fleshed, freestone, and of delightful aroma. Flavor is like White Heath cling. Cans as well as Elberta. Has thrived here in Shenandoah without winter protection. 12 to 18 in. plants, 1.98 each; 3 for 5.40, postpaid.

FRUITS GROW WITHIN EASY REACH

You can stand on the ground and pick the fruit from a dwarf fruit tree. No need to risk your neck by climbing tree, or using a ladder. Makes pruning and spraying easier too.

DWARF FRUIT TREES ORCHARD

A2860X—1 Dwarf Jonathan Apple, 4 to 6-foot size, 1 Dwarf North Star Cherry, 3 to 4-foot size, 1 Petite Giant Red Flesh Bush Cherry (Oka Dwarf Plum), 2 to 3-foot size. All three for only 6.95, postpaid.

Please see Page 22 for description of the DeLuxe Grade. 5 to 7-foot size peach trees, 2.49 each; 3 for 7.20, postpaid.

ELBERTA YELLOW FREESTONE

A3404—The most popular, and no wonder. Big, rich, yellow, highly colored fruit. Heavy sure bearer and fine flavored. This is the peach that everybody likes. A good shipper. Ripens August 30 to September 15. Succeeds over wide range of territory.

3 to 4-FOOT SIZE PEACH BARGAIN

A2769X—This is a fine size for planting.

When you plant them, be sure to cut all the branches off; trim them right up to a whip even though we have already trimmed them some. 1 J.H. Hale, 1 Golden Jubilee, 1 Polly, and 1 Hale Haven. 3 to 4-foot size, all 4 for only 3.80, postpaid.

A3409—Goldray is a new peach, an improved Golden Jubilee, introduced a few years ago by the Bountiful Ridge Nursery. They have kindly allowed us to offer it along with them, and we are glad to do so. It is identical with the fine Golden Jubilee in size, shape, quality and tree growth, but it is more hardy in bud and ripens about July 10, which makes it a very early peach. The Vineland Station in Canada reports a fine showing of this new peach in Canada. You'll like it. 2 to 3-foot size, 1.10 each; 3 for 3.19. 3 to 4-ft., 1.39 each; 3 for 4.05. 4 to 6-ft., 1.75 each; 3 for 4.98. All postpaid.

WISCONSIN (Balmer)

A3401—Wisconsin will grow farther north than the other peaches, excepting possibly Goldray. It was found recently as a chance seedling near Waterloo, Wisc. The fruit is large in size, yellow, freestone, with an unusually small pit, and of excellent flavor and quality. 2 to 3-foot size, 1.10 each; 3 for 3.19. 3 to 4-ft., 1.39; 3 for 4.05. 4 to 6-ft., 1.75 each; 3 for 4.98. All postpaid.

QUICK-BEARING PEACH OFFER

- 1 Polly—outstanding new white
 - 1 Elberta—the popular, big yellow freestone
 - 1 J. H. Hale—hard-to-beat yellow
- A2787X—**each in 4 to 6-foot size for 3.98, postpaid.

APRICOTS

Apricot trees not only give delicious fruit but they make excellent ornamental trees. They have a dark green, glossy foliage and beautiful blossoms. They are hardy clear into Canada too. Good canned, dried or frozen, and for pies, preserves and jams.

POSTPAID PRICES (excepting Henderson)

	Each	Per 3	Per 5
2 to 3-foot size	1.39	3.98	6.49
3 to 4-foot size	1.59	4.65	7.40
4 to 6-foot size	1.89	5.35	8.49

All apricot trees are partially pruned for planting by us before shipping to you.

PRICES ON DE LUXE APRICOT TREES

See page 22 for description of DeLuxe fruit trees. Giant 5 to 7-foot trees, individually root-wrapped, 2.89 each, postpaid.

HARDY IOWA

A3207—This is the super-hardy Apricot we found on a farm just south of Shenandoah. It bears heavy crops of medium-size apricots of excellent quality. A rapid, thrifty grower. Blooms later than most apricots so it is not so likely to be caught by frost.

SUPERB

A3214—Superb is HARDY in the Middle West. Has a delicious flavor you get in no other fruit. Eat it right off the tree. Plant 15 to 20 feet apart. Ripens between cherries and peaches. Remember, Apricots will stand more hot weather than any other fruit.

APRICOT BARGAIN

A2704X—1 each of Henderson, Superb, and Chinese Golden. 4 to 6-foot size, all three for 5.25, postpaid.

Henry Field's PLUMS

No fruit is quicker, heavier bearing, or surer bearing. Plant 18 ft. apart, 130 trees to the acre. It is well to plant two or more varieties so they can cross pollinize. Ideal for chicken yard shade; do well there. Spray with Henry Field's Combination Fruit Spray—see page 43.

All Plum Trees Shipped Partially Pruned for Planting

(Except Blue Damson and Allred)

	Each	Per 3	Per 5
3 to 4 ft., postpaid	1.35	3.75	5.75

QUICK BEARING SIZE PLUMS

1 Tecumseh, 1 Superior, 1 Waneta.
A2853X—All 4 to 6-foot size trees for only 4.55, postpaid.
Free Gift: 1 Concord Grape Vine.

UNDERWOOD Giant Freestone

A3334—(American Type.) Was Henry's favorite at his Ozark farm. Bears regularly and fruit is immense. Ripens in July. Red freestone, good to look at and delicious to eat. Hardy north or south, even into the Dakotas and Canada.

SUPERIOR

One of the Largest and Best
A3330—Bears young and heavily. The big yellowish fruit gradually turn pink and then produce a deep red blush. They

TASTY PLUM COLLECTION

A2850X—1 Superior, 1 Tecumseh and 1 Underwood—3 of the finest flavored of all plums, each in 5 to 7-foot sizes—all 3 for 5.49, postpaid.

peel like peaches and make fine dessert, jellies, jam and preserves. Bears every year and ripens in early August. Good pollinizer for other plums.

TECUMSEH . . .

A3633—One of Dr. Hansen's best, and probably as fine an eating plum as there is. Ordinarily ripens in August. Trees are of moderate size, fine for home planting, and easy to pick for the orchardist. Earliest bearing of all and hardy clear up into Canada. The fruit is a bright bluish bluish bloom. The flesh is yellow, firm, juicy and sweet, and has a delightfully spicy, penetrating fragrance.

OPATA

A3623—Bears often the year after planting. Reddish purple skin, yellow flesh. Like size almost entirely hidden by clusters of fruit—so heavy

you must watch they don't break the limbs. Grows on any soil. Ripens July 10th.

STANLEY PRUNE

A3631—If you have shied away from the prune plums because of lack of hardiness and poor growing, try this one. Begins to bear in three years and bears regularly. Large, deep bluish-purple freestone prunes of fine flavor and firm flesh and the trees around here are always loaded. Ripens in early September. Fine for canning, as retains its shape and skin and processes a deep wine-purple throughout.

WANETA

Hansen's Most Famous

A3636—The most famous of all Hansen's Hardy Hybrid plums. Fruit big, bright red outside and crisp, juicy, sweet yellow inside. Heavy bearing, sure bearing, superhardy. You can't go wrong on this one.

BIG FOUR PLUM BARGAIN

A2859X—1 Waneta, 1 Opata, 1 Underwood, and 1 Superior, in 4 to 6-foot size—all 4 for 6.79, postpaid.

J. H. HALE

Extra Large Freestone

A3414—Extra large fruit of rich yellow blushed red. Ripens a few days ahead of Elberta and tastes as good as any peach known. A money maker if you want to sell the fruit because it brings a premium.

HALE HAVEN

Ripens Early

A3410—A new freestone that is rapidly taking the place of Elberta in com-

mercial orchards. Has deep orange color all over with deep blushes of carmine. Ripens 15 days ahead of Elberta. Self-pollinizing. Hardy. Extremely high color several days before the fruit ripens; this means early picking for distant shipment.

WHITE CHAMPION

The Hardy Freestone

A3430—Very hardy in the central states. Has size and quality. A honey-sweet, rich, juicy white peach that you'll rave about. Ripens around August 10. White peaches always are hardiest.

GOLDEN JUBILEE

Extra Early Red and Yellow Freestone

A3408—Very large fruit. Hardier than most and growing

ELBERTA BARGAIN

A2766X—Three 3 to 4-foot size Shenandoah-grown Elberta trees for only 2.79, postpaid.

ELBERTA PEACH

CHINESE GOLDEN

A3200—The very fine and large-sized, very sweetly flavored fruit are orange-gold in color with a bright carmine blush. The smooth-skinned flesh is rich and deep, and is entirely free-stone. The trees are highly productive and are strong, vigorous growers. With their beautiful, deep green, varnished leaves, and great masses of large, light pink blossoms, apricots are often grown as small ornamental trees with their delicious fruit being entirely of a secondary interest.

HENDERSON

A3208—This is a fine new apricot with large, roundish, yellow and blushed fruit. The flesh is thick, yellow, sweet, and good in quality, and free from the stone. The

tree grows strong, vigorous, and productive. As this variety was originated in upstate Geneva, New York, it is very hardy, even in the northern areas.

The rich green shiny foliage of Henderson, together with the compact growth and the masses of soft pink flowers in early spring make this variety a beautiful ornamental tree attaining some 15 feet in height.

3 to 4-foot size, 1.69 each; 3 for 4.95. 4 to 6-foot size, 1.98 each; 3 for 5.60, postpaid.

GOLDEN APRICOT COLLECTION

A2702X—1 Hardy Iowa, 1 Superb, 1 Chinese Golden, in 3 to 4-foot size—all 3 trees for only 4.45, postpaid.

BLUE DAMSON

Old Favorite Freestone

A3604—The Damson plum probably has changed little since before Christ's time. One of its greatest assets is its adaptability to various soils and climates. Damson takes its name from Damascus from whence it was brought into Italy at least a century before the Christian era began. For centuries, it has been noted for its productivity, vigor and hardiness. A freestone, and sure to bear. Excellent for preserves. 3 to 4-foot size, 1.69 each; 3 for 4.95; 5 for 7.98. 4 to 6 ft., 1.98 each; 3 for 5.70, postpaid.

GREEN GAGE

A3610—Here's what the Encyclopedia of Hardy Fruits says about it: "For the qualities that gratify the sense of taste, richness of flavor, consistency and texture of flesh, abundance of juice, and pleasant aroma, the fruits of Green Gage are unsurpassed." Guess we can't add much to that except to say that the trees are thrifty—and ripen early in September.

ALLRED

A3601—Gets its name because the whole thing is red—the foliage, the flowers, the fruit—even the bark is purple-red. The plums are large, freestone, and of fine quality. The tree is beautiful enough to use as an ornamental on your lawn. Hardy to central Iowa. 3 to 4-ft. size, 1.69 each; 3 for 4.95, ppd. 4 to 6-ft. size, 2.25 each; 3 for 6.39, postpaid.

COMPASS

Plum-Cherry Hybrid

A3602—Combines size of plum with flavor of cherry and plum. Developed by Hansen. Bears loads of bright, shiny red cherry-like fruits. Perfect for jams, jellies or canning. Low, bushy growing, easy to pick. Set 10 to 12 ft. apart. Good pollinizer for other plums.

ALL-SEASON PLUM ORCHARD

A2859X—1 Superior, 1 Underwood, 1 Tecumseh, and 1 Wapeta, in 3 to 4-foot size—all 4 for only 4.49, postpaid.

HARDY FREESTONE PEACH BARGAIN

1 Champion—the hardy, honey-sweet white freestone.
1 Elberta—the peach everybody likes.
1 Hale Haven—the large, luscious, golden yellow, early-bearing freestone.
A2788X—1 each of these 3 in 3 to 4-foot size for 3.05, postpaid.

more popular each year. Flesh is yellow, tender, juicy and sweet. Ripens July 20. Our customers report it does not brown in freezing and holds up better than most peaches.

POLLY PEACH

The White That's Sure to Bear

A3420—Polly Peach is super hardy. It is a big freestone, with white skin overlaid with rich red blush. Keen flavor and juicy. Introduced by Iowa State College. Produces a big crop of peaches every year. Very firm. Surest to bear. Ripens August 15. Stood 20 degrees below zero and bore a big crop. Now same price as other varieties.

APRICOTS

NECTARINES

Half Peach—Half Plum

A3714—Fruit is fair also, good canned or fresh. Smooth, rich gold fruit of unusual flavor. Its habits are similar to the Peach; therefore culture is the same. Plant with peaches for proper pollination. Vigorous and productive.

Each Per 3
3 to 4 ft., ppd...1.49 4.19
4 to 5 ft., ppd...1.79 5.10

OZARK PERSIMMONS

Sweet as Honey

A3719—Sweet native Persimmons (not the tender Japanese). Hardy anywhere that peaches will grow. Make a beautiful ornamental tree, rather compact, about the size of a cherry tree; and bear abundantly. Plant 20 ft. apart. Sturdy 2-yr. trees. 98c each; 2 for 1.69, ppd.

Shown Actual Size

Henry Field's Selected PEAR TREES

Before shipping pear trees, we prune them partially, ready for planting. But you should prune them still more when you plant them.

Cross-Pollination of Pears

Two different varieties are needed for proper pollination but, if you live in town or a city suburb, there probably will be enough pear trees around so you won't have to worry.

POSTPAID PEAR PRICES (excepting Everbearing "Collette")

Each Per 3	Per 5
2 to 3-ft. size.....1.35	3.79 5.98
3 to 4-ft. size.....1.65	4.65 6.98
4 to 6-ft. size.....1.85	5.15 8.25

Henry Field's Hardy APPLE TREES

Healthy... Heavy-Bearing... True to Name

All Henry Field apple trees are heavy caliper, strong, straight trees with heavy roots. We grow our own apple trees and know they are good, free from disease and true to name.

About Pollination

In most towns and city suburbs, there are enough apple trees to assure proper pollination. But out in the country, you should plant two or more different varieties.

About Spraying

Now spraying is easy, thanks to Henry Field's Combination Fruit Spray. See page 43 for details of this easy-to-use spray.

About Pruning

Before we ship apple trees to you, we prune them partially for planting. You should prune them still more when you plant them.

Fall Apple—ANOKA Bears First Year

A3000—Often bears first year after planting—if not, the second for sure. Stands cold like an Eskimo. Thin-skinned; fine for home use. Tree never gets very big. Fine for yard planting.

JONADEL—A New Bright Resistant

Jonathan Cross from Iowa State College

A3046—We are indeed happy to be one of the introducers of this fine new apple, the result of a Jonathan X Delicious cross made in 1923. It has been under test at the Iowa State College since 1940. Of particular importance is its record of extremely high light resistance, even during the peak bright year when practically every Jonathan tree at the College was ruined.

The fruit is larger than Jonathan but resembles Jonathan in color and shape. Its color is a bright, attractive cherry red to dark red. The official description of Jonadel says, "firm, crisp, very juicy, rich mild subacid. Very good. Flavor a little milder than Jonathan and more acid than the Delicious apple. Does not get mealy."

Jonadel has the same fruiting season as Jonathan. It is an excellent keeper in storage; does not shrivel. We highly recommend this new apple. 3 to 4-foot size, 1.90 each; 3 for 5.40; 4 to 6-foot, 2.25 each; 3 for 6.45. All postpaid.

PRICES ON DE LUXE GRADE PEAR TREES

See descriptions of DeLuxe Grade on page 22. 5 to 7-foot size DeLuxe Grade Pear Trees, 2.50 each; 3 for 7.20, postpaid. Collette, DeLuxe, which is 3.58, postpaid. No DeLuxe Grade on Dabney.

"COLETTE"

Henry Field's Amazing
New EVERBEARING Pear
(Pat. No. 1401, owned by Henry Field's)

A3503—"Collette" everbearing pear is the most amazing fruit tree it has ever been our pleasure to see. The fact that it is everbearing is reason enough alone to place it in a class by itself. But, in addition to that, it is, in our opinion, by far the most deliciously flavored pear on the market today.

Collette blooms at the normal blossoming time and then keeps on blooming and bearing new pears on the new growth for most of the summer. As a result, it ripens fruit over a long period in the fall. It is an ideal home, or backyard tree. The rich flavor of Collette makes it wonderful for

Henry Field's PEARS and APPLES Are True to Name

Statement of Inspection for
Truthness-to-Name

August 10, 1957

To Whom It May Concern:

This is to acknowledge that all of the salable pear and apple trees now growing in the nursery of the Henry Field Seed and Nursery Co. now of Shenandoah, Iowa, are, to the best of my knowledge, true to name as they now stand in the nursery rows.

(Signed) A. E. Cott
Iowa Truthness-to-Name Identification Service, Sponsored by The Iowa State Horticultural Society.

Nothing is more discouraging than to discover after 4 or 5 years, that a fruit tree is not the variety that you thought it was. Why take your chances? Henry Field's fruit trees are true.

Winter Apple

STAYMAN WINESAP

A3089—The largest Winesap, and the best. One of the best flavored and best keeping apples. With a little care keeps all winter and clear into April. Best from Iowa south, as fruit should have long season for best maturing.

The Yellow Early Summer Apple YELLOW TRANSPARENT

A3105—Excellent for both cooking and eating. Clear yellow, crisp and splendid flavor. Comes into bearing very early and is extremely hardy. One of the earliest ripening of all apples. Usually ready to pick by mid-July.

Late Fall and Winter MCINTOSH RED

A3064—We think this is the finest apple in the list. Bears for years and years. Beautiful large red apples often with darker red blush, fragrant and of highest quality. Keeps well into the winter. Makes mighty good cider and apple pie. Drouth and cold weather do not affect it.

Winter Apple

JONATHAN

A3047—Has a world-wide reputation for being among the very best of all apples for appearance and quality. Ours is a deep red variety, good for cooking or eating.

ECONOMY APPLE COLLECTION

3 to 4-foot size trees—the inexpensive size. An assortment that gives you all season ripening, all colors:

- 1 Red Delicious
- 1 Yellow Transparent
- 1 McIntosh
- 1 Jonathan

A2688X—all 4 for only 4.19, ppd.

canning too. Its fruit is firm, yet smooth; textured, juicy and sweet. It has no "grit," and does not rot at the core when fully ripe as some pears do.

The size of the fruit is medium to large. Fruit from the first crop begins to ripen in early fall, and continues on until freezing weather.

POSTPAID PRICES: 2 to 3-foot size, 2.25 each. 3 to 4-foot size, 2.75 each. 4 to 6-foot size, 3.25 each.

A3511—DABNEY. A very early pear—late July and early August in the south, late August further north. The flesh is melting in texture, sweet, subacid in flavor, and of excellent dessert quality. Medium size fruits borne in abundance. Especially valuable in areas bothered by fire blight as it is highly resistant. Bears young.

A3505—BEURRE DUMONT. Delicious as eating pear—likewise canning. Its delicately sweet flavor and delicious perfume has few equals. Fruit as large as Bartlett, borne late. Top early winter ripens about one month later than Bartlett. Tree moderate in growth, very productive.

A2602X—BARGAIN IN 2 to 3-FOOT SIZE PEAR TREES. 1 Bartlett, 1 Lincoln, 1 Seckel—all 3 for 3.69, postpaid.

POSTPAID APPLE PRICES

(These prices apply to all apples excepting Delcon, 5-in-1, the De Luxe Grade, and the Dwarf trees.)

	Per Per	Per	Per
	Each	3	5
2 to 3-foot size.....1.35	2.85	4.49	6.49
3 to 4-foot size.....1.79	3.35	5.25	9.95
4 to 6-foot size.....1.49	4.45	6.75	12.95

Prices on DeLuxe Grade

See page 22 for description of DeLuxe Grade apple trees. Prices for DeLuxe Grade, in big 4 to 6-foot size, are 2.39 each; 3 for 6.90, postpaid, excepting Dabney, which is 2.60 per tree. There is no DeLuxe Grade on 5-in-1, 3-in-1, Jonadel, Dwarf Fruit Trees, or Flowering Crab Apples.

Keeps well so you can have good apples all winter.

Winter Apple

YELLOW DELICIOUS

A3017—The great big, golden, best-of-all yellow apples. Wonderful flavor. Bears young; thrifty. Beautifully shaped and appearing. Fine for commercial orchardists and just as good for the home garden. Good keeper. Late fall and winter.

1st Choice of Winter Apples RED DELICIOUS

A3016—The improved, early-coloring, big Red Delicious with crisp, fragrant flesh and fine flavor. Increases in size and color as tree grows older. Always brings a premium on the market. A must for both back yard garden and orchard.

Winter Apple—Grimes Golden

With the Spicy Flavor

A3032—The tasty, yellow winter apple. Beautiful, even, rich golden color. Crisp and tender. Large size. The finest yellow winter apple for keeping; flavor seems to improve the longer stored. Grows to perfection in Missouri, Indiana and Illinois.

A2800X—3 FAMOUS PEARS BARGAIN. 1 Bartlett, 1 Beurre Dumont, 1 Lincoln—all 3 in 4 to 6-ft. size for 4.98, postpaid.

A3518—LINCOLN. Most dependable pear for midwest. Large fruit of good quality like a Bartlett, but more are blight resistant and can withstand terrific heat and cold. Heavy yearly bearer. Ripens in September.

A3502—BARTLETT. Grows well in every section of the country. Produces full crop every year, and is a good grower. Handsome fruit are golden yellow with rich pink blush. Wonderful flavor. Keeps and ships well. Best canning pear on the market. Ripens in September.

A3532—SECKEL. One of America's best quality 4-in-1 dwarfed pears. The most vigorous (not largest), productive, and resistant to blight. Fruit of any kind you can see. Small, sweet fruit and lots of it. One of the best for home planting and very profitable commercially. Ripens in October.

A2812X—ALL-SEASON PEAR COLLECTION. 1 Dabney, August; 1 Bartlett, September; 1 Beurre Dumont, Oct.—all 3 in 3 to 4 1/2 size for 4.59, ppd.

SNOW APPLE (Fameuse)

The Red and White-Fleshed
Early Winter Apple

A3088—Few apples more refreshing or beautiful than Snow. Flesh snowy-white, stained with crimson. One of the finest eating apples. Is of Canadian origin and hardy as a rock.

Winter Apple

FIRESIDE

A3027—This is a coming apple—the super Delicious from University of Minn. Delicious will not grow well in the north but Fireside will. It is: (1) Of better quality; (2) Hardy; (3) Tree large, vigorous and strongly branched; (4) Fruit large; (5) Keeps all winter; (6) Annual bearer.

Fall Apple

The Popular WEALTHY

A3100—Always bears heavily. Ripens in September but is good 2 weeks before ripe. Indispensable in cold regions and valuable everywhere. Good for back yards and home orchards, as tree never gets very large. Stores well.

WHITNEY CRAB

A3101—Extra large fruit, for a crab apple, of excellent quality. This is the best of all crab apples for eating. Fine for preserves, pickling, jelly and apple butter. Good enough to eat right from the tree, too. Same prices as other apples.

TWIN APPLE COLLECTION

A2686X—1 each of Yellow Transparent and Anoka in 2 to 3-foot size, both for only 1.79, postpaid.

DELCON APPLE—Small Tree

produces heavily at an early age, seldom needs thinning, ripens about ten days before Delicious, and keeps well in storage.

Some dwarf apple trees are dwarfed by multi-grafting, a complicated, expensive process which makes the tree cost more but does not make it better. But Delcon is a single-graft, a natural semi-dwarf, which is why we can sell it at so low a price even though it has no superior for quality. You ought to try it.

Each Per 3	DELCON 2 to 3-ft.....1.49	4.19
POSTPAID 3 to 4-ft.....1.69	5.35	
PRICES 4 to 6-ft.....2.19	6.55	

NEW EVERBEARING "COLETTE"

The picture above shows a full-grown, ripe Colette pear. The picture at the right above shows blossoms and small, green pears, half-ripe pears, and full-grown ripe pears—all on the same branch at the same time. "Colette" pear is the only everbearing pear. Pictures are from actual photographs.

Hardy APPLE TREES

5 in 1

APPLE TREE
You'll Get
Fine Apples
All Season

5 Choice Varieties Grown on One Tree

A3114—Here's how a 5-in-1 apple tree is made—we take a good standard tree like Anoka and graft the other varieties onto its limbs. This means the one tree bears five different varieties of apples. Thus, with one tree, you get various kinds for different uses, and at different times.

When you receive your 5-in-1, note the branches that are grafted and then don't let the other limbs crowd them out. Fine heavy trees, 3.75 each, express not prepaid.

A3113—3 VARIETIES ON ONE TREE, 2.98 each, express not prepaid.

See apple descriptions, prices at left

SPIREA VAN HOUTTEI (Bridal Wreath)

A1623—There is no sight of early spring more beautiful than a Spirea hedge in bloom, with its arching branches heavy laden with dainty blossoms of pure white. And after the flowers are gone, it still is very attractive all summer because of its fine, green foliage. Gets about 6 to 8 feet tall, but can be trimmed smaller if desired. Extremely hardy. Set 2 1/2 feet apart.

Fpd. Prices	12	25	50	100 or more
10 to 15 in.	2.15	4.25	7.50	13.95
12 to 18 in.	2.89	5.49	9.98	17.95
18 to 24 in.	3.89	6.98	13.60	24.95

Brilliant "FIRETHORN" Hedging

A1620—This very hardy Firethorn has been growing around our seedhouse for 8 to 10 years with no winter protection, but wouldn't recommend it for much further north. It is a Pyracantha, probably Kazan but we are not sure. Has small evergreen leaves of rich bright green. In fall, has clusters of brilliant orange berries. Branches are thorny; impenetrable by man or beast. Stands shearing well. We ship plants out of 2 1/2" pots as they transplant best. Plant 2 to 3' apart. 98c each; 3 for 2.85; 10 for 8.50; 50 for 37.50; 100 for 65.00, ppd.

HEDGES

Also See Hedges on following page

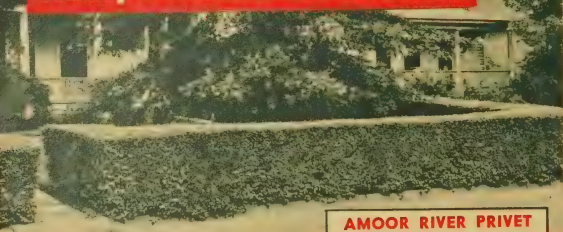

This is a picture of a young Delcon apple tree growing in a nursery row. Note it already is bearing, and the apples are large.

Henry Field's HEDGES

Continued
From Page 27

DWARF PRIVET HEDGE

Grows Only 30 Inches Tall

A1616—We consider this hedge superior to any other for a thick, attractive, low-growing hedge. We have not been able to identify it botanically, but it has fine leaves of deep green, and seems to be mature at about 30" height. Being very dense and slow growing, it needs little pruning. And apparently it is extraordinarily hardy. Plant 12 to 18" apart. We ship plants 9" to 12" high. 12 for 2.98; 25 for 5.75; 50 for 10.50; 100 for 18.49, postpaid.

BARBERRY HEDGE

Perfect Medium Height Hedge

A super hardy hedge good trimmed or untrimmed. Grows 3 to 4' tall. Shiny red berries in winter. Plant 18" apart. **A1625**—GREEN, postpaid.

	12	25	50	100
9 to 12" size	2.65	4.98	8.95	15.95

TARTARIAN HONEYSUCKLE

Grows Fast Anywhere

Best for very tall quick-growing screen or hedge. Attractive flowers in early spring followed by shiny red berries, which will attract birds. Foliage soft, light green in spring. Hardy anywhere. Grows fairly well in part shade. Set 3 feet apart. Your choice of **A1610**—pink flowering, or **A1612**—red flowering. 12 to 18" size, 12 for 2.46; 25 for 4.89; 50 for 8.98; 100 for 16.50, postpaid.

AMOR RIVER PRIVET

The Ideal Trimmed Hedge

A1618—Amor River Privet is the most widely used and most popular trimmed hedge. It is a hardy, fast-growing hedge that becomes increasingly dense and beautiful the more it is trimmed. Its natural habit of growth is bushy, yet upright. The leaves are of a lustrous green color. Its early white flowers are followed by jet black berries.

Plant it two or three feet apart for a tall trimmed hedge. Or, with the same planting distances, it could be allowed to grow naturally and untrimmed to form a screen up to 15 feet tall. Most people plant it 9 to 12 inches apart for a low, thick trimmed hedge. For this it is ideal.

Ppd. Prices	Per 12	Per 25	Per 50	Per 100
9 to 12 in.	1.69	2.98	5.50	9.98
12 to 18 in.	2.15	3.98	6.98	12.50
18 to 24 in.	2.98	5.75	10.50	18.49
2 to 3-ft.	3.70	6.60	12.50	22.98

CHINESE ELM HEDGE

Low Cost, Quick Growing

A1604—Chinese Elms make a beautiful, quick-growing, inexpensive hedge. Leaves out early, has small attractive leaves. Can be kept 1 or 10 ft. high. Cut back half way when planting for a low-growing, thick hedge. Our hedge choice for the midwest. Set 12" apart for low hedge, 2 feet apart for tall hedge.

	12	25	50	100
12 to 18 in. size	.79	1.39	2.49	4.25
18 to 24 in. size	1.29	1.98	3.59	5.98

CLAVEY'S DWARF HONEYSUCKLE

The Perfect Dwarf Hedge

A1614—This is a completely hardy, easily grown, little honeysuckle that never gets more than 3 feet high or 3 feet across. A shearing or two a year will do if you prefer a formal hedge. Otherwise, just let it alone. Set prettily with small red berries in fall. Plant 18" apart for a thick, full hedge. Postpaid prices:

	12	25	50	100
9 to 12" size	3.85	6.95	12.45	21.95
12 to 18" size	4.45	7.95	14.45	26.00

"Which Hedge Shall I Choose?"

For a screening hedge: Tartarian Honeysuckle, Caragana, Chinese Elm, Rosa Multiflora, Spiraea Van Houttei, or Firethorn.

Red or Green Barberry will stay three feet high without trimming. So will the new Clavey's Dwarf Honeysuckle.

For a neat, tailored hedge pruned low and boxy, use Privet, especially Dwarf Privet.

Chinese Elm is a heavy favorite because it is very hardy, a rapid grower, stands trimming well, is very attractive, and costs so little.

For dry areas, use Caragana.

The new Five-Leaf Aralia does well

See Also Hedge Plants on page 27, and the beautiful Evergreen Hedging on page 31.

In sun or shade, and will stand more smoke and dust than the others.

Firethorn stays green all year, but should not be planted north of Iowa.

And don't overlook the hedging possibilities of these plants listed elsewhere in this catalog: Althea, Lilac, Red Flowering Quince, Roses, Bush and Nanking Cherries, and Grapes.

NOTE: All our hedge plants are partially pruned when you receive them, but cut them back to 6" height before planting.

Rosa Multiflora as Field Fencing

This picture tells its own story. The barbed wire fence was unnecessary when the Rosa Multiflora grew up, which takes only about two years. It is thick enough to hold all livestock except an occasional breaky sow. Fine for birds and small game refuge, nature divider, snow stop, fire break, erosion control. And you never have to repair it.

Rosa Multiflora as Yard Fence

Grows up 2 to 6 ft. high, depending upon how you trim it. Makes a beautiful screen, and at same time stops traffic across your yard or garden. Ideal on terraces: stops washing. Does not sucker or spread.

ROSA MULTIFLORA Beauty that Protects

A1624—Rosa Multiflora, the hardy Japanese Rose, gained its popularity first as a living field fence and for shelter belts and erosion control.

But now many people are discovering that it also makes a fine trimmed or untrimmed hedge, even on a small city lot as shown in picture above.

It makes a dense, thorny barrier that stops traffic across your yard or garden. And just as it keeps livestock in a field, it keeps your pre-

school youngsters from wandering out of the yard.

In the spring, even if trimmed, it bears clusters of small, white, wild roses and, in the fall, the berries turn a pretty, bright red. If you let it grow, it will get tall enough to make a good screen and you never have to paint it!

Ideal on terraces because it stops washing. Does not sucker or spread, so does not interfere with nearby plants or garden, and it is

easy to run a lawn mower under its arching branches. Grows 2 ft. to 6 ft. high, depending upon how you trim it. We do not offer the small conservation grade as we believe the loss in planting is too great with that size plants. And our 18" to 24" Super Grade will make you a hedge in a hurry.

Plant 18 inches apart for a trimmed hedge; 2 to 3 feet apart for an untrimmed or tall hedge.

FIVE-LEAF ARALIA

Best Plant for Shade

A1606—(Acanthopanax pentaphyllum). An upright, graceful, dense growing shrub with branches clothed in bright green leaves even to the base. Hardy and grows well in both sun and shade. Stays fresh looking even along smoky, dusty streets. Very drought resistant, and insects do not attack it. Grows 3 to 8' tall but can be kept lower by shearing. Thorns along stems make it impenetrable. Plant 18 to 24" apart: 9 to 12" plants, 70¢ each; 5 for 3.25; 25 for 14.98; 50 for 28.50; 100 for 49.95, pod.

HARDY CARAGANA HEDGE

The Drought Lover

A1603—(Siberian Pea Tree). One of the hardest. Drought, hot winds or grasshoppers can't stop it. Pea-green color. Locust-like leaves. Compact; makes tight hedge. Can be trimmed from 1 foot to 10 feet, or higher. Folks in dry areas ought to pick this one. Will stand the cold too. Plant 18" apart.

Ppd. Prices	12	25	50	100

Sensational Large-Flowered HYBRID CLEMATIS VINIS

LADY BETTY BALFOUR

COUNTESS DE BOUCHAUD

RAMONA

NELLIE MOSER

WHITE HYBRID

CRIMSON STAR CLEMATIS

ROYAL PURPLE COLLECTION
A2409X—3 of the gorgeous Purple Clematis Jackmani described below for only 2.98, postpaid.

PURPLE CLEMATIS JACKMANI

Makes a Solid Blanket of Rich Purple Blooms

A1712—Each flower is about three inches wide, and there are hundreds and hundreds of them—a veritable blanket of velvety purple flowers throughout late spring. Jackmani is sure blooming, grows rapidly, and blooms some the first year planted. Hardy everywhere and, when once established, lives for years. 1.19 each; 2 for 2.19, postpaid.

New Hybrid Clematis Collection

A2411X—1 each of Crimson Star, Lady Betty Balfour, Countess de Bouchaud, and Nellie Moser—all 4 for only 3.98, postpaid.

Now You Can Grow Magnificent CLEMATIS with Blooms Up to 8 Inches Wide

It's Easy with These New Hybrids from Henry Field's

If you have never grown any of the new, larger-flowered Clematis such as the six pictured above, you have no idea how breath-taking their beauty is. People who see them for the first time always exclaim, "My! Such large flowers!" So, if you want Clematis

with flowers from 4 to 8 inches in diameter, and with colors of incredible beauty, plant some of these new varieties.

POSTPAID PRICES for the following six varieties of hybrid Clematis: 1.19 each; 2 for 2.19, postpaid.

We Ship Potted Plants

We ship potted plants only as they transplant better, and will bloom some the first summer.

LADY BETTY BALFOUR

A1715—A wonderful new hybrid Clematis bearing bloom on the current season's growth. Velvety purple-blue flowers up to 4 inches across.

COUNTESS DE BOUCHAUD

A1716—A beautiful new hybrid Clematis in satiny rose to rich pink. Profuse bloomer from July to September. Reaches 8 to 10 feet height. Delightfully different and appealing.

RAMONA

A1718—One of the loveliest and largest of them all. A silvery lavender-blue accentuated by a disk of darker blue. The flower is generally a six-petaled, full flower. Blooms profusely throughout the summer months. Vine is a vigorous grower.

NELLIE MOSER

A1717—Truly an unusual and striking variety of hybrid Clematis. Red bars

accentuate the pale mauve petals. Profuse bloomer. Vigorous grower—gets 10 to 12 feet tall.

WHITE HYBRID

A1714—(Lanuginosa Candida). One of the finest of the large-flowered Clematis. Plant with purple or red varieties for a beautiful effect. Or, if you have a dark-colored house, it makes a beautiful contrast.

CRIMSON STAR

A1710—Rare, new, large-flowering variety—the same type as Jackmani except the flowers are rich red and often 4 to 6 inches across. It blooms over a long period and is very beautiful.

How and Where to Plant Clematis

When planted around a house, large-flowered Clematis always do best on the east or northeast side. In very cold climates, much well with straw or leaves in late fall. They will stand 40 below zero if the roots are properly protected with mulch.

Do not break the stems while planting or the plant will die back to the break. If your soil is inclined to be acid, or sour, work in a little lime before planting Clematis.

Don't forget that Clematis are one of the heaviest blooming, largest flowered, most beautiful, of all climbers. Nothing but a climbing rose even comes close to equalling them.

CLEMATIS BARGAIN

A2406X—Will give you an abundance of beautiful blooms:

- 1 Hybrid Crimson Star
- 1 Hybrid Purple Jackmani
- 1 Golden Flowered Clematis
- 1 Hybrid White Clematis

All 4 plants for only 3.98, postpaid.

Beautiful Clematis Collection

A2410X—1 each of Purple Jackmani, White Hybrid, and Crimson Star—a purple, a white and a red—all 3 for only 2.98, postpaid.

Clematis Paniculata The Fragrant, Fall Bloomer

A1713—This is the fragrant, fall-blooming Clematis vine. It has a mass of dainty white blooms all through the late summer and fall. Plant one by the kitchen door where it will perfume the whole inside of the house. Clematis Paniculata will grow well in considerable shade too. 98c each; 2 for 1.85, postpaid.

GOLDEN FLOWERED CLEMATIS Hung with Golden Bells

A1711—(Tangutica). Did you ever see a Clematis vine with golden bells hung all over it? Well, here it is. Hardy as a rock and will grow anywhere. Beautiful cut-leaf, dark green foliage. Like the fragrant fall Clematis, it dies down each year, then grows 15 to 20 feet next year. Potted plants, 1.19 each; 2 for 2.19, ppd.

MOONFLOWER VINE

An Old Favorite Returns

A1747—We're glad to have this old favorite again. Over twenty years ago, Henry Field planted some around his house. They still are there, in the same place, and bloom beautifully each summer.

Moonflower Vine is entirely hardy, makes a vine some 15 feet or better tall, and has flowers like huge white morning glories. They open at noon, and remain open the rest of the day and into the night. The foliage is rich, dark green. The vine will completely cover a large trellis in a year, and then be there for many, many years. It has one big, bulbous root and does not spread; just keeps getting bigger. 1.25 each; 2 for 1.98, postpaid.

ORNAMENTAL VINE COLLECTION

A2408X—1 each of Perennial Moonflower, Purple Wistaria, and Silver Lace—all 3 vines for only 2.75, postpaid.

SILVER LACE VINE

A1761—Grows very fast—25 to 30 feet first summer. Will cover a building, wall or barn in 2 years. Foliage clean; flowers lacy white and cover the vine from ground to tips in early fall. Does best in warm, sunny exposure, and in soil that is well-drained, sandy, fairly rich. 89c each; 2 for 1.69; 5 for 3.89, postpaid.

VINES

ALSO SEE VINES ON FOLLOWING PAGES

PURPLE WISTARIA

A1751—Sure to bloom because of proven from blooming plants. It gets more beautiful each year, and lasts for generations. Fragrant flowers in May and June come in big purple clusters with long, narrow, attractive foliage. Should have full sun. Grows 20' or more. 1.00 each; 2 for 1.89, postpaid.

VINES

Also see vines on pages 28 & 29

Henry Field's Hardy HONEYSUCKLE VINES

A1732—NEW SCARLET (Lonicea sempervirens Magnifica). Valued for both its foliage and the showy, orange-red, trumpet shaped flowers. The semi-evergreen foliage is a glossy, shiny green. Grows any place, even in a somewhat shaded location. Select vines, 89c each; 2 for 1.69, postpaid.

A1731—PINK FLAME HONEYSUCKLE. A mass of color from early summer to killing frost with long tube-shaped flowers of delightful fragrance. Foliage almost evergreen. Extremely hardy. Extra select vines, 89c each; 2 for 1.69, postpaid.

Lowly IVIES

Ivies are the most useful of vines because they are entirely hardy practically everywhere and do well in almost any soil. They grow higher, stronger, and broader than any other vine.

A1741—BOSTON IVY. Clings tightly to brick or stone support. Small dark green leaves grow close together. Select vines, 79c each; 2 for 1.49, postpaid.

A2401X—Special Wall-Covering Boston Ivy Bargain. Plant 8 to 10 feet apart. 6 vines for 2.99; 10 for 5.49, postpaid.

A1742—ENGLISH-MANN'S IVY. Also clings to rough walls, and is extra hardy. Never injured by cold-est winter. Grows fast and soon covers an entire wall. Select vines, 79c each; 2 for 1.49, postpaid.

A1739—AMERICAN IVY. A fast grower, with dense green foliage that turns to vivid colors in the fall. Gives you shade in a hurry. Select vines, 79c each; 2 for 1.49, postpaid.

Photo at left shows Baltic Ivy used for covering wall. Right shows it used as an excellent ground cover.

BALTIC IVY

A1740—Looks like English Ivy but is hardier and has smaller, more cut leaf. Does best in shade. A good indoor pot plant too. A wonderful, evergreen vine on north or west side. An ideal ground cover and bank binder because it stays green the year around and grows in shaded areas where grasses often won't. Spreads and covers rapidly, but does not become a pest. Plant 2 feet apart each way for ground cover. We ship pot-grown plants which start growing as soon as you plant them. 59c each; 2 for 1.12; 10 for 5.29; 50 for 22.50; 100 for 38.95, postpaid.

A1734—REDGOLD (trademark registered) (Lonicea Tellimanniana). Extremely low flowers that are very striking. The buds are golden, flushed with red. They open into huge, intensely golden trumpets.

The foliage is very clean, light green above, blue-green below. Blooms in May and June. 98c each; 2 for 1.85, postpaid.

A1730—HALL'S HONEYSUCKLE. Has masses of fragrant white and yellow flowers from late spring throughout summer. Will bloom some on the north side. Foliage shiny and glossy.

Useful as a bank binder too. Select vines, 59c each; 2 for 1.08; 5 for 2.49, postpaid.

TRUMPET VINE

A1767—The great big striking orange-scarlet flowers make this a prized vine. It is super hardy and a rank, heavy grower. It is one of the old favorites that continues popular because of its gorgeous honey-filled blooms. This is an improved strain. Select vines, 79c each; 2 for 1.49; 5 for 3.39, postpaid.

BITTERSWEET VINE

A1703—The true orange-coated red berry Bittersweet which is so beautiful in the fall. The foliage is a very attractive glossy green. You should plant two or more vines for proper pollination so you'll be sure to get a good crop of berries. Select vines, 79c each; 2 for 1.49; 5 for 3.39, postpaid.

Henry Field's EVERGREENS

Priced as Low as Other Shrubs

SEE ILLUSTRATIONS AT RIGHT

Here are evergreens priced as cheap as shrubbery. Our illustrations are of mature plants; however, we do not ship plants of this size—we ship young, vigorous, smaller plants which will quickly grow into fine specimens. They have been transplanted 3 times in the field to make heavy, compact roots. You save money by buying this size.

We ship them at correct planting time in a special moss that keeps roots moist. Remember, these are not balled and burlapped evergreens—they do not need to be in these smaller sizes.

HOW TO PLANT: Keep in moist till hole is dug. Do not expose roots to air. If they look soggy in water a few minutes before planting. Keep at least 3 ft. from house foundation. Water well in dry spells, both summer and winter.

5 Upright Evergreens

IN3—PYRAMIDAL SILVER JUNIPER (Scopulorum). Tall pyramidal-growing tree. Set at each side of doorway for accent. Color is a soft silvery green. Grows 10 to 12 ft. tall. Can be trimmed any height. Very hardy. 12 to 18", 2.35 each; 3 for 5.75, postpaid.

IN14—PYRAMIDAL ARBORVITAE. A hardy, adaptable, upright evergreen of rich dark green. Grown to a 15-ft. pyramidal or can be kept 4 to 5 ft. by shear

ing. Occasionally foliage browns in early spring but greens up again. 12 to 18", 2.40 each; 3 for 5.98, postpaid.

IN17—HEMLOCK. The most graceful of all evergreens. Will do well in partial shade and even make a good showing in heavy shade. Grows in full sun, too. Ideal evergreen to plant if your home has a shady front. Foliage is a fine feathery green, and can either grow naturally or be sheared. Likes plenty of moisture. 10", 18", 2.10 each; 3 for 5.15, postpaid.

IN19—RED CEDAR (Virginia Juniper). A beautiful, silvery green pyramidal tree. Perfectly hardy and resistant to drought, is native to the midwest, thus is well adapted to our soils and temperatures. Bright blue berries. 12 to 18", 1.85 each; 3 for 4.30, postpaid.

IN18—UPRIGHT YEW (Taxus Media Hatfield). The aristocrat of upright evergreens. One of the most beautiful. Makes pyramid of deep green, waxy foliage. Has bright red berries. Size of small marbles in fall. Does well in partial or heavy shade. Shears well. 12 to 18", 2.60 each; 3 for 6.55, postpaid.

6 Low-Growing Evergreens

IN4—PFITZER JUNIPER. Most popular of all low-growing, spreading evergreens. Dark green. Ideal in front of tall evergreens or shrubs, at corners of lot, cemetery planting or rock gardens. Spreads 3 to 4 ft. and sometimes makes arches when full grown. 12 to 18", 2.40 each; 3 for 5.98, postpaid.

IN15—ANDORRA JUNIPER. A comparatively new variety originating in Maine. Very low

GROUND COVER AND BANK BINDER OFFER

IN50X—5 spreading Creeping Junipers which grow right along the ground. Make a permanent grave blanket. Ideal for holding terraces. 10 to 12" plants, 6.98, postpaid.

SPECIMEN OR LAWN TREES

These trees are beautiful, large growers. Make fine specimen trees for the lawn, parkways or either side of the walk. Do not use for foundation plants close to house.

IN1—COLORADO BLUE SPRUCE. Most beautiful of all evergreens. Silvery blue-green, tall-growing, compact and perfectly shaped. Slower growing but worth waiting for. 10 to 12", 2.10 ea.; 3 for 5.15, postpaid.

IN2—NORWAY SPRUCE. Tall grower, tapering quickly to a point. Dark green needles. Very hardy. Grows 20 to 30 ft. tall. A fine living Christmas tree. 9 to 12", 2.00 each; 3 for 4.90, postpaid.

IN6—BLACK HILLS SPRUCE. Beautiful grey-green, cone-shaped spruce. Native to Black Hills. A lot of dryness and cold. A good living Christmas tree. 9 to 12", 2.35 each; 3 for 5.75, postpaid.

FOUNDATION COLLECTION

- 2 Pfitzer Junipers, 12" to 18", All 4 Only \$7.50
- 2 Pyramidal Arborvitae, 12" to 18", Postpaid
- IN55X—A bargain collection of two spreaders and two upright growers that you can use around the front steps, the porch, in front of foundation—almost anywhere in the yard.

Transplanted SEEDLING EVERGREENS

Just the thing for windbreaks, shelterbelts, erosion control and to grow to ornamental specimens. Also make wonderful evergreen hedges.

IN36—JACK PINE. Fast growing. Very hardy and one of the easiest evergreens to transplant. Broad and bushy growing.

IN38—PONDEROSA PINE. Very heavy. Excellent for windbreak, ornamental or timber planting.

IN39—SCOTCH PINE. Very heavy. Shorter needles than other pines and of a light green color. One of the best windbreak evergreens.

IN40—BLACK HILLS SPRUCE. Native of South Dakota, so stands lots of cold and dry weather. Cone-shaped, dark green.

IN37—NORWAY SPRUCE. Tall growing, very hardy. One

of the best for windbreak and shelterbelts. Dark green pointed needles.

IN41—COLORADO BLUE SPRUCE. Bright silvery blue. Very compact growing. Showiest of all evergreens.

IN42—AMERICAN ARBORVITAE.

VITAE. Fast growing and hardy with soft foliage of rich dark green. Hardy in the north, though it may brown a bit in early spring.

IN43—U.S. FRANKLIN PINE. Deep rich green color. Fast growing but makes a compact, wind-resisting tree. Our favorite pine.

Evergreen HEDGES

Stay Beautiful Year 'Round

There is no hedge more beautiful than an evergreen hedge. Not only is its soft rich green a beautiful hedge in the summer, but throughout the winter. Then especially, when the shrub hedges are barren and desolate, will you appreciate it. The evergreen hedge will cost you somewhat more to install than a shrub hedge, but you certainly will have more too. As you enjoy the evergreen hedge the year around, year in and year out, you'll realize that you more than got your money's worth.
Shear an evergreen hedge just as you would a privet hedge—only it won't need shearing as often. It may be kept anywhere from 3 to 6 feet high very easily.

NORWAY SPRUCE HEDGE

IN70—Norway Spruce makes a solid, impenetrable hedge of rich dark green beauty. It is best to keep it sheared narrower at the top than at the bottom to allow light to hit the lower branches. Plant 18 inches apart in row. 10 to 12" transplants, 10 for 3.05; 25 for 6.30; 100 for 22.95, postpaid.

AUSTRIAN PINE HEDGE

IN71—Austrian Pine unquestionably makes one of the best hedges. Shows remarkable resistance to the gas fumes and smoky atmosphere of the city, making it ideal if you want a hedge on a busy street or road. Rich dark green in color and extremely hardy. Plant 18" apart in a row. 10" to 12" transplants, 10 for 2.70; 25 for 5.35; 100 for 18.15, postpaid.

AMERICAN ARBORVITAE

IN72—One of the best of all evergreen varieties for hedging. Grows well, is hardy, has attractive dark green coloring, and is easy to shear. Most of the evergreen hedges in the United States are of American Arborvitae. 10 to 12" transplants, 10 for 2.70; 25 for 5.35; 100 for 18.15, postpaid.

See Descriptions and Prices at Left

TREES

of COLORFUL FOLIAGE and BRIGHT FLOWERS

To Make Your Yard a Place of Shade and Beauty Year After Year

How to Select the Proper Trees For Your House

In planning what trees to plant in your yard, consider the height to which they will grow. For instance, if you have a ranch type house, you may wish some that do not grow so tall. It may help you also to bear in mind that these trees may be divided into these three general kinds:

- 1) the shade trees with green foliage, such as elm, willow, locust and linden.
- 2) the ones with colorful foliage, such as the red maples, Harlequin maple, or purple leaf plum.
- 3) the flowering trees, such as the flowering crab apples and flowering peaches, magnolia, red bud, etc.

By combining the three kinds, you can get some very beautiful effects. Probably the green-foliaged trees should be the basic planting, with some of the colorful foliage trees mixed in for variety. You can depend upon both of these kinds for shade.

Then, for accent and breath-taking beauty in the spring, add some of the flowering trees.

Such a planting is permanent, providing you each year not only with shade but with a pageant of beauty from early spring until late fall.

And, what is perhaps the best of all, such a group of trees, once established, requires very little further expense.

P.S. Don't forget that trees on your lot not only add to your comfort and your enjoyment of your home, but they actually increase the value of your property.

FLOWERING PEACH TREES

These are among the most colorful of flowering trees. The large, double, showy flowers fairly cover the branches in early spring. These varieties can be grown anywhere that ordinary fruit peaches will thrive. There is a beautiful tree of Double Scarlet growing at the Sterling Morton estate in Nebraska City, Neb., which has bloomed there, year in and year out, for more than fifteen years.

Normally, flowering peach trees make a fifteen to twenty-foot tree

at maturity. They are far more brilliant in color than flowering crabs or cherries. And most flowering peach trees occasionally get some fruit which, although small in size, is very sweet with an intense perfume.

A4280—DOUBLE SCARLET. Huge double blossoms 2 to 2½ inches across. Occasionally sets fruit that is small but very sweet.

A4273—BURBANK DOUBLE PINK. Double soft pink. These are probably the largest flowers of all and measure up to 3" across. They entirely cover the tree.

THE NEW VARIEGATED CRAB APPLE

A4262—Harlequin is a Norway Maple with a beautifully variegated leaf, as shown in the picture of a leaf at the right. Harlequin will do well anywhere ordinary Norway Maples will. It is round-headed, attaining the maximum height of about 30 feet. A wonderful street tree because it doesn't get too

TREE WISTERIA

Beautiful dwarf size trees, loaded with immense clusters of Wisteria bloom. Grow in umbrella shape and, by slight trimming, can be kept that way. Or the branches may be allowed to trail to the ground. Mature height is six to eight feet. These are the genuine grafted true-color Tree Wisterias, and we ship them in the one size only:

A4303—Blue. **A4304—Pink.** **A4305—White.** 2 to 3-foot size, 2.98 each; 2 for 5.49, postpaid.

A4277—SNOWBANK. Fully double, purest white blossoms in great profusion. Very striking when replanted with the red and pink.

Postpaid prices on above trees:

3 to 4-foot size, 1.98 each; 2 for 2.75. 4 to 6-ft., 1.98 each; 2 for 3.75, postpaid.

A4278—PEPPERMINT STICK. Has huge double flowers that are striped red and white. This tree is unbelievably beautiful when in bloom with its multitude of huge, double blossoms, striped like peppermint candy sticks. 3 to 4-foot size, 1.49 each; 2 for 2.75. 4 to 6-ft., 1.98 each; 2 for 3.75, postpaid.

ALL FLOWERING CRAB APPLE TREES SHIPPED ALREADY PARTIALLY PRUNED FOR PLANTING.

CARDINAL
A4210—(Red Flashed Crab). A beautiful ornamental with deep pink flowers and wide-spreading branches. Bears delicious, large oval crab apples that are red to the core. Makes wine-red jelly of delicious flavor. Early bearing.

DOROTHEA
A4218—A fine new Flowering Crab Apple originated at the Arnold Arboretum, Boston, Mass. It is an ideal tree for a suburban lot since

THREE FOR 4.19

A2927X—1 each of Red Silver, Hops, and Cardinal. 2 to 3-foot size —all three for only 4.19, postpaid.

tall. A few years ago we heard of this variegated leafed Norway Maple on the west coast, and had a few trees shipped. We planted one in our show grounds, and when it began to show up in size, folks visiting us here marvelled at it. We offered them just three years ago for the first time. Cost you just the same as Crimson King. Strong trees, 4 to 5-foot size, 4.29 each, express not prepaid. Supply limited.

Schwedler's RED LEAF MAPLE

A4286—Perfect in shape with brilliant red foliage in the spring, shading to bronze in the summer. A beautiful tree with a round symmetrical head. Long-lived; will add permanent beauty to your yard. Plant 35 feet apart. Prices, express not prepaid, 5 to 6-foot, 3.25 each; 2 for 5.98; 6 to 8-foot size, 4.50 each; 2 for 8.25.

MOUNTAIN ASH

A4260—Foliage is a beautiful green against a light, smooth bark. Has a broad head, very compact, with gorgeous creamy-white blossoms in spring followed by brilliant red berries in late summer and fall. Grows rapidly to height of thirty feet at maturity. 4 to 5-foot, 2.49 each; 2 for 4.69; 5 to 6-foot, 3.25 each; 2 for 5.98, express not prepaid.

MAGNOLIA SOULANGEANA

A4259—This is the most popular hardy Magnolia; the one with the great pink cup-shaped flowers in the spring before

the leaves come. Seldom gets over 12 feet tall so makes a nice lawn tree. Plant in sheltered place. Folks south of Iowa should have no trouble but is doubtfully hardy from Iowa north. There are several beauties right here in Shenandoah. 2 to 3-foot root-wrapped plants, 3.75 each, prepaid.

RED BUD

A4281—The first spring bloomer—a beautiful sight with leafless branches packed tight with rosy-red blooms. Leaves big, heart-shaped, and dark green. Doesn't grow large, so plant where you want a pretty shade tree that takes little room. 2 to 3-foot size, 98¢ each; 2 for 1.89. 3 to 4-foot, 1.49 each; 2 for 2.69, postpaid.

NEW CRIMSON KING MAPLE

A4214—This new French hybrid of the crimson-leaved, hardy maple tree (covered by Plant Patent No. 735) is the most showy of all trees in foliage. In early spring, the young leaves are a brilliant, fiery crimson. They continue this bright color until well along in the summer, when the upper side of the leaves deepen to a rich brick-red tinted green, with undersides of green. Do not expect any red leaf maple to keep its brilliant springtime red throughout the summer; it won't. But Crimson King is the reddest of all red maples, including Schwedler's. Never grows more than about 30 feet tall. 4 to 5-foot size, 4.29 each, express not prepaid.

See Illustrations at Right

TREE HYDRANGEA

A4237—Just like the fall-blooming bush Hydrangea P.G. excepting that it has been grown into tree form. It makes a beautiful small tree for your yard, lawn, or parkway. And it is just as hardy and tolerant of most all conditions as the bush form of Hydrangea. The huge clusters of blossoms load the little tree each fall, changing gradually from milky white to bright pink. If you wish to keep the tree miniature, cut back all new growth to two buds in the fall or early spring. 2.49 each; 2 for 4.70, postpaid.

See Illustrations at Right

PURPLE LEAF PLUM

A4275—(Prunus Newport). In its spring-flowering time, it has myriads of white or pale pink blossoms scattered through the brilliant red foliage like thousands of stars. The leaves stay red all season. Very hardy. Grows in shrub form, or may be trimmed to tree form.

	Each	Per 2
2 to 3-foot, ppd....	1.49	2.79
3 to 4-foot, ppd....	1.79	3.29
4 to 6-foot, ppd....	1.98	3.79

DOGWOODS—Pink or White

A4215—PINK FLOWERING DOGWOOD. This is a hardy Dogwood (except north of Iowa) that should do well for all of you. It does well in partial shade too. The tree is literally smothered with deep pink flowers before the leaves come in the spring. Root-wrapped, 18" to 24" size, 2.69 each; 2 for 4.98, postpaid. 2 to 3-foot size, 2.98 each; 2 for 5.49, postpaid.

A4216—WHITE FLOWERING DOGWOOD. Same as above except flowers are pure white. 2 to 3-foot size, 1.79 each; 2 for 3.39, postpaid.

fine for the home yard because it grows only 12 to 15 feet high. Its large, glowering pink blossoms are semi-double and rose-like. It is one of the finest of all flowering trees. Prices are same as Almey.

HOPA

A4236—Most popular of all flowering crab apples. Completely covered in the spring with bright pink, fragrant blossoms. From late summer far into freezing time, the branches are covered with tiny apples that make tasty jelly.

ALMEY

A4203—A new and very beautiful crab apple tree from Canada. Has unusually bright, rosy-red flowers, each with a white star at its center. Grows 12 to 15' high. Fruit small and scarlet. Blossoms when very young. Best red flowering crab to date. Postpaid prices:

Flowering Crab Apple trees are one of the most beautiful and useful group of small trees we know of. Their blossoms vary from snowy white to almost crimson, followed by glistening fruit. Some varieties have foliage that is bronzy red and silver. They make perfect screen, lawn trees, and small shade trees. In addition, from some you get pails of luscious, highly flavored fruit for cooking, jellies and jams.

it develops into a small, round-headed tree, eventually getting about fifteen feet tall, with dense branches and foliage. The very large flowers are about 2 inches in diameter and are semi-double to double with from 10 to 16 petals. To add to its beauty, it bears a heavy crop of bright yellow little crab apples, each one about half an inch in diameter. Prices are same as Almey.

RED SILVER

A4279—A gorgeous tree that actually outshines the famous Japanese Cherries in beauty. Has cut-leaved bronzy-green foliage beautifully suffused with silver. The flowers are a showy crimson. The fruit is a rich maroon-red (highly ornamental) and unsurpassed for jellies and preserves.

VAN ESELTIME

Has Semi-double Blossoms

A4298—This new Flowering Crab is one of the most beautiful of all. It is

CHINESE ELM

Genuine Siberian Strain

Chinese Elms are planted by the millions throughout the midwest and western United States because of their rapid growth and beauty, and because they will withstand climatic and soil conditions few other trees will tolerate. They take extreme cold and extreme dryness equally as well, and thrive on the poorest of soils, even alkali. And, being an Oriental elm, Chinese Elms are highly resistant to phloem necrosis and Dutch Elm disease.

Many Uses

Chinese Elms make a good tree for quick shade, and cannot be beat for shelterbelt and windbreak planting. They make as good a hedge, pruned low or high, as you've ever seen.

Field's Have Selected Strain

Henry Field's Chinese Elm seedlings and trees are well-rooted and well-branched—good enough so that over the years we have built up a demand that takes hundreds of thousands of them each year. Seed for our Chinese Elms is gathered in South Dakota, and originally came from Siberia, where only the hardest of trees survive. They will stand temperatures of 30 degrees or more below zero, thrive on soil good and bad, weather wet or dry.

75—18 to 24" Size for Only 43¢

A2699X—These low-priced Chinese Elms are small enough to use for windbreaks and large enough to plant for shade trees. Planted in corner of feed lot or field, protect livestock from sun. Fine for hedges. All 75 for 4.39, postpaid.

CHINESE ELM for SHADE

A4420—The 3 to 4-foot size is shipped postpaid. The other sizes are shipped express not prepaid.

Each	Per 2	Per 4	Per 10
Heavy Rooted, 3 to 4 ft. size. .05	1.69	2.98	6.50
Heavy Rooted, 4 to 5 ft. size. .125	2.29	4.19	9.45
Heavy Rooted, 5 to 6 ft. size. .165	2.98	5.58	12.95
Heavy Rooted, 6 to 8 ft. size. .225	4.10	7.75	18.50

NOTE: These are all heavy, well-rooted, transplanted trees, straight and full of life. The best size for planting for shade trees.

Chinese Elms are one of the most satisfactory of all trees for use in windbreaks.

See Page 36 for more windbreak trees and information.

WINDBREAK BARGAIN

150—9 to 12-in. Size for 3.98

A2862X—Just stick a spade in the ground, plant one at each side of the spade cut. Tramp them in well and, if both grow, after they get 2 feet high either chop one out (which you can well afford to do at this low price) or transplant one to another location. 150 9 to 12" Chinese Elm Seedlings for only 3.98, postpaid.

GRAFTED PECAN COLLECTION

A2873X—1 each of Giant Mahan, Stuart and Success, 2 to 3-foot size, for 8.39, express not prepaid. See page 2 for express rates.

GRAFTED PECANS

How to Plant NUT TREES

Cut back branches heavily if trees you receive are branched. Dig deep hole as roots are generally long. Set trees just as deep as they stood in the nursery row. Firm soil well and water thoroughly. Stake and tie first year. Water once every two weeks first summer unless you get heavy rains. Some nut trees start slowly, so be patient with them.

GRAFTED PECANS

The secret of getting grafted Pecan trees to live is to dig them in a long row. Heavy bearers of valuable nuts—will pay your taxes. Plant 35 feet apart. Bear in about five years.

A4116—Giant Mahan. World's largest and most popular. True paper shell.

A4117—Stuart. Large well-filled nuts. Bears regularly. Suited to all sections and soils. Some thriving here in Shenandoah.

A4118—Success. One of the best varieties for the midwest and the eastern half of U. S. Beautifully shaped tree with large, oblong nuts, plump, sweet and medium thin shell. Trees bear heavily and are self-fertile.

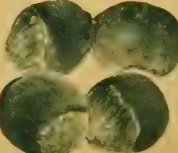

Grafted Pecan Prices

NUT TREES for Beauty, Shade and Food

SHAGBARK HICKORY

HAZELNUT

Real Bargain NUT TREE OFFER

- 1 Butternut, 2 to 3 ft.
- 1 Hardy Pecan, 2 to 3 ft.
- 1 Shagbark Hickory, 12 to 18"
- 2 Hazelnut trees, 12 to 24"

A2868X—All 5 for only 3.29, postpaid.

HARDY PECANS

A4115—The native mid-west, hardy type. Gives heavy yield of fine quality delicious nuts and make beautiful ornamental and shade trees. Vigorous grower. 18 to 24" size, 98¢ each; 3 for 2.69. 2 to 3-foot, 1.25 each; 3 for 3.45, postpaid.

SHAGBARK HICKORY

A4107—The grand old Shagbark nuts so wonderfully flavored. Wood is very valuable. 12 to 18" size, 79¢ each; 3 for 2.10; 12 for 7.20, postpaid.

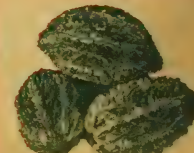

CHINESE CHESTNUT

A4103—Imported from China to replace American Chestnut trees which blight took. Rapid grower, heavy producer, early bearer. Nuts large, sweet and richly flavored. 18 to 24" size, 1.60 each; 3 for 4.19. 2 to 3-foot, 1.98 each; 3 for 5.50, postpaid.

HAZELNUT

A4104—The good-eating, easy-to-crack nut. Bears heavily each year. Hardy in any climate. Really a shrub; makes fine ornamental about 6' high turning red and yellow in fall. When planted in a row, makes good hedge or screen. Be sure to plant two or more to insure pollination. 12 to 24" size, 79¢ each; 3 for 2.10; 12 for 7.20, postpaid.

CHINESE CHESTNUT

BUTTERNUT

BUTTERNUT

A4100—One of the most popular and best eating nuts. Large, with rich buttery flavor. Wood is esteemed for furniture and interior trim. 2 to 3-ft., 89¢ each; 3 for 2.39, 3 to 4-ft., 1.10 each; 3 for 2.98, postpaid.

HARDY ENGLISH WALNUT

A4125—Parent trees from northern New York state have borne for many years—large and paper shelled like English walnuts you buy. Trees grow large, round, and are deep green color. Ought to be hardy away in into the Dakotas. 2 to 3-ft. size, 2.89 each; 3 for 7.98, postpaid.

NUT TREE COLLECTION

A2874X—1 Hardy English Walnut, 2 to 3-foot size; 1 Butternut, 3 to 4-foot; 3 Hazelnuts, 12 to 24-inch—all five for only 5.49, postpaid.

HARD MAPLE

A4287—(Sugar Maple). Nature's most beautiful permanent tree; it lasts for generations. Compact, round-headed, dense growing. Large green leaves turn bright red and gold in fall. Plant 3 1/2' apart. All our trees are nursery grown. Prices, express not prepaid:

	Each	Per 2
4 to 5' size	3.50	6.50
5 to 6' size	3.98	7.45
6 to 8' size	4.98	9.45

PINK FRENCH PUSSY WILLOW

A4284—Highly prized for use in spring bouquets. Huge, fuzzy catkins. First silvery gray, then turn silvery pink to rose pink peppered with hundreds of golden stamens, finally becoming solid gold. Fine for forcing.

Postpaid Prices	Each	Per 2
12 to 18" size	.98	1.79
18 to 24" size	1.39	2.49
2 to 3-foot size	1.75	3.29

A DOGWOOD that's RED . . . not pink!

A4221—RED FLOWERING DOGWOOD "Cherokee Chief" (Pat. Pending). For years we have watched for a flowering dogwood with really red blossoms. We found it in Tennessee, and are happy to be one of the first to offer it. It holds its color of clean, rich, ruby red throughout the blooming season. Its foliage also has added brilliance; the new growth is a bright red, much deeper than the ordinary flowering dogwood. In the fall, the leaves change to bright scarlet shading to green.

Cherokee Chief will grow wherever other flowering dogwoods grow (probably not hardy north of mid-Iowa). Plant in a protected location. Full-grown tree is small, 24 to 30-inch trees, 4.19 each; 2 for 7.95, postpaid.

Lovely, Fast-Growing WEEPING WILLOW

Very Hardy and Grows Well Anywhere

A4300—The true Niobe, hardest and most beautiful of the willow trees. Has a bright golden yellow bark and true, willowy, drooping branches. The leaves are fine and narrow.

It is hardy everywhere, and while it loves moist places, it thrives also in dry places. The best for pool backgrounds, but also becoming more popular every year as a specimen tree on the lawn. It is fast growing, requires no care, and gives good shade. WEEPING WILLOW PRICES:

Plant	Size	Postpaid	Each	Per 2
1 to 30"	2 to 3-foot	postpaid	.85	1.49
3 to 4-foot	postpaid	.98	1.89	
4 to 5-foot	postpaid	1.19	2.19	

Graceful BIRCHES

The Beautiful, Romantic Trees

This is the beauty tree of the American woodlands—the one that through the years has captured the fancy of poets and fiction writers.

It is hardy and easily grown. Water it well in dry spells, as its roots are close to the surface. The branches cast a light, filtered shade which allows a good lawn to grow under the tree.

NOTE: Young white birches have dark brown bark; may not turn a good white for several years.

A4211—CUTLEAF WEEPING. White bark with graceful weeping branches. Leaves finely cut, a beautiful shade of green. Beautiful in spot by itself. 4 to 6-foot trees, 2.45 each; 2 for 4.69, express not prepaid. See page 2 for express rates.

A4302—PAPER WHITE. An upright variety whose leaves turn a brilliant, golden yellow in the fall. 4 to 5-foot size, 1.98 each; 2 for 3.69, express not prepaid.

A4306—WHITE BIRCH CLUMP. With this you can transport the most beautiful sight of the woodlands to your own yard. The grace and beauty of a White Birch Clump can not be excelled. We offer clumps of 3 or more distinct trunks on one or more root systems. After two or three years, the bark will turn white and remain white winter and summer. The shade from a birch tree is so light that grass grows well under it. In the fall, the rich green birch leaves turn a brilliant yellow. Trees attain a height of 25 to 30 feet. Entirely hardy. 3 to 4-foot size clumps, 3.50 each; 4 to 5-foot size clumps, 3.85 each, express not prepaid. See page 2 for express rates.

The Beautiful New SUNBURST LOCUST

A4257 (Plant Pat. #1313). This striking new golden-tipped tree is rapidly becoming popular. Every branch has an eight to ten-inch tip of bright, golden colored leaves that contrast brilliantly with the bright green of the other foliage. Thus the tree appears to be in bloom all summer.

"Sunburst" Locust needs no special care, and grows well in most any soil. It has a broadly pyramidal head and an excellent branching habit. The tree is absolutely seedless. It has been planted from coast to coast and its branches have proved highly resistant to ice breakage.

4 to 5-foot branched trees, 6.50 each; 2 for 12.50, postpaid.

The above Henry Field Hybrid Elm is typical of the thousands now growing throughout the United States. Apparently it is immune to the serious elm diseases.

Fastest Growing Tree in the U.S.A.!

HENRY FIELD'S HYBRID ELM

If you want shade in a hurry, yet want a tree that is hardy, long-lived and hard-wooded, Henry Field's Hybrid Elm is the tree for you. It grows faster than any other tree in the United States, bar none—even faster than the soft-wooded, short-lived poplar. It evidently is a hybrid (although we do not know the cross), combining beauty and permanence with an extremely rapid growth.

Extra Hardy—Grows Anywhere

Henry Field's Hybrid Elm thrives in any type soil, and keeps right on growing in weather hot or cold, wet or dry. The leaves are large and dark green; the branches straight and strong, with great resistance to breakage from high winds, ice, and snow.

15-Year Record of Disease Resistance

Apparently Henry Field's Hybrid Elm is im-

PRICES ON FIELD'S BARE-ROOT HYBRID ELM TREES (not potted)

4 to 5-ft., exp. not pdd.	3.29	6.39
5 to 6-ft., exp. not pdd.	3.69	7.19
6 to 8-ft., exp. not pdd.	4.25	7.98

NOW! A POTTED HYBRID ELM

A4230—This tree is shipped to you potted, still in the same soil it grew in. In addition, the whole tree is wrapped in polyethylene plastic film to prevent drying out. Then it is put into a special reinforced shipping carton to prevent breakage. This potted tree does not suffer any setback from transplanting; there is practically no chance of loss. 2 to 3-foot size, 2.98, postpaid.

Susan was 3 when this Henry Field Hybrid Elm was planted. When she was 5, the tree was over 25 feet tall!

Left: Chinese Elm foliage. Center: American Elm foliage. Right: Hybrid Elm foliage. The larger leaf, plus faster growth, gives you shade sooner.

A4047—RUSSIAN OLIVE. Very fast growing. A beautiful silver color. A relief from usual windbreaks. Tight grower.

The trees described and priced here are ideal for conservation reserve windbreaks, shelterbelts, erosion control, wild life food and shelter, screens, farm woodlots, fence posts, shade and protection for the farm animals.

WINDBREAKS

For Year 'Round Protection, Comfort

A good windbreak will protect the home and feed lot, help cut the fuel bill, and provide firewood and lumber. Most windbreaks are designed to give protection from the north and west winds, but the location depends primarily upon the direction of prevailing winds, buildings, orchards or crops to be protected. Trees for each row may be chosen according to needs or taste, but generally low trees should be on the outside, then taller ones to about 3/4 way back, and then low ones again. (Evergreens are best for the inside row.)

See listing of windbreak evergreens on page 30.

The windbreak illustrated above has the minimum number of rows of trees. In most areas, and for most purposes, you will want more rows.

A4012—CHINESE ELM. See page 34.

A4007—BLACK WALNUT. Fine tree for groves.

Bears heavy crop of nuts. Makes good windbreak.

Hardy. Good investment for poor farm land.

A4011—CARAGANA. See under hedges on page 28.

A4046—RUSSIAN MULBERRY. Grows fast. Lots

of fruit. Very hardy. Grows very dense. Attracts birds.

Our Special

CHINESE ELM WINDBREAK

A2992X—If you want a quick, tight windbreak or hedge in a hurry, here's the bargain for you. Some 6 in. Chinese Elms grow to 6 ft. in 1 year, so these big 1 1/2 ft. trees will give you a windbreak quickly.

RUSSIAN OLIVE - The Silver-Gray Tree

A4283—Fine, silvery-gray foliage, small olives. Can be used for a tall shrub also. Likes sandy, poor land, stands wind and drought well. Ideal for dry prairies. The soil erosion and shelterbelt people use Russian Olive trees by the thousands. Plant 15 feet apart.

Tall and Stately LOMBARDY POPLARS

A-4255—This is the low-priced, fast growing, beautiful tree so often used along the sides or back of a lot as a background, lot divider, or screen. And it has no equal as a tall border along a driveway, or as sentinel trees by a gate or entrance. However, it also has great beauty and value as a specimen tree on a

lawn and, because it grows slender and tall, often can be used where the broader growing trees can not.

If used in a row, plant them 6 to 8 feet apart.

LOMBARDY BARGAIN

A2904X—10 beautiful Lombardy Poplars, 3 to 4-foot size trees, pruned for planting, and for prepaid parcel post shipping, 3.25 postpaid to your door.

The New Silver-Leafed BOLLEANA POPLAR

A4205—A new type of pyramidal poplar with bark that is silvery-gray, leaves green on top, silvery white underneath. Sparkles in the wind. Lives much longer than most trees of this type; very hardy in all kinds of weather; fast growing. Very good for borders,

or in groups of three in corners for accent. Plant 6 to 8 feet apart.

FREE GIFTS FOR EVERYBODY

This Is Our Way of Saying: "Thanks for Your Order. Come Again!"

Free Gifts with GARDEN SEED, FLOWER SEED and SPRING BULBS*

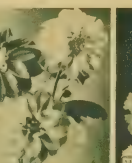

Choose one Free Gift with single order of \$2.00 worth of Garden Seed, Flower Seed, and Spring Bulbs. Choose two gifts, alike or different, with \$4.00 order. Three, alike or different, with \$6.00 order, and so on. These gifts apply to Garden Seed, Flower Seed, and Spring Bulbs only. Please do not add in merchandise items on pages 40 to 45.

* Spring Bulbs may be identified by the prefix letters "BG" as part of the catalog number.

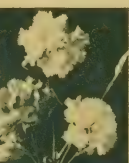

"Royal Purple" GLADIOLUS

No. 1. Very showy. A deep velvety purple with a pansy-blue cast. Shown in full color on page 61. Medium tall, midseason bloomer. Puts on a great show in the garden. 1 bulb, worth 35c.

BORDER DAHLIAS

No. 16. Bloom first season. Start seed early out-of-doors, or inside in hot bed and transplant seedlings. All colors. Some double. Some semi-double. Plants grow 2 1/2 feet tall. Packet of seed worth 25c.

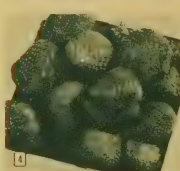

Fragrant Double Carnations

No. 17. Grow your own from seed; almost as large as florist's. Bloom first season. Mixed colors. Perennial with little winter protection. Plant grows upright, 16" to 20" tall; long stems, large flowers. Worth, 25c.

FREE GIFTS with NURSERY ORDERS*

Choose one Free Gift with single order of \$5.00 worth of Nursery Stock. Choose two gifts, alike or different, with \$10.00 order. Three, alike or different, with \$15.00 order, and so on. Orders must be up to full amounts specified to gain a gift. We can send no Free Gifts excepting those listed below.

* Nursery Stock may be identified by the prefix letters A, B, CB, N or IN as part of catalog number.

No. 4. 25 Robinson Strawberry plants worth 1.19. This is one of the finest of all everbearing strawberries. We can not ship strawberries into Ariz., New Jersey or Wash.

No. 5. One Everblooming Tea Rose (our choice), worth 1.19 or more.

No. 8. Three Concord Grape Vines. One year, No. 1 Grade. Worth 1.00. (No grapes shipped to Calif., Wash., Oregon or Arizona.)

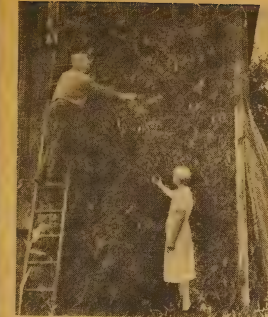

No. 10. Three shrubs: 1 Spirea Van Houttei, 1 Forsythia, 1 Tamarix "Summer Glow". Each 12 to 18" size. Worth 1.77.

No. 15. 2 Mid-Century Hybrid Lilies, listed at 59c each on page 61 of this catalog.

Seeds and Nursery Stock DIRECT BY MAIL

Your Mail Order Nursery Offered These First

It's a fact that you get the newer, better varieties of seeds and nursery stock first from your mail order seedhouse. Delcon, the better semi-dwarf apple tree, was introduced by Henry Field's. So was Colette, the amazing everbearing pear. And the only All-America hybrid cucumber, Early Surecrop. And Harlequin, the variegated leafed maple. Also Black Hawk raspberry, Fuzzless Peach, Combination Fruit Spray, Jonadel apple—and many, many more.

I am writing to tell you how very pleased and satisfied I am with the merchandise I have received from you. Everything is growing so beautifully. I will not hesitate to recommend you to anyone wishing to order anything from you.—Mrs. John Spark, 32 Ash St., Carpentersville, Ill.

"Our Most Loved Rose"

"In 1955 we ordered a Brownell Rose from you," writes Mrs. Robert Lester of Rolla, Mo. "Planted it by side of porch at the wash house and near a bed room window. It now is as high as our heads and almost as wide. Everyone admires its color and fragrance. It is our most loved rose. The fragrance drifts in thru bedroom windows in evenings. We have many shrubs, etc. from Henry Field's."

These gourds were grown by Mrs. Loyd Strong, R. R. #1, Twelve Mile, Ind. She also sent a picture of two baskets full of ornamental gourds she grew. "My husband won its color and second prizes for the largest gourd at the Twelve Mile Fair," she writes. "We have ordered seed from your company for years, and have been so well pleased with results. Our little girl has gotten the Conglomeration package for two years and certainly enjoys her own garden."

Did you know that I got you a lot of customers around Irving and Springfield, Ill. Main reason was the nice looking sweet corn I raised from your seed. That is truly the best sweet corn I have ever raised. I have had good gardens ever since I started ordering your seeds.—Mrs. Lena M. Kluthe, R. #3, Littlefield, Ill.

Nothing could be easier than ordering your seeds and nursery stock by mail from Henry Field's. You make your selections at your own leisure, in the relaxed comfort of your own home. And it's so easy to find just what you want because the Henry Field catalog pictures everything faithfully, and describes it fully. There's no guessing.

And you have such a wide variety to choose from. For instance, there are 11 different kinds of garden peas, 14 different varieties of apples, 12 kinds of hedging, 37 different kinds of shade trees, 85 different varieties of roses! It's like having a department store of seeds and nursery stock right in your own home.

If you want to talk over your ordering with others of your family, or friends, you can. Your whole family will enjoy your plantings more if they all have a part in selecting them.

Try buying your seeds and nursery stock by mail from Henry Field's—it's easier, it's more fun, you get better stock, and you save money.

"Our house is known for miles around as the 'little green morning glory house,'" writes Mrs. James Kleist, 113 Panquette, Portage, Wis., shown above. "A friend of mine sent me some seed from your nursery. I have never seen such beautiful vines as these. We had morning glories blossoming until Nov. 3. Needless to say, I will be buying my plants from you this year."

"I am enclosing a picture of my brother Gene with a picking from my garden," writes Ed Frydendahl, Jr., P. O. Box 183, Oakland, N. J. "This is the first year we have grown in this soil, and it sure is a real wall with your seeds. We put many fresh vegetables in our freezer, and had plenty to eat during the summer. Your new Hy-X tomatoes were especially good. We plan to enlarge our garden next year and we will use your top quality seeds again."

"I just had to write you about your carnation offer," says Mrs. Mancuso, 3714 N. Pioneer, Chicago 34, Ill. "I sent for it last year and was never so pleased. The carnations were beautiful, and they bloomed up to frost. They were so beautiful in late fall that I hated to see the frost come. I have planted carnations before but none ever compared with these."

"While it is probably no record," writes C. T. Duncan, D. C., Box 5, Atoka, Okla. "I want to tell you I am the fourth generation in my family to order from you. However, as I am 42 years of age, you can see it dates back many years. My son is only five years old but interested in growing things, so I am beginning to teach him. He too will be a user of Henry Field seeds. I wonder if you have any others that have bought over a period of more years."

FREE FOR 1c FOR KIDS ONLY

202—This is for the kids and how they love it. They don't buy anything they'd like to raise so we have rolled 100 packets into one and made a big mixture of every kind of garden and flower seed.

It's a giant packet. It costs 1c. But it must be your own penny. Don't ask the folks for it.

Write "Conglomeration Packet" on your folks' order, slide in your 1c, and you'll be buying your OWN garden. This must come with your folks' order.

Merchandise received from you has germinated 100%. You will hear from me again.—J. H. Hawes, 1725 Bragdon, Pueblo 2, Colo.

"I must tell you how delighted we are with your cucumber Early Surecrop. Tried it last year and it all you say for it and more. We fed cucumbers to the neighborhood and canned sixty quarts of pickles—all from one packet of seeds."

"Our garden is part of one city lot, but we love gardening; grow a little of everything we like."

Ira S. Walsh,
726 Wiltshire Road,
Columbus, Ohio.

A good lawn like this does just as much to improve the appearance of your place as trees or shrubs or a new coat of paint. It is much easier to establish a good new lawn, or keep an old one in proper condition, if you use the proper lawn seed. Choose from this page the lawn grass seed that best fits your need—all of it is good clean seed of tested germination.

Henry Field's LAWN GRASS SEED

Field's Famous Extra Heavy KENTUCKY BLUEGRASS

Kentucky Bluegrass is the "back bone" of all good lawns. This is hardy, permanent and drought resistant new crop seed of highest germination and heaviest weight. It is a premium grade of carefully harvested seed, cleaned and re-cleaned, and will make a lawn like a thick green carpet. The last word and our finest quality. 8001—1 lb., 1.33; 3 lbs., 3.80; 5 lbs., 6.25; 10 lbs., 11.65, postpaid.

Field's Famous Best EVERGREEN LAWN MIX

Extra heavy weight, weed-free, bright, top quality seed, cleaned and re-cleaned on special mills. A blend of best grasses with large percentage of Kentucky Bluegrass of our own harvest. For open and sunny or lightly shaded lawn. Makes a permanent turf of deep green, healthy lawn. Good on all soil types. Hormone treated. Worth the little difference in cost. 8042—1 lb., 1.33; 3 lbs., 3.80; 5 lbs., 6.25; 10 lbs., 11.65, postpaid.

Field's Famous "50-50" LAWN BLEND

50% of this blend is our best heavy bluegrass. The balance is Bent Grass (the kind you see on best golf courses), plus perennial creeping fescue, and perennial rye grass. These perennial grasses will give you a lawn to be proud of. All are hardy. You can't miss. Sow 1 lb. to 200 square feet of new lawn. If you are patching up an old lawn, use 1 lb. to 400 square feet. Hormone treated. 8048—1 lb., 1.30; 3 lbs., 3.45; 5 lbs., 5.50; 10 lbs., 10.50, postpaid.

WHITE DUTCH CLOVER

This is the little 3 and 4-leaved clover that carpets the ground. Thrives on poor soil and enriches it. Makes excellent nurse crop; helps keep out weeds while grass is getting established. Hormone treated. 8030—1 lb., 1.60; 3 lbs., 4.65; 5 lbs., 7.50; 10 lbs., 14.50, postpaid.

FIELD'S FAMOUS SPECIAL BLEND for Shady Spots

Our special purpose blend of best grasses selected to do best and give better results in dense shade. Absolutely winter hardy. Grass under trees often lacks proper plant food so fertilize during growing season. Hormone treated. 8043—1 lb., 1.33; 3 lbs., 3.80; 5 lbs., 6.25; 10 lbs., 11.65, postpaid.

Sensational New MERION KENTUCKY BLUEGRASS

This new strain of Kentucky Bluegrass has made a big name for itself because it seems to have many advantages over regular bluegrass. It makes a lush growth but stays close to the ground. This helps crowd out weeds, and also doesn't need mowing so often. Its color is a deep green, and very attractive. Because its seeds are so small, it goes further. One pound of Merion Kentucky Bluegrass will seed 750 square feet of lawn surface. 8010—1 lb., 2.75; 3 lbs., 7.50; 5 lbs., 12.40; 10 lbs., 24.50, postpaid.

All Henry Field Lawn Grass Seed Is HORMONE TREATED

Henry Field's Hormone Treated Lawn Seed will give you a healthier, more drought-resistant, greener, more permanent lawn than untreated seed will. The hormone treatment causes more seeds to grow and makes them more resistant to "damping off" and other soil-borne diseases. It promotes deeper root growth, which makes a heavier lawn more able to stand drought. And you get these advantages at no extra cost to you.

BENT GRASS for Velvety Lawns

Makes greenest, most velvety lawn of all grasses in full sun or part shade. Sow separately or mix with other seed. Spreads quickly by underground and overground root system. Used on golf greens. Only one pound needed per 500 square feet. Hormone treated. 8020—1 lb., 1.45; 3 lbs., 4.25; 5 lbs., 6.50; 10 lbs., 10.49, postpaid.

How to Make Bluegrass Come Up in Seven Days

If you want to get your bluegrass up within 7 days after you plant it, we'll tell you how we have done it. This works equally well with either Merion or Kentucky Bluegrass.

First you soak the seed in water for 15 hours. Empty the seed from the sack right into the water. If you put a sack of seed in water, the water won't penetrate to the seed near the center of the sack. While the seed is in the water, stir it occasionally so that all the seeds get soaked.

Then take the seed out and squeeze it as dry as you can, next rinse it with new clear water. Finally, dry the seed. If you have just a small quantity, you can put it into a cloth sack and dry it in your clothes dryer. If you don't want to do that, or if you have a large quantity, spread the seed out in the sunshine, turning it with a rake or hoe occasionally until it is dry. This usually can be done in one day. Then sow the seed in the usual way. Keep soil wet—don't let it dry out till grass is well established. The reason this works is that bluegrass seed has on it a protective coating that takes about two weeks to break down after planting in the ground. By soaking the seed first, you soften this protective coat so that the seed is up out of the ground in 6 or 7 days instead of the usual 21.

A word of caution: after you have once soaked the seed, get it dried out quickly and then plant it in a day or two. Otherwise it may mold.

MERION KENTUCKY BLUEGRASS MIXTURE

Our Best Lawn Mixture

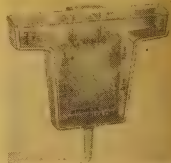

Contains Merion Kentucky Bluegrass, the sensational new bluegrass; Creeping Rescue, to thicken the turf; Highland Bent, the most disease and drought tolerant of all the Bents; Red Top, for thin soils and a nurse crop; Annual Rye Grass, to give quick growth and protect slower growers. Sow 1 pound to 750 square feet. 8012—1 lb., 1.85; 3 lbs., 5.40; 5 lbs., 8.75; 10 lbs., 17.00, postpaid.

PLAYGROUND MIXTURE

For athletic fields, playgrounds, or lawns where a tough turf is needed at low cost. Fine for those spots where children play on lawn a lot. Made up of Bluegrass, Perennial Rye Grass, Annual Rye Grass and Alta Fescue. 8045—1 lb., 1.09; 3 lbs., 2.79; 5 lbs., 4.29; 10 lbs., 8.29, postpaid.

Lawn Watering Gauge FREE with 5 lb. Lawn Seed Order

More harm is done to lawns by light "sprinkling" than by anything else. This brings roots near surface where they are vulnerable to heat and foot traffic. Water deep and not so often for best results. Use this watering gauge and you can't go wrong. Simply set it beside sprinkler; measures up to 1 inch. 4317—25c, postpaid.

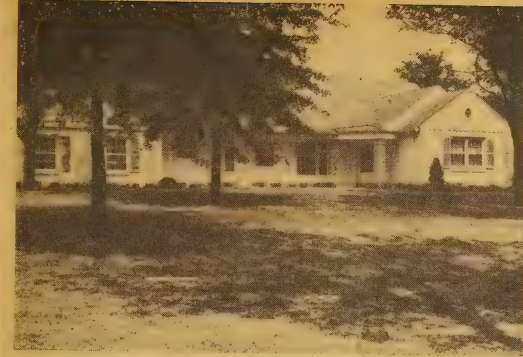

FREE with order of 5 lbs. or more of any of our lawn grass seed, if you ask for it on your order.

BIG LOT PRICES

If you can use 50 pounds or more, use these f.o.b. Shenandoah, Iowa prices. We ship these big lots transportation charges collect; tell us whether to ship via railroad, motor freight, or express.

TIPS ON LAWN CARE

For the New Lawn

Fortunately, grass seed is not harmed by cold weather, even freezes. That means you can get the new lawn planted early, long before you can plant most flowers. And you should do so because the weeds are loafers and come up late. That gives the early planted lawn a chance to get going while the weeds are still sleeping. So don't hesitate to start even before all the frost has left the ground. A late thin snow even helps. Many prefer to sow on a late snow, excepting on steep terraces where the melting snow may carry the seed away.

So sow early if you can. Get the jump on the weeds, get the lawn well established before the hot, dry weather comes. Grass seed will not germinate during hot weather.

To do the job right, first work the soil. Spade it, or if the area is large, have it plowed, disced or harrowed. If you are going to use fertilizer, do it now. Then rake it in as you smooth the surface.

Unless otherwise directed, sow at least 1 lb. of seed per 200 square feet. Broadcast the seed by hand, or use a hand seeder. Divide the seed into two parts—sow one-half in one direction; the other half at right angles to the first. This gives more uniform coverage. Then thoroughly rake the seed into the top soil and roll to firm up the seed bed. Don't roll when the soil is too wet. Wait until the soil is free of frost, but not sticky.

Caring for Lawn

Don't mow a new lawn until the grass is 2 or 3 inches high. After that, mow only after the grass has grown at least an inch after last mowing. Don't ever mow too close. Don't mow too often in hot, dry weather. And let the grass go into the winter 2 or 3 inches high.

About watering, when you do water, do a soaking job and do it less often. If you just sprinkle a lawn, wetting only the top of the soil, the roots come up to get the moisture. That makes them susceptible to further drying out. Water deep, and the roots go down, as they should. Deep rooted grass

stands more drought and more foot traffic.

Don't be afraid to water in the day time, even in full sun. Some people also think chlorine or other chemicals in water will harm a lawn. If the water is fit for human consumption, it won't hurt the lawn.

About weeds, the best insurance against them is a healthy stand of grass to crowd them out. Sowing early and mowing high also are good insurance. But if your lawn needs some help in combating weeds, try the weed killers listed on page 43 of this catalog.

Repairing Old Lawn

To thicken the grass of an old lawn, sow 1 lb. of seed for every 400 square feet. For bare spots, work the soil and sow just like for a new lawn.

There are several reasons for "bald spots" in lawns, but the most common cause is lack of moisture and fertility. The grass is starving. The cure usually is a good fertilizer, particularly one high in nitrogen. Bald spots under trees usually are caused because the grass can't compete with the tree roots for the food and water, not by the shade. Very few trees have shade so dense grass won't grow under them if the soil has proper fertility.

About Terraces and Shady Spots

If you have a terrace that is so steep that it is difficult to mow, or one where the grass washes out, consider these:

Hall's Honeysuckle. Listed on page 30 of this catalog. Will grow in full sun.

Baltic Ivy. Listed on page 30 of this catalog. This is the one to use on the shaded terrace, where it thrives. In fact, it requires shade for good growth.

Andorra Juniper Evergreen. Listed on page 30 of this catalog. It is a low, spreading evergreen that covers well and stops soil erosion. Grows well in sun or partial shade.

I received the Lythrums and Lemon and Tangerine plants in perfect condition, along with other items ordered.—Robert L. Horton, 951 So. Jason St., Denver 23, Colo.

"Orange Sugar-Stick"

A New Small Watermelon

700—(68 days). Small watermelons are becoming more popular all the time because they are so easy to store and so attractive to serve. We think "Orange Sugar-Stick" is just the kind you will like. It is brand new and offered here for the first time.

Its color is a deep orange. It grows about 8 inches long and 4 inches in diameter. The flesh is sweet and tender, and the rind is so thin it will not stand much handling. So chock full of goodness that it often splits from end to end when you start to cut it. Vines bear over long period. We have very little of this seed this year so order early. Packet, 35 seeds, 25¢; 2 packets for 40¢, postpaid.

"I have been married 38 years. Up to this year my husband has always made the garden. This year he hasn't been able to do it. I spaded all the ground, ordered seeds from you, and what a picture garden I have!"

"Those yellow pole beans have caused no little excitement. Many people around here didn't even know there is yellow pole beans. I have given the neighbors samples of them for their dinner to see how good they are. I planted 4 rows 12 feet long of your 106 Tendergreen beans; I canned 14 quarts from them last week. I never saw so many beans in such small space."

"The fern-leaf Bleeding Heart has been a joy to see. It blooms all the time."

—Mrs. Guy M. Lea, 322 W. 7th St., Chanute, Kansas

"I am sending another order," writes Mrs. Nora Winders, 1011 E. Maple, Rich Hill, Mo. "I got the plum tree and the little cherry bushes and they are budding already. I also received the strawberry plants and every one lived and is blooming fine. I received the begonia plants and you had them packed so nice. They were as fresh looking as if they had just come out of the greenhouse."

The magnolia and butterfly bushes arrived. Thanks for sending such sturdy, healthy stock.—Mrs. R. Lohy, 801 Brook St., Elgin, Ill.

Hy-X Thrives in Drouth

"Last year I ordered a package of your Hy-X tomato seed," writes Mrs. P. R. Bolen, Spiro, Okla. "Had 50 seeds, set out 48 plants. Planted a package of Rutgers at the same time. Set out 96 of them. But the Hy-X began ripening 17 days before Rutgers and stood the drouth better and had four times as many tomatoes—were larger and smoother and while the dry weather killed most of the Rutgers, most of the Hy-X vines lived and bore until frost. My neighbors were amazed, and wanted to try them, so am ordering five extra packages. No other tomatoes for me."

1000 GLAD BULBETS for only 2.50

83460—These are no substitute for our regular large Glad bulbs, but if you are willing to wait a year for a part of your flowers, plant these bulbets. They are the same size as we plant for growing here. 20% of them will bloom the first year. They simply are small bulbs not yet grown to the larger sizes.

We don't sell them by name varieties, but send you a box of mixed colors. It's the cheapest way to get a lot of glads, and it's great fun growing them. 1000 bulbets for 2.50; 500 for 1.50; 300 for 90¢; 100 for 35¢, postpaid.

This is Mrs. Minnie Webster of Ingraham, Ill., with some of the Copenhagen Market cabbage from her garden.

"Not a Leaf Broken"

My plants came today, and I never received plants before in such nice condition. I think Aero-Pots are just grand. The plants were very nice and fresh. Not a leaf broken. Thank you very much. A great improvement.

—Mrs. Ella L. Hitchcock, 21 Mechanic St., Ellicottville, N. Y.

Mrs. Hitchcock is talking about the plastic pots in which we ship our house plants and many perennials.

"I am enclosing a picture of my two grandsons and some of the New Guinea beans I raised from your seed," writes Mr. L. E. Silvers, R. F. D. #1, Cherry Run, W. Va. "The boys are named Terry and Raymond."

At one time in 1955 I had 54 ripening tomatoes on one plant of Red Bird variety from seed furnished by you.—R. E. Wresche, 130 W. Pleasant St., River Rouge 18, Mich.

Bought on Monthly Pay Plan

One of our customers who bought \$40.00 worth of nursery stock on our Monthly Pay Plan writes: "Received the order in very good shape. Have planted everything and they are growing very well. The future looks good for the plants because they were healthy plants. Enclosed is my first pay of \$5.00. Thank you folks for being such nice people."

If you are interested in Henry Field's Monthly Pay Plan, see page 2 of this catalog.

I wish to let you know that your shipment of plants I ordered arrived here in good shape, and I am well pleased with your promptness in shipping.—Henry J. Gabel, 1511 S. Decatur, Denver 18, Colo.

"My hobby is gardening," says Mary Dewar of 804 14th St., Great Falls, Mont. "I shown at right. I sold over \$100 worth of flowers and received many prizes at the fair and flower shows here." Mary is the daughter of Mrs. A. D. Dewar.

My creeping bent lawn is like a green rug now. Got the seed from you two years ago and every one remarks how nice my lawn is.—L. Rose, 5755 Montrose, Chicago 34, Ill.

We planted your garden seed this year and it was the best we have ever had. So from now on it will be Henry Field's for us.—Mrs. Frank Bradshaw, R. R. 3, Pleasant Hill, Mo.

FERTILIZERS... PLANT FOODS... MULCHING HORMONES and Other Plant Growth Helps

"GROW-AID"

The Sensational Seed and Plant Stimulant

Hormone-Vitamin Concentrate

Here is the miraculous seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulating Hormones and the better known vitamins that have made plants and seeds **GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS.** Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland of Oklahoma Experiment Station showed increases of 37% to 47% in yield when used on corn. Often number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables,

plants, shrubs, seedlings, trees, or flowers.

USE AS DUST OR SOLUTION

Very Easy to Use
Grow-Aid can be used either as a dust on seed and roots or sprinkled on your vegetable seeds, or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. **FULL INSTRUCTIONS FOR USE** on seeds, plants, etc. on each package.

Use It On All Your Plants and Seeds for Better Results

1. Dust it on flower or vegetable seeds before planting.
2. Soak nursery stock roots in solution before planting.
3. Dust seedling roots before transplanting.
4. Use as spray for fruit trees. **KEEPS APPLES ON TREES UNTIL RIPE.**

A sample of how "GROW-AID" improves plants it is used on.

5. Use as solution to water growing SHRUBS AND TREES.

6. Use as solution to water HOUSE PLANTS.

7. Use as solution to water ROSES, SHRUBS, LAWN. A general, all-around product every gardener should have.

"GROW-AID" PRICES: 4018

3 oz. (enough for large garden and plants) 1.00, postpaid.

½ oz. (enough for the average garden and plants) 25c, postpaid.

ROSS ROOT FEEDER

4093—An attachment for your hose; puts water or plant food directly to the roots. Just put fertilizer cartridge in chamber, attach feeder to hose, push rod

into ground to desired depth, turn water on. Feeder with 12 all-purpose food cartridges, 5.98, postpaid.

PLANT FOOD CARTRIDGES for use with Ross Root Feeder:
4094—Neutral. All purpose cartridge. For trees, shrubs, hedges, vegetables. A complete plant food.
4091—Acid Cartridge. For evergreens and acid loving plants.
4097—Rose Cartridge. Makes fine rose blooms, lovely foliage.
Any of the above Cartridges, 12 in a box for 1.10, ppd.

COLUMBUS ROOT FEEDER-SOAKER

4304—Fits any garden hose. Made of rust resistant aluminum. 24" long. Drop a few "Atoms" (listed below) into the Feeder-Soaker, turn on the water; that's all there is to it. Can be used with water alone or with fertilizer pellets. 1.98, postpaid.

4305—HI-POWER FERTILIZER ATOMS. Made for Columbus Feeder-Soaker but can be used other ways. Put a few in the hose and feed the lawn with your sprinkler or regular hose outlet. Perfect plant food; nitrogen, 16%; phosphoric acid (available) 42%; potash (soluble) 12%. 100 for 98c, postpaid.

Inoculate Your Peas and Beans for Bigger Yields

4015—All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield. There's enough in this 25c packet to inoculate five pounds of seed. That's enough for most of you. Full directions on each packet. Be sure to order it. Garden size packet, 25c postpaid. (Larger sizes for field seed listed on page 55.)

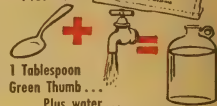

Henry Field Seed & Nursery

Plants Get Hungry, Too—Feed Them

Henry Field's GREEN THUMB LIQUID PLANT FOOD

Easy to Use—Just Like Watering

No. 4041

Since we first listed Green Thumb in our catalog several years ago, we have received hundreds of letters from our customers telling us how clean and easy it is to use, and how much good it did their lawn and shrubs and trees and flowers and vegetables and house plants.

Costs Less

One package of 16 ounces makes 30 gallons of liquid fertilizer. Directions on container tell how much to use for various plants, and your lawn, and you'll be surprised how little it costs to fertilize with Green Thumb.

Goes to Work Right NOW!

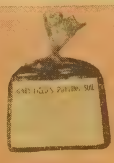

You just mix 1 tablespoonful with a gallon of water and you have liquid plant food—a clear, green liquid—odorless and non-poisonous—and it contains the nutrition growing things need. And, being liquid, it goes directly to the roots so the plants perk up right away.

No. 4041—16 ounce package, only 1.30 (makes 30 gals. of liquid plant food). 3 lbs., 3.00 (makes 90 gals.), 5 lbs., 4.50 (makes 150 gals.), 10 lbs., 8.00 (makes 300 gals.). All postpaid.

No Mess—No Mixing—No Digging

If your plants get hungry and sickly, with yellowish leaves, stunted growth, small fruit and colorless flowers, they need food and water and cultivation. Now you can spend hours fertilizing these hungry plants, you can use Green Thumb and do a good job in a short time. And we don't know of anything better for starting newly planted things off right.

GREEN THUMB is composed of important plant nutrients, plus Vitamin B-1, in a solution which is immediately available to the roots of hungry trees and plants. In a matter of days, you can see results.

POTTING SOIL

"TERRA-LITE" (Vermiculite)

PEAT MOSS

BLOSSOM SET

BERRY SET

GARDEN LIFE

POTTING SOIL

4062—Contains Iowa loam soil with added humus, nitrogen, phosphorus and potash, plus vitamins B1 and B2, plus Rotoone for stimulating root growth. 1 gallon is enough for 10 to 12 4-inch flower pots. ½ gallon, 1.19; 1 gallon, 1.74. Both postpaid.

"SHEEP-O-LIZER"

Kills Dried! Pulverized Sheep Manure
4011—Clean and weed free. Packed in paper lined burlap bags. Very rich in Phosphorus, Nitrogen and Potash—the three foods your lawn and potted plants and flowers need. Promotes quick growth. Can't burn foliage. Use 100 lbs. for every 1,000 square feet of lawn space. 100 lbs. only 2.99, F. O. B. Shenandoah, (Shipped by freight.)

TERRA-LITE (Vermiculite) for Seed Bed and Cuttings

4085—Used in place of soil or sand, produces amazing results in the germination of seed and the rooting of cuttings. Fine as mulching material for storage of bulbs and root crops, and mixing with soil to improve its texture. It is completely free of all fungi, bac-

teria and insects. Holds water like a sponge and releases it as needed. 8 qt. package, 1.29; ½ bu., 1.98, postpaid.

PEAT MOSS

4013—Every soil needs a mulch. This is the world's best. 2 oz. absorbs 1 lb. of water. Holds moisture over long periods of drought. Make into 1 bushel enough for 500 square feet. 4½ loose bushel size (approximately 75 lbs.), 2.98. Two 4½ loose bu. bags, 5.40 (you can ship 2 bags as cheaply as one in many cases). Shipped Freight collect direct from Peat Bogs in northern Iowa, or Shenandoah, Iowa.

POTTING PEAT

4081—Finely ground. High nitrogen humus. Activated with beneficial bacteria. Fostering suggestions printed on the bag. 5 qt. size (approx. 8 lbs.), 1.58, postpaid.

"No Seed" BLOSSOM SET

for Earlier, Larger, Better Tomatoes

4054—An approved plant hormone that gives you earlier, larger, mossier tomatoes, and more of them. Tomatoes ripen two weeks earlier, and will be firmer, more delicious, and have fewer seeds. Also good for cucumbers and peppers. Just mix with water and spray on plants. Tested by USDA. 4 oz. bottle (makes 1 gal. spray) 85c; 1 pint (makes 4 gal.) 1.85. Agricultural Concentrate, 8 oz. bottle (makes 60 gal.) 6.50. All postpaid.

"Blossom Set" in AEROSOL BOMB

4017—Same as above but in aerosol bomb. Very convenient to use; just push button and it sprays fine mist. A season's supply for 100 plants. 1.95, postpaid.

BERRY SET

for More and Larger Berries

4067—Just spray the berry blooms with this hormone and it will lengthen the bearing season, increase yields. Easy and inexpensive to use. Recommended.

mended by leading universities. For strawberries, raspberries, blackberries, holly berries. 1 oz. 50c; 3 oz. 1.00; 12 oz. 3.00, postpaid.

"Garden Life" PLANT FOOD

4036—With "Garden Life," you can grow bigger and better plants of all kinds. Larger and more colorful blooms, bigger and tastier fruits and vegetables. Fine for cuttings. Highly concentrated. Use one teaspoonful to two quarts of water. Directions on package. Wonderful for African Violets too. 5 oz. 65c; 14 oz. 1.25; 2 lbs. 2.50; 5 lbs. 4.98, postpaid.

SUPER PHOSPHATE

4084—Most soils are short of Super Phosphate, which sometimes is why a plant doesn't bloom. Henry Field's Super Phosphate is made especially for African Violets and other blooming plants. Easy to use. Full directions on each package. 3 lb. package, 1.25, postpaid.

ALUMINUM SULPHATE

For Making Soil Acid

4059—Many people think that blueberries, hydrangeas, azaleas, etc., can't be grown over a large section of the country because they must have acid (sour) soil. The solution is simple—just make the soil acid (if necessary) by adding Aluminum Sulphate. Easy to use. Directions on can. 1 lb. 65c; 3 lbs. 1.45, postpaid.

NEW and IMPROVED BUG DUST

Now Better than Ever with New "Wonder" Ingredients!

INSECTICIDES FUNGICIDES

**SOLD ONLY BY
HENRY FIELD'S**

Dust around ant
hills, or from where
ants are emerging.

Use it to protect
house plants against
bugs and disease.

Use in garden. Gets
bugs already there;
keeps out others.

Dust flowers, shrubs
to protect against
bugs and disease.

Dust poultry and
animals to kill
fleas and lice.

Mix with water for
powerful fly spray.

New Formula, All-Purpose Insecticide and Fungicide Gives You Safe, Easy Control . . . GUARANTEED

You really won't believe how good Henry Field's Bug Dust is until you see it work yourself. Some folks call it a "miracle dust."

3-Way Action

Bug Dust works three ways. It not only is a stomach poison but a contact poison and a fungicide—all in one dust. There is no need to buy three dusts—use Henry Field's Bug Dust. And it does not harm even the most delicate plants when used as directed.

New Formula

Henry Field's Bug Dust still contains rotenone, just as it always has. That is the "secret" drug Henry Field put into his Bug Dust when he introduced it many years ago. It still has no superior as a contact and stomach insecticide.

But our Bug Dust now contains Dithane 2-78. This is the new drug that helps control such diseases as Early and Late Blight, Anthracnose,

Rust, Downy Mildew, Gray Mold, and Leaf Spot.

Another new and powerful ingredient in our Bug Dust is Methoxychlor. It gives effective help in the control of flea beetle, tomato horn worm, Colorado potato beetle, Mexican bean beetle, cabbage worm, cabbage flea beetle, cucumber beetle and many other pests.

It's Safe

Henry Field's Bug Dust is designed for consumer safety. You can use it on anything in the garden. It will not harm the plants. But it is certain death to insects and fungi.

Absolutely Guaranteed

Our reputation as a Seed and Nursery house for over 60 years is behind "Bug Dust." It does what we say or your money back. No arguments.

Use Bug Dust to Keep Bugs Out Too

If you see bugs in your garden or on your plants, run for your Bug Dust quick. But—you can keep bugs from

coming into your garden by dusting it onto the plants and on the ground around them. Do that and the bugs will pass up your garden and go over to the neighbor's.

**HENRY FIELD'S BUG DUST
DOES NOT CONTAIN DDT**

NOTE: We do not claim that our Bug Dust will control EVERY garden pest or every fungus. NO dust can do that. But we do claim it's the nearest perfect dust we've ever sold. It's guaranteed 100% or your money back.

Henry Field's ROACH KILLER

4004—Sure death for Cockroaches and Waterbugs. Spread along baseboards, in corners and crevices inhabited by these insects. Also effective against lice on poultry. A fast, positive control. Can 50¢; 2 cans 85¢, postpaid.

Henry Field's

50% MALATHION SPRAY

4319—The new wonder spray control for flies, mosquitoes, aphids, spider mites, red spider, and certain other insects.

sects on vegetables, shrubs, and trees. 1 teaspoonful to a gallon of water does the job. 4 oz., 1.10; 8 oz., 1.65; 1 pint, 2.50, postpaid.

INSECT BOMB Especially for HOUSE PLANTS

4042—So easy to use—simply remove protective cover, press down on push button. Especially made for African Violets but good on practically all house plants. For control of mealy bugs, mites, aphids, exposed thrips, white fly and certain other insects. Safe. 1.25 each; 2 for 2.25, pdd.

BORERKIL

4043—When injected into their burrows or under bark, it kills boring insects in trees, shrubs and flowers. Easy to use. 2 oz. tube complete with directions and injector tip, 1.00, postpaid.

TREE TANGLEFOOT Stops Climbing Insects

4321—Tree Tanglefoot is a sticky, non-drying compound used to encircle the trunks of trees to stop climbing insects from reaching foliage, buds or fruit. It also does the job on vines, shrubs, and other plants. Does not harm the plants. No mixing or preparation required; comes ready to use. Lasts full season. 6 oz. tube, 90¢; 1 lb. can, 1.59, postpaid.

RODENT KILLERS

Sensational New WARFARIN

Warfarin is a better rodenticide for these 4 reasons:

1. It is much less dangerous to humans, livestock, pets and poultry.
2. You don't have to bother with two different poisons. Warfarin kills both rats and mice.
3. Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."
4. Warfarin kills slowly; no dead and dying rats warn the rest of the colony.

Warfarin has been thoroughly tested and the results are miraculous. It is recommended by state colleges and by the U. S. Public Health Service.

We sell Warfarin in these two forms:

4070—Powdered Warfarin Concentrate. 4-oz. can (makes 5 lbs. of bait), 1.75; 8-oz. can (makes 10 lbs. of bait), 3.00, pdd.

4069—Warfarin Pellets. Ready mixed Warfarin in mouse-size pellets. Ready for use, 1 lb., 98¢; 5 lbs., 2.95, postpaid.

Both kinds of Warfarin are fully guaranteed and shipped with simple directions on each container.

RAT KILLER

4002—A GOOD HONEST RAT KILLER, that we stand back of 100%. Won't hurt anything but the rats, but gets them. Enough. Full directions included. Enough to kill 70 rats.

Large box, 60¢; 2 for 95¢, postpaid.

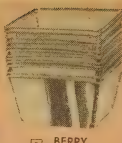

"RODENT KILLER" FOR KILLING MOLES & GOPHERS

4001—Drop a cake in the mole run or gopher hole and your troubles are over. Acts as stomach poison. Gets them quick. Can't harm poultry or animals.

Large box (90 pieces) 50¢; 2 for 95¢, postpaid.

ALL-PURPOSE HOE

44027—This is the best all-purpose garden hoe we have ever seen. It's light, sharp, strong and easy to use. Because of its unusual design, you can hoe in between, around, and alongside plants. Has a full length handle, so you can stand erect when using it. Lightweight—weighs only 24 ounces. Has a tough, sharp blade with 7 1/2" cutting edge and 1/2" point. You can hoe with either edge. Fully guaranteed. 1.98, postpaid.

PERMATAGS

Permanent Aluminum Markers for Plants, Trees, Shrubs, Etc.

44030—Handy aluminum markers for labeling plants of all kinds. Write on them with pencil or ball point pen. Writing is depressed into metal, so can always be read. 3 1/2 in. long, 1 in. wide. Easy to attach. Last indefinitely. Inexpensive to use. Package of 24 Permatags for 25c, ppd.

"TWIST-EMS"

Handy, Speedy Plant Tie

4072—Strong, dark green, waterproof, invisible tapes with wire reinforcing. Protect stems, speedily and permanently support annuals, perennials, vines, shrubs, and vegetables. Grand for making arrangements also.

44036—Box of 100, 8" length, 35c. Box of 100, 16" length, 65c, postpaid.

44037—250 feet in continuous roll (easily cut to desired length with scissors), 1.15, postpaid.

MIDGET GREENHOUSE

44029—A midget greenhouse for outdoor use. 12x13x38" in size. Made of strong polyethylene material which

will not crack, peel, oxidize, deteriorate or get brittle. Protects plants against insects, cold driving rains and strong winds. Lets the sun's rays into the plants. Will give you a 6-weeks' head start on an early garden. Can be rolled up and stored from year to year. 2.35, postpaid.

HENRY FIELD'S DOG REPELLENT

44026—Protect your shrubs and evergreens with Henry Field's Dog Repellent. Extremely offensive to dogs and cats. Guaranteed not to harm the plants. Apply on the ground around the evergreens (not directly on them). No application lasts several weeks. 8 oz. can, 98c; 2 cans (season's supply) 1.65, ppd.

Henry Field's Rabbit Repellent

You Just Spray It on Plants

44057—Easy to use and guaranteed to work. Just mix it with water and spray it on bushes, shrubs, etc., or use paint brush. No harm to plants. 8 oz. can (season's supply), 1.35; 2 cans for 2.50, ppd.

FAMOUS BRADSON GARDEN SPRAYERS

These are the famous Bradson garden sprayers that go on your garden hose. The water pressure does the work. No pumping, and no tank to carry. It won't clog, and can't back-flow. Easy to clean, and no mechanical parts to wear out. Use for spraying insecticides, fungicides, weed killers, fertilizers, soluble plant foods. Ideal for foliage feeding.

4099—GRO-GUN. Pictured at left. For high volume application. Quart-jar furnished; home replaceable. The thing for plant food application, tree sprays, lawn treatment, car washing, or disinfecting animal pens. Mixes 1 qt. material with 20 gal. water. 3.15, postpaid.

4098—GARD-N-GUN. Pictured at right. Regular pint jar furnished; home replaceable. Shut-off valve. For spraying garden, shrubbery, roses, etc. Contents of pint jar mixes with 3 gal. water. 2.85, postpaid.

DORMATONE

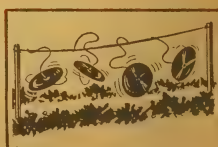

Prevents Potatoes Sprouting in Storage

4053—Now you can store your home-grown potatoes 12 months without cold storage. Dormatone prevents sprouting and shrinking, actually improves cooking and eating quality, and appearance. Use also on carrots, turnips, rutabagas. Absolutely harmless. Just dust tubers. 12 oz. in Sifter Can (treats 8 bu.) for 1.00, postpaid.

CYCLONE SEED SOWER

4082—Ideal for sowing blue grass, alfalfa, timothy, clover, lespedeza, sudan grass, oats, wheat, or any other seed that is sown broadcast. Of strong construction. Has shoulder strap. Hand crank operates double feed, insuring a uniform flow of seed. Feed adjustment is automatic and starts or stops flow of seed instantly. 4.95, postpaid.

FLYING DISKS

Scare Birds and Animals Away

4071—Scare birds and animals away. Amazing protection for newly planted seeds, berries, tender seedlings, fruit trees, etc. Made of shining aluminum. Flying Disks spin and whirl madly in all directions—give blinding reflections and weird jingling, crackling sounds—to scare birds and animals away. Easily strung across area to be protected, or hung from branches of trees or vines. 10 Flying Disks in a package, with complete instructions, for only 39c. Two packages for 69c, postpaid.

You can put 75 strawberry plants in a circle only 6 feet across.

NEW PYRAMIDAL GARDEN BED

4322—With this pyramidal garden bed, you can grow more flowers, vegetables or berries per square foot of yard space. For instance, it accommodates eight times as many strawberry plants as level bed. The bed is made of three aluminum bands filled with earth. The longest is bolted into a 6-foot circle, placed on ground and filled with soil. Then two more bands of decreasing size are added and filled, each allowing a one-foot terrace for plants.

Watering is easy: just turn on valve at outside edge and sprayer in

center of top waters entire bed. Use a little Henry Field's Green Thumb Fertilizer and get even greater results.

Kit contains aluminum strips, fasteners, sprinkler head, tubing and hose connection. Easy to put together; complete instructions included. 10.50, postpaid.

4323—HENRY FIELD'S TERRACE GARDEN. Like above excepting without sprinkler. 7.75, postpaid.

B4220X—75 Everbearing Strawberry plants to set in above bed. 4.59, postpaid.

Protect Seeds with DuPont DISINFECTANTS

Most of the time increased stands and yields can be obtained with certain seeds and bulbs by treating them with the disinfectants

4019—CERESAN M.—For treating seed-borne bunt or stinking smut of wheat, oat, or barley, smuts and stripe of barley, sorghums, and rye. Use also on flax, peas, sugar beets and rice. Dry or slurry treatment. 14 oz. can, 1.60, ppd.

4020—SEMESAN.—For combating many diseases carried on seeds, bulbs, roots or flowers, vegetable and nursery crops. Reduces seed rotting and damping off of seedlings. Use dry or liquid; liquid helps control brown patch of lawn; full directions included. 4 oz. can, 1.20, ppd.

4021—SEMESAN BEL.—For treating potatoes to help reduce scab and Rhizoctonia, rots, bacterial wilt, stem rot, seed-piece decay, etc., thereby increasing yield. Quick and easy. 3 oz. can, 1.05, ppd.

4066—ARASAN.—Summary of 1951-52 field tests by DuPont showed increased stands after treatment with Arasan as follows: alfalfa 32%; red clover 57%; lespedeza 59%; sudan 41%; miscellaneous grasses 25%.

The purpose of treating the seed is to protect it from growth of fungi on the seed and in the soil which cause seed

decay, damping off, seedling blight and root rot. Arasan does not take the place of Nitragin inoculant. Add Nitragin after treating with Arasan—not before or at the same time. It is very easy to treat your own seed yourself at time of planting. Just follow directions on the can. It takes 6 to 8 oz. to 100 lbs. of seed.

3/4 oz. pkg. (enough for average garden), 25c; 8 oz. can, 1.00; 2 lb. can, 3.20. All postpaid.

We Recommend That You Treat the Following Legumes and Grasses with Arasan:

LEGUMES	GRASSES
Alfalfa	Timothy
Red Clover	Meadow Fescue
White Clover	Red Top
Ladino Clover	Best Grass
White Dutch	Kentucky Blue
Birdfoot Trefoil	Sudan Grass
Lespedeza	

ONLY ONE SPRAY DOES THE JOB!

New Improved Formula Contains CAPTAN, "the wonder fungicide"; MALATHION, the truly great insecticide and miticide; and METHOXYCHLOR for added insect control

ONLY ONE SPRAY PROTECTS THESE:

THIS IS ALL YOU DO: MIX WITH WATER, SPRAY PLANTS

Now you can spray your fruit trees (even the tallest ones) and ornamental shrubs easily by using Henry Field's Combination Fruit Spray and a Slide-pump Sprayer. Or use an ordinary portable pump sprayer in case you already have one.

Some Questions and Answers About Henry Field's Combination Fruit Spray

QUESTION: Do I use just this one spray on my fruit trees throughout the year?

Answer: Yes.

QUESTION: When do I use it?

Answer: At different times during the season, according to what you are using it on. Directions on the package tell you when.

QUESTION: Can your new Combination Fruit Spray be used as a dormant spray?

Answer: We believe it gives sufficient control for the average backyard orchard, if used in late winter or very early spring BEFORE any buds start. After buds have started, it is too late.

QUESTION: Does this new spray take the place of Henry Field's Bug Dust?

Answer: No. Henry Field's Bug Dust is still best for your garden.

QUESTION: Will your new Combination Fruit Spray burn or harm foliage?

Answer: No. When used according to the simple directions, it will not burn, injure or harm foliage in any way, except for a slight inconsequential burning on some varieties of grapes.

QUESTION: Can your Combination Fruit Spray be used on Evergreens for Red Spiders?

Answer: Yes. It also controls Bagworm, Thrips, Leaf Rollers, Saw Fly and Aphids on evergreens. Just spray at 3 to 4 week intervals.

QUESTION: Can your new Spray be used on roses?

Answer: Yes. Apply when plants are in full foliage; again in midseason or when insects appear. Repeat when necessary.

QUESTION: Will it control Peach Tree Borer?

Answer: Yes. Spray or paint trunks of apricot, peach, plum and nectarine trees from bottom of branches to ground. Use 2 oz. of powder to 1 quart of water. Apply July 1, August 1 and Sept. 1.

QUESTION: Will I need a ladder to spray into the tops of fruit trees?

Answer: No. With the All-Purpose Sprayer it is easy to spray from the ground to the top of fruit trees.

The trouble with spraying fruit trees in the past has been that you had to buy a lot of different chemicals, and get a spray chart, and then try to figure out what to mix for each different fruit and different time of spraying.

But with Henry Field's Combination Fruit Spray, you buy just the one package and use it for different fruits at various times during the season. No guessing, no fussing around. And when used as directed, you will not harm fruit trees and it imparts no undesirable flavor to the fruit.

For Spraying Ornamentals, Too

You can use Henry Field's Combination Fruit Spray with benefit on most of your ornamental shrubs. It helps check red spider on Evergreens and certain other insects and fungi that attack ornamental shrubs.

Here is What It Does!

Henry Field's Combination Spray helps control these diseases:

Bitter Rot	Brown Rot
Black Pox	Cedar Rust
Black Rot (frog-eye)	Fly Speck
Blotch	Leaf Spot
Botrytis Fruit Rot	Peach Rot
Botryosphæria Rot	Scab
Brooks Fruit Spot	Sooty Blotch

—and these insects:

Aphis	Leaf Rollers
Bagworm	Mealybug
Black Cherry	All Fruit Mites
Aphid	Orange Tortrix
Brown Mite	Oriental Fruit Moth
Bud Mite	Pear Psylla
Codling Moth	Plant Lice
Curculio	Poultry Mite
European Lecanium Scale	Red Spiders
European Red Mite	Rust Mite
Forbes Scale	Soft Brown Scale
Leaf Hoppers	Spruce Mite
	—and many others

How Much to Order

You use one pound of Henry Field's Combination Fruit Spray with 12 gallons of water—enough to spray 3 average-size fruit trees five times during the season. Figure about half that much for young fruit trees not yet bearing.

Low Cost

Henry Field's Combination Fruit Spray makes it easier for you to get more and better apples and peaches and pears and plums and cherries and

all the other fruits, and the increased production, and better fruit, more than pay for the spray. And your ornamentals will look a lot better if you use it on them too.

Guaranteed

We guarantee Henry Field's Combination Fruit Spray to give satisfaction or we will refund your money. It makes good or we do. No arguments.

NOTICE: Henry Field's Combination Spray is best for your fruit trees, berries, evergreens, roses and ornamental shrubs. But for your garden, Henry Field's Bug Dust is best.

Use According to Directions on All These:

Peach	Gooseberries
Plum	Apri cot
Apple	Evergreens
Nectarine	Raspberries
Cherry	Blackberries
Pear	Roses
Quince	Ornamental Shrubs

FRUIT TREE AND

ALL-PURPOSE SPRAYER

A real sprayer buy at a price you can't beat anywhere. A sprayer of precision brass construction, Barrel 23½ in. long. Slide-pump with nozzle adjustable to shoot a fine mist or a 40 ft. stream. Neoprene hose—unaffected by chemicals. Ideal sprayer for trees, shrubs, whitewashing, pumping, spraying, fumigating, etc. Underspray extension nozzle included with each sprayer. 4050—Only 7.65, ppd.

LITTLE GIANT SPRAYALL

The best small sprayer we've ever seen! Ideal for small spray jobs by average backyard gardener. (For bigger spray jobs, such as fruit trees, etc., we recommend All-Purpose Sprayer above.) Small in size and light weight, yet is easy to operate and gives excellent results. Handles all spray solutions. Easy to clean. Double action gives continuous fog mist or full stream. Barrel made of brass. Neoprene hose resistant to chemicals. Adjustable nozzle with finger tip control. Comes complete as illustrated. No. 4087—only 4.95, ppd.

JAR ATTACHMENT FOR SPRAYER

Small attachment adapts No. 4050—All-Purpose Sprayer to fit any Mason jar making a small, self-contained spraying unit for small spray jobs. Jar and Sprayer not included. No. 4051 only 1.15, postpaid.

SEEDER-FEEDER-WEEDER

4035—The perfect way to sow lawn seed, spread dry fertilizer and dry weed killer. Adjusts to any size seed. Holds 1½ pounds. Simply load, turn crank and walk. Even a rank amateur can do a perfect job. Precision made. Easily cleaned. Built for years of service. 4.95, postpaid.

WEED GUN

4039—Kill weeds the easy way. Simply place tip of gun on the weed and push lightly. The application is made in the right place. Put 2-4 D in gun; marks on transparent tube tell you how much. Add water. 34" long, made of plastic, brass and stainless steel. 2.00, postpaid.

CRAB HERBICIDE-1 Prevents Weeds

4074—The new "weed preventer" that kills weed seeds as they start to sprout. Use it to prevent weeds in many varieties of garden plants, including strawberries, roses, raspberries, asparagus, gladiolus, beans, perennial flowers, shrubs and evergreens. Simply mix with water and spray soil surface. Directions on package. 4 oz. package (fills 3000 sq. ft.—enough for average garden) 1.50; 1 lb., 4.49; 2-lb. package, 7.25, ppd.

Henry Field's Improved LAWN WEED and BRUSH KILLER

4016—Sure death to dandelions, also kills other lawn weeds, roadside brush, poison ivy, poison oak, stump sprouts, other nuisance sprouts. 1 pint (makes 10 gals. spray) 1.89; 1 qt. (20 to 25 gals. spray) 3.45; 1 gal. (up to 50 gals. spray) 7.50, postpaid.

WEED KILLERS

Henry Field's NEW "Double Barrel" CRAB GRASS KILLER

4324—A sure-fire crab grass killer which also controls chiggers, ants, night crawlers, snails, slugs, fleas and many other insects. Just mix liquid with water and spray lawn before crab grass seed germinates. Does not harm established lawn grass. 1 pint (enough for 700 sq. ft. of lawn), 2.95; 1 quart (enough for 1400 sq. ft.), 4.95, postpaid.

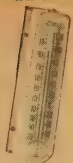

LAWN MODEL
BIRD BATH

GARDEN BED

RAIN GAUGE

BIRD BATHS

Here are the finest, most practical, and most attractive bird baths we have ever seen. Made of metal, strongly constructed, and carefully enameled. Will last a lifetime. Come to you "knocked down" but are easily put together.

4096—Lawn Model. (Above left.) Has 3 legs, 8.95, ppd.
4095—Flower Bed Model. (Above right.) Stand is stuck into ground. 4.95, ppd.

PLASTIC FLOWER POTS

4031—At last we have found a plastic flower pot we can recommend. Not only is this one very attractive, but it is sturdy and well made. Is 4 1/4 in. wide, 3 1/2 in. high. Has separate saucer so plants can be watered from the bottom. Your choice of these colors: coral, gray, char-

truse, forest green. 48c each; 3 for 1.25, postpaid.

INDOOR OR OUTDOOR THERMOMETER

4032—Need a good, accurate thermometer? Well, we have one and it's really a dandy. It may be used indoors or outdoors. One of the nicest features is that, due to its patented magnifying plastic lens, it is easy to read.

Has a 6" red fluid tube that gives readings from 70 degrees below to 120 degrees above zero. Complete with a heavy aluminum bracket for window mounting. Or may be hung on a wall or post. Indoor or Outdoor. Only 1.00, postpaid.

RAIN GAUGE

4090—Now you can tell at a glance how much rainfall you got at your place. Just fasten Henry Field's Rain

Gauge on a post or some open place. Measures up to 4 inches of rainfall. Easy to read. Removable tube. Each time you empty water from tube, turn meter to keep record of total rainfall for month or season. Metal is baked enamel finish so won't rust. Only 1.00, postpaid.

E-Z-Trip MOLE TRAP

4311—We have looked a long time for a real, honest-to-gosh mole trap—one that will catch them and no foolin'. Well, this is it. Easy to set. Positive in action. The mole never escapes its powerful jaws. (Not a plaything for the kids.) No false alarms with this one. Fully guaranteed. 3.50, postpaid.

SOOT DESTROYER

4049—Rids furnaces, stoves, chimneys of soot and carbon. Does it easily, safely and inexpensively. Is a non-explosive powder for use in oil, coal or wood-burning furnaces, stoves, boilers, etc., and in chimneys. Merely put required amount into heating equipment when fire is going. Guaranteed. 1-lb. can (enough for several normal cleanings), 75c; 3-lb. cans, 1.85, ppd.

MAGIC STUMP REMOVER

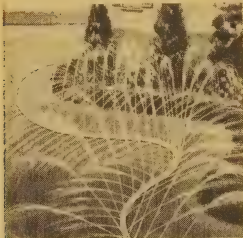

4089—Now you can remove tree stumps yourself, without chopping, digging, blasting or pulling. Magic Stump Remover is safe to use. You just treat the stump with this chemical so that you then can burn it, roots and all. Full directions on package. Trial package 4 oz. (enough to remove one stump 12 in. in diameter), 1.00; Economy size, 8 oz., 1.65, postpaid.

Lawn Puller—Weed Puller Mechanical Hand

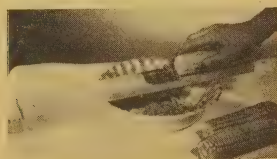

Let's You Work Without Stoop
4028—A weed puller that really works. Cuts off and pulls stubborn weeds with one motion. Can be used to pick up most anything without stooping. A squeeze of the handle closes the jaws firmly around object. 37 inches long. 2.65, postpaid.

TWIN-TUBE FLEXIBLE SPRINKLER

Made of flexible plastic compound that is stronger, stands more pressure. New positive seal couplings at both ends. No erosion, no wasted water. Hard to water areas reached easily.

4037—Twin tube, 25-ft. length, 3.65; 40-ft. length, 5.45, ppd.
4000—Triple tube, 25-ft. length, 3.95; 50-ft. length, 5.95, ppd.

SWEET CORN COUNTER

4006—Slickest thing you ever saw. Easiest and fastest method of getting sweet corn off the cob. Five strokes finishes an ear in less than ten seconds. Removes the tender young kernels; leaves tough husks on cob. It's patented, and guaranteed. 1.98, postpaid.

IN-THE-ROW PLASTIC GREENHOUSE

4309—You stick U-shaped wire wickets into the ground and cover them with sturdy translucent plastic that has built-in openings. Clamps are furnished for keeping vents closed or open. Easy-to-follow instructions furnished. Reusable.

No. 5 size; covers bed 5 feet long, 12" wide and 12" high. 2.50, postpaid.

No. 36 size; covers 25 feet of row 12" wide, 12" high. 5.45, postpaid.

No. 54 size; covers 25 feet of row, 24" wide, 18" high (can be varied to 30" wide, 14" high). 7.95, postpaid.

ALL-AROUND PLANTING TOOL

4308—The easy way to plant bulbs and small plants. Makes 2-inch hole. The sharp, tempered steel cutting edge cuts soil or sod easily. Ideal too for working in small places without disturbing other plants. Removes a core of soil. You just drop in the bulb, or set the plants, at desired depth. Made of steel; sturdy; lasts a lifetime. 2.85, postpaid.

AUTOMATIC WATER TIMER

4080—When watering your lawn, have you ever forgotten to turn the water off? If so, you need this water timer. You set it for length of time you want the water to run; when time is up, it turns water off for you. Saves you money and lets you do a better job of watering me lawns. Fits any standard garden hose. Made of finest materials; lasts indefinitely; fully guaranteed. 9.95, postpaid.

MOON SIGN BOOK

Note: Planting by moon signs has been argued pro and con for a long time. We are neither "for or against" planting by moon signs because we don't know. Lots of people believe in it and lots don't. If you do, here's the best book put out on the subject.

"PLANT BY THE MOON"

256 Pages

By Llewellyn George
Well-known Author and Lecturer

501—The Moon Sign Book gives complete instructions in the use of planets and stars in planting and investing, also business and personal affairs, etc., the result of more than thirty-five years of research. Why do farmers plant potatoes in the dark of the moon? When should Corn, Beans, etc., be planted? Why florists plant seeds in the 2nd quarter and a certain Moon Sign? Why you should plant flowers in Libra on a certain date and Moon's phase? These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 50 years with sales increasing each year. A mine of useful information. Price 1.50 in the U. S.

Modern, Easy-to-Erect ALUMINUM TRELLIS

4010—This easy-to-handle trellis is made of aluminum mesh, very flexible, yet hangs straight and true. Use it too for patio and porch treatments, as breezeway "drapes," grape arbor, climbing roses. Won't burn sensitive vines. Never needs painting, but can be painted if you wish. Rust proof, lustrous-brite finish lasts indefinitely. Blends beautifully with any background. Comes complete with end rods and screw eyes; requires only hammer and pliers to erect. 24 inches wide, 6-foot length, 3.30; 8-foot length, 4.40, postpaid.

ALUMINUM GRASS STOP

4307—Are you tired of stooping and clipping and digging to keep your lawn grass from spreading into borders and flower beds, and onto walks and away from tree trunks? If so, and if you still want to keep your yard neat and trim, Aluminum Grass Stop is your answer. Reduces mowing time too. Easy to install; just make cut with shovel and slip the strip into the ground where you want it. Doesn't show after put into place. Lasts a lifetime; won't rust. A 40-foot roll for only 6.75, postpaid. Easy to cut into lengths to suit your needs.

STOP-GRASS Keeps Grass Short Chemically

4014—Stop-Grass makes grass grow so slowly it doesn't have to be cut for months. Stays short and green. Recommended for trimming lawn edges and hard-to-mow places. Also prevents sprouting of onions and potatoes in storage. Contains Maleic Hydrizide developed by U. S. Rubber Co. Safe and easy to use. 1/2 oz. (for 400 sq. ft.) 1.00; 4 oz. (100 sq. ft.) 2.25; 1 lb. (4400 sq. ft.) 6.95, ppd.

Henry Field's SEPTIC TANK CLEANER

4300—Keeps septic tanks, grease traps, and cess pools clean. Prevents plugging of drain, eliminates odors. It is a dry powder of preserved bacteria that come to life in your cess pool. Harmless to plumbing and humans. Easy to use—you just flush it down the drain. GUARANTEED: If you're not satisfied after a three-month trial, send back the empty container and we will refund your money. 1 lb., 2.95; 3 lb., 8.50, postpaid.

"SUNY-SONG" Canary Seed

"The Cream of the Crop"

4400—Our Suny-Song canary seed mixture is the best quality of clean, pure, wholesome new crop canary and rape seed that the world markets offer. It is packed 100% seed, no filler, no rocks, and no biscuits. Cheaper seed contains millet which is not good for a canary.

CANARY SEED PRICES

1 lb. 60c	Postpaid to Zone 3.
2 lbs. 1.04	Beyond, please add
4 lbs. 2.00	20c extra for post-
10 lbs. 4.40	age.

Aquarium and pool plants afford a year-round hobby. A garden pool, even a small tub pool, creates a beautiful and restful scene in your garden. An aquarium, properly planted, is a home for gold fish or the brightly colored tropical fish; you will enjoy the "living" picture.

ABOUT SHIPPING WATER PLANTS, SNAILS, AND CLAMS: Because of their perishable nature, we can not guarantee these items for an indefinite period. Adjustments will be made for those received in poor or damaged condition if you write us the same day the plants, snails, or clams arrive.

WHEN WE SHIP: Please

mark on your order, after each item, "for pool" or "for aquarium" so we may ship at best time. We normally can ship aquarium plants, snails, and clams any time the temperature is above 20 F., excepting we do not ship aquarium plants from about June 15 to Sept. 1, because of hot weather. Pool plants are shipped from about April 15 to June 15 only.

4104X—1 Wren House like above, and 1 Bird Feeder as pictured above, both for only 1.35, postpaid.

WREN HOUSE

4131—Here is a wren house with real bird appeal. Made of composition and stained wood. This house is knocked down; all materials, hooks and nails are included, plus complete instructions for easy assembly. 59c each; 2 for 1.00, postpaid.

WILD BIRD SEED

4401—A sure-fire way to keep the wild birds around your home all winter. They stay only where food is available to them. When snow covers nature's food supply, place this seed where the birds can get it. 5 lbs. 1.25; 10 lbs. 2.25, postpaid, to zone 3. Beyond, please add 20c extra for postage.

4402—Sunflower seed for Bird Feed. 3 lbs. 1.25; 5 lbs. 1.75, pdd.

Animated, Gay GARDEN BIRDS

4310—These are large, life-like birds, each one 10½ inches tall. Cut out from flat wood and enameled on both sides of post or tree. One each of Woodpecker, Cardinal, and Blue Jay. All 3 for 1.98, pdd.

AQUARIUM and POOL SUPPLIES

ORNAMENTAL POOL PLANTS

For Outdoor Pools Only

NI 150—WATER LETTUCE. Grows into large floating rosette of fluted velvet green leaves. No bloom, but unusual green color and very attractive. Good for spawning and fish food. 49c each; 3 for 1.35, pdd.

NI 152—PARROT FEATHER. Fern-like foliage, thick vine runners, giving a dainty effect to surface of water. Grows without planting but does best in soil and sand near surface. Bunch, 49c; 3 bunches, 1.35, pdd.

NI 154—WATER POPPY. Very long trailing vines; blooms resemble old-fashioned buttercup. Blooms freely all summer. Leaves dark green and heart shaped. (Rich soil, shallow water.) 49c each; 3 for 1.35, pdd.

NI 153—UMBRELLA PALM. Raises beautiful palm-like stems into air and

expands tiny tufted spirals into umbrella-shaped top. Good house plant if kept well watered. (Rich soil, shallow water.) 69c each; 3 for 1.69, pdd.

NI 163—CREEPING PURPLE WATER HYACINTH. Vines freely, blooms nearly everyday all summer. The orchid-like flowers stand about 5 in. above water. A handsome, free-flowering creeper, the form of the well known water hyacinth. A steady bloomer with dark purple flowers in clusters and with rich green glossy leaves. Plant less than 6" deep. Plants, 99c each; 3 for 2.49, pdd.

LOOSESTRIPE (Lythrum). See page 53 for descriptions and prices. Good for planting at pool side. When used as a pool plant, does best with crown slightly above water level.

NI 155—PRIMROSE CREEPER (not pictured). Grows rapidly. Blooms are brilliant yellow; often has 20 to 30 blossoms at once. Easy to keep over winter. May be used as a house plant if kept well watered. (Rich soil, shallow water.) 49c each; 3 for 1.35, pdd.

COLLECTION FOR SMALL POOL

N890X—1 each of Parrot Feather, Water Lettuce, and Creeping Purple Water Hyacinth—all 3 for 1.69, pdd.

COMPLETE POOL COLLECTION

N892X—1 each of Parrot Feather, Water Lettuce, Creeping Purple Water Hyacinth, Water Poppy, Primrose Creeper, Water Sprite, Umbrella Palm (7 plants), plus 6 Trapdoor Snails, for 4.98, pdd.

SNAILS and CLAMS

SPECIAL DELIVERY mail is safest and quickest way to ship snails and clams. If you wish them shipped this way, please add 45c to your order.

NI 168—REDRAMS HORN (Coral Snail). One of best aquarium snails. Excellent snail eater for pools. Active eaters of algae and other matter. 3 for 69c; 6 for 1.19, postpaid.

NI 166—JAPANESE TRAPDOOR SNAILS. Large, live-bearing, hardy snails especially suitable for pools. Active eaters of algae and other matter. 3 for 69c; 6 for 1.19, pdd.

NI 167—CLAMS (fresh water mussels). They keep water clear. Need several inches of sand. Live clams close when tapped lightly. 3 for 69c; 6 for 1.19, pdd.

FISH FOODS

TONIC FOOD

4412—A laxative food to relieve bloated and ailing fish. Feed daily until condition is corrected; feed once a week thereafter. For tropical and gold fish. Box, 35c, pdd.

ADULT FISH FOOD

4411—A balanced diet mixture. Give fish high color and satisfies their appetite. Box, 29c; 7 oz. package, 60c; 4 lbs., 2.15, pdd.

TROPICAL FISH FOOD

4410—A glandular, balanced diet food for tropical fish. State whether you want fine, medium, or coarse. Box, 35c, pdd.

HI-BALLS

Keeps Water Pure Eliminates Acid

4413—The Hi-Ball is a combination of chemicals that neutralize the water acids that develop in the pool, thus avoiding foul water. Keeps water pure and clear. Remember, acid water is a deadly enemy of fish, snails, clams and water plants. Hi-Balls are a must in any pool or aquarium.

Use 5 Hi-Balls in pool up to 25 gallons; from 25 to 75 gallons, use 10 Hi-Balls; from 75 to 150 gallons, use 15 Hi-Balls. 5 Hi-Balls, 70c. 12 Hi-Balls, 1.25. 30 Hi-Balls, 2.45. All postpaid.

OXYGEN-PRODUCING PLANTS

Help Supply Oxygen for Fish in Aquariums and Outdoor Pools

All these plants may be used both in aquariums and pools except where noted:

NI 159—RED LUDWIGIA. Variegated red and green color. Extra good for larger aquariums and pools. Plant in pot if used in small bowl. Bunch 49c; 3 bunches, 1.35, pdd.

NI 156—CABOMBA (Fanwort). Good for fish to eat. Grows long stems with rounded leaves. Fine for a bushy plant. Bunch 49c; 3 bunches, 1.35, pdd.

NI 157—SAGITTARIA. Thick rooted; good sand purifier. Has long thick leaves, multiplies by runners. Single plants, 49c each; 3 plants, 1.35, pdd.

NI 162—ANACHARIS. Good for fish to eat. Dark green foliage. Pinch tips for bushy plant. Bunch, 49c; 3 bunches, 1.35, pdd.

NI 158—VALLISNERIA. Long, grassy-like, narrow stems. New plants formed by runners. Many roots; excellent sand purifier. Ideal for tall background plantings. For aquariums only. 3 for 49c; 12 for 1.35, pdd.

New Black Plastic Mulch

NO WEEDS—NO CULTIVATING

4318—Just lay this black polyethylene plastic film down between the rows of your garden and weight

Grows Bigger, Stronger Plants

it down at edges with soil. Weeds then won't grow because the black plastic cuts off sunlight. The plastic also keeps the soil moist, and also keeps ground warm even on cold nights. Plants mature earlier, grow bigger, stronger. Saves a whole season's cultivating too. No. 12 size: 100 feet long, 12" wide for 2.50. No. 18 size: 100 feet long, 18" wide for 3.50. No. 36 size: 100 feet long, 36" wide for 6.00, postpaid. Be sure to state width wanted when ordering.

Bush Beans

Egg Plant—See Chart

Inoculate with "Nitragin" and then plant when the ground is warm in rows 24 to 30 inches apart, covering the seed 2 inches deep. Later to 4 to 5 inches in the row. One pound will plant about 100 feet of row. Rows three feet or more apart if seeded with a garden tractor.

Plants may stand as close as two inches apart or as far as six inches apart.

Do not cultivate when plants are wet with dew or rain.

Give directions suitable for small Limas.

Navy beans should be planted late, say July 20th, so they will be too late for the bean weevil. Late plantings will also cause practically the best crop to mature at one time.

Use 20 to 30 pounds of seed to the acre. Space rows a convenient distance apart to cultivate.

For small crop pull and pile to dry, then thresh with a flail.

Large Bush Limas

All Limas require rich soil. Do not plant until ground is thoroughly warm. Wait until after the plants are well established.

If you have the time plant the seed on edge eye down. Cover two inches deep.

One pound of seed to 100 feet of row. Rows not closer than 18 inches or 2 feet apart. Thin to ten or twelve inches apart in row. They do better if inoculated with "Nitragin" before planting.

Can a few for winter use while they are green.

Pole Beans

Inoculate with "Nitragin" and then plant when soil is warm in hills 3 to 4 feet each way, covering seed 2 inches deep. Use 1/4 pound of seed to 7 hills.

String a slender pole six hill to eight feet long, between each hill and draw the tops of four of them together with a fine twine and tie them.

Run a few shelled, white green, to use in succotash.

Use above directions for Pole Limas, except they should be planted later and on rich soil, and two plants to the hill is better than more.

Table Beets

See Chart. Beets have best flavor when about half grown.

Make several plantings for the season's supply. Start planting about July first.

Use the plants thinned out for greens or transplants some of them.

Plant in a pit, cellar or cave where they will keep cool and moist enough to prevent drying out.

Use the tender leaves for greens for eating.

Mangel Beets—See Chart

The best ones are from early planting.

After frost pull and pile in dry until cold weather.

Crop temporarily so sun will not dry them out and so they will not freeze.

Store in cave or pit where there is enough moisture to prevent shriveling. Hold them as near freezing as possible and provide ventilation.

Carrots—See Chart

Seed sometimes slow to sprout so be patient. Plant seed 1/2" deep.

Store in a pit, cave or cellar where they will keep cool and moist enough to prevent shriveling up.

Store in sack in dirt or sand and moist occasionally.

Celery—See Chart

Start early either in the house or hot bed or on the field later on.

Celery seed sprouts slowly.

Use shallow soil in surface soil moist until plants are up.

To allow plenty of room, thin out and transplant when quite small. Thin four or five inches, transplant to field.

Thin the plants 18 to 24 inches apart in row, four to five feet apart if you use dirt for banking up. Three feet apart if you use weeds.

When plants are ten or twelve inches high, begin drawing the leaves to get.

As the plants grow taller, pull up more dirt, always leaving leaves exposed.

Some people bleach the stalks with sections of a drain tile or by wrapping plants in heavy building paper.

Early Cabbage and Cauliflower

Plant the seed in the house or hot bed 6 inches or more before they set in the field, covering seed about 1/2 inch deep. Rows 3 feet apart, with plants 18 to 24 inches apart.

Late Cabbage—See Chart

Plant in cold frame figuring 2500 plants to an ounce of seed, or drop in hills 18 to 36 inches or drill where plants are to stand at the rate of 1 pound per 100 feet.

To mature late crop, figure 120 to 150 days from seed. Most folks plant their late cabbages too early.

It saves a lot of hard labor and you are sure of getting a stand when seed is planted in field where crop is to be grown.

Chinese or Celery Cabbage

Sow outdoors the very earliest possible in the spring, or for a fall crop, sow after mid-July. In most places in the middle west, the fall crop does better than the early one.

Make your rows 18 to 24 inches apart, and high, so they are 8 to 12 inches when they are ready to eat.

Use these plants quickly run to seed in warm weather without making any heads, so be sure to get them out early. Use raw for salad, or boil. Store in moist, cool quarters.

Cucumbers—See Chart

Plant when ground is warm in hills 3 x 3, 2 feet covering seed 1 inch deep. Drop about a dozen seeds to the hill and thin to 12 to 18 inches apart in hill. Figure 100 hills to the ounce or 25 the bush.

Help the plants resist the attacks of insects and diseases by planting on rich soil. Use plenty of Henry Field's Bug Dust.

Figure 1500 plants from an ounce of seed and 150 from a packet. Seed slow to sprout.

Do not plant too early. Egg plant should be the last spring crop planted in the garden.

Gourds

Plant the seed early in paper cups filled with soil. Keep in a sunny window and transplant to garden when weather is settled and danger of frost is past. Allow 3 feet per vine, or plant close to fence so they can climb. Cut off the paper cup leaving roots undisturbed in their ball of dirt.

Be sure your gourds are ripe before cutting them carefully from vine. Stem should be slightly withered and fruit will feel dry and will crack when tapped with fingernail.

Wire with canvas cloth and put in warm dry place to cure for about 2 weeks. Then shellac or paint them and they will keep for a long period.

Herbs

Seed is usually very small. It's a good idea to start it in a box of soil. Keep cool, moist and very lightly. Transplant outside when ground is warm. Give each plant 1 square foot of space. Or plant seed directly in garden after danger of frost is past. Thin out just as soon as they are up.

Dill can be planted fairly early. Use when it's about 2 feet tall and leaves are formed but not ripe. Use fresh or hang in bunches to dry and use later.

Herbs are used in soups or stews. Is especially good combined with chicken or tomatoes. Use white small.

Sage can be planted early. Start picking leaves to use in late summer. Before winter gather in bunches and hang to dry. Will keep indefinitely in dry place. Good for improving sausage and dressing.

Parsley. Hardy and easy to grow. Have kitchen for winter. Also in a pot in the house.

Garlic. Separate into cloves and plant and care for like onion sets.

Chives. An easy to start perennial. Will last for years. Mild onion flavor. Thyme, Marjoram, Borage, Sweet Basil, Rosemary, and Caraway are all interesting and easy to raise.

Lettuce

HEAD LETTUCE: Can be grown with weather and rich soil. Sow early in the house, in hot beds or cold frames. As soon as danger of severe frost is past, transplant seedlings. Plant 6 inches apart in rows 14 inches apart.

LEAF LETTUCE: Easiest kind of lettuce to grow. Plant early in spring in open ground. Don't sow seed too thickly. Later thin plants to 6 inches apart.

Mushroom Growing

For best results, temperatures should range from 50 to 60 degrees Fahrenheit. A cave or cellar 5 to 6 feet high is best. Cover floor with ground, and vent holes for ventilation. Is ideal. Write for full information on mushroom growing.

Muskmelons—See Chart

Plant when ground is warm in hills 3 x 6 feet, covering seed 1 inch deep and thin later to one plant every three feet.

Look on the 5th or 6th of June for two plants to the hill. Figure 86 hills to an ounce or 30 hills to the packet of seed.

Look on the 5th or 6th of June for two plants to the hill. Figure 86 hills to an ounce or 30 hills to the packet of seed.

Muskmelons are ready to pull when a crack appears around the stem.

The melons are best if gathered early in the morning while cool.

Onions—See Chart

Onions do most of their growing before hot weather sets in.

When onions are as large as a straw, thin and weed.

When tops fall down, pull and throw in windrows and allow to cure two or three weeks.

Store temporarily in shallow piles or slatted crates under cover.

If not harvested until a wet spell of weather it causes second growth and they will not keep well.

Use sets to grow early green onions.

ONION PLANTS: The plant should be transplanted as early as possible. A light freeze will not hurt them.

Space the plants at a convenient distance. Pull and use Bermuda onions as soon as large enough. They are not good keepers.

Parsnips—See Chart

Plant early in rows 15 inches apart, covering the seed from one-half to three-fourths of an inch deep.

Thin later to 4 or 5 inches in the row. One ounce will drill one foot, one packet, 50 feet.

Parsnip seed sprouts better earlier in the season when the soil is cool and moist.

Sprouts slow.

To make the row so that you can cultivate before the plants are up, scatter a few radish seeds along the parsnip seed.

The radish will come up first, and when they are large enough, pull and use.

Store in a shallow pit where they will freeze, for freezing improves the flavor.

Or you can grow them in the ground, where they grow, until spring.

Peanuts

Plant when the ground is warm in rows not closer than 2 feet apart. Drop two kernels every 12 inches in the row.

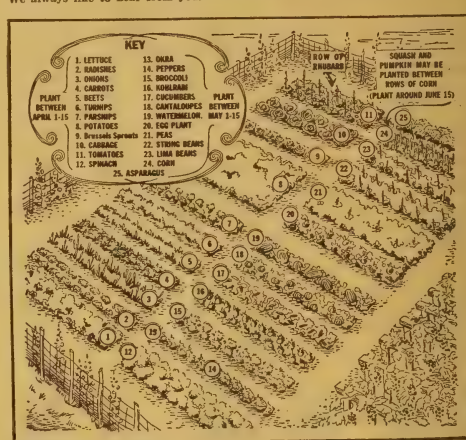

Shed before planting. It is best not to break the brown skin covering the nut.

Cultivate same as beans. Do not cover the bloom. Keep soil loose and mellow. They will bury themselves. Harvest after frost.

Dig the whole clump up, shake the soil out of the roots, pile them up around a pole in the garden, or the veranda, or other well ventilated place and allow them to dry and cure. After two or three weeks you can pull the nuts off the roots. These should be cleaned up and dried and cured again and then they are ready for roasting.

HENRY FIELD'S Garden Planting Tips BE SURE TO SAVE

This and the next page may help you when you order your seed, and plant your garden, in the spring. They also may help answer some questions during the growing season. But if you have more questions, now or later, please write us. We always like to hear from you.

A SUGGESTED GARDEN PLAN

LOCATION OF GARDEN. The kitchen garden should be located close to the house. This gives protection against animals and thieves (makes it a lot harder too if you have a few odd moments to spend in it). The main or big garden should be so located and planned that it can be cultivated with regular farm tools. It saves a lot of weeding.

SOILS AND SHADE. Don't make your garden in the shade of big trees or in soil full of tree roots if you can avoid it. Most garden crops like sunshine and all of them appreciate and respond to good soil. Stony land and poorly drained soil are not the best.

FITTING THE SOIL. Plow or spade deeply in the fall, especially where there is soil to be turned under. Do a good job. Leave the land rough to hold snow and moisture. Harrow or rake in thoroughly before planting. Good preparation will save a lot of cultivation.

SIZE OF GARDEN. There is only one rule we would give to the gardener and that is to "Plant Plenty." What you do not need for the day to day table needs, can or freeze.

General Tips

Before plowing, burn the rubbish and dead vegetable vines, as they may carry disease or injurious insects.

Apply a good coating of manure if you can get it. Tree leaves are also fine.

Some gardeners say cover the soil four times its greatest diameter.

Seed can be planted deeper on loose mellow soil than it can on clay or gumbo.

The same seed should be planted deeper late in the season when the soil is warm and more likely to dry out.

After planting very small seed, especially flower seed, cover with a mulch to hold the moisture near the surface until the seed sprouts.

Plant some for the worms, some for the crows, some to pull out and some to grow.

Plant abundantly. Enough for yourself and some to spare.

How and When to Plant Garden Seeds

VEGETABLES	When to Plant Out Doors	Depth to Plant in Inches	Rows Apart in Inches	Inches Apart in Rows	Am't Seed 100' Row
Asparagus	Mar-Apr.	1	15	12	1 cr.
Beans, bush	Apr-May	2	24-36	10-12	1 lb.

Squash	Apr-May	2	48	36	1 oz.
Tomatoes	Apr-May	2	48	36	1 oz.
Turnips	Apr-May	2	48	36	1 oz.
Watermelons	Apr-May	2	48	36	1 oz.

*May be started in Hot Beds in March or April.

Peas—See Chart

One pound of seed should drill 100 feet of row.

To get that delicious flavor, cook, can or freeze peas within two or three hours of the time they are picked.

You should plant both smooth seeded for early peas and wrinkled varieties for later heavier yields. Be sure to inoculate with "Nitragin" before planting.

One line is to drill rows side by side about 8 inches apart with 2 feet between each pair of rows. This saves space and the peas stand up better.

Even bush peas like a little brush to at least climb up on. They are naturally a climber and you will find that they do better results this way. It is very important to plant them very early. The last of March is usually right.

Peppers

Plant early in the house or hot bed and transplant to field when ground is warm in rows 2 to 3 feet apart and 2 feet apart in the row.

Give each plant not less than 1 inch space in the hot bed, and in rows 4 inches apart. The like rich soil and warm growing weather.

Irish Potatoes

Use our potato seed sets or cut your own seed pieces. If you cut your own, be sure that each piece will have two or three eyes. The pieces should be cut 4 inches deep and 12 to 14 inches apart in rows 3 to 3½ feet apart. Spring planting makes the soil as damp as heavy frost is over and late plantings should be made any time from the last of June to August 15th. Good cultivation is important. After digging the potatoes do not allow them to remain in the open sun. Store in a dry, well ventilated, cool place.

To prevent potato's sprouting, softening and shriveling, use Dormantone, which we list on page 42.

Potatoes, Sweet

For best results, use state inspected plants purchased from good reliable source. (Or, if you prefer, you may start your own plants by digging good, sound sweet potatoes in sand in hot beds about 6 weeks before time to set out.)

After all danger of frost is past, set plants on low ridges about 12 to 16 inches apart in rows 3 feet apart.

Harvest crop when the first frost in the fall. Allow potatoes to dry out in the sun for 4 or 5 hours. Be careful not to bruise. Store in dry, warm, well-ventilated place.

Radish—See Chart

Plant often so that you can always have them crisp and tender.

Use them fresh from the garden before they become tough and woody.

Plant the long varieties for late spring and summer use.

Plant the winter varieties in late July when you plant late turnips and thin to at least six inches in the row.

Salsify

See Chart

Plant early in spring. Plant and cultivate same as parsnips.

Dig just before hard freezing weather and store in a shallow pit where it will freeze.

It is especially fine in soup, either alone or with other vegetables. Tastes like oysters.

Spinach

Plant early in rows 14 inches apart, covering the seed from three-fourths to one inch deep.

This later to about 3 or 4 inches in the row. One ounce will drill 100 feet; one packet, 25 feet.

Plant as early as possible, for it is most appreciated early in the season.

Spinach can be planted in late summer and carried over winter by mulching same as for strawberries.

Squash—See Chart

For large seeded squash figure 25 hills to the ounce of seed and for small seed 50 hills to the ounce.

Summer Squashes are delicious if used before they are a third or half grown.

Combat squash bugs by dusting with Henry Field's Bug Dust.

Sweet Corn—See Chart

Make an early planting and in a week or ten days another between the rows of that first planting.

For succession, plant an early, an intermediate and a late variety at the same time. Or make several plantings of

your favorite variety, or plant our special blend which ripens in succession.

Be sure not to plant sweet corn close, or you will have only fodder and no ears to eat.

To prevent ear worms, dust the silks with Henry Field's Bug Dust. Give first dusting when silks are an inch long (before worms appear).

Smut is a fungus growth. To control, practice rotation and destroy the smutty ears.

Watermelons—See Chart

Drop 6 seeds to the hill and thin later when bugs are gone to 2 plants to the hill. Figure 50 hills to the ounce of seed.

If you want extra big melons, keep all but two or three on the vine picked off as fast as they appear.

If you plant in hills, make them not closer than 8 x 10 feet and as far apart as 12 x 12 feet, or even farther, sometimes.

At this distance some growers allow only one plant to the hill.

A dull green color indicates a ripe melon and a bright green color an unripe melon.

Canning and Freezing

Space is too limited to give you all the information you would want about canning and freezing, but you can easily get full and very excellent directions by writing to the Bureau of Home Economics, Dept. of Agriculture, Washington, D. C.

By all means, everyone should can plenty of vegetables, and fruit this year. Be sure you have plenty to eat by GROWING YOUR OWN AND CANNING AND FREEZING YOUR OWN.

A CANNING PLANNING GUIDE					
Home-Grown Vegetables and Fruits	How to Preserve	Amount to Plant per Person			
		Preferred Method	Other Methods	Spring	Fall
VEGETABLES					
GROUP 1 Tomatoes	30 qt.	Canning	(Catsup Chutney)	15 Plants	
GROUP 2 Cabbage	40 lb.	Pit storage		18 Plants	
Lettsuce	10 lb.	Pit storage		18 Plants	
Spinach	6 qt.	Freezing	Canning	9 ft. x 5 ft.	
GROUP 3 Carrots	30 lb.	Pit storage	Canning	15 ft. x 15 ft.	
Turnips	15 lb.	Pit storage	Canning	10 ft. x 15 ft.	
Beets	10 lb.	Pit storage	Canning	20 ft.	
Parsnips	10 lb.	Dry storage	Canning	20 ft.	
Onions	12 lb.	Dry storage	Canning	20 ft.	
GROUP 4 String Beans	8 qt.	Canning	(Selling (Freezing Canning)	60 ft. x 3 rows	
Asparagus		Freezing	Canning	4 plants	
Peas	5 qt.	Freezing	Canning	8 plants	
Beans, dried	7 lb.	Drying	Canning	105 ft.	
Peas, dried	1 lb.	Drying	Canning	100 ft.	
GROUP 6 Potatoes, white	3 bu.	Cellar		400 ft.	
Potatoes, sweet	1 bu.	Dry storage		1 plant	3 plants
Squash	10 lb.	Dry storage			
FRUITS					
GROUP 1 Apples	2 bu.	(Canning Canning)	Use also for jelly, preserves		
Peaches	12 qt.	(Freezing Canning)			
Pears	9 qt.	(Canning)			
GROUP 2 Cherries	4 qt.	(Canning)	(Freezing)		
Plums	5 qt.	(Canning)	(Freezing)		
Rhubarb	4 qt.	(Canning)	(Freezing)		
Berries	4 qt.	(Freezing)			

Yes, by all means inoculate your garden peas, beans and Sweet Peas. It pays big in more vigorous plants and greater yields. A 25c packet treats 5 lbs. of seed. Easy to apply. See page 7.

Grow-Aid

Another big aid to improving crops is "GROW-AID." It is a new Hormone-vitamin concentrate. It stimulates root growth. Use it when setting out plants. See page 40.

For Earlier, Larger and Better Tomatoes

Use Blossom Set. A hormone spray. Apply to the blossoms and watch the results. You will be amazed. Tested by the U.S.D.A. See page 40.

Tomato—See Chart

Sow seed eight to ten weeks before setting in the field.

Any of the early bunch vegetables can be grown between the tomato rows. Drive three stakes around a tomato plant and fasten a barrel hoop to them and allow the plant to grow up through. This will act as support.

PRUNING: Tomato vines are trained to a single stem, or two stems. You can pinch out the terminal bud when the plants reach the height of about 4 ft. The vines should be gone for each week and any new shoots starting out from the main stem should be pinched off. Do not pinch off the blossom stem. If you are in doubt, allow this bud to remain until the next week.

Crop Features to Utilize

Crops Occupying the Ground All of the Growing Season: Beans (Pole, Lima), Chard (Swiss), Cucumber, Eggplant, Muskmelon, Okra, Onions, Parsley, Parsnip, Peppers, Sweet Potatoes, Irish Late Potatoes, Pumpkins, Salsify, Squash (Winter), Spinach (New Zealand), Tomatoes, Watermelons.

Crops Occupying Ground Part of Season and May Be Followed by Others: Beans (Bush), Beets, Cabbage, Cabbage (Chinese), Carrots, Corn, Kale, Kohlrabi, Lettuce, Mustard, Onions (Green), Peas, Potatoes (Early), Spinach, Turnip (Spring), Rutabaga (Spring).

Crops Which May Follow Others: Beans (Bush), Cabbage, Carrots, Corn, Celery, Lettuce, Onions (Late), Potatoes, Rutabaga (Fall), Spinach, Turnips (Fall).

Crops Which May Be Utilized in Inter-planting: (Early quick-maturing, narrow-rowed) Beans (Bush), Beet (Early), Carrots (Early), Lettuce, Mustard, Onions (Sets), Peas (Early), Radish, Spinach. (Later, slower-growing, wider-spaced) Broccoli, Brussels Sprout, Corn, Cucumber, Muskmelons, Cabbage, Pumpkins, Spinach (New Zealand), Tomatoes, Squash, Watermelons.

Crops Which May Be Planted Together in the Same Row: Quick-germinating and maturing) Lettuce (Leaf), Mustard Radish, Spinach. (Slower-germinating and maturing) Beets, Chard, Carrots, Leek, Spinach (New Zealand), Parsley, Parsnips, Salsify, Onions (Seed).

Crop Succession

Plant radish seed very thin and follow at once with parsnip, carrot, parsley, asparagus, onion or leek right in the same row. Pull the radish and use when it is large enough.

Plant Beets, Kohlrabi, Lettuce, Mustard, Spinach, Onion Sets, Radishes, early Beans or Peas, between rows of late Cabbage, Melons, Squash or Tomatoes.

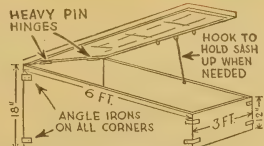

Plant Radishes very early, followed by early Cabbage plants set every two feet in the row. After the cabbage is off, sow late turnips or Chinese Cabbage.

Plant two rows of Potatoes between each two rows of Watermelons rows and dig potatoes after the Melons are gone.

Sow early Peas and Beans with late Cabbage.

Celery may follow early Peas, Beans, Lettuce, Radish or Spinach.

Plant late turnips in vacant spaces about the garden.

If you don't want to go to the trouble of making a hot bed or haven't enough good manure on hand to build one, you can do very well with a cold frame.

A cold frame is built same as you build a cold bed.

Surplus garden vegetables can be stored in an unheated garage, storage house or shed for a month or so depending on how low the temperatures fall.

Store only those vegetables which are in good condition. Dig beets, potatoes, turnips, carrots and rutabagas as early as possible before the ground begins to freeze and cut the tops off. Do not clean them from the roots. Place in boxes and pack in sand, loam or sawdust. The temperature should be between 35 and 40 degrees.

The vegetables can also be stored in a basement, in which the temperatures could be kept down and ventilation provided on racks, shelves, tin bins or boxes, raised off the floor. A concrete floor should be sprinkled a few days and a dirt floor kept somewhat damp.

Pumpkins, squash and sweet potatoes should be stored at temperatures between 50 and 60 degrees.

When storage is required for a longer period, an outdoor storage pit may be made by digging a pit to the desired size and deep enough to stand in. The vegetables may be stored in boxes, bins or sacks, raised off the ground, and covered with the surface and cover with a mound of earth. A ditch should be dug

Bug Dust

Since garden insects, insects have waged war on gardeners. Today's Bug Dust has a powerful weapon against them in the form of Henry Field's Bug Dust.

You really won't believe how well our Bug Dust works until you see it work yourself. 'Some folks call it a "Miracle Dust."

BUG DUST works three ways. It not only is a STOMACH POISON, but a CONTACT POISON and FUNGICIDE—All in One!

No need to buy three dusts—use our "BUG DUST."

Henry Field's BUG DUST is safe. Does not harm even the most delicate plants and can be used as a spray for insects as directed. Absolutely leaves no poisonous residue.

Dust plants early before heavy infestation appears. Remember, preventive measures are more effective than cures. Dust both top and bottom of leaves. Repeat every 10 to 15 days until control is reached, after any heavy rain. For cutworms, mix Bug Dust with soil at base of plants. Bug Dust can be used as a spray for insects as directed. Absolutely leaves no poisonous residue.

USE BUG DUST ON

Beans
Cabbage
Cauliflower
Cucumbers
Egg Plant
Lettuce
Muskmelons
Peas
Peppers
Pumpkins
Squash
Tomato
Turnip
Watermelon
Asters
House Plants
All Flowers

And all other small plants.

Starting Plants in the House

A hot bed is the best place to start plants if you are willing to go to the trouble to make a good one. However, a box of good dirt placed in a south window of the house will get much sunshine as possible and in a room where the temperature does not vary much is good.

If the soil you use does not already contain a large percent of manure, use about 50 percent well rotted manure. This amount is only suggestive, as there is no definite difference in the amount of dirt. What we mean by "well-rotted manure" is manure that could almost be classified as dirt as it is used.

Cover all vegetable seeds about one-half inch deep. Cover flower seed very lightly about 3 times the diameter of the seed. Make the rows 3 to 4 inches apart. Keep the surface soil moist until the plants are up or you may have trouble in getting a stand. Allow 6 to 8 weeks to get plants large enough to set out.

Hot Bed

If you wish to make a hot bed, send for free instruction sheet.

Building a Cold Frame

the frame for a hot bed. It should be about eighteen inches high at the back side and twelve inches at the front. Place it in a sheltered sunny position and heap around so that the wind will not get in. Cover with glass or Glass Cloth.

Plant seed in a cold frame a week or so later than you would in a hot bed. You can grow all hardy vegetables, such as cabbage, cauliflower, beets, lettuce, radish, onions, and kohlrabi.

Beets, lettuce and onions transplant as easily as cabbage. And you can advance radishes a week or so earlier by planting them in this cold frame. Of course, the soil should be rich and mellow.

Winter Storage of Vegetables

around the mound to lead surface water away. A door should be fitted to the entrance, preferably two doors with an air space between them to keep out the frost.

When the quantity to be stored does not require a very large pit, vegetables may be laid in a box, which is lined and covered with straw, set in a small pit covered with earth. Or a barrel may be used, or a conical mound may be made, and cover vegetables piled up like a pyramid.

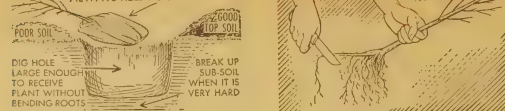

Do not close outdoor root cellars tightly until the ground surface has dropped close to freezing, and do not cover straw pits until the soil has cooled off thoroughly.

Best Vegetables for Freezing

SNAP BEANS—Stringless Green Pod, Waxed and Unwaxed.
SNAP BEANS, Wax POD—Pencil Pod Black Wax, Cherokee Wax.
Lima Beans—Green Seeded Baby Lima, Ford, Hook 242.
CORN—Yield, Giant Mammoth Hybrid, Golden Bantam, Shagreen, Beauty Hyde, Hybrid Stowell's Evergreen.
Green Beans—Green, Kale, Spinach.
PEAS—Little Marvel, Freezolan.

The 4 Easy Steps in Planting Nursery Stock

ALWAYS KEEP ROOTS COVERED

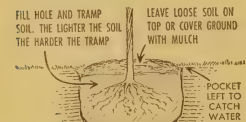

1 DIG HOLE

Dig hole large enough to hold roots without crowding or bending and so stock can be planted same depth as was in nursery row. If soil is poor, add thin layer of fertilizer. Stir fertilizer into soil and cover with light layer of soil before planting stock. (When digging hole, be sure to keep roots of stock cool, moist and covered.)

2 TRIM BACK PLANTS

With a sharp knife prune off any unusually long roots or roots that may be broken or dead-looking. (Pruning of the top can be done at this stage, but usually is done after stock is completely planted. Pruning of top consists of pruning off weak and rubbing twigs and limbs, and shortening unusually long limbs.)

3 ACTUALLY PLANT STOCK

Plant stock as soon as you receive it. Plant at same depth as it was in nursery row. Set roots in natural spreading position. Half fill hole with fine top soil, packing firm. Pack soil firmly by tamping to avoid air pockets. Slowly pour water in to fill hole. Let settle. Fill with soil and tramp down.

4 FORM DEPRESSION FOR WATER

After soil has been firmly tamped, form a little cuplike depression in the soil around the stock to catch and hold moisture. Fill depression with water and let soak in. (Don't tramp down soil after you're done depression with water, as it will make top layer of soil loose and crusty.) Now your planting is finished!

IF YOU CAN'T PLANT AT ONCE, "HEEL-IN" THE STOCK

Fruits, Trees, Roses, Shrubs, Hedges, etc., should be "heel-in" in dirt in a protected, well-drained location. Dig a trench 12 to 24 in. deep and wide enough to hold plants. Fill dirt on back of trench. Separate plants and spread roots and lower part of stems against sloping side of trench. Cover roots and half of tops with at least 6 in. of moist soil. Pack down.

Strawberries and Perennials should be planted at once or kept moist in their packing. If weather is cold, store stock in frost-proof place. Leave stock in packing and keep moist. Plant as soon as possible.

SHRUB PLANTING CHART

MATURE HEIGHT	LOCATIONS DO WELL IN	BLOOMING Time & Color	PRUNING TIPS
Pink Almond..... 4-6 ft.	Sun	April-Pink	Light-after blooming
Althea..... 5-7 ft.	Sun	April-Pink	Light-early spring
Barberry..... 2-4 ft.	Sun or Shade	Red berries	Light-any time
Beauty Bush..... 4-6 ft.	Sun	May, June-Pink	Cut to ground each winter
Butterfly Bush..... 3-5 ft.	Sun	Various	Light-after blooming
Crape Myrtle..... 8-10 ft.	Sun	All Summer	Light-after blooming
Deutzia-Galearia..... 2-3 ft.	Sun or part Shade	Various	Can be sheared heavily for hedge or lightly for shrub.
Four-leafed Avila..... 4-6 ft.	Sun or Shade	Insignificant	
Flowering Quince..... 12-18 ft.	Sun	May-Pink, White, Red	Light-after blooming
Flowering Crab..... 3-5 ft.	Sun	April-Pink	Light-after blooming
Fragrant Viburnum..... 4-6 ft.	Sun	Light-shade	Light-after blooming
Golden Bell Forsythia..... 4-6 ft.	Part Shade or Sun	Yellow	Light-after blooming
Golden Elder..... 4-6 ft.	Part Shade East or West	Yellow	Light-after blooming
Hydrangea..... 4-6 ft.	No side	White	Light-after blooming
High Bush Cranberry..... 6-8 ft.	Sun or Light Shade	Red berries	Light-after blooming
Honeysuckle..... 6-10 ft.	Shade or Sun	April-Pink, Red, White	Light-after blooming
Lilacs..... 6-8 ft.	Part Shade or Sun	April-White	Light-after blooming
Mock Orange (Spring)..... 6-8 ft.	Full Sun	April-White	Light-after blooming
Red Bud..... 12-15 ft.	Part Shade or Sun	April-Rose	Light-after blooming
Rose Tree of China..... 6-8 ft.	Part Shade or Sun	April-Rose	Light-after blooming
Snowball..... 3-4 ft.	Part Shade or Sun	Before Leaves	Light-early spring
Snowflake..... 3-4 ft.	Shade or Sun	Waxy white berries in summer	Light-early spring
Spiraea A. White..... 1 1/2-2 1/2 ft.	Sun	All summer-Pink	Can be cut to ground each year if dry up
Spiraea Billardii..... 3-5 ft.	Sun	June, July-Pink	Light-early spring
Spiraea Bushy Mite..... 3-5 ft.	Sun	All summer-Blue	Light-early spring
Spiraea Prunifolia..... 4-6 ft.	Part Shade or Sun	April-May-White	Light-after blooming
Spiraea Van der Meulen..... 4-6 ft.	Shade or Sun	April-May-White	Light-after blooming
Tamarix..... 6-8 ft.	Sun or Shade	May, June, July-Pink	Light-cut from ground after blooming
Variiegated Dogwood..... 6-8 ft.	Sun or Light Shade	May, June, White	Early spring. Every few years cut to ground if plant is spindly
Wigwags..... 4-6 ft.	Part Shade	May-Pink or Red	Light-after blooming
Winged Burning Bush..... 6-8 ft.	Sun	Blossoms Insignificant	Light

*Light pruning means removing only crooked or very old woody stems when desired. **Heavy pruning means plants can be cut to ground each winter if flower growth is desired. These plants bloom on new wood.

PLANTING CHART-BULBS & PERENNIALS

GROUND LINE	IN. LY OF THE WATER	PEONIES	PERENNIALS	IRIS	IN.
1	1	MORNING STAR LILY	ADONIS		1
2	2	ADONIS	ADONIS		2
3	3	ADONIS	ADONIS		3
4	4	ADONIS	ADONIS		4
5	5	ADONIS	ADONIS		5
6	6	ADONIS	ADONIS		6
7	7	ADONIS	ADONIS		7

NOTICE: PERENNIALS, IRIS, ROOTS AND TUBERS MUST BE PLANTED IN WELL-DRAINER SOIL.

NURSEY PLANTING TIPS

Vines

Plant at least 2 or 2 1/2 ft. out from the house so you will have good drainage. Vines should not be pruned in the fall, except for the removal of dead wood. Varieties which produce blooms on new wood in summer and fall, should not be pruned until they have become established. Pruning in winter may be cut back to the height of about 3 ft. to encourage vigorous growth.

Vines should have good soil and plenty of water. Cut back when planted and in winter. In late winter, vines may be trained as motion is injurious to the plants.

Vines for North and East Side: Clematis.

Vines for South and West Side: Silver Lace, Scarlet Honeysuckle, Pink Flame, Ivy.

CLEMATIS—Clematis thrives best in rich garden soil and soil should be kept moist.

It should be added to heavy soil to loosen it. The soil should be well drained. It is best to mix some lime in with the soil when planting.

Place the crown of the vine about 2 inches below the surface. Don't cultivate as they like to be left alone. In the fall, any dead wood can be removed which is the only pruning needed. Don't prune Hybrid Clematis.

Shrubs

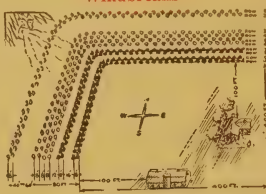

Plant as described in general instructions. Cut back within several inches of the ground, providing new growth. Pruning, to make room for bushy growth. (See illustration.) Prune in late winter. Prune shrub and left until Spring. Set small shrubs 1 to 2 ft. apart, medium grower, 1 1/2 to 3 ft. apart, large grower 3 to 4 ft. apart.

Established shrubs require little pruning. Cut no more than one-half of the top of any cane or branch square across the top as this keeps the natural habit of growth. Cut old branches off at ground. This will force new growth. Prune early blooming shrubs like Spirea, V. H. and Lilacs right after they bloom. Prune midseason and late blooming shrubs like Forsythia, in late winter. If planting in beds, remove all soil and made up space between plants. Lay on good foundation, stay at least 2 ft. and with large growing shrubs, as much as 3 ft. to 4 ft. away.

Miscellaneous Tips

Planting or Transplanting—Fall or early spring is the best time for transplanting. Practically anything can be transplanted at any time, but the best time is when the plants are dormant. If the plants are taken that the plants do not dry out, and that the roots are not too long exposed to the sun. If the plants are taken to another location, or to another home, they are moving, it is safest to move them in a ball along with the roots. If the plants are taken to another location, it is particularly true of Evergreens and large trees. If the plants are taken to another location, it is particularly true of Evergreens and large trees. If the plants are taken to another location, it is particularly true of Evergreens and large trees.

Windbreaks

Suggested varieties suitable for each row: any other good windbreak plants will do:

Rows 1 and 2 Chinese Elm, Caragana, Russian Olive, Willow, Mulberry—planted 4 ft. apart.

Rows 3 and 4 Cottonwood, Am. Elm, C. Elm—planted 6 ft. apart.

Rows 5 and 6 Cottonwood, Am. Elm, C. Elm—planted 6 ft. apart.

Rows 7, 8, 9, and 10 Spruce, Cedar—planted 8 to 10 ft. apart.

Besting ground protection, the windbreak is a source of firewood, lumber, and posts, and a never ending satisfaction of having something green and cooling in the hand for both man and animal.

Here's a quick way to plant windbreak trees. First, take a walking plow, throw out a deep furrow along the row of trees to be planted. (Plow fast enough so as to throw dirt well out of furrow.) Second, put each individual tree against the side of the furrow, then throw the loose dirt in over the roots. Pack firmly with the feet. CUT ALL SPEDLINES OR TIES BACK TO LESS THAN HALF THEIR LENGTH. AS PLANTS GROW, they will break. Evergreens, which require no pruning.) Use the cultivator plenty the first two summers. Plant either fall or spring with good results.

House Plants

Planting and cultural directions are included in shipment.

When you water, soak the ground down to the roots. Water in the better than sprinkling with a nozzle.

FREE SAMPLES: Samples of any Field Seeds listed are free on request.

BAGS FREE: No extra charge for bags.

TESTED SEED: All our seed is carefully tested for purity and germination by official-trained analysts. Test is printed on each tag. If not good, it's not sold.

PRICES F.O.B. SHENANDOAH: These are low net prices F.O.B. Shenandoah. We will gladly quote the low prepaid price on request.

PRICES SUBJECT TO CHANGE: These low prices vary with market conditions and are subject to change without notice. We fill your order at lowest prices always. Order Early.

ORDER EARLY. Get what you want, and save.

Certified Blue Tag RANGER ALFALFA

Ranger Alfalfa is fully winter-hardy; in addition, has wilt resistance that kills Alfalfa plants in many areas. Dehydrating plants prefer it, farmers rank it top on their list and all livestock like its fine-stemmed leafy hay. Whatever your need, Ranger will fill the bill.

Our seed is grown from foundation seed, with Certified Blue tags attached to each sealed bushel bag. This is the lowest priced alfalfa for high-quality high-germination, noxious weed-free Ranger Alfalfa seed. We are proud of it and you will be, too, in results on your farm.

Certified Blue Tag NEW VERNAL ALFALFA

In several years of testing various types of alfalfa at the Iowa State College at Ames, they've found Vernal to be the most promising variety. Our seed is certified blue tag, so you are sure of getting the pure quill seed. Trials in Wisconsin and western Canada show Vernal has greater winter hardiness. It retains a darker green color longer and will maintain a stand in mixture with brome, longer than other types of alfalfa. Because of its extreme hardiness, three cuttings may be taken even in the far north. Better order early; supplies not great. 32.40 bu.

Certified Blue Tag NEW LAHONTAN ALFALFA

Resistant to Dread Spotted
Alfalfa Aphid

Since the spotted alfalfa aphid made its appearance, it has caused millions of dollars of damage to the nation's most valuable hay crop. It was first found in the United States in one of our southwestern states in early 1954. The southern half of the United States west of the Mississippi River now has the aphid and it has also been found in Maryland, Delaware, Virginia, Pennsylvania, New Jersey, New York, West Va., North Carolina, and as far north as central Iowa. 32.40 bu.

NEW MADRID SWEET CLOVER

Out-Performs Alfalfa and Red Clover for Green Manure

Unlike ordinary yellow or white blossom, it is wilt resistant. It produces a yellow blossom, some plant, not tall like white blossom, but with more numerous and more palatable leaves. This makes it a wonderful pasture crop, producing 35% to 40% more forage first year than is available from common white or yellow sweet clover.

There is no doubt but what Madrid Sweet Clover is the greatest soil builder among the legume crops so far in use. In tests at the Agricultural Colleges, Madrid in the same year planted, put as much as 141 lbs. of nitrogen per acre built in the soil, which is more than double the amount put in by red clover, or hubam. Since seed crops of Madrid and all sweet clover is short in supply, suggest you order early.

GUARANTEE

We guarantee to satisfy you or no deal. We absolutely guarantee our Field Seed to arrive in good condition and to be satisfactory in every way. Send a sample for a State Test if you like. If not satisfactory in every way, you may return the seed any time within 30 days after you receive it and we will refund your money or send you seed that will suit. That's plain as lived up to. However the soil, don't guarantee a crop. How the soil depends upon conditions beyond our control, such as weather, soil, etc. —Henry Field Seed & Nursery Co.

NEW RED SALAD BOWL LETTUCE

512—(47 days). Here is something real new. It looks and tastes like the All-America Green Salad Bowl excepting its color is red-purple. Individual plants grow in room to room. Red Salad Bowl Lettuce is a mound of goodness, and will lend color to your salads. **Packet 55c, ppd.**

5 New and Different Dahlias
For only \$1.00, postpaid
Five Different Colors—
Five Different Types
B6555X—We will pick out for you five of our finest Dahlias (each one worth 50c or more apiece), in five different colors, from these five different types: Show Dahlias, Ball Dahlias, Pompon Dahlias, Cactus Dahlias, and Big Decorative Dahlias. They will give you a variety of sizes, shapes and kinds which you will find very useful in your garden, and as cut flowers. P.S. If you want us to tag them individually for name and color, please send 10c extra.

Likes H.F. Baby Chicks

I received my baby chicks in good condition. No dead ones and am well pleased with them. This makes the second year I have ordered from you. Thank you again.

—Mrs. Robert R. Hall,
Grain Valley, Mo.

Likes Alta Fescue and Fruit Spray

"The grass seed you sent me," writes Ernest Kutscher, 6437 Vista Drive, St. Louis 23, Mo., "grew on the side of a terrace that in the last four years I had been unable to make grass grow until I received your Alta Fescue seed. Your Combination Fruit Spray has been very successful on all my roses, shrubs, and fruit trees. I've recommended it to several people."

FREE Folder on HYBRID SEED CORN for your Area

We will send you free a booklet showing the best numbers of United-Hagie hybrid seed corn for your area, and giving complete description and prices. If, after reading this booklet, you decide to buy United-Hagie, order the number or numbers you want direct-by-mail from Henry Field's. However, there is no obligation to buy, and no salesman will call on you.

We have corn booklets describing United-Hagie numbers especially adapted to Missouri, Kansas, Nebraska, South Dakota, Minnesota, and Iowa, or any state where corn grows. To get your free copy, fill in the following coupon and mail it to us.

Henry Field Seed & Nursery Co.
Hybrid Seed Corn Division
Shenandoah, Iowa

Please send me free the booklet showing United-Hagie hybrid seed corn numbers best adapted to my area. I understand there is no obligation to buy, and no salesman will call.

My soil is good upland ☐
My soil is thin upland ☐
My soil is good bottom ☐
My soil is average bottom ☐
Do you plan to use fertilizer? Yes ☐ No ☐
What kind and number of hybrid seed corn have you been growing?.....

Henry Field Seed & Nursery Co.,

"My first order for you was this spring," writes Mrs. Douglas Harper, R.R. #1, Box 45C, Coloma, Mich., "and I did want you to know how delighted we have been. My hybrid elm trees are growing and growing. The Dazco potatoes are simply huge and, by the looks of the Blakemoor strawberries, we'll have a bumper crop next year."

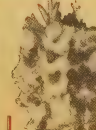

Field's Famous Guaranteed Chicks

We guarantee our prices to be as low or lower than others, quality considered. We guarantee 100% live arrival. If full number of live chicks not received, report in 24 hours with notation from delivery agent. These chicks replace FREE. We reserve right to ship Straight Run on Cockerel orders if necessary—another **Field EXTRA.**

NEW HAMP. SHIRES. Leghorn of Heavy Breeds.

Field's BUFF ORPINGTONS. the Giant Breed.

WHITE PLY. MOUTH ROCKS. Many eggs; fast-grower for meat.

Field's BLACK BARRED PLY. AUSTRALORPS. famous for size. Dual purpose.

ORDER YOUR BABY CHICKS BY MAIL

From Henry Field's—**You Save \$1 to \$4 Per 100**

PRICES GUARANTEED AGAINST DECLINE

These prices are guaranteed against decline. If prices go up, you get your chicks ordered before the price raise at this low low price. If prices go down, you get the new lowest price. You can't lose by ordering now.

ABOUT SHIPPING DATE

We acknowledge your order with card giving complete information about your order, including approximate shipping date. You will not necessarily get your chicks on that exact day, but your chicks will be shipped to you the week of that date.

PLEASE GIVE SECOND CHOICE

Unless you prefer just one breed and can't use any other, please give second or third choice so that if we can ship second choice nearer date you want chicks, we will do so and thus give more prompt shipment.

ONLY \$1.00 DEPOSIT

Only \$1.00 deposit for each 100 chicks will hold your order for any delivery date you wish. Balance is due 10 days before shipment or we ship C.O.D. for balance.

EXTRA—FREE GIFT FOR ORDERING EARLY

Order before March 15 (for any shipping date) and we send you FREE twelve big blooming size gladioli bulbs in all colors. Be sure to ask for your "order early" gift.

Was I amazed when I received my order of plants. Why they were beautiful, just like the day you packed them. I never would have believed it. They were in A-1 condition. I transferred them from the plastic pots into clay pots and they are doing very nicely.

—Florence Budis,
139 South St.,
New Providence, N. J.

Made \$50.00

"I want to tell you how well pleased I am with your lochief sweet corn," writes Mrs. Nick Miller, McGregor, Iowa. "I planted 1½ lb. and besides canning all I wanted I made almost \$50.00 selling the rest. Everyone comes back for more and wants to know what kind of corn it is and where I get it."

SAVE UP TO \$1.00 PER 100 EXTRA BY ORDERING EARLY

Help us plan our hatching by ordering early and we will pass this saving on to you. If we receive your chick order by Feb. 15, you can deduct 50c per 100 chicks, regardless of delivery date. If you will take February delivery, you may deduct \$1.00 per 100 chicks!

C.O.D. PLAN

Send \$1.00 for each 100 chicks or any less than 100. Pay balance on delivery plus transportation charges. If you want chicks shipped C.O.D. for balance, be sure to specify this on your order.

WHERE WE SHIP

If you live anywhere east of the Rocky Mountains, we will get baby chicks to you in first-class condition. Our hatchery is as close to you as your mail box.

OUR FIRST HATCH WILL BE WEEK OF FEB. 26th

ROCK-LEG CROSS. Favorite Dual Purpose.

AUSTRALIAN WHITES. A true cross.

HAMP-LEGHORN CROSS. For egg and meat.

WHITE LEGHORN. Famous for large size, high egg production, and because they need less feed and room. For profit, raise Field's Large Type Leghorns.

TOPCROSS and STRAINCROSS HYBRIDS. Official tests show from 1% to 30% more eggs than from pure-breeds.

THREE GRADES... ALL SHIPPED POSTPAID

DISCOUNT FOR LARGE ORDERS

Deduct 20c per 100 for order over 300 chicks.
Deduct 25c per 100 for order over 500 chicks.
Add 1c per chick for orders less than 100.

SPECIAL GRADE

These chicks come from egg flocks carefully selected and rigidly culled for egg production qualities, typified for each breed. Cockerels heading these flocks are chosen from breeders with high egg production and health standards. Many of these flocks should qualify for our own "Select" Grade next season.

SELECT GRADE

These come from long established poultry raisers who like and keep good poultry always. High production blood lines from famous breeders introduced for many years into our Select Grade flocks has broadened the average egg laying abilities of these birds.

MASTER GRADE

HERE IS OUR SUPREME VALUE! All Master Grade Chicks come from our finest flocks, carefully culled, rigidly selected. Pedigreed. High Egg Record males are introduced to all our flocks through this grade. Egg records range up to 335 in our White Leghorn Master Grade matings, and 318 eggs in our White Rocks.

Henry Field Seed & Nursery Co., "MIDWEST'S LEADING SEEDHOUSE," Shenandoah, Iowa.

Luxuriant CREEPING PHLOX

(Phlox Subulata), Sometimes Called Moss Pink

One of the best and most useful of all perennial plants. Moss-like foliage grows only 3 or 4" tall.

A blanket of bloom in spring... stay green year 'round. Thrives in full sun or partial shade. Ideal for borders, edging, or bankbinder. Creeping Phlox and rocks make a terrace beautiful, trouble-free. And could anything be more beautiful than Creeping Phlox for edging a driveway?

Available in these 4 colors:

B1681—Brilliant Red. A new, brighter red.

B1682—Emerald Gem. The new and better pink.

B1680—Blue Fairy. Reddish-green foliage; light blue flowers.

B1683—Snow Maiden. Dainty foliage; snowflake-like white flowers. 40c each; 3 for 1.25, postpaid.
B3297X—1 white, 1 red, 1 pink, 1 blue, all 4 for only 1.49, postpaid.

We are well pleased with the strawberries, barberry bushes, and seeds we ordered. Thank you for your prompt service.—Mrs. R. C. Fulton, 615 Poor St., Olathe, Kansas.

The pink and red mums came today in very fine shape and we want to thank you very much. We have been having lots of rain and the strawberry plants we received a week or so ago from you are certainly growing and look good.

—Mrs. Homer Myers, R.R. 2, Kendallville, Ind.

Everything I get of you is strong and grows. Your packing is especially good.—Mrs. L. S. Hill, Rt. 4, Gallatin, Mo.

I just had to write and tell you how pleased I am with my house plants I received from you. They came in perfect condition, just as if I had brought them home from a greenhouse. I certainly shall never hesitate in ordering any plants from you.

—Mrs. Harold Ludees, 1854 Valley View Lane, Minneapolis 21, Minn.

I just wish to say that those gladioli I got from you this spring are just out of this world. I sure am pleased with them.—Edward H. Martin, Rt. 1, Macungie, Penn.

Uses Green Thumb Fertilizer on Rhubarb

I am sending an order for more Green Thumb fertilizer. When my rhubarb first started to come up, I put Green Thumb solution on it. And such nice rhubarb I never had. Our neighbors were so amazed; wondered what we had done to make it so nice. Also like the berry spray. Thanks.

—Mrs. Oliver Havenstein, 737 N. Fulton, Wauson, Ohio

The Fuchsia, Everbearing Dwarf Lemon, and Sultana arrived in good condition. The little cups and the way you had them packed was great.

—Mrs. Lucila F. Ormerod, 8527 Park Lane, St. Louis 21, Mo.

Mrs. Ormerod is speaking of the plastic pots in which we ship house plants.

We have received our nursery order and it has all been planted. You may be proud of yourselves when you ship stock such as you sent us. You can feel assured that in the future you will be our source of supply, and we surely will recommend your firm to any and all.

—Jack Nesbit, 4951 Everett Rd., Akron 13, Ohio

I want to say how pleased I was with the "Row Run" gladi I ordered in the spring. I recommend these to anyone who are not used to growing varieties. I had some red ones that measured 5 inches across.—Mrs. Ralph Nicol, Martinsville, Ill.

"I am sending a picture of one of your tomato plants," writes Mr. and Mrs. George Tipton, R. 3, Richmond, Ky. "It is Orange Slicer. We gathered over 200 ripe tomatoes from this one plant, and when the frost came on Nov. 9 it was full of tomatoes and still blooming. We gave tomatoes to all our neighbors and they thought they were delicious."

"Superba" Strain of Aurelian Hybrids

Superba is another strain of the outstanding Aurelian Hybrid lilies developed by Mr. Yerex in the Pacific Northwest. The others are pictured in full color on page 60.

Some of the lilies of this Superba strain are reflex and some are semi-trumpet type. But all have very superior flowers with petals of thick heavy substance, and colors clear and bright. The colors run from white to pale green, pale lemon, bright yellow, apricot and buff, and combinations of these colors, with an occasional lime green one.

They make striking cut flowers, and the individual blooms, when used as a corsage, will last as long as an orchid, and attract far more favorable attention.

B5022—1.75 each; 3 for 4.79, postpaid.

Mrs. Wilbert Johnson of Route 2, Monett, Mo., shown at left, writes: "The yellow transparent apple tree I bought from you in the 2 to 3-foot size grew this tall the first season. I did not water it after planting. Am proud of all the trees I ordered from you. Want some more this season."

Bug Dust to the Rescue

"I received the Bug Dust and am writing to tell you how pleased I am with it," writes Mrs. Warren W. Willis, R. 1, Mazon, Ill. "My squash and pumpkin vines were almost destroyed by flying beetles with black and yellow stripes on their backs. As soon as they were discovered, I got your Bug Dust to work and instantly the pests were under control. I have used your Bug Dust a time or two since and there is no sign of the beetles returning. This dust is truly a miracle dust. I am ordering five pounds extra."

This is Judy Castens, age 3, granddaughter of Mr. and Mrs. Henry Castens, Leola, Kansas, standing by some flowers they raised from Henry Field seed. "These are the most beautiful flowers we ever raised," writes Mrs. Castens, "and we have ordered seed from you for 25 years."

We have received our nursery order and it has all been planted. You may be proud of yourselves when you ship stock such as you sent us. You can feel assured that in the future you will be our source of supply, and we surely will recommend your firm to any and all.

—Jack Nesbit, 4951 Everett Rd., Akron 13, Ohio

I want to say how pleased I was with the "Row Run" gladi I ordered in the spring. I recommend these to anyone who are not used to growing varieties. I had some red ones that measured 5 inches across.—Mrs. Ralph Nicol, Martinsville, Ill.

"YOLO WONDER"

A New Pepper

635—(70 days). Yolo Wonder is a new mosaic resistant pepper, a cross of California Wonder and an Italian variety. Fruits are 4 inches long and 3 1/2 inches wide, 3 or 4 lobed, blocky, and smooth. Flesh is thick with mild, sweet flavor. Color is dark green changing to brilliant red when ripe. Packet, 25c; 1/2 oz. 60c; 1 oz. 1.10, ppd.

Thank you kindly for everything. The nursery stock and seeds were wonderful. I shall be buying from you from now on.—J. B. Alexander, Box 271, Lincoln, Nebr.

Just want to tell you how much I like your Tendergreen beans. We had 3 rows 24 feet long in the garden last summer. Began picking them the first week of July and had beans until frost. Also canned 18 quarts, sold a peck, and the bushes were full when the frost came. We had intended planting some later but these were enough for all summer. I have bought many things from you and like all of them.

—Mrs. John Clark, 2265 Middle Rd., Milford, Mich.

PROTECT YOUR NEWLY-PLANTED NURSERY STOCK with "POLY" PLASTIC FILM—Now Sold by Field's

Here's How You Can Use Sheets of Plastic Film to Help Your New Plants Get a Better Start

Plants are living things, and there always is some danger of loss in setting out nursery stock. Particularly dangerous are dry ground, dry air, and unexpected hot days that scorch the plant and suck out its moisture before the plant becomes established.

After several years of testing, we recommend to you a simple, inexpensive way to offset these dangers when setting out trees, shrubs, roses, and evergreens. Here is how it works:

Take sheets of polyethylene (called "poly" for short) plastic film and wrap them around the plants just as the lady is doing in the picture at the right. Tie the "poly" on with string—one tie near the top, one near bottom, and then make a few ties in between. Don't pull the "poly" too tightly around the plant but get a balloon-like effect, as shown in the pictures below. In other words, you are putting each plant in a little greenhouse.

Be sure to cover the plant with "poly" from top to bottom. If the weather gets real hot, poke a few holes in the top to let out hot air. Otherwise, that is not necessary. Water the plants as usual. When new growth starts, make a few slits in the "poly" near the top to let in fresh air. When the plants are well under way, open up the "poly" all more, and finally remove it entirely. Leave it on evergreens a little longer than on shrubs, trees, fruit trees and roses as the evergreens start new growth more slowly.

As this polyethylene film is the same as that used for storing foods in the house, a thrifty gardener will save the sheets by loosening the strings rather than poking holes in it.

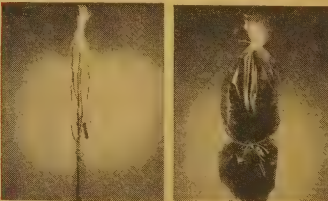

"Poly" plastic film, shown above, protects newly-planted stock by preventing excessive loss of moisture from heat and wind, yet allows plant to breathe and get adequate light.

Wrap your newly-planted nursery stock with "poly" film as this lady is doing. Don't get it too tight; you're enclosing the plant in its own greenhouse. It's easy.

A3902—Poly Plastic Sheets, size 24" x 30" (for use on shrubs, evergreens, roses and small fruit trees). 8c per sheet, postpaid.

A3904—Poly Plastic Sheets, size 66" x 30" (for use on fruit trees, shade trees, larger shrubs and evergreens, or your own plan you want to move). 12c per sheet, postpaid.

These three plants are properly wrapped with "poly" plastic film. At the left is a shade tree. In the middle is an evergreen. At the right is a rose bush.

The idea is to build a miniature

greenhouse around the plant to protect it during the critical period of the first few weeks after planting. There is very little chance of losing a plant protected in this

HARDY PERENNIALS

FRAGRANT PINKS The Dainty Dazzlers

B2155—Also called Grass Pinks or Clove Pinks. They are the old fashioned beauties that have continuous pink blooms all summer long, and very fragrant. 49c each; 3 for 1.25, postpaid.

HEN and HER CHICKS Loves Hot, Dry Place

B2093—Like tiny 5-inch cactus. Likes warm, dry location but will grow almost anywhere. Makes a colony several feet across in a few years. Does well in crevices of rockeries. Each hen rolls off several chicks each year. 49c each; 3 for 1.25, postpaid.

SILVER KING (Artemesia)

B2205—Looks like it was sprinkled with silver dust. Use it for contrast, background, hedge, etc. Hardy. Grows anywhere. Grows about 2' high. Dried foliage good winter bouquet; fresh foliage pleasing in any bouquet. 49c each; 3 for 1.25, postpaid.

GLOWING GOLD

B2080—(Thermopsis caroliniana). Soft, sulphur-yellow, lupine-like blooms grow on upright spikes 3 feet or more long. Has bright green foliage. Excellent as a tall background plant, and especially beautiful planted with blue Delphinium. 49c each; 3 for 1.25, postpaid.

Giant FERNS

Especially good in those cool, shady "Problem" Spots

Ferns do well on the north side of the house or under trees—very useful for those cool, shady spots where grass and flowers won't do well. They make excellent background plantings and add a luxuriant, tropical-appearing atmosphere.

Fern Prices: 49c each; 3 for 1.25, postpaid.

B2070—MAIDEN HAIR. Lacy leaved. Illustrated above.

B2071—OSTRICH PLUME. Heavy and luxuriant.

B2072—HARDY SWORD or CHRISTMAS FERN. Prettiest of all. (Illustrated below).

B2067—CINNAMON FERN. A handsome and easily grown fern that does well in ordinary garden soil. Fronds grow to 4' tall. Prefers peaty soil, much water, and good drainage.

B2068—LADY FERN. (Asplenium). Does well in moist, rich soil, sun or shade. One of the best finely cut ferns. 2 feet.

GIANT FERN COLLECTION B3251X
1 Maiden Hair
1 Ostrich Plume
1 Sword Fern
All 3 for only 1.19, postpaid.

SWORD FERN

CINNAMON FERN

ALL 5 FERNS for Only \$1.98
B3277X—1 each of all the above 5 ferns. PPD.

FOX GLOVES

True Perennial

B2078—This is the true perennial type, *Ambigua*. Lovely soft yellow blooms flecked with chocolate. Looks like a hot-house-grown plant. Blooms all summer. Easy to grow. 49c each; 3 for 1.25, postpaid.

PENSTEMON

"Lavender Queen"

B2077—This is a fine hardy, drought-resistant perennial that is easy to grow. It has 3-foot stems of large, attractive tubular flowers of lavender color. Fine for cutting. Blooms mid-summer. 59c each; 3 for 1.49, postpaid.

CHINESE LANTERN

B2028—Huge scarlet pods that look like Chinese lanterns. Cut them in the fall when they are bright orange scarlet for brilliant, lasting winter bouquets. Easy to grow too. 49c each; 3 for 1.25, postpaid.

MALTESE CROSS or Scarlet Lightning

B2127—(Lychnis Chalcedonia). Grows two to three feet high with large phlox-like heads of the most brilliant scarlet flowers imaginable. A good hardy perennial. 49c each; 3 for 1.25, postpaid.

BABY'S BREATH (Gypsophila)

BABY'S BREATH

Wonder for Trimming a Bouquet

Baby's Breath (*Gypsophila*) is easy to grow on non-acid soil. If soil tends to be sour, add lime for best results. It prefers a sunny location.

B2013—Double Baby's Breath "Bristol Fairy." A fine new double that blooms all summer if you cut it. Flowers are pure white. 69c each; 2 for 1.29, p.p.d.

B2015—Single Baby's Breath. The old favorite for bouquets and gardens. 49c each; 3 for 1.25, postpaid.

B2014—New Pink Baby's Breath. A lovely, late-blooming, soft pink. You'll love it. 49c each; 3 for 1.25, postpaid.

BABY'S BREATH COLLECTION

- 1 Double Bristol Fairy
- 1 Single Baby's Breath
- 1 New Pink Baby's Breath

B3258X—All 3 for only 1.49, p.p.d.

FORGET-ME-NOT

"Pink Beauty"

B2076—You certainly have seen the common blue Forget-Me-Not, but have you ever seen a real pink one? This one has clusters of large, bright pink flowers all summer.

Give it moisture and partial shade. Our plants are raised from cuttings, so you'll be sure to get the true pink. 69c each; 3 for 1.60, postpaid.

SHASTA DAISIES

B2201—ALASKA. Early-flowering giant *Chrysanthemum*-type of rare beauty. A bright spot in any garden.

FORGET-ME-NOT

B2202—HARTJE ELDER. Early blooming—often on Mother's Day. Perfect with Oriental Poppies.

B2203—GIANT SUPREME. Has huge, glistening white blossoms 4 to 5 inches across on long, strong stems. POSTPAID PRICES: 49c each; 3 for 1.25.

SHASTA DAISY COLLECTION

B3252X—1 each of above 3 varieties for only 1.19, postpaid.

LILY OF THE VALLEY

B2114—This long has been one of the most popular of all perennials, as well it should be. It does very well in the

SHASTA DAISY

shade—on the north side of a house or under a large tree where it is too shady for grass and many other flowers. But it does well also in open, warmer locations.

It is a comparatively small plant (grows about 9 or 10" tall) with a rosette of large leaves that remain glossy green all summer and form a delightful background for the dainty, white, lily-like flowers. The charming beauty and delightful fragrance of these flowers make them very popular for corsages. Very easy to grow. 2 for 65c; 3 for 89c; 5 for 1.29, postpaid.

LILY OF THE VALLEY

GIANT HIBISCUS

Has blossoms that are absolutely magnificent—as large as saucers, some larger, and with colors bright and true. The plants grow 4 to 5 feet tall, with heavy foliage.

B2096—Red. **B2097**—White. **B2095**—Pink. 69c each; 3 for 1.80, postpaid.

HIBISCUS COLLECTION

B3255X—1 each of above 3 colors for only 1.75, postpaid.

B2098—NEW GIANT CRIMSON EYE HIBISCUS.

Has a huge white flower with a crimson eye. Strikingly beautiful. 89c each; 3 for 2.39, postpaid.

Dramatic LYTHRUM Hundreds of Blooms All Summer. Long-Lived, Grows Anywhere

Hundreds of Blooms All Summer Long Hardy, Long-Lived, Grows Anywhere

B2124—LYTHRUM MORDEN GLEAM. The finest loosestrife of the many that have been offered in recent years. Originated at the Morden Experiment Station, Manitoba, Canada. Nearest red of all Lythrums (loosestrifs). Hardy anywhere, grows in sun or part shade. Blooms all summer long. Height about 3 feet. Never suckers and becomes a nuisance, yet lives for years. 69c each; 3 for 1.80, postpaid.

B2126—LYTHRUM MORDEN ROSE. Another fine new loosestrife from the famous Canadian Experiment Station at Morden, Manitoba. Its flowers are a rich, deep rose, and are borne constantly in profusion from early summer until freezing time. Plants are beautifully shaped with rich dark green leaves that turn

brassy-red in the fall. Dr. W. R. Leslie of the Morden Station considers this the best of the station's introduction. 75c each; 3 for 1.90, postpaid.

B2123—LYTHRUM DROPMORE PURPLE. Another very fine Canadian Lythrum. Grows about 3 feet high and has flowers of good bright lavender-purple. Flowering season is a little later than the Morden types listed above. Fine, upright, shapely plant. 69c each; 3 for 1.80, p.p.d.

Collection of All 3 Lythrum

B3306X—1 each of Morden Gleam, Morden Rose, and Dropmore Purple—all 3 Lythrums for 1.85, postpaid.

B3250X—1 each of the 3 violets pictured here for only 1.25, ppd.

Phlox grow about 18 to 36 inches high, depending upon the soil. They like full sun, but will do well in partial shade. The pastel pinks and blues really look better in partial shade where the sun won't fade them.

Phlox bloom in Aug. and Sept. They are perfectly hardy, and do well in any ordinary garden soil. It is well to cut the flowers and not let the plants go to seed as Phlox seedlings almost always are of a muddy magenta color and, being very vigorous, crowd out your good varieties.

B1613—EVA FORESTER. One of the largest flowered of all. Very fine salmon-pink with light eye. Large flower trusses on strong stems.

B1646—ORANGE BEAUTY. Brilliant orange color. One of the showiest phlox on our list.

B1637—LILLIAN. Soft cameo pink. Very large heads of flowers.

B1636—LEO SCHLAGETER. The largest one of the brilliant crimson. This imported variety is one of the showiest Phlox in our list.

B1666—STARLIGHT. Beautiful soft lavender-blue with a large white star-like center. Striking and attractive.

B1610—DAILY SKETCH. One of the largest and best of the pinks. Probably the largest flowered of all. Has a pronounced dark red eye.

B1669—WORLD PEACE. A new and beautiful white. Flowers large, and masses of them. Probably the best of all whites.

B1621—ELIZABETH ARDEN. New soft lilac pink and a beauty.

B1660—ROSY BLUE. New soft blue tinted with rose. Has huge flowers.

B1608—BRILLIANT. Bright, shiny, deep crimson. Well named.

POSTPAID PRICES ON ABOVE 10: 59¢ each; 3 for 1.49.

B1665—SPITFIRE. A brilliant orange-scarlet that stands out like a beacon. Bears great masses of bloom.

NEW GIANT-FLOWERED HIBISCUS

These are, in all probability, the most magnificent hardy perennials you can grow. The flowers are twice as large as the common Hibiscus. Many have been seen with great, globe-like blossoms that measure from 8" to 12" across. Bloom continuously from July until frost and are, in every respect, the first choice. Except under extreme conditions, can be grown from coast to coast and from Canada to the Gulf. Easy to grow, and arrive in any good soil. Plants die to the ground each winter.

B1608—POINSETTIA. Brilliant poinsettia red.

B1210—RADIATION. Mammoth, bright pink blooms all summer long.

B1209—PURE WHITE. Huge snowy "dinner plate" blooms.

POSTPAID PRICES: 2.50 each; 3 for 6.25.

HARDY CARNATIONS

Plant all Carnations (Dianthus) in a sunny, well-drained location.

B2059—SWEET MEMORIES. Has huge, pure white, double blooms flecked with maroon at the center and loaded with rich, spicy perfume. Has strong stems 10 to 12" long. Blooms constantly from June until frost. 75¢ each; 3 for 1.98, postpaid.

B2047—KISS OF FIRE. New and brilliant. Huge carnations 1½ to 2" across. 12 to 18" long. Fully double, fiery scarlet flowers. A persistent bloomer throughout the summer. Fine cut flowers. 75¢ each; 3 for 1.98, postpaid.

[AA] B2048—PINK PRINCESS. Bloom well first year planted, but the following season, when well established, produce enormous quantities of lovely, large, fringed, fragrant, double "pinks" of a rich, deep pink. Plants grow about one foot across, and bear blossoms on stems about one foot long. Flower through the summer. Our plants here in Shenandoah were in full bloom on October 15th. 75¢ each; 3 for 1.98, postpaid.

[BB] B2046—MOON MIST. An immediate double, pure white long-stemmed carnation. Fine for cutting and very fragrant. Blooms all summer. 75¢ each; 3 for 1.98, postpaid.

[CC] B2045—TINY RUBIES (Pin-cushion Carnation). A little carnation that makes a solid cushion of blue-green, needle-like leaves and tiny, bright, pink-colored buds with flowers of any color. Fragrant too. 65¢ each; 3 for 1.79, postpaid.

B2677. Each of Sweet Memories, Kiss of Fire, Pink Princess, and Tiny Rubies—all 4 for only 2.90, postpaid.

RUSSELL LUPINES

[DD] B2114. Tall and stately with beautiful, pea-like flowers on long stems. Grow about 3 feet tall. Bloom from June until frost with flowers of any color. The rainbow. And each flower has two distinct colors, making gorgeous, eye combining colors. 59¢ each; 3 for 1.49, postpaid.

HARDY SWEET PEA

Now a Sweet Pea that everybody can grow. And it lasts for years.

[KK] B2170—PYRETHRUM. 45¢ each; 3 for 1.19, postpaid.

B2171—PYRETHRUM RED. 45¢ each; 3 for 1.19, postpaid.

B2172—PYRETHRUM MIXED. A mixture full of reds, whites and pinks. Really make a beautiful show. 45¢ each; 3 for 1.19, ppd.

CRIMSON DAISY

[LL] B2034. (Rudbeckia King). Great crimson flowers 4 to 6" across

BIG TO PHLOX

B3219X—1 each of all 10 listed above — Eva Forester, Orange Beauty, Leo Schlageter, Starlight, A and D Daily Sketch, plus World Peace, Elizabeth Arden, Rosy Blue and Brilliant—all for only 3.98, ppd.

B1654—PINKETTE. Brand new soft pink. Very large flowers. The flower tubes are bright pink and contrast beautifully with the shell pink petals.

B1653—POLKA DOT. Huge white flowers with a brilliant red eye. A very showy variety with huge flower heads.

B1662—SALMON GLOW. A real salmon-colored phlox. Good and very popular. This is probably the best of all clear salmon phlox.

B1651—PURPLE HEART. The finest of all the purple varieties. A vivid, striking color.

POSTPAID PRICES ON ABOVE 5: 65¢ each; 3 for 1.65.

CHINESE BELLFLOWER

(or Balloon Flower)

B2005—BRAND NEW SHELL PINK.

This new and great flowered Platycodon, really produces itself in a true shell pink. Blooms all summer long too. 49¢ each; 3 for 98¢, ppd.

B2004—BLUE. The old favorite. Balloons of rich blue burst into single blooms that look like stars! 49¢ each; 3 for 1.52, postpaid.

B2003—RUBY. Brilliant ruby-red. Blooms all summer. 49¢ each; 3 for 1.29, postpaid.

B2063—GOLDEN SUN. Pure golden yellow. Everblooming. Loaded with flowers. 49¢ each; 3 for 1.29, postpaid.

B2081—DAZZLER. Enormous flowers. Rich henna-tinted yellow. 45¢ each; 3 for 1.19, postpaid.

B2082—GOBLIN. Makes a round ball covered all summer with full size, brilliant red and yellow flowers. Short stemmed. 45¢ each; 3 for 1.19, postpaid.

B3265X—GAILLARDIA COLLECTION. One each of above 4 for 1.65, postpaid.

CORNFLOWER ASTER

[NN] B2032—BLUE MOON. One of the best of the great flowered perennials. 5 to 6" flowers on stiff stems 12 to 18" long. Perfectly hardy; no insects bother it. Blooms all summer. 59¢ each; 3 for 1.49, postpaid.

[PP] B2052—IBIS. Brand new with two-foot stems and large flowers of glowing rose.

[RR] B2053—PLUIE DE FEU. The brilliant scarlet one. Forms a large rosette of leaves at the ground from which spring 18" stems bearing many small urn-shaped blooms from spring until late fall.

Both varieties make fine cut flowers. Postpaid price: 75¢ each; 3 for 1.98.

B3310X—1 each of both Coral Belles for 1.39, postpaid.

VIOLETS

[SS] B2269—ROYAL ROBE. Fragrant long-stemmed.

[TT] B2266—FRICKLES. White with purple freckles.

[UU] B2267—JESSIE'S RED.

B2268—HIO. Huge white with a deep blue center.

All violets 49¢ each; 3 for 1.29, postpaid.

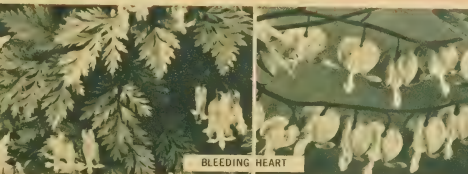

B2266X—1 each of above 4 Violets—all 4 for only 1.89, postpaid.

See Also Pages 53, 56 and 57

You ought to plant plenty of Perennials because they are low priced and easy to plant and take little care. They come up year after year, and give you blooms throughout the spring and summer and fall. And you can have a lot of fun planning color combinations and sizes because there is just no end

of colors and heights available in perennials.

All of our perennials are hardy, well-grown plants, shipped to you entirely dormant, except for potted plants, and all are carefully packed so that you receive them in perfect condition.

Fern-Leaf BLEEDING HEART

Old-Fashioned BLEEDING HEART

B2009.—This is one with unusual fern foliage and lots of tiny pink hearts. Begins to bloom in late spring and keeps on right through the summer into the fall. Grows 12 to 15" tall. 49¢ each; 3 for 1.30, postpaid.

B2010.—The garden jewel for many years. Flowers from May until last of June. Perfect pink heart along the stems. Grows to about 30 inches. Everyone loves it, and it lives for years. 75¢ each; 3 for 1.95, postpaid.

BLEEDING HEART COLLECTION

B3268X—1 Old-Fashioned Bleeding Heart and two Fern-Leaf Bleeding Hearts—3 plants for only 1.49, postpaid.

CREeping PHLOX (Phlox subulata)

Sometimes Called Moss Pink

Has masses of tiny, green, moss-like foliage that stay green all winter. In the spring, it is covered with a blanket of bright-colored flowers. Grows only about 3 to 4 inches tall. Thrives in full sun or partial shade. Ideal for borders and edgings. Good bankholder on terraces. Excellent among the rocks in a rock garden, or on a bank.

B1673—BRILLIANT RED. The new bright red; one of the best varieties.

B1674—EMERALD GEM. The new improvement on the old pink variety. Foliage is a bright emerald green that is beautiful in itself and the sheets of blooms are clear bright pink.

B1672—BLUE FAIRY. Reddish green foliage under great masses of light blue flowers.

B1675—SNOW MAIDEN. Daintiest of all. Finer foliage than the rest and snowflake-like wheel-shaped flowers. **POSTPAID PRICES: 49¢ each; 3 for 1.25.**

Henry Field's Famous

"Green Thumb"

Collection of

HARDY

PERENNIALS

These are hardy, never-fail, sure growers; that's why we call this our "Green Thumb" Collection. Just be reasonably careful how you plant them, see that they get moisture once a while, and you will have a beautiful flower garden, with plenty for cutting too. These are big ready-to-bloom plants, worth 45¢ apiece or more. And we're throwing in the Columbine free.

This is what you get:

MIDCENTURY

LIV. Magnificent color; very hardy.

1 PHLOX "AFRICA."

A brilliant, flaming red, hardy phlox.

1 HARDY COREOP.

SIS. Brilliant golden

LAVERNER

PENSTEMON

color; double. Fine for cutting.

1 PENSTEMON

"Lavender Queen."

3-foot tall spikes of very large, tubular flowers. A beautiful perennial.

1 LIATRIS "Blazing Star."

Tall 3' of spikes of brilliant purple. Hardy and easy to grow.

DELPHINIUMS

The two most lovely strains of delphinium are these:

- [A] B2042—CLIVENDEN BEAUTY (Belladonna). It is a light blue.
- [B] B2043—LAMARTINE (Bellamomum). A dark blue. POSTPAID PRICES on above two: 45c each; 3 for 1.19; 10 for 3.80, postpaid.
- [B3261X]—DELPHINIUM BARGAIN. 2 Clivenden Beauty and 2 Lamartine—4 plants for 1.49, postpaid.

Finest Pacific Giant Hybrids

- [C] B2040—Blue, lavender, purple and white, in big semidouble spikes 2 to 3 feet long. Bloom June and July. Colored hybrids come in mixed colors only. 59c each; 3 for 1.59; 6 for 2.89, postpaid.
- B2041—Pure white Sir Galahad series. Beautiful double white as shown in picture. 59c each; 3 for 1.59; 6 for 2.89, postpaid.

- [B3279X]—1 each of Delphiniums Clivenden Beauty, Lamartine, and one Pacific Hybrid—all 3 for only 1.19, postpaid.

HARDY CARNATIONS

- [D] Now you can grow carnations outdoors in your own garden. These are similar to the greenhouse varieties, and have just as much fragrance. They will bloom all summer in your garden with very little care and, since the stems often are 20" long, they make wonderful cut flowers.
 - B2037—DOUBLE PURE WHITE.
 - B2036—DOUBLE BRILLIANT SCARLET.
 - B2038—DOUBLE YELLOW.
 - B2039—DOUBLE PINK.
- POSTPAID PRICES on above carnations: 49c each; 3 for 1.35, postpaid.

HARDY ASTERS

- [R] B1028—RADAR. This is the finest red aster we have ever seen. The masses of flowers are large and brilliant. Plants grow about 2½' tall and bloom in Sept. and Oct. 75c each; 3 for 1.79, ppd.
- [S] B1003—BLUE PLUME. The deepest blue hardy Aster we know about. Large double blooms in Sept. and early Oct. Fine for cutting. 59c each; 3 for 1.49, ppd.
- [T] B1006—EVENTIDE. Sensational color. Great masses of large, semi-double flowers

of gentian violet-blue. Grows 2½' to 3' high. 69c each; 3 for 1.69, ppd.

[U] B1022—PEACE. A bright lavender with immense semi-double blooms about 2" across. 59c each; 3 for 1.49, ppd.

[V] B1001—ADORABLE. The best truly pink Aster. Deep, clear pink. Grows 4' tall with bold heads of bloom. 59c each; 3 for 1.49, ppd.

[W] B1023—PLENTY. Blue flowers about 2" wide with petals spooned for distinctive beauty. 59c each; 3 for 1.49, postpaid.

B1015—MT. EVEREST (not

pictured). Finest and best white. Flowers are large and glistening. 59c each; 3 for 1.49, ppd.

ASTER FALL BEAUTIES

B3003X—1 Peace, 1 Plenty, 1 Eventide, 1 Radar—all 4 for only 2.19, postpaid.

CUSHION ASTERS

These showy plants are a lot like Cushion Mums in growth and habit. Will give you a mass of late summer and early fall blooms in the flower bed or along your walks and drives. Need full sun for proper flowering.

[X] B1005—CANTERBURY CARPET. Bright blue with fine blue-green foliage. Exquisite. 8 to 12" high. 59c each; 3 for 1.49, ppd.

[Y] B1019—LITTLE RED BOY. Starlike flowers of brilliant red. Blooms from early Sept. until early Oct. 65c each; 3 for 1.79, ppd.

[Z] B1019—PERSIAN ROSE. Very bright Persian rose. 8 to 12" height mound of color in Sept. 59c each; 3 for 1.49, ppd.

B1007—CAMEO (not pictured). Solid mass of opalescent-pink blossoms in Sept. Grows 15 to 18" high. 59c each; 3 for 1.49, ppd.

RAINBOW IRIS

[AA] B1260—SNOW FLURRY. A beautiful ruffled blue-white. Buds are an icy blue-white opening to clear frosty white. Tall stems and large flowers. 75c each; 3 for 1.79.

[BB] B1274—ROCKET. In our opinion, the most brilliant of all Iris. Standards deepest glowing, chrome-yellow. Falls bright true orange almost to edge. 75c each; 3 for 1.79.

[CC] B1229—BLUE RHYTHM. One of the very finest blues with stiff, erect stems and an abundance of flowers. Has won practically all of the awards an Iris can win. 75c each; 3 for 1.79.

[DD] B1237—E L MOHR. Dykes Medal Winner. Called the "orchid Iris." 75c each; 3 for 1.79.

"Finest Iris" Collection

B3101X—1 each of Oia Kala, Blue Rhythm, Lady Mohr, Elmhor, and Rocket—all 5 for only 3.49.

Gorgeous Beauties Bargain
B3094X—1 each of Wabash, Zua White, Zua Blue, and Oia Kala—all 4 for only 2.98.

[EE] B1380—PINKCAMEO. One of the famous Flamingo pink line—and that is its color: pure, exquisite flamingo pink. Striking bright tangerine-orange beard. Strong 34" stems. 98c each; 3 for 2.49.

[FF] B1386—RED ORCHID. Best red Iris we have ever seen. 69c each; 3 for 1.69.

[GG] B1255—LADY MOHR. A beautiful thing. Exotic combination of oyster-white standards and contrasting chartruse falls with prominent veining. Tall, strong stems and very large flowers. 98c each; 3 for 2.49.

[HH] B1221—ARAB CHIEF. Brilliant and attractive rich, burnt orange—almost henna. An intense color. 75c each; 3 for 1.79.

[JJ] B1283—TIP TOP. Lower growing than most Iris, about 24". Brilliantly colored, as shown in the picture. 75c each; 3 for 1.79.

[KK] B1260—OLA KALA. Dykes Medal Winner for 1948. No. 2 of "100 Most Popular." 75c each; 3 for 1.79.

[LL] B1345—GARDEN MAGIC. Color is deep and velvety. 69c each; 3 for 1.69.

[NN] ZUA IRIS. For years these fascinating Iris have been admired in the flower beds near our seedhouse. But they have never been for sale before. We finally have worked up enough stock to offer both the blue and white. These Iris are extremely early to bloom and are of medium height. The flowers look as though they were made of crumpled tissue paper that had been set sparkling by a frosty night. B1312—WHITE ZUA. B1313—BLUE ZUA. 98c each; 3 for 2.49.

[PP] B1393—RED TORCH. Rich gold standards and velvety falls of red. One

B1736—WUNDERKIND. Considered finest cerise-colored poppy. True begonia-rose color. POSTPAID PRICES on all above poppies: 85c each; 3 for 2.39.

4 OF BEST POPPIES

B3235X—1 each of Red Flame, Curtis Giant Flame, Glowing Ember, and Beauty of Livermore—all 4 for 2.79, postpaid.

HARDY ZINNIA

It Blooms Year After Year

[Q] B2295—(Helianthus Loddon Gold). One of the finest new perennials. Has 4 to 6" golden-yellow double flowers that look like big zinnias on a bushy plant 4 to 5 feet high. Rich green heart-shaped leaves. Blooms August to freezing. 59c each; 3 for 1.49, postpaid.

COLUMBINE

[R] B2050—McKANNA'S GIANT. An All America Award Winner. Largest flowered of all Columbine—4" across with 4 to 5" spurs. Wide range of exquisite one-color flowers plus many in pleasing combinations. Bloom May and June; our plants bloom first spring. Grow in sun or partial shade, like well-drained soil. Plants grow 2 to 3 feet tall and are entirely hardy. Extra heavy, 2-year plants, 59c each; 3 for 1.49; 5 for 2.25, ppd. No. 1, 1-year plants, 49c each; 3 for 1.35; 5 for 1.98, ppd.

Columbine by Color

B2029—CHRYSANTHA. Deep yellow.
B2039—SILVER QUEEN. White.
B2033—CRIMSON STAR. Brilliant red.
Prices on above three sorts: 49c each; 3 for 1.35, postpaid.

B3270X—2 McKanna's All America Hybrid Columbine, plus 1 each of above 3 named varieties—all 5 plants for 2.19, postpaid.

MISSOURI PRIMROSE

[N] B12131—(Oenothera Missouriensis). A low, semi-trailing plant that grows only 6" to 8" high with gorgeous lemon-yellow blooms large as teacups. Blooms daily all summer. Does well anywhere; actually prefers it hot and dry. 59c each; 3 for 1.49, postpaid.

PANSIES

[P] We grow hundreds of thousands of pansies every year of the best strains we can procure. This season we are offering two strains which we believe to be the very finest on the market.

B2297—COLORADO SENSATION. Gorgeous shades of red, bronze, purple, yellow, blue. Compact, broadleaf plants with an abundance of large blooms that are ruffled and stand erect on strong stems. 12 plants for 1.10; 36 plants for 2.49; 100 for 5.98, postpaid.

B2298—SUPER GIANTS. Another fine strain of every hue in the rainbow. Extra large blooms on compact plants. 12 plants for 98c; 36 plants for 2.49; 100 for 5.25, postpaid.

CUSHION ASTERS COLLECTION

for only **\$2.59** PPD.

ALL VARIETIES IN THIS GROUP 69¢ each; 3 for 1.89.
POSTPAID, UNLESS OTHERWISE NOTED

CB1425—GOLDEN FANTASY (U. of Minn. No. 49-9-1). Just released last year. Masses of 2½ to 3" fully double blooms with tubular petals, three-pronged and forked, giving the effect of a big golden carnation. Plant grows upright. Foliage is clean dark green. 1.00 each; 3 for 2.75, postpaid.

CB1444—APPLE BLOSSOM. An imported variety of great beauty. Very large blooms of delicate apple blossom pink. Fully double with incurved petals. Medium height. Early bloomer.

CB1422—FLAXEN BEAUTY. A very large flowered flaxen yellow with blooms 4" across or better. The fully double blossoms are nicely set off by the dark green foliage. 79¢ each; 3 for 2.10, postpaid.

CB1426—INDIAN RED (Lehman). One of the showiest plants in our trial grounds. Very large, fully double, 3½" flowers of bright copper-red. Petals radiate from a unique center swirl. Plant grows 2½ feet tall, compact, upright. Has large blossoms on long stems; fine for cutting. Foliage thick, dark green. 79¢ each; 3 for 2.10, postpaid.

CB1433—PURPLE WATERS (Lehman). The best truly purple mum we have ever seen. It is a rich, deep

DON'T MISS THE NEW ALL-AMERICA MUMS!

See the front cover for a full-color picture of each of the four Chrysanthemums that are the first Chrysanthemums ever to receive the coveted All-America Award. They are: Showpiece, Ruby King, Emperor, and Burning Brides. Picture on opposite page shows entire plant of Ruby King. Patent applications are pending on all four varieties. **POSTPAID PRICES ARE 1.00 each; 3 for 3.75, postpaid.**

purple. Fine 2-foot bushy plant completely smothered with 3-inch fully double blossoms. A show plant. 79¢ each; 3 for 2.10, postpaid.

CB1420—FLAMBOYANT. A showy mum with blossoms full of petals that look like pinfeathers. Brilliant tangerine flowers 2½ to 3" across that form 2½-foot masses of warm fall color. Very early blooming, and flowers over a long season—from August into October. 75¢ each; 3 for 1.98, postpaid.

CB1443—PINK OPAL (Kraus). A gorgeous introduction of the pale Persian-rose overlaid with cream tints. Large, fully double flowers measuring as much as 4"

across. This is a beautiful mum.

CB1430—LESHARA. Fine bright red double. Flowers rather loose, like Lee Powell. 2 to 2½" across. Plants 18" high, bushy, and massed with blossoms. 75¢ each; 3 for 1.98, postpaid.

CB1442—JUBILEE. Richest dark crimson pompon. Flowers solid double 1½" across in many-flowered clusters. Plant grows 18" to 24" high. One of the best deep crimsons we have ever seen.

CB1431—JOYOUS. A beautiful peach-pink. New variety. Fully double 2 to 2½" flowers on 18" bushy plants. 75¢ each; 3 for 1.98, postpaid.

CB1454—OSTOSA (De Petri). We consider this one of the very best of the white mums. Pure white, fully double flowers 2 to 2½" across with broad flat petals. Plants

bushy and compact, 2 feet high, and loaded with blossoms. 69¢ each; 3 for 1.89, ppd.

CB1423—GOLDEN AGE. Year after year we test many varieties of yellow decorative type mums and invariably we come back to Golden Age. It has brilliant, golden yellow, fully double blossoms 3 to 3½" across, beautifully set off by rich deep green foliage. Plants grow 2½ feet high. 75¢ each; 3 for 1.98, postpaid.

FUCHSIA FAIRY

CB1419—We list this one separately because it is so different. It has a mass of 1" flat, fully double, fuchsia-colored flowers. This little mum makes a plant 2' across, and about as high, that is literally loaded down with blossoms. Because of its attractive color and profusion of bloom, it is one of the best varieties we offer. 59¢ each; 3 for 1.59; 6 for 2.69, postpaid.

Chrysanthemums Never Disappoint You!

We have long considered Chrysanthemums one of the best perennials, being hardy and easy to grow. You can depend upon them to give you great quantities of colorful and beautiful flowers. You can use them singly, in mass plantings, and in borders, either alone or with other flowers or shrubs. And however you use them, they keep you colorful, cheerful, and provide you with long-lasting cut flowers during the fall when so many other flowers have quit blooming.

Generally speaking, Chrysanthemums bloom from early September until severe frost comes; the early fall frosts usually only intensify their colors. They like sun, and do best planted at least 24 inches apart.

There are, of course, hundreds of varieties, but we have selected for you here what we consider the best—some of them old favorites and some new introductions. But all are good and beautiful.

Why Henry Field's Mums Are Better Three Ways:

Aside from the fact that Henry Field's grow some of the world's best varieties of chrysanthemums, there are three important reasons why they are better: First, they are individually pot-grown. They are not just last year's field-grown plants stored over winter and shipped in the spring. Often such plants are not in good condition when spring comes. Our plants are pot-grown young Chrysanthemums all ready for you to plant, and sure to grow.

Secondly, Henry Field's have a sensationally new and better way of growing pot-grown mums. They are not grown in dirt because dirt dries out in shipment, falls away from the roots and so they dry out and get broken. We grow and ship Henry Field's mums in a special, lightweight, fibrous material that soaks up the moisture and liquid fertilizer. We add this fertilizer while the plant is growing and again immediately before shipping. This material around the roots holds this moisture and fertilizer during shipment. It clings closely around the roots, protecting them from damage and air—keeps the plants alive and growing even while it is on its way to you!

Thirdly, just before the plant is put in the carton for shipment to you, we enclose it in a polyethylene bag. This bag retains the moisture, preventing the roots from drying out, and at the same

time allows the plant to "breathe." Air, or gases, pass back and forth through this material, but moisture is held inside!

So for these three reasons, any mum plant you get from Henry Field's is a healthy, husky, pot-grown plant that is "rain" to go when you plant it. And you get Henry Field's three-way better mums at no extra cost. Why take less?

Mum potted in dirt as is commonly done. Smaller, less vigorous when shipped. It arrives in your hands dried out, often broken. Chances are it won't grow into a good plant for you.

This is how the plant, before shipping, is enclosed in a polyethylene bag which retains vital moisture and yet allows the plant to breathe.

"FOOTBALL MUMS" that you can grow easily yourself

POSTPAID PRICES on Football Mums described below are 98¢ each; 3 for 2.59, postpaid.

NOTE: Pictures of flowers at left are from actual photographs. To get the largest flowers, take off some of the side buds on each stem.

CB1435—GOLDEN SCEPTRE. We think this is the tops of all the new varieties of outdoor mums. The immense, golden yellow, incurved flowers look for all the world like huge golden yellow mums sold at the football games. The 4 to 5-inch blossoms will increase easily to 6 inches or more if some of the buds are removed.

CB1451—SUPERLATIVE. Well named. Probably the largest and finest of all white outdoor chrysanthemums. The huge, broad-petaled, incurved white blossoms often attain a diameter of 6 inches or more without any disbudbing. Will get even larger with some disbudbing.

CB1450—ROYAL VELVET. One of the exquisite new introductions of Orville Dierick of Michigan. The immense, incurved blossoms are a rich purple with a slightly silvered reverse—just enough to set off the vivid coloring. Worthy of anyone's garden. Stiff stems on a plant of medium height. You will have never seen a purple mum like this one before.

CB1403—AMBER BRIGHT. One of the earliest of the giant football mums, often starting to bloom by the first of September. The huge blossoms, 5 to 6" across without disbudbing, are fully double and beautifully incurved. Plants 2' high are set with many of the deep amber flowers.

CB1401—CRIMSON MAGIC. Our idea of the perfect crimson chrysanthemum. Pure white, full, deeply reflexed blossoms of richest dark velvet crimson are almost indescribable in their beauty. The husky, upright plants produce a quantity of non-fading, frost-resistant, 6-

BIG 3 COLLECTION
CB144X—1 each of Amber Bright, Heart's Desire, and Golden Sceptre—three of the largest flowering ones, for only 2.59, postpaid

inch blossoms. This is one of the best of all mums.

CB1437—HEART'S DESIRE. A gorgeous mauve pink of huge size with deeply reflexed blossoms. The flowers are beautiful when allowed to bloom naturally in a spray, but will attain immense size if disbudded.

CB1440—MIRAGE. Brilliant orange-bronze, very full and solid, with huge reflexed balls of bloom, often 8 inches across, on a perfectly upright plant. A wonderful creation by Mr. Dunham, and greatly admired.

CB150X—CHRYSANTHEMUM GARDEN 1 each of Amber Bright, Mirage, Purple Waters, Golden Age, Indian Red, Ostosa, Flaxen Beauty, Red Cushion Mum, Yellow Cushion Mum, and Pink Cushion Mum—all 10 for only 5.50, ppd. A 7.44 value.

Henry Field's CUSHION MUMS

Grow in Huge Mounds of Thousands of Blossoms.
All Bloom First Year.

NOTE: Our mums, being potted and in green leaf, are shipped later and separately from other perennials and nursery stock.

Cushion Mums bloom the first year after planting, and grow to a size 3 feet across and 2 feet high, with flowers so solid and thick that no foliage is visible. Single plants often have a thousand blossoms on at one time—so many you cannot see a dozen blossoms out daily for the table.

Hardy, long-lived and easy to grow.

CB1412—PINK CUSHION (Coquette). The clear pink that blooms early in the fall.

CB1411—BRONZE CUSHION. The best double bronze. Early blooming.

CB1414—RED CUSHION (Lipstick). A bright red

flower. The first to bloom, and the best of all reds.

CB1415—WHITE CUSHION. Pure white. Delightful and very useful to accent other colors.

CB1416—YELLOW CUSHION (Golden Mound). This is the very early, large flowering, golden yellow one that is so popular.

CB1413—PURPLE CUSHION (Purple Dusk). A new and novel variety with an unusual color, being a brilliant royal purple.

PRICES on all Cushion Mums: 55¢ each; 3 for 1.39, postpaid to your door.

COLORFUL CUSHION MUMS \$129
3 MUMS \$129
CB1347X ppd.

1 Pink Cushion Mum, 1 Bronze Cushion Mum, and 1 Yellow Cushion Mum—all 3 for only 1.29, postpaid.

Special on CUSHION MUMS for BORDERS

A row of Cushion Mums, such as illustrated at the far left, makes a border of incomparable beauty, so here is a special price on a larger quantity for borders: 12 for 4.75, postpaid. Your choice of any one color. Plant 2 to 3 feet apart.

Henry Field's HARDY LILIES

GIANT OLYMPIC LILY (*Lilium centifolium*)

There probably is no other class of hardy plants that is increasing so rapidly in public popularity as Lilies. This is because hybridizers all over the world are giving close attention to this beautiful plant, and the results they are attaining are astounding.

Not only are the hybrids beautiful and easy to grow, but many folks are finding that some of the well-known species such as Regal, Pink Show and Gold Band are among the most beautiful of all flowers, and not at all difficult to handle.

If you haven't grown Lilies, we urge you to try them. It will be well worth your time and effort.

See Page 52 for Description of
Yerex's Lily Superba

NEW PACIFIC NORTHWEST HYBRID LILIES

These lilies are from a group resulting from more than 20 years of skillful, patient crossing by Mr. Carleton Yerex in the Pacific Northwest. Superba, and the new pink shades of lilies described on page 52, also are of this group.

They are perfectly hardy and as easily grown as any other plant. Some grow stems higher than our head, topped by great clumps of magnificent, beautiful blooms. They are, without a question, the most beautiful lilies in the world today.

YEREX—EVENTIDE. Five-inch flowers of a rich cream color overlaid with saffron and blending to a deep sunburst at the center. 2.98 each, postpaid.

B5037—YELLOW TRUMPET AURELIAN HYBRID. Like Regal Lily but has stronger stems, larger trumpets of clear yellow and apricot. 1.75 each; 3 for 4.39, postpaid.

B5042—AURELIAN APRICOT TRUMPET. This is like the Pink and the Yellow Trumpet Aurelian Hybrids,

but unfortunately we don't have room to picture it. Has Easter Lily-like trumpets of rich apricot shades. 2.98 each; 3 for 7.50, postpaid.

B5000—AURELIAN HYBRIDS. Wide, flaring, reflect trumpet lilies in beautiful combinations of colors, including gorgeous sunburst effect. Flowers are all 6" or more across. 98c each; 3 for 2.69, postpaid.

B5020—PINK TRUMPET AURELIAN HYBRID. To avoid sun-fading of flowers, it is best to plant Pink Trumpet in partial shade, or to protect at time of blooming. Plant 6 inches deep. 1.85 each; 3 for 4.50, postpaid.

COLLECTION OF AURELIAN HYBRID TRUMPET LILIES

B3451X—1 each of these Aurelian Hybrid Trumpet Lilies: Pink, Yellow, and the new Apricot—all 3 for only 5.25, postpaid.

tem, they stand severe drouth well. Plant 6 inches deep.

Incidentally, they are called *Lilium centifolium* (hundred leaved) because of their abundance of rich green foliage. 59c each; 3 for 1.49, postpaid.

PINK SHOW LILY

B5030—(Speciosum Rubrum). Flowers 4 inches across are carmine red on a white background with crimson spots. A very hardy plant that blooms profusely. Plant 7 to 8 inches deep. 75c each; 3 for 1.89, postpaid.

GOLD BANDED LILY

B5012—(Lilium Auratum). One of the most beautiful of all lilies. Has been grown and admired for centuries. Plant 9 inches deep; do not use lime. 75c each; 3 for 1.89, postpaid.

REGAL LILY

B5027—America's favorite hardy lily. Has large, pure white flowers tinged lightly with lilac outside and yellow inside. 10 or more blooms per stem. Plant 7 to 8 inches deep. 45c each; 3 for 1.19; 6 for 2.29, postpaid.

CORAL LILY

B5005—(Tenifolium). The most brilliantly colored Lily. A narrow-leaved, slender-growing plant from Siberia. Many flowers of deep scarlet, waxy and recurved, on each plant. Grows in poorest soil. Plant 4 to 6 inches deep. 39c each; 3 for 98c; 5 for 1.39, postpaid.

FIELD'S TOP LILY COLLECTION

B3458X—This is a special collection of outstanding lilies. You can not buy finer lilies anywhere, at any price: 1 Yellow Trumpet Aurelian Hybrid; 1 Aurelian Hybrid; 1 Giant Olympic; 1 Pink Trumpet Aurelian, and 1 Superba Aurelian (described on page 52)—all 5 bulbs for only 4.75, postpaid.

B3170X—DOUBLE WHITE
—all 5 bulbs for only 4.75, postpaid.
White, 1 Pink—all 3 for 1.89, postpaid.

FERN-LEAF PEONY

B1514—Scarcest of all peonies. Blooms in early May here at Shenandoah—far ahead of any other peony. Grows only about a foot tall and makes a nice clump of finely cut, ferny foliage. The blooms are a glistering, fiery double red and grow close to foliage. Hardy everywhere. 2.75 each, postpaid.

TREE PEONIES

B1511—(Paeonia moutan). One of the choicest of all flowering plants. Hardy and does well in most sunny locations with a minimum of care. Plants live for years, gradually making fine bushes 3 to 4 feet high as they do not die down to the ground each winter as the herbaceous sorts do. Do not cut back the woody branches. In spring, the plant is

BARGAIN LILY COLLECTION

B3457X—One each of Flame Lily, Pink Show Lily, Coral Lily, Regal Lily, and Estate Lily—all 5 for only 2.19, postpaid.

ESTATE LILY

The Hardy Outdoor Easter Lily
B5010—Now you can grow "Easter Lily" plants in your own back yard. A true type, long trumpet lily with flowers as delicate and wonderful and fragrant as 3,000 greenhouse-grown ones. Plant this spring and have blooms this summer and year in and year out thereafter. Grows 2 1/2 to 3 feet tall when established. Plant 1 to 5 inches deep. 59c each; 3 for 1.49, postpaid.

MID-CENTURY HYBRIDS

B5022—These are big, brilliantly-colored, new hybrids from the West Coast. Not only are they gorgeous but since they have a lot of umbellatum, or Flame Lily, parentage, they are one of the most fool-proof, absolutely hardy lilies we know of. They grow anywhere. Colors run from palest straw yellow to deepest gold with lots of maroons and deep reds—and sometimes with all these colors in one blossom. Long, tall stems. The best part is that we don't have to sell them for four or five dollars apiece. These are our low prices: 59c each; 3 for 1.49, postpaid.

FLAME LILY

B5011—(Red Russian). One of the easiest of all garden lilies to grow. Makes large clusters of blooms on plant which grows two to three feet high. Plant 6 to 8 inches deep. 59c each; 3 for 1.49, postpaid.

DOUBLE TIGER LILY

B5033—Large, double, brilliant, orange-red flowers with purplish-black dots. This is the double variety. Not the single. Very hardy and easy to grow. Plant 8 to 9 inches deep. 45c each; 3 for 1.25, postpaid.

Henry Field's Big Beautiful PEONIES

POSTPAID PEONY PRICES: 98c each; 3 for 2.69, except where noted otherwise.

CHOICE VARIETIES ONLY. All are choice varieties, in big 3 to 5 eye No. 1 divisions, and all are labeled as to variety.

B1535—MARTHA BULLOCK. One of the largest flowered of all peonies, and experts rate it as one of the three best. Stems are stiff, strong, and hold the immense, fragrant blossoms upright. 1.35 each; 3 for 3.75, ppd.

B1529—KARL ROSENFIELD. Brilliant, velvety crimson, double flowers. Compact growth, excellent bloomers. Late mid-season.

B1513—FESTIVA MAXIMA. One of the finest double whites. Flecks of red on center petals. Immense size. Blooms early.

B1511—EDULIS SUPERBA. Crown type. Enormous bright clear pink blossoms with silvery reflexes. Called Decoration Day Peony. Delightful rose fragrance.

B1580—SOLANGE. The nearly perfect peony. Huge globes of rich, creamy white suffused lightly with buff and pink. Flowers heavy, compact and full of petals. 1.25 each; 3 for 3.49, ppd.

B1540—MISS ECKHARD. Very large semi-double flowers of deep pink which do not fade badly in sun. Early to mid-season. 1.25 each; 3 for 3.49, postpaid.

B1538—MME. DE VERNEVILLE. Very large, full, bomb-type flowers. Very early. Pure white flowers with crimson markings grown on long, strong stems, fine for cutting. Very profuse bloomer.

B1512—FELIX CROUSE. Rose type of dazzling ruby red. Blooms late mid-season.

B1514—FRANCES ORTEGAT. Large, semi-rose type of dark amaranth-red. Glistering yellow stamens. Mid-season bloomer.

PEONIES—3 for 1.79

B3178X—A grand assortment. Big double varieties—every color. Extra fine choice varieties we grow too many of. Unlabeled.

[Z] B2111—FIREFLAME. Intense deep orange pencilled orange-brown. 98c each; 3 for 2.69, ppd.

[AA] B2099—GARNET ROBE. Grows 36" tall. A striking oxblood red. This rich coloring runs to within an inch of the bottom of the throat. Midseason. A very fine variety. 1.25 each; 3 for 3.39, ppd.

[BB] B2107—BALLET DANCER. Creamy orange-buff. A beauty. 1.25 each; 3 for 3.39, ppd.

[CC] B2086—PURPLE WATERS. Early to midseason. Showy, rich purple. Full, open flowers with a long season of bloom. 98c each; 3 for 2.69, ppd.

[DD] B2118—BLACK CHERRY. Grows 36" tall. Deep red-purple shades of large black cherries. The rich shading does not fade under the hottest sun. 98c each; 3 for 2.69, ppd.
[EE] B2116—AMULET. A fine non-fading, lovely, light coral-pink. 75c each; 3 for 1.79, ppd.
B2115—GLORY. Grows 26" tall. Immense clear yellow flowers with broad ruffled petals and sepals. Pleasing fragrance. Our plants often form

HEMEROCALLIS COLLECTION

B3327X—1 each of Hyperion, Purple Waters, and Fulva Rosea. You will really enjoy these three. 2.99, postpaid.

SEE ILLUSTRATIONS AT LEFT

The Hemerocallis which we list here are selections from the best (the Midwest Hemerocallis Society's Test Gardens are in our backyard!). Many of the varieties look very much alike, anyway, so we list only one each of the different colors in varieties you will like.

[W] B2087—FULVA ROSEA. One of the best true pinks. Graceful and charming. 1.25 each; 3 for 3.39, ppd.

[X] B2094—PORT. Flowers in July. Bright port wine flowers on well-branched stems. 1.25 each; 3 for 3.39, ppd.

[Y] B2090—HYPERION. Giant lemon-yellow lilies on stems almost 4 feet tall. Blooms July and August. 75c each; 3 for 1.79, ppd.

HEMEROCALLIS (Day Lily) The Gorgeous Beauties That Can "Take It"

8 petals and sepals on each flower. Midseason. 75c each; 3 for 1.79, ppd.
B2117—MINUTE. Very fine rose-pink. In our opinion, one of the better pinks. 1.25 each; 3 for 3.39, ppd.
B2106—POTENTATE. Our choice for the best deep purple. Really deep with orange-yellow throat. 2.75 each; 3 for 7.25, ppd.

B2092—POMPEIAN RED. We consider this one of the very best scarlet reds. 1.25 each; 3 for 3.39, ppd.

B2089—AUGUST PIONEER. Grows 34" tall. Very long flowering variety that will help to prolong the Hemerocallis blooming season. Chrome yellow with outer half of petals flushed red. 75c each; 3 for 1.79, postpaid.

GREEN LIGHT

80232—This is a most unusual color for a Glad—it's a yellowish-green—almost chartreuse. You have never seen anything like it. Brilliant under artificial lights too. The flowers are medium size. Blooms early to mid-season. Cut the spikes when the buds are just beginning to show color; let them open indoors. 35c each; 3 for 1.00, ppd.

ATATURK

The Black Glad

80202—Ataturk is about as black as a flower can be. The color is a glistening, velvety black with faint brownish shadings. The spikes are medium-long in size, with 6 to 8 flowers open at a time. Each flower is 3 to 4 inches in diameter. If you like deep, heavy colors in Gladioli, this is a variety you should have. 35c each; 3 for 1.00, ppd.

KING DAVID

Our "Super Glad" for 1958

80206—Each year we select for our customers a "super" glad, one that stands out from all the rest. This is it for 1958. It is beautiful in form, and a deep, dark, reddish royal purple with throat velvety rich red. Flowers are delicately ruffled, rich and velvety. Medium large spikes open 10 flowers at one time. Early to mid-season bloomer. 35c each; 3 for 62c 1.00, postpaid.

BLUE SENSATION

Glad of the Year

80332—This is our "Glad of the Year." It's new and different. A wonderfully strong, vigorous grower. Has seven to eight 6" flowers open at one time. The finest of the deep blue glads. Has red-brown markings in the throat. Grows tall and blooms early. 35c each; 3 for 1.00, postpaid.

- 5, your choice, for 65¢ • 10, your choice, for 1.25
25, your choice, for 2.65 • 50, your choice, for 4.50

REDS

B0212—MODERN TIMES. A beautiful thing of rich, deep carmine with purple tinge.
B0203—JO WAGENAR. A deep, dark red, often opening 8 to 10 flowers at one time. One of the best varieties ever imported from Holland.

B0219—PALET. This is a show stopper. Dominant color is vermillion red. Each petal carries a prominent crimson-purple blotch.
B0220—RED RADIANCE. A brilliant scarlet without markings. Grows tall. Has 8 to 10 five-inch flowers open at one time. Flowers are smooth and velvety with heavy petals. Strong, healthy grower.

WHITES

B0239—SNOW PRINCESS. Recognized universally as the outstanding white gladiolus.
B0235—MORNING KISS. A clear milk white with a faint blush. Becomes a deeper pink as the flower matures. Very delicate coloring.
B0240—LEIF ERICSSON. A ruffled cream of heavy substance. Tall, graceful spike. Vigorous grower.
B0234—FLORENCE NIGHTINGALE. One of the best. Midseason to late. Lightly ruffled pure white with creamy throat. Flowers are perfectly placed on tall straight spikes.

BLUES AND LAVENDERS

B0339—PURPLE SUPREME. Very fine ruffled purple variety. 7 to 10 large flowers which open at once. Tall straight spike.
B0337—MYRNA FAYE. One of our earliest-blooming glads. Robust grower. Medium shade of lavender. We like it.
B0331—GAIL. A tall, stretchy lavender. Doesn't make crooks and retains its color during hot spells. A tall grower. Florist's favorite.
B0346—FIRMAMENT. One of our better blues. Violet-blue with steel blue markings. Very dark.

YELLOWS AND ORANGES

B0268—TRIUMPH. Well named because it is just about the best good medium-priced yellow. Has strong stems, and flowers of good substance. A buttercup yellow.
B0257—GOLD DUST. An older variety that never loses its popularity. Early in season, beautiful rich deep yellow in color.
B0261—MEGERAN. A Dutch variety with real merit; one of the best. Flowers are a

beautiful canary yellow and slightly ruffled. One of the first to bloom.

B0260—ORANGE GOLD. The best "orange" glad. True bright orange with a small golden throat. Tall, healthy grower. Five to seven flat, wide open blooms at once.

PINKS

B0314—PANDORA. You will love this one. Tall straight spikes. Wonderful for church bouquets. A delicate shell pink with a deeper shade at the edges. Lighter throat. Opens to 6 to 8 flowers at one time.
B0313—PEACH BLOSSOM. Big peach-blossom pink flowers that open six to eight at once. Heavily ruffled and frilled.
B0306—SPIC AND SPAN. One of the newer ruffled pinks. Grows anywhere for anybody. Deep pink with light salmon shadings.
B0322—SWEET SIXTEEN. The originator describes this as "a fresh-toned, angelic pink." It has the clean, fresh color of youth. Flowers are beautifully rounded, open, and perfectly placed. A beauty.

SMOKIES

B0280—HAWAII. A mahogany red with a blotch of deeper color. One of the outstanding smokies.
B0290—UHU. A lobster red with lilac stripes. Mid-season bloomer. Very popular with florists.
B0278—SILHOUETTE. A smoky lilac with rose shadings. Glorious pleasing color effect.
B0273—BLUE HAZE. A most unusual color. Reddish, hazy blue-violet with darker lines. This one stops the visitors every time.

Glads, "The Queen of Flowers"
Provide a Rainbow of Color
For Your Yard...

Perfect for Garden and Bouquets

Gladiolus are the most universally grown of all flowers; this would not be so if it were not for the fact that they do well practically anywhere, in all sorts of climates. They make a colorful show in your garden, and can't be beat as a cut flower. Cut them when the first few flowers on the bottom of the spike are opening, and the other buds will open successively up the stem over a period of several days. They give you a long-lasting, easy-to-arrange bouquet.

coming on all summer and fall.

After the tops start to turn brown, or frost kills them, dig the bulbs. A regular spading fork works nicely. Cut the tops off about half an inch above the bulb.

Store the bulbs in shallow crates in a cool, well-ventilated cave or basement. The bulbs may be cleaned any time during the winter, but they clean best about a month after digging.

To control thrip, dust the bulbs with Henry Field's Gladiolus Dust before putting them away for the winter. It is Catalog No. 4079—a 1-lb. sifter can costs only 79¢; a 3-lb. bag is 1.68, postpaid.

Glads Are Easy to Grow

All that gladiolus ask is ordinary "potato care," fairly rich, well drained garden soil, and full sunshine. Set the bulbs four inches deep—a little deeper in loose, sandy soil. Every ten days, make additional plantings up to July 1 and you will have blooms

MONEY-SAVING MIDDLE-SIZE

Here is a real money-saver! This mixture gives you a beautiful assortment of glads of all kinds and colors. Included are some of the most expensive varieties that we can offer. The bulbs are middle-sized and will bloom this year.

No. B0585X 20 BULBS	No. B0586X 40 BULBS
for 65¢ ppd.	for 1.15 ppd.

Henry Field's Favorite "20 GRAND" GLAD COLLECTION

Every bulb is big, clean, vigorous—top quality hand-picked. You get a blend of the choicest colors—solid clear colors, plus blotched and blended ones. Some have the plain type flowers, others ruffled. These are some of these as named varieties, one or two would cost you as much as this whole collection. You get a lot for your money. Every bulb guaranteed to produce gorgeous, lovely flowers.

BIG-SIZED BULBS
Actual size of bulbs is 1 1/2" to 2" — which is slightly larger than the size pictured above. These are the blooming size bulbs.

B0570X—20 bulbs for 1.00. 2 collections (40 bulbs) for 1.85. 3 collections (60 bulbs) for 2.65, postpaid.

ARISTOCRAT GLADS

Each year we study dozens of the newest glads right here in our own trial grounds. We watch their performance under our tough coast-belt growing conditions. We select a few of the very best ones and call them "Aristocrats." Truly they are the Aristocrats of the Glad World. These are our selections for 1958:

ROSY GLORY

B0317—Here is a wonderful, big-growing glad. Color is a deep begonia pink; some might call it a rose pink. Opens six or more flowers at once. Wonderful cut flower because the color is so bright and flashy. You can use it anywhere.

CARRARA

B0237—A new giant white. Big, flaring flowers; white with creamy throat and faint lavender penciling. Spikes grow four to five feet tall.

GOLDEN GLORY

B0280—If any glad can be described as "glorious," this one can. It is a deep golden yellow. No markings of any kind. It is large too—flowers wide and flaring, slightly ruffled. One of our best.

BLUE BOY

B0350—Petunia-violet blue. Imported from Holland. Not exactly the same shade as pictured at left because Blue Boy is difficult to duplicate with printing ink. It is a beautiful thing. The spikes are tall and strong. It opens 6 to 8 flowers at one time.

SANS SOUCI

B0224—This one really shines. It is a brilliant scarlet with a yellow feather in the throat. It is red and lets the world know it. We think it is one of the best of the new glads. Mid-season and medium tall.

POSTPAID PRICES: your choice of any of the above Aristocrat varieties for 35¢ each; 5 for 1.00; 10 for 1.60; 25 for 2.65.

Henry Field's Presents 5 NEW "ALL-AMERICA" GLADS

Chosen Best by Impartial Glad Experts After Years of Testing in All Sections of the Country.

After many years of testing, Gladiolus judges from all over the country selected these five varieties. They have wonderfully well placed, large flowers; tall, graceful spikes; tremendous vigor; great beauty. All five are patented. We send you large bulbs, 1 1/2 to 2" in diameter. Guaranteed to please you in every way.

B0348—EMPEROR. The All-America Glad for 1958. Has rich, distinctive color—a regal purple trimmed with ermine white. It will grow to five or six feet with 7 to 8 recurved forelets open at one time. Stems are tall and straight.
B0320—APPLE BLOSSOM. 1956 All-America Winner. Predominantly snowy white with a faint, delicate touch of cream in the throat and at the edges of the petals. A vigorous, easy grower. Opens 8 to 10 florets at one time. Flowers are heavy, with plenty of substance.
B0223—ROYAL STEWART. 1956 All-America Winner. Has long flow-

er heads of lightly ruffled forelets of good substance and five inches in diameter. Color is a clear, gleaming light red. And it sometimes opens twelve flowers at once.
B0342—CARIBBEAN. 1957 All-America Winner. A rare combination of colors—blue-violet petals embellished by a rich, deep violet throat and a small cream spear. Opens nine to eleven flowers at a time.
B0321—MAYTIME. 1957 All-America Winner. Gracefully ruffled flowers of deep pure pink with large white throat. Has a silky sheen. Its brightness and charm suggested its name. A strong, robust grower. Opens eight to ten flowers at a time.

POSTPAID PRICES for the Five All-America Glads: 50¢ each; 3 for 1.50; 6 for 2.50; 12 for 5.00, postpaid.

AMERICAN-GROWN HYBRIDS

VARIETIES IMPORTED FROM BELGIUM

Henry Field's Sure-Blooming GLADIOLUS

We are featuring the following Gladiolus because, in our own test gardens where we grew hundreds of different varieties, these ten were outstanding. We recommend any one or all of them to you without reservation. You will be proud to grow them in your own garden.

THE RAJAH

[A] BG338—In our opinion, this is the leading purple Glad today. It is real royalty, and no fooling. It is solid purple—no markings whatever. The flowers are large, round, and ruffled. It opens seven or more flowers on a tall spike. A real show glad. 25c each; 3 for 65c; 6 for 1.00, postpaid.

GOLDEN SUNSHINE

[B] BG255—A really remarkable glad, a golden yellow like soft summer sunshine. The flowers are large and almost leathery in texture. It makes a wonderful cut-

ting glad. Slightly ruffled. Grows a tall, strong spike with eight to ten flowers open at once. Golden Sunshine already has made a great name for itself in flower shows. 50c each; 3 for 1.25; 12 for 4.50, postpaid.

MERRY WIDOW

[C] BG349—This is a very attractive Dutch variety—one that you can see clear across the garden. It is a brilliant purple, or mauve, with a large creamy-white blotch. Flowers are medium size. Everyone admires this one. 25c each; 3 for 65c; 6 for 1.00, postpaid.

INNOCENCE

[D] BG305—A beautiful shade of rose pink overlaid with delicate baby pink shadings. The spikes grow tall and stately (often five feet high), with eight to ten very ruffled flowers open at one time. Early blooming. Rugged, easy to grow, and dependable. 50c each; 3 for 1.25; 12 for 4.50, postpaid.

MOUNT INDEX

[E] BG238—This is one of the earliest and finest of the white glads. It has a light yellow throat and flaring petals which give it a lily-like appearance. It is one of our favorite cut flowers. Opens six to eight florets on a tall, straight stem. A healthy grower. 25c each; 3 for 65c; 6 for 1.00, postpaid.

ORIENTAL SPLENDOR

[F] BG285—The best "smoky" glad we have ever grown. So unique and different it is difficult to describe. We call it garnet brown with lighter veins. In our glad show, more people pointed this one out than any other. Flowers are large, with open, flaring petals. 35c each; 3 for 1.00; 6 for 1.50, postpaid.

RUFFLED CHAMPION

[G] BG300—Take a good look at the picture on the opposite page. Did you ever see a glad so heavily ruffled? It is a rosy pink with red marks in the throat. Opens six flowers at a time. A strong, vigorous grower too. Every collector should have this one. Not many to offer this year, so if you really want one, please order early. 35c each; 3 for 1.00; 6 for 1.50, postpaid.

ROYAL PURPLE

[H] BG354—If you like the unusual, you'll like Royal Purple. Its color can best be described as "pansy purple" with a bluish cast. It has deeper purple marks on cream blotch in the throat. Very colorful and attractive. You can call this a "conversational" glad because it will create a lot of comment. Stock is limited on this one too. 35c each; 3 for 1.00; 6 for 1.50, postpaid.

VIKING

[I] BG228—A bright, fiery scarlet that fairly shouts at you. Has bold white lines in the center of each petal. The cut flower buyers love this one. It has tall ram-rod straight spikes. Even the small bulbs produce big flowers. Grows anywhere. Viking should be a "must" in every glad fan's garden. 50c each; 3 for 1.25; 12 for 4.50, postpaid.

ADMIRAL

[K] BG351—A top rank glad that is well named. Its color is a deep glistening blue. It grows tall and holds its blooms well. As a rule, it opens eight to ten flowers at one time. Admirable new, and we predict great things for it; it's a sure prize winner. 50c each; 3 for 1.25; 12 for 4.50, postpaid.

"TOP NOTCH" Glad Collection

BG563X—1 each of the above 4 for 1.59; 2 collections (8 bulbs) 2.98, postpaid.

TUBEROUS-ROOTED BEGONIAS: Most Glamorous of All Flowers... They Thrive in Shade

American-Grown HYBRIDS

In recent years it has become popular to import tuberous-rooted begonias from Belgium and Holland, and the varieties imported are indeed fine ones. However, did you know that all the varieties being sold today, domestic and imported, are derivatives, or the original species, brought from South America?

For some time now, our own United States growers have been hybridizing tuberous-rooted begonias with tremendous success. We are happy to offer here some of their best varieties. They are outstanding in brilliance of color, vigor of growth, and beauty of form. Most of them are fully double. Some are plain petalled, some frilled. Their colors include white, yellow,

apricot, and shades of pink and red, as well as bicolors.

Sorry we can't sell them by named varieties or color.

BG594X—Mixed colors, 3 for only 1.00; 6 for only 2.00, postpaid. FREE GIFT: with each order of 6 bulbs of American-grown hybrids, one bulb of graceful Hanging Basket Begonia.

HANGING BASKET BEGONIAS

BG416—(Pendula.) Used in porch boxes and hanging baskets mostly, but is wonderful too in the rock garden, particularly a rock garden that slopes. Or on a rock wall. The branches hang down, flowers are double, and in a wide variety of colors. 40c each; 3 for 1.10; 6 for 1.85, postpaid.

Varieties Imported from Belgium

These are the Camellia type tuberous-rooted begonias. For sheer beauty and brilliance of color, no other flower can surpass them. The big double blooms are perfect in form and often grow to eight inches across.

They like shade, thus are ideal for shaded windows, porch boxes, and shady spots in the garden. Or in borders that run under deep shade of trees. They bloom all summer long.

Mixed Begonias

BG605X—A mixture of brilliant colors. 6 Camellia type, our choice of colors, for only 1.00, postpaid.

providing an endless amount of glowing color for your yard or house, and plenty of stunning cut flowers for indoor use.

Easy to grow, whether you raise them outdoors, or indoors as a potted plant. They do well either place. We send full "How to Grow" directions with each order.

BG413—Pink BG415—Yellow BG419—Salmon BG420—Scarlet BG418—White

30c each; 2 for 50c, postpaid.

All 5 for only \$1.00

BG604X—Collection of 1 each of all 5 colors above for 1.00, postpaid.

DON'T MISS THIS BUY!

Big Bargain in Mixed Sizes

80 "Row Run" GLADS

No. BG574X

All 80 for only \$1.00 POST PAID

We call these "Row Run" because the bulbs are of the various sizes just as they come from the field — big ones, regular-sized ones, medium-sized ones, and small ones. But there are no bulbets and no culls. Every bulb is a clean, healthy, vigorous one big enough to bloom the first year.

So, if you will take them "row run," just as they come when we dig them, and thus save us the expense of grading them, we'll give you a super bargain price.

DAHLIAS ARE EASY TO GROW

Plant tubers after soil warms up (corn planting time). Set them about 5 inches deep, 3 feet apart. When third set of leaves appears, pinch off top. This encourages branching, makes a well-balanced, bushy plant. Dahlias like full sun, rich well-drained soil, and just ordinary "potato care."

RAINBOW BORDER DAHLIAS

[A] BG630X—These are brilliantly colored, easy-to-grow dwarfs that give you loads of long-lasting, gorgeous cut flowers. You need not baby them to reap a rich harvest of bright colors. Just plant the bulbs two to four inches deep in your flower border. Allow 18 inches between the plants. Your border will blaze with brilliant rainbow colors of red, white, yellow, orange and green. Blooms are semi-double and others fully double. Plants grow from two to four feet tall. 4 for 60¢; 2 for 1.00; 12 for 1.25, postpaid.

GIANT DECORATIVE DAHLIAS

[B] BG145—GREAT EASTERN. A magnificent dahlia. An orange-gold combination. Fluffy in appearance. Strong bush. 1.00 each; 2 for 1.85, postpaid.

[C] BG146—BIG SHAGGY. A "Monarch" dahlia with warm shades of buff orange with bronze and gold shadings. Very double with twisted and curled petals. 85¢ each; 2 for 1.49, postpaid.

[D] BG179—RED VELVET. 10" flowers of deep velvet red shading darker toward center. 1.00 each; 2 for 1.65, postpaid.

[E] BG144—BIG RED. One of the best reds. Real dark and showy. 85¢ each; 2 for 1.45, postpaid.

DECORATIVE DAHLIAS BARGAIN

BG543X—1 each of Blue Moon, Michigan White, Avalon, all 3 for only 1.45, postpaid.

[F] BG166—COMMANDO. Clear lavender. 75¢ each; 2 for 1.25, postpaid.

[G] BG137—COMMODORE. Very large lemon yellow flowers on long stems. 65¢ each; 2 for 1.10, postpaid.

[H] BG171—MICHIGAN WHITE. The largest fluffy white of all. 65¢ each; 2 for 1.10, postpaid.

[I] BG153—OYSTER BAY BEAUTY. Large ox-blood red. Long stems. 65¢ each; 2 for 1.10, postpaid.

[J] BG162—MRS. THOS. EDISON. Rich deep purplish-red; light reverse. 65¢ each; 2 for 1.10, postpaid.

[K] BG157—VICTORY. Large salmon pink. Good cut flower. 65¢ each; 2 for 1.10, postpaid.

[L] BG135—ROSE GLORY. Rosy pink. Free bloomer. 65¢ each; 2 for 1.10, postpaid.

[M] BG129—OGDEN REID. Rose pink petals shaded with light lavender. 65¢ each; 2 for 1.10, postpaid.

[N] BG151—SUN GOD. The brightest yellow. Big too. 65¢ each; 2 for 1.10, postpaid.

[O] BG141—ELEANOR VAN DER VEER. A bright rosy pink. Strong grower. 65¢ each; 2 for 1.10, postpaid.

[P] BG139—AVALON. Long-stemmed, medium size, light yellow. 65¢ each; 2 for 1.10, postpaid.

[Q] BG140—SILVER LADY. A lovely shade of very flushed and edged with amaranth rose. 65¢ each; 2 for 1.10, postpaid.

[R] BG133—BLUE ROSE. A bluish orchid color. 85¢ each; 2 for 1.45, postpaid.

[S] BG142—BLUE MOON. Blush red. Very different. 85¢ each; 2 for 1.45, postpaid.

[T] BG149—THOMAS EDISON. Petunia violet. Grows 4' tall; impressive. 85¢ each; 2 for 1.49, postpaid.

[U] BG156—SHEER GOOD'S PEACH. Soft one of about orange. 75¢ each; 2 for 1.25, postpaid.

[V] BG160—AUTUMN GIANT. 10" flowers of bronze and gold. 1.00 each; 2 for 1.45, postpaid.

[W] BG170—MAN O'WAR. 8" to 10" flowers of deep impressive red. 90¢ each; 2 for 1.35, postpaid.

BALL DAHLIAS

These are medium-sized flowers (about 3 inches across) of perfect color and symmetry. One of the most popular of all flowers, both for the garden and cutting.

"BEATS ALL" DAHLIAS COLLECTION

BG546X—1 each of Blue Rose, Commodore, Oyster Bay Beauty—all 3 for only 1.59, postpaid.

[H] BG71—BONNIE BLUE. Best blue.

[I] BG81—BRONZE BEAUTY. The name tells the story.

[J] BG74—RED CHIEF. An old favorite; best of all red ball dahlias.

[L] BG75—YELLOW DUKE. Distinct; finely cut foliage.

[M] BG84—STORM KING. Best white.

[N] BG76—ROSE BALL. Clear pink.

BG83—PURPLE BALL. A real purple, and a good one too.

BG73—MRS. C. D. ANDERSON. A deep rosy red.

BG72—MORNING MIST. Daintiness personified. Well suited with a lovely lavender.

BG77—EDITH MUELLER. An old timer still one of the best. Golden yellow and orange-red combinations. Petals edged in red.

POSTPAID PRICES for above Ball Dahlias: 50¢ each; 2 for 90¢; 3 for 1.25.

CACTUS DAHLIAS

[F] This type gets its name from its unusually shaped, long, needle-like petals.

BG107—NICKY K. Brilliant scarlet red. Profuse bloomer with strong stems. It keeps well and makes a wonderful cut flower. One of our favorites.

BG108—ORANGE FANTASY. A big, pretty orange.

BG105—MRS. E. J. A large pink with striking creamy center.

POSTPAID PRICES for above Cactus Dahlias: 80¢ each; 2 for 90¢, postpaid.

CACTUS DAHLIAS BARGAIN

BG542X—1 each of Nicky K., Orange Fantasy, and Mrs. E. J.—all 3 for only 1.19, postpaid.

DAHLIAS

See illustrations at left

Rainbow Dahlias COLLECTION

BG559X—Seems like bread and jam never come out even, and we never grow just the right number of a variety. Always come out long on some. These "surplus" kinds go into this collection. You get mixed colors and kinds. All are large, first-quality roots, and guaranteed to please. You really get a lot for your money! Collection of 4 for 98¢; 2 collections 1.75, postpaid.

BABY DOLL DAHLIA SPECIAL

BG539X—These are the charming miniature Dahlias—just like the big ones but smaller. Very colorful, and often fit into your garden plan where the larger ones won't. Ideal for bouquets and cut flowers. One each of red, pink, white and yellow—all 4 colors for only 1.00, postpaid.

Henry Field's Magnificent GIANT CANNAS

GRAND OPERA SERIES (Hybrid Varieties)

[R] BG11—LA TRAVIATA. A lively and delightful shade of old rose. Every petal perfectly placed. Immense blooms.

[S] BG12—RIGOLETTO. Pure canary yellow shading lighter yellow as flowers develop. Bright green foliage.

[T] BG10—AIDA. The base color is old rose overlaid with delicate salmon. Gladioli flowered.

POSTPAID PRICES for Grand Opera Cannas above: 85¢ each; 2 for 1.49, postpaid.

GIANT CANNAS

[U] BG20—PINK BEAUTY. Bright salmon-pink flowers. Green foliage. 4 feet tall.

[V] BG17—RICHARD WALLACE. Large, solid yellow flowers on green foliage. 4 feet tall.

[W] BG18—DAZZLER. Vivid, blood red flowers on dark green foliage. Grows 4½ feet tall.

[X] BG28—YELLOW KING HUM. BERT. Late yellowing flowers heavily flecked with red. Green foliage. 4 feet tall.

[Y] BG22—THE PRESIDENT. Cherry red flowers. Rich green foliage. Grows 4 feet tall.

BG26—RED KING HUMBERT. Orange-scarlet flowers. Coppery bronze foliage. Grows 4 feet tall.

BG29—HUNGARIA. The very best pink. Green foliage. Grows 3½ feet tall.

BG19—KING MIDAS. Clear, bright yellow with red dots on green foliage. Blooms until frost. Grows 4 feet tall.

POSTPAID PRICES on Giant Cannas above: 25¢ each; 3 for 60¢; 6 for 1.00.

HYBRID AMARYLLIS—One of the most beautiful and spectacular of all bulb plants, and easy to grow indoors too. Planting and care instructions sent with bulbs.

[CC] BG401—AMERICAN-GROWN HYBRID AMARYLLIS. Often has ten blooms or more on one stem. The colors range from almost white to dark red. Full directions for growing with each plant-size bulb. Mixed colors. 65¢ each; 2 for 1.15, postpaid.

[DD] IMPORTED HYBRID. Imported from Holland. Produce wide-petalled flowers 6 to 8" across in clusters of 3 to 7 on a stem, and often two or three stems to a plant.

BG442—Dark velvety red. 2.45 each, postpaid.

BG423—Pure glistening white. 2.45 each, postpaid.

BG603X—1 red and 1 white—both for 4.49, postpaid.

[EE] BG406—SHAMROCK (Oxalis). For borders, hanging baskets, window boxes or the outdoor garden. Assorted colors. Red, pink, and white. Die bulbs and store same as you would potatoes. 4 for 25¢; 8 for 45¢; 24 for 75¢; 100 for 2.25, postpaid.

[FF] BG405—MADEIRA VINE or Climbing Mignonette. The climber with thick, waxy, heart-shaped leaves that give quick shade. Fragrant white flowers. Plant 6 inches apart. Take up bulbs in fall. 2 for 25¢; 4 for 39¢; 8 for 69¢, postpaid.

[GG] BG402—AZTEC LILY (Tigridia). Also called Tiger Flower and Shell Flower. One of the most beautiful and unusual of all summer bulbs. Brilliant red, orange and various combinations. Plant and care for like gladioli. 10¢ each; 2 for 35¢; 6 for 90¢; 12 for 1.35, postpaid.

[HH] BG421—FRAGRANT GLAD (Acidantha). Flowers of glistening white with purple-

maroon blotch, borne on 2 to 4-foot spikes. A fine cut flower; beautiful, fragrant and long-lasting. Easy to grow. Blooming-size bulbs, 3 for 30¢; 6 for 55¢; 12 for 1.00, postpaid.

[JJ] BG404—ELEPHANT EAR (Caladium). This is the large-size tropical variety which grows enormous green leaves about 3 or 4 feet long. Easy to grow. Will not winter outside. 35¢ each; 2 for 65¢, postpaid.

SPRING BULB COLLECTION

BG599X—These fine Spring Bulbs will give you much beauty:

- 1 Shamrock
- 1 Madeira Vine
- 1 Aztec Lily
- 1 Tuberosa
- 1 Tuberosa Begonia
- 1 Amaryllis

All six for only 98¢, postpaid.

PLANT THESE BULBS THIS YEAR... THEY WILL BLOOM THIS YEAR

[ZZ] BG407—Fragrant Mexican TUBEROSE. This is the tall, graceful, single-flowered type preferred for arrangements. Dig tuberosa bulbs after frost. Store as you would potatoes. 2 for 25¢; 4 for 45¢; 12 for 1.25, postpaid.

[AA] BG410—FANCY-LEAFED CALADIUM. Beautiful showy foliage. Leaves variegated with an astonishing assortment of patterns and colors. Fine for pots, shady places. 40¢ each; 3 for 1.00; 12 for 2.95, postpaid.

[BB] BG417—CALLA LILY. PINK CALLA (Rehmannia). New, different and rare. A pale blush rose. 50¢ each; 2 for 89¢; 12 for 1.95, postpaid.

BG412—Yellow. 45¢ each; 2 for 75¢, postpaid.
BG411—White. 45¢ each; 2 for 75¢, postpaid.

BG592X—Special Calla Lily. Offer 1 each of all 3 colors for only 1.25, postpaid.

Amaryllis make one of the most beautiful, most spectacular of all potted plants.

America's Most Popular Flower

Zinnias are America's most popular flower because they do well anywhere and with practically no care; they thrive in hot sun and drought yet do well in partial shade; they grow in a variety of sizes, shapes and colors; have few equals for beauty and brilliance; can be used in beds or borders or as cut flowers. And—they cost so little!

CALIFORNIA GIANTS

As Lovely as They Are Large

The Largest Zinnia grown! Has huge double flowers, often as large as dinner plates, with distinctive overlapping, loose petals and flattened shape. The plants grow vigorously and stay covered with gloriously colored blooms all summer long. California Giants make exceptionally fine cut flowers because they are big, vividly colored, and last a long time after being cut. In fact, one blossom alone is almost a bouquet in itself.

- 1255—Daffodil Yellow
 - 1256—Apple Blossom Pink
 - 1257—Sandalwood Green
 - 1258—Cardinal Red
 - 1259—Orange King
 - 1260—California Giant Mixed
- Your choice of any variety—packet, 12c; 3 for 29c, postpaid.

CALIFORNIA GIANT ZINNIA BARGAIN

1405X—One packet of each of the above 6 varieties for only 62c, postpaid.

SUPER GIANT ZINNIAS

1253—Luther Burbank Zinnias. Something new and better. Super giants in size—flowers often 5 inches across! Color mostly delicate pastel shades of pink, peach, lavender and orange. Often two-toned. Pkt. 20c; 2 for 35c, ppd.

FANTASY

1277—These are the new shaggy type Zinnias, almost the shape and size of Cactus Dahlias. They make delicate masses of colors. Mixed colors of orange, red and gold. Pkt. 15c; 2 for 25c, ppd.

Henry Field's "CHAMPION" PETUNIAS

Some marvelous new petunias have been put on the market during the last several years, particularly in the red colors. But the trouble is that you have had to pay about a dollar a packet for hardly enough seed to see.

So, we decided to put some of our own on the market in these new, superior kinds, and put enough seed into the packet to do you some good.

These petunias have big, velvet-like flowers. The colors are rich and brilliant. The plants are strong, vigorous growers. We have them in these three colors:

1172—RED VELVET. Rich, deep, dark red. Big flowers, strong grower. Puts on a beautiful show. Pkt. 35c; 3 for 1.00, postpaid.

1184—PINK VELVET. A soft rose-cream with salmon tinge and a delicate light throat. Pkt. 35c; 3 for 1.00, postpaid.

1188—BLUE VELVET. A clear medium spectrum blue. Just as nice as the red one. Makes a hit every time. Pkt. 35c; 3 for 1.00, postpaid.

All 3 for 98c

1750X—1 packet each of Red Velvet, Pink Velvet, and Blue Velvet—all 3 for only 98c, postpaid.

TRIAL PACKET OF ALL PETUNIAS MIXED

1172—A generous-sized packet that includes some of all colors, shapes and styles. Only 10c packet, postpaid.

1146—CORNFELL. Brilliant red with pure white border. Vines grow rapidly, bloom freely. Pkt. 20c, ppd.

1140—ROSE MARIE. The Double Morning Glory. New, very double, and beautiful, clear blue. Pkt. 15c; 2 pkts. 25c, postpaid.

1145—ROYAL GIANT. The largest and most beautifully colored of all morning glories. Blooms often 9" across. Every color of the rainbow. Makes wonderful pot plant, too. Pkt. 20c; 2 for 33c, postpaid.

BLAZE

1287—A brand new color in Zinnias—blazing scarlet with a tinge of orange. Fluted petals. Pkt. 25c, postpaid.

Giant DAHLIA-FLOWERED

If you haven't tried these, you have a surprise in store for you. Very much like California Giants except these have a heavier, deeper flower.

- 1262—Lavender Dream
- 1263—Orange Gold
- 1261—Red Flame
- 1266—Rose
- 1264—Candy Gold
- 1267—Dahlias Flowered Mixed

POSTPAID PRICES on above Dahlias-Flowered Zinnias. Pkt. 15c; 2 for 25c; ½ oz. 60c; 1 oz. 1.00.

DAHLIA FLOWERED ZINNIA COLLECTION

1404X—One packet each of the above 6 for only 59c, postpaid.

PERSIAN CARPET

1285—A stunning new Zinnia with all the coloring of Persian carpets. Rich tones of reds and golds, and in-between shades. Medium sized blooms. Stems 15 to 18" long. Make fine cut flowers and are unusually nice in borders. Pkt. 15c, postpaid.

"ORTHO POLKA" ZINNIA

1279—So new, unique and different that it is difficult to describe. Plants grow three feet tall. Flowers are large and uniform. Large enough to attract attention clear across the garden, but still just the right size for cut flowers. Colors are varied; all sorts of combinations—pink and white, red and white, purple and white, red and orange, and many others. We like "Ortho Polka" very much and you will too! Pkt. 35c; 2 packets for 50c, postpaid.

TWO "ALL AMERICA" PETUNIAS

1191—COMANCHE. The outstanding All-America. Bronze Medal winning petunia. Is a brilliant fiery red—one of the reddest of all petunias. Flowers are about 2½ inches across. Dwarf grower and very free blooming. Plants always covered with blooms. Packet, 35c, postpaid.

1189—FIRE CHIEF. Large, deep blazing crimson flowers, and a tremendous grower. Packet, 25c, postpaid.

CALIFORNIA GIANT RUFFLED

Plants are smothered with enormous blossoms, all ruffled, fringed and pretty.

1182—FLUFFY RUFFLES MIXED. The finest of all. 25c pkt., postpaid.

1183—THEODOSIA (Light shades). Rose pink with gold throat. 25c pkt., ppd.

1185—RAMONA STRAIN. (Dark shades). Open throats, mixed colors. 25c pkt., ppd.

1190—MIXED COLORS. Pkt. 25c, postpaid.

2950X—1 packet each of above four for only 89c, postpaid.

BABY PETUNIAS

These little fellows grow about 9 inches tall and are covered all summer with most attractive blooms.

- 1171—Crystal Ball. White.
- 1170—Blue Ball. Deep Blue.
- 1173—Bright Eyes. Pink.

1143—SCARLETT O'HARA. The popular Red Morning Glory. A perfect twin sister to Heavenly Blue. Dark wine red color. Pkt. 15c; 2 for 25c, postpaid.

1142—PEARLY GATES. A shimmering blue and white. Heavenly Blue and Scarlett O'Hara. Giant size. Very early flowering. Pkt. 15c; 2 for 25c, postpaid.

1141—EARLY HEAVENLY BLUE.

ZINNIAS

SCABIOSA FLOWERED

1278—Have a single row of bright petals surrounding a close-quit, contrasting center. Have long stems. Extra good for cutting. Flowers are medium size. Pkt. 12c; 2 for 19c, postpaid.

TINY CUPID

(Border Zinnias)

1281—Grow about a foot tall, with flowers small and very double. Blooms freely throughout summer and fall. Makes fine borders or can be used alone. All colors. Pkt. 25c, ppd.

LILLIPUT

(Baby or Pompon)

For borders, edging and bouquets. 1271—Yellow 1272—Rosebud 1274—Mixed 1275—Ruby 1273—Little Red 1276—Orange Packet, 12c; 3 for 29c, postpaid.

CACTUS FLOWERED

1288—Immense flowers in a gorgeous range of colors. The petal formation is very attractive, some flowers being ruffled, others curled and frilled. Pkt. 25c, postpaid.

"Cutting Garden" Zinnias

1283—An assortment of the best Zinnias for cut flower bouquets. All kinds, types, and colors. Early and late, large and small. Pkt. 15c; 2 for 25c, postpaid.

PEPPERMINT STICK

1284—Something new in Zinnias! Flowers are striped like peppermint stick candy. Many glorious combinations of red and white, red and yellow, pink and white, orange and yellow, purple and white, etc. Will produce loads of cut flowers used if kept picked. Plants medium size. Pkt. 15c, postpaid.

PETUNIAS

BIG 3 PETUNIA OFFER

1700X—Three of the finest varieties we offer. 1 packet each of Yellow (very pink), Flaming Velvet (velvety crimson), Balcony Mixed (for hanging baskets and porch boxes)—all 3 for only 37c, postpaid.

Baby Petunia Bargain

2050X—1 each of all 3 Baby Petunias—all for only 39c, postpaid.

LARGE FLOWERING DWARF

Dwarf growers for beds and borders. Covered with large, single blooms.

1174—ROSY MORN. Beautiful rosy pink with white throat. Pkt. 15c, postpaid.

1178—HEAVENLY BLUE. An excellent silvery blue. Pkt. 15c, postpaid.

1181—FLAMING VELVET. A Gold Medal Winner. Rich, velvety crimson. Outstanding for color, type and uniformity. Large, free-blooming, attractive. Pkt. 15c; 2 for 25c, postpaid.

Large-Flowering Dwarf Mixture

1180—Mixture of all the above varieties of Large-Flowering Dwarf Petunias, and many more. A brilliantly colored assortment. Pkt. 10c, ppd.

MORNING GLORIES

This really is a Morning Glory but it has such large flowers that it is classed as a Moonflower. Heavenly blue blossoms, with white spikes. Pkt. 15c; 2 for 25c, postpaid.

1144—ORIENTAL GIANT. The largest, most brilliantly colored we have seen anywhere. Daytime bloomer. Flowers often measure 9" or more across. Pkt. 15c; 2 pkts. 25c, ppd.

BELLS OF IRELAND

1308—This is the delightful plant being used so widely in flower arrangements, and for that it is ideal. It has delicately veined green flowers with small white centers, each about 17" across. Stems grow 18 to 24 inches long. Easy to grow, and thrives in hot weather. Pkt. 15c; 2 for 25c, ppd.

BURNING BUSH

The "Annual" Hedge

1118—KOCHEA. Also called Cypress. An ideal plant for hedges. Dense green bushes about 2 feet high which may be clipped to represent evergreens. Foliage turns vivid red in fall. Pkt. 10c, postpaid.

GYPSOPHILA for bouquets

1108—ANNUAL BABY'S BREATH. Has much larger flowers than the perennial kind. Produces cloud-like masses of white flowers. Fine for cutting and drying perfectly for winter bouquets. Very free blooming. Pkt. 10c, ppd.

LOVELY BALSAM now double

A new form of an old favorite. Grows anywhere. Has double rose-like flowers like small hollyhocks. All colors.

1037—DOUBLE ROSE FLOWERED. Tall. Pkt. 10c, ppd.

1036—DWARF BUSH FLOWERED. Dwarf, compact grower. For borders. Pkt. 10c, ppd.

SWEET ALYSSEUM

1003—ROYAL CARPET. An All-America winner. Vibrant purple color. Spreads to 10 in. across. Pkt. 25c, postpaid.

1001—LITTLE GEM. Dainty white flowers. Pkt. 10c, postpaid.

1002—VIOLET QUEEN. Violet flowers. Pkt. 10c, postpaid.

Henry Field's Complete

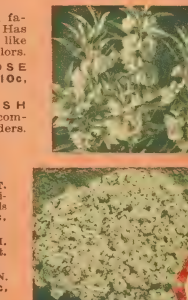

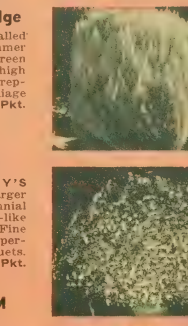

FLOWER GARDEN PACKAGE

Blooms All Season

ENOUGH FOR A BIG BED 14c only ppd.

1290—This giant mixture contains everything from Asters to Zinnias—over 21 different kinds of flowers. It is a big, generous packet, enough for a bed 3 feet by 20 feet. It will furnish flowers for you all summer long.

Everyone should take advantage of this big value. It gives you a whole flower garden for almost nothing! And let the children in on it too. Big, generous packet only 14c, postpaid. Or, with a \$2.00 garden seed order, it will cost you just 10c, postpaid. Economy Size Packet, 1 ounce, 50c, postpaid.

FREE! 25 Glad Bulb-lets with each flower garden packet. About 20% of these bulb-lets will bloom the first year—and all of them will bloom the second year.

ALL SUMMER FLOWER GARDEN
1500X—1 packet each of these:
American Branching Asters Mixed
Fantasy Zinnias Mixed
Scarlett O'Hara Morning Glories
Brilliant Petunias
all 4 packets for only 39c, postpaid.

Posey Patch Collection
3100X—1 packet each of these colorful, free-blooming, easy to grow annual flowers: Double Carnation Mixed, Cornflower Mixed, Lace Flower, Gypsophila (Baby's Breath), and Four O'Clocks—all 5 packets for only 39c, postpaid.

ANNUAL FLOWERS

ROSE MOSS

1193—(PORTULACA.) Simply thrives in hot dry places. Just the thing for borders or for the edges of walks where nothing else seems to want to grow. Rose Moss blooms and grows anywhere and gives you brilliant, dazzling colors of all shades of the rainbow with very little effort on your part. Single and Double Mixed. Pkt. 15c; 2 for 25c, ppd.

1192—LARGE FLOWERED SINGLE MIXED. A new strain much larger and more brilliant than the old-fashioned kind. Pkt. 15c; 2 for 25c, postpaid.

Cockade Larkspur

1117—Tall symmetrical plants bearing long branches of fully double flowers. This year in brilliantly mixed colors only. Pkt. 15c, postpaid.

HOW TO PLANT LARKSPUR: Sow seed real early in spring and thin seedlings later. Allow each plant plenty of room. May be sown in late fall also, just before ground freezes.

Imperial Giant LARKSPUR

1326—An old-time garden favorite. Very popular with florists too. Will self-sow itself in the garden and provide many beautiful bouquets throughout early summer. Long trusses of brilliant flowers in a complete range of new and distinct colors. Florets closely spaced on stem. Pkt. 15c; 2 for 25c, postpaid.

GIANT COCKSCOMB

1086—“Toreador,” the new America Cockscomb. Brilliant red with scarlet highlights. Grows 20" tall. Thrives anywhere. Pkt. 35c, ppd.

1085—Mixture of brilliant reds, whites, pinks, yellows. Pkt. 15c, ppd.

FOUR O'CLOCKS

Bloom in Afternoon

1093—A bushy plant of glossy foliage with hundreds of pretty starlike flowers. Open late in afternoon around four o'clock. Very fragrant. One of our most popular sellers. Mixed colors. Pkt. 10c, ppd.

VERBENAS

Brilliant, blazing color for the hot, dry garden. They will grow anywhere. Give you riots of color.

1247—ALL COLORS MIXED. Packet, 15c; 2 packets for 25c, postpaid.

AGERATUM—Ideal Border

1004—DWARF BLUE BALL. An extremely effective border plant. Has fluffy blue flowers. Excellent for cutting. One of the best bloomers. Pkt. 15c, postpaid.

CANTERBURY BELLS

1052—Colorful miniature bells. Bloom from seed the first year and live over second year. Grow 2 to 3 feet tall. Pure white to deep blue and red. Pkt. 15c; 2 for 25c, postpaid.

DAHLIAS—Bloom First Year

Start seed early and save bulbs for another season.

1090—SINGLE AND DOUBLE. Finest mixed. Pkt. 15c, postpaid.

1091—DWARF BEDDING HYBRIDS. A new early flowering, semi-double. Useful for cutting and potting. Wide color range. Pkt. 15c; 2 for 25c, ppd.

TORCH FLOWER

All America Winner

1242—(Tithonia.) Here is the top winning annual flower of the 1961 All America Selections. Tithonia Torch is a beautiful new flower that blooms freely and is easily grown anywhere. Wonderful for cutting. Also an ideal background flower, as plant makes bush 3 to 4 ft. tall. Blossoms brilliant orange-scarlet, 3 in. across, bloom mid-summer to frost. Resistant to heat, has no diseases or pests. Tithonia Torch is so new, unusual and pretty, we think everyone should plant at least one packet of seed this year. Pkt. 20c, postpaid.

STRAWFLOWERS

They Last All Winter

These fine, choice flowers can be grown for winter bouquets. Pick flowers shortly after they open and hang up to dry with the heads downward.

1097—BACHELOR BUTTONS (Globe Amaranth). Brilliant, globe-shaped flowers that resemble heads of clover. Come in shades of pink and white. Pkt. 10c.

1112—HELICHRYSUM (Strawflower). Most popular of all everlastings. Amazing assortment of colors. Brilliant and beautiful. Best of all for winter bouquets. Pkt. 15c; 2 for 25c, postpaid.

1088—MIXED EVERLASTINGS. About every kind of everlasting strawflower known. Includes everything above and a lot of trial ground sorts, too. Will make lovely winter bouquets. Pkt. 15c, ppd.

CARNATIONS

The most fragrant flower of the garden, and one of the prettiest. Has double blossoms similar to hothouse varieties. Blooms the first year and is covered with flowers all summer long. Is very hardy and very fragrant. Easy to grow.

1047—Yellow. **1044—Pink.**
1046—White. **1045—Scarlet.**
Pkt. 15c each.
2800X—All 4 pkts. only 49c, ppd.
1043—Pkt. Mixed Colors only 10c, ppd.
1048—Striped and Variegated, 15c, ppd.

SWEET WILLIAM

Bloom 1st Year from Seed

1215—SWEET WIVELSFIELD. Cross between hardy Pinks and Sweet William. Single blossoms. Flowers over 3" in diameter. Some honey-scented. A variety of brilliant colors. Will winter over if given protection. Pkt. 12c, postpaid.

1216—WESTWOOD BEAUTY. Large dark red flowers with fringed edges on long wiry stems. Likes sunshine. Fine for cutting. Pkt. 20c, postpaid.

PANSIES

Field's Giant Mixed

1163—Handsome and beautiful flowers of enormous size, often 4 to 5 in. in diameter. This is a very good buy in a beautiful assortment. Pkt. 15c; 2 for 25c, ppd.

MARIGOLDS

1134—NEW HORIZONS. Fine new one with fully double flowers 3 to 5" across. Orange to bright yellow; some bi-colors. Pkt. 35c; 2 for 50c, ppd.

1129—COLOR MAGIC. Large flowers. Variegated gold and henna. Grows in 12 in. high. Pkt. 20c, ppd.

COSMOS

1082—EXTRA EARLY SENSATION MIXED. Very early; 12 weeks from seed. Big four to five-inch flowers. Plants four feet tall. Heavily branched in a wide range of brilliant colors. If you disbud (take off side buds), you can produce some enormous flowers. Pkt. 15c; 2 for 25c, postpaid.

1081—G I A N T PINKIE. A very special variety selected from Sensation strain. Four-foot plants of graceful beauty with fine feathery

POPPIES

1202—MAMMOTH SHIRLEY. Finest and largest single. Brilliant colors of all shades. Mixed. Pkt. 10c, ppd.

1200—DOUBLE RUFFLED SHIRLEY. One of the largest of poppies. Very ruffled. Pkt. 10c, ppd.

Henry Field's ANNUAL PHLOX

A Very Brilliant Annual

One of the easiest grown and most satisfactory of all summer-flowering annuals. No other flower can surpass their brilliant color. Grows and thrives in any kind of soil in a sunny location, but prefers a light, rich loam. Blooms early summer until fall.

New Art Shades

1198—A new introduction. Larger and finer than the others. This grand mixture has a wonderful color range of lovely pastel shades. Pkt. 15c; 2 for 25c, postpaid.

2350X—TETRA SNAP COLLECTION. 1 Pkt. each of all 4 at left for only 65c, ppd.

Giant Snapdragons

Just Like the Florist Grows This gorgeous old favorite has been modernized to the most delicate pastel shades and the most vivid hues.

1010—ALL COLORS MIXED—Pkt. 10c, ppd.

FRAGRANT LEAVED GERANIUMS

1099—These are all the rage now. Various scents—lemon, apple, mint and others—in this mixture. You will be delighted with their fragrance. How-to-grow directions on each packet. Pkt. (20 seeds) 50c, postpaid.

CALIF. CLIMBING

1155—To climb a trellis, stump or porch, try these. Besides being useful, they're extremely pretty. Mixed colors and kinds. Pkt. 15c; 2 for 25c, ppd.

LARGE FLOWERED DWARFS

1152—TOM THUMB MIXTURE. Blossoms are of tremendous size and beauty. Will give

1012—RUST-PROOF SNAPDRAGON. New rust-resistant strain. Brilliant colors. America's most popular cut flower. Mixed. Pkt. 15c; 2 pkts. for 25c, ppd.

1125—BABY SNAPDRAGON (Linaria). 12 to 18" tall. A free-flowering border plant. Don't crowd plants and you will be rewarded with no end of beautiful flowers. Pkt. 15c, ppd.

Martha Washington GERANIUMS

1098—(Petalagonium). A grand assortment of colors of some of the best commercial varieties. This type grows well at a lower temperature than common types. Pkt. (20 seeds), 50c, postpaid.

you continuous bloom all summer long. Pkt. 10c; 2 for 17c, postpaid.

Special Nasturtium Collection

1100X—10c each of: 1150, Double Golden Gleam; 1149, Double Scarlet Gleam; and 1152, Tom Thumb Mixed. 20 Large Flowered Dwarfs. A splendid assortment of color. 3 pkts. in all, 24c, ppd.

MILE-HIGH MIXTURE 1160—Mountain grown for vigor, size and beauty not found in ordinary pansies. Pkt. 15c; 2 pkts. 25c, ppd.

VIOLA

1166—The baby pansy for rock gardens and borders. Pkt. 10c, ppd.

1165—PAY DIRT. New, largest giant. Solid yellow ever produced. Flowers have dark pencilled lines and tiny faces. Fine habit and heat resistant. Pkt. 35c, postpaid.

PANSY SPECIAL

1400X—10c each of: 1161, Swiss Giants; 1162, Field's Giant; 1160, Mile-High Mixture. Only 49c, ppd.

ANNUAL FLOWERS

Listed here are some of the very best of all Annual Flowers. We're sorry we didn't have room to picture them:

1071—CORNFLOWER MIXED. Pinks, blues, purples. Pkt. 10c, ppd.

1031—BLUE LACE FLOWER (Didiscus). An old garden favorite. Early and free flowering on long wiry stems. Ideal cut flower; makes beautiful bouquets. Pkt. 15c; 2 for 25c; postpaid.

1208—SALPIGLOSSIS. Also known as the Violet Flower, and as the Trumpet Flower. Shades of purple, rose, scarlet, white. Pkt. 15c, ppd.

1227—SENSITIVE PLANT (Mimosa). The most curious and interesting plant you ever saw. Grows a foot tall. Flowers fluffy balls of pink. Very pretty. Leaves like miniature Acacia; they stand erect but, if touched, or if plant is shaken, they close up immediately. In a few minutes they are open again. Children have great fun with it. A fine schoolroom plant. Pkt. 15c; 2 for 25c, postpaid.

1056—CALLIOPSIS. Mixed colors. Pkt. 10c, ppd.

1095—GALLARDIA. Mixed colors. Pkt. 10c, ppd.

ASTER BARGAIN

1050X—1 pkt. each of American Beauty, Super Giants, Giants of California, 4 for 44c, postpaid.

grown. Flowers usually 4 to 6 inches in diameter! Interlacing petals, curled and twisted. Mixed colors, packet, 15c, postpaid.

GIANT OF CALIFORNIA

1016—Enormous, double, ostrich-plume type with long curling petals and stems. All colors mixed. Giant packet, 15c, postpaid.

1750X—Little Sweetheart Collection, 1 packet each of all 3 kinds for 65c, postpaid.

CUTHBERTSON

1409—A wonderful new type of this old favorite. These are especially adapted to our midwestern summers. Vigorous growers, large flowers brilliant colors, and heat resistant. Finest mixed per packet, 15c; 2 for 25c; 1 oz. 50c, postpaid.

MULTIFLORA

1425—A sensation wherever grown. Has 6 to 7 flowers on a stem. Beautiful pastel shades of rose, lavender, orange-cerise, pink, and white. Mixed colors only. Pkt. 25c; 2 for 40c, postpaid.

SWEET PEAS

EARLY GIANT SPENCER

1411—The earliest, largest and best of all Sweet Peas. These bloom two weeks earlier than most other kinds. Large flowered, with strong stems. Many flowers are duplied with extra "wings." Pkt. 15c; 2 for 25c; 1 oz. 35c, postpaid.

RUFFLED

1410—A grand mixture of large-sized, frilled and ruffled beauties. A rainbow of colors. Pkt. 10c; 2 for 17c; 1 oz. 30c, postpaid.

BUTTERFLY HYBRIDS

1426—Something new and different. Loads of flowers, four to the stem. Striped and variegated. A wide range of colors. Pkt. 25c; 2 for 40c, postpaid.

LITTLE SWEETHEART

Entirely new. Plants grow upright and form a perfectly rounded bush about 6 inches high. Do not require any support.

1428—Blue Boy. Mid-blue.

1429—Coquette. Rose-red.

1427—Mixed Colors. Pkt. 25c; 2 for 40c, postpaid.

SEE ILLUSTRATION AT LEFT

MAURANDIA VINE

N1003—Has delicate bright green leaves and stems, with showy flowers of soft violet. Grows 6 feet or more and will trail on a small trellis or around a window. 79c each; 3 for 2.19, postpaid.

PASSION FLOWERS

Do you know the legend of the Passion Flower? The ten colored parts represent the ten apostles present at theifixion of Jesus. The center filaments, the crown of thorns. The five stems, the wounds he received. The three sections of the pistil, the three nails. The stamens and pistils are borne upon a column which represent the one upon which he was tied and scourged.

These fascinating, easy to grow vines are hardy outdoors from about southern Missouri southward. Everywhere it makes a fine vine for the window garden, or plant it outdoors in summer, then pot it and bring it indoors during the winter. This plant is big and gives plenty of sunshine. The

huge flowers, 3 to 4 inches across, are so beautiful as to seem unreal.

N1015—HYBRID BLUE-CROWN PASSION FLOWER. White flowers, pink on the inside of the petals. Blooms most of the time except during a winter rest period. 1.25 each; 3 for 2.98, postpaid.

N1016—MAYPOW PASSION FLOWER. State flower of Tennessee. Blooms, 2" across, white with purple center. 1.00 each; 3 for 2.80, postpaid.

1750X—PASSION FLOWER COLLECTION. One each of Hybrid Blue-crown and Maypop—both for 1.99, postpaid.

ORCHID CACTUS

(Epiphyllum) The most beautiful of all flowering cacti. Culture similar to that of a geranium. Likes well lighted window and cool, rather than hot, atmosphere. Quite easy to grow and flower. Complete directions sent with each plant. Unlike desert cactus, are completely free of thorns. Well es-

(Fittonia). Bright green leaves beautifully netted with silvery white veins. 75c each; 3 for 1.98, ppd.

N1055—NEVER-NEVER PLANT (Triantha oppositifolia). Like something out of Kipling's Never-Never Land. A brilliant and striking foliage plant with leaves about 8" long that look like they have been boldly painted with green, red, pink and white. Grows in sun or shade. Very hardy. Our supply is limited. 1.75 each, ppd.

N1001—BABY TEARS VINE. Has an abundance of tiny, round, neat leaves of brilliant white which cascade down the sides of whatever the plant grows in. Thrives under ordinary house conditions as long as it has sunshine. And, during summer, you can plant it outside. 49c each; 3 for 1.39, ppd.

N1071—PURPLE WANDER-ING JEW (Tradescantia Purple). Everyone knows the familiar old Wandering Jew. Here is an entirely different and far

tabled plant will produce 20 or more blooms each on a 6 to 10" in diameter, depending upon variety.

N916—CONWAY GIANT. Very large, deep crimson bloom overlaid with violet. Vigorous grower; free flowering.

N915—GLORIA. Flame-scarlet flowers 8" across. Season of bloom is the longest, sometimes flowering as late as August.

N918—PROF. EBERT. Lovely, free-blooming variety of bright violet carmine. Sturdy, upright plant.

POSTPAID PRICES on three Orchid Cactus listed above: 1.49 each; 3 for 4.29, postpaid.

FLOWERING CACTUS

EASTER LILY CACTUS—A free-flowering, quick-growing cactus with lovely, Easter lily-like trumpets 6" wide. Very fragrant. Flowers several times during the summer.

HOUSE PLANTS WITH ORNAMENTAL LEAVES

more attractive variety. It has large, luminous leaves shaded green on the upper side. Normally the plant is a trailer but its strong stems can easily be staked for upright growth if desired. 79c each; 3 for 2.10, ppd.

N423—RABBIT TRACKS (Marantha). Large rounded leaves of clear blue-green spread with large reddish-brown spots. 65c each; 3 for 1.79, ppd.

N226—BO-NIGRA. A new hybrid begonia by the MacLanahans of the west coast. It remains small and neat with bushy, many-leaved growth. The coloring is generally rich, dark, black-green with frequent irregular markings of bright green or chartreuse green. Undersides are a lovely red with green markings. We'll guarantee you will not have a visitor who will not admire it. Buy you this plant. 1.50 each, ppd.

N227—THE BLACK BEGONIA (Joe Hayden). A wonderful be-

PERENNIAL SEED

You Save Money by Starting Perennials From Seed

It's easy to raise the following perennials yourself. Start them in flats or pots indoors, or use a cold frame or hotbed. When plants are ready, transfer them outdoors.

1303—CANTERBURY BELLS (Campanula Medium). 2 to 3 ft. June-July. Mixed colors. Pkt. 10c, postpaid.

1309—SHASTA DAISY. 3 to 6 ft. blooming. Long stems and very large flowers. Pkt. 15c, ppd.

1302—GAILLARDIA PORTULA HYBRIDS. Beautiful shades of bronze, red, gold tipped. Pkt. 10c, postpaid.

1310—GYPSOPHILA PANICULATA SINGLE (Baby's Breath). 2 ft. July-August. Fine grass-like foliage with tiny white blossoms. Pkt. 10c, ppd.

1300—HOLLYHOCK CHATERS PRIZE DOUBLE MIXED. Very double, large flowers. Mixed colors. Pkt. 10c, ppd.

1308—ORIENTAL POPPY (PAPAVA ORIENTAL). 2 to 3 ft. May-June. Pkt. 15c, postpaid.

1101—HARDY GRASS PINKS (Plumarius). Large single, fragrant pinks with fringed edges. Mixed colors. Pkt. 15c, postpaid.

1317—SWEET WILLIAM DOUBLE MIXED COLORS. Bloom first year.

PERENNIAL FLOWER SEED COLLECTION

1 Pkt. Mrs. Scott Elliott's Columbine 15c
1 Pkt. Sweet William, Mixed 10c
1 Pkt. Oriental Poppies 15c
1 Pkt. Sweet Peas, Mixed 15c
2600X—A 55c Value for only 49c, postpaid.

from seed. Brilliant colors of red, pink and white. Pkt. 15c, postpaid.

1304—PERENNIAL SWEET PEAS (Lathyrus Latifolius). Hardy flowers of red, pink and white. Pkt. 15c, postpaid.

COLUMBINE

1307—McKANA'S HYBRID. The new All-America Aquilegia. Big 3 to 4-inch spurs, 4-inch flowers. Most sensational of all colors and showy combinations. Pkt. 35c; 3 pkts. for 1.00, postpaid.

1305—MRS. SCOTT ELLIOTT'S HYBRIDS. Long spurs. All colors. Pkt. 15c, postpaid.

DELPHINIUM

1316—PACIFIC HYBRIDS. 4 to 6 ft. June-July. Large flowers covered with enormous semi-double flowers of various shades. Pkt. 23c, ppd.

HOUSE PLANTS

More House Plants Are Shown on Following Pages

Likes sun or partial shade. Hardy clear into Canada when well protected by snow. A very fine house plant.

N930—PINK. 69c each; 3 for 1.79, postpaid.

N931—WHITE. 69c each; 3 for 1.79, postpaid.

N932—GOLDEN DREAM. Yellow, and new. 98c each; 3 for 2.85, postpaid.

N990—CHRISTMAS CACTUS. Most popular of all flowering cacti. Does well under most adverse conditions. Blooms profusely year after year. 69c each; 3 for 1.89, postpaid.

N901—THANKSGIVING CACTUS. Same as Christmas Cactus above except blooms about Thanksgiving time. Same price as Christmas Cactus.

N817X—HOLIDAY CACTI COLLECTION. 1 each of Christmas and Thanksgiving Cactus—both for only 1.29, postpaid.

GARDENIA "Mystery"

N295—Easily grown outdoors in south, but everyone likes to try growing it indoors. Some succeed, some don't; it depends upon conditions. Has huge, white, double blooms of enchanting fragrance. Grow them at room temperature. Plant outside in summer, right in the sun. Water well. 98c each; 3 for 2.69, postpaid.

N1045—RHOEO DISCOLOR (Moses-in-a-boat). A striking houseplant with broad strap-like leaves deep purple underneath and dark green above. At the base of the leaves, the small white flowers hang in peculiar boat-like structures, giving rise to the common name. A very decorative plant for the house which may be planted in the garden in summer. Likes sun. 99c each; 3 for 2.66, ppd.

N1063—PEPEROMIA FANTA. White little dwarf plant in the most attractive, heavily crinkled leaves you can imagine. Medium green with darkest green veins. Likes partial to heavy shade. 89c each; 3 for 2.39, ppd.

N1064—PEPEROMIA GREEN RIPPLES. Grows about twice the size of Fanta but still is small and neat. The gray-green, crinkled leaves multiply very rapidly and always present a most attractive appearance. Likes partial or quite heavy shade. 79c each; 3 for 2.10, ppd.

N420—SILVER THREADS

gonia with wavy, pointed leaves of thick, leathery texture shaped into a blunt star. Colors range from very little light; their leaves are almost black and highly iridescent. Reverse of leaf is red. 98c each; 3 for 2.85, ppd.

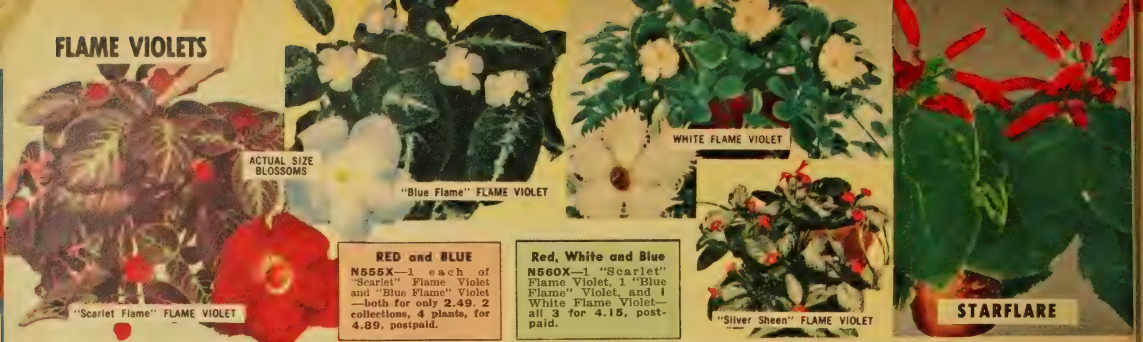

N413—IRIDESCENT PHILODENDRON (P. Mican). One of the most attractive of the family of philodendrons. Small, heart-shaped, iridescent, velvety-bronze leaves deeper bronze on the undersides. A magnificent trailing or climbing houseplant of easy culture. Grows in shade. 89c each; 3 for 2.39, ppd.

N1073—SPIDER or AIRPLANE PLANT (Anthurium sp.). One of the most useful of house plants as it will grow practically anywhere, from the darkest corner to the sunniest window. Brightly striped green and cream leaves. It throws out long trailing which bear little young plants on the ends—thus the name "airplane plant." 75c each; 3 for 1.88, ppd.

AFRICAN VIOLETS

AFRICAN VIOLETS ARE EASY TO GROW

Place the plants where they get light but no direct sunlight. Keep at ordinary room temperature. To water, put pot in pan of water until soil is soaked, then drain off surplus. But soil kept soaking wet all the time is not good. They grow well in north windows, too, provided they do not get too cold.

FLAME VIOLETS*

exciting South American cousins
of the African Violets

We became acquainted with Flame Violet* (episcia coccinea) while searching for a violet with true, bright red blossoms. Now we have four varieties of Flame Violets—two with exciting red blossoms, one blue, and one white. All four have exceptionally beautiful foliage.

EASY TO GROW

Flame Violets require much the same care as African Violets—plenty of light, but no direct sun, and a warm temperature. But Flame Violets will trail or, if you wish, you can grow them upright on a small trellis placed in the pot.

*"Flame Violet" is a registered trademark owned by Flame Violet, Inc., Bensenville, Iowa.

ALL HOUSE PLANTS ARE SHIPPED POSTPAID

DOUBLE BLUE PEAK

☐ N137—This very showy new variety has fully double flowers of rich violet-blue with each petal edged clear white. Prolific bloomer. 1.98 each; 3 for 5.25.

DOUBLE OHIO BOUNTIFUL

☐ N146—We have tested many of the new double pinks and have concluded that this variety is the best of them all. The blooms are large, double, clear pink, with long stems. A prolific bloomer too. 1.75 each; 3 for 4.29.

CALIFORNIA DARK PLUM

☐ N172—Recognized as the finest "red" of all African Violets. This is one of the tops of all violets. A good grower and prolific bloomer. 1.25 each; 3 for 3.49.

DOUBLE ROSE AZURE

☐ N167—The folks who work in our greenhouses, who are with African Violets all day long, think this variety is the most beautiful of all. It has large, double, white blooms softly blushed

N1—SCARLET FLAME (Episcia coccinea). The flowers are a brilliant scarlet, contrasting vividly with the broad, thick, plush-like leaves of deep bronze green veined emerald green. 1.25 each; 3 for 3.49, ppd.

N8—"BLUE FLAME" (Episcia hirsuta Fanny Haage). The leaves are a harmony of greens, and the flowers, slightly larger than the others, are of a soft, sky blue. 1.50 each; 3 for 4.19, ppd.

N15—WHITE FLAME VIOLET (Episcia dianthiflora). A new flower color in Flame Violets. Flowers are a pure, glistening white, and beautifully fringed. Leaves are small,

Flame Violet Collection

N554X—1 each of Silver Sheen, Blue Flame, Scarlet Flame, and White Flame—all 4 for only 5.40, ppd.

THREE FINE VARIETIES

N539X—1 California Dark Plum, 1 Josabel Read, and 1 America—all 3 for only 3.98.

pink and tinted more deeply here and there with wine. The foliage is rich green and rather quilted. 1.75 each; 3 for 4.29.

SHOW STAR

☐ N136—Henry Ten Hagen's newest and best. Probably the most outstanding color combination of all violets. Each pink petal has a broad band of bright blue right down the center. This violet should be a prize winner in any show. 2.50 each; 3 for 6.00.

FLORADORA

☐ N151—A fine new variety with large, beautifully fringed blossoms of rose-mauve. A good grower and good bloomer. Leaves are rich dark green. 1.25 each; 3 for 3.49.

DOUBLE CALIFORNIA DARK PLUM

☐ N145—At last we have a double "red" African Violet. This is the famous California Dark Plum with double flowers—hosts of

round, and dark green. Blooms with us late spring and early summer—sometimes again in the fall. 1.75 each; 3 for 4.29, ppd.

N4—SILVER SHEEN (Episcia cupreata var. Silver Sheen). It has small, neat, silvery-green leaves stitched and edged with darker green. Bright red flowers. 1.50 each; 3 for 4.19, ppd.

STARFLARE

N25—STARFLARE (Gesneria umbellata). Here is a brilliant, easily grown plant that you will enjoy greatly. Starflare is another member of the same family as Flame and African Violets. Its broad, soft leaves are a brilliant green and contrast vividly with the gleaming scarlet clusters of tubular blossoms. This plant always attracts a great deal of attention in our greenhouses. 1.25 each; 3 for 3.49, ppd.

You'll Love These Three

N532X—1 Double California Dark Plum, 1 Double Blue Peak, and 1 America—all 3 for only 4.29.

them on a strong-growing plant. California Dark Plum long has been recognized as the reddest of the African Violets. 1.75 each; 3 for 4.29.

FROSTY

☐ N143—Really different. The most striking of the variegated-leaf violets. The leaves are creamy yellow and chartreuse. Frosty was a prize winner at the National African Violet Convention. Flowers white with blue tinge. 1.98 each; 3 for 5.25.

AMERICA

☐ N138—One of the finest and largest flowered violets we have ever seen. Has huge, beautiful true soft blue flowers, fluted and rippled at the edges, with a cluster of golden stamens in the center. Leaves are mammoth, crisp, heart-shaped. Blossoms borne on strong stems above the leaves. 1.25 each; 3 for 3.49.

Colorful, Gay BEGONIAS

FOUR UNUSUAL BEGONIAS

These four bloom beautifully indoors, are grand for window boxes, and make very showy plants in the shaded garden:

☐ N232—LETTUCE LEAF. Ruffled leaves of several shades of green tinted red. Dainty pink flowers on long red stems clothed with white hairs. 1.00 each.

☐ N211—LARGE LEAF ANGEL WING. Large, deep bronze leaves, rich red underneath, with long panicles of bright red flowers. 75c each; 3 for 2.16.

☐ N218—ORANGE RUBRA. The flowers are a bright orange, large, and brilliant. We have never seen an orange-flowered begonia before, but here is one, and it truly is gorgeous. 98c each.

[AA] N210—WHITE CALLA BEGONIA. White and green variegated leaves, many almost white, and shaped like calla lilies. Flowers are red. This is a very rare and unusually charming plant. 1.25 each.

☐ N214—RED CAMELLIA. Very large, bright crimson, double rose bud flowers in clusters above and about the big shiny, deep bronze leaves.

☐ N224—REDDY. Rich green leaves; dainty buds burst into huge, glowing flowers. A new and very beautiful variety sold only by Henry Field's.

☐ N215—SNOWDROP. A fine double green-white rose bud bloom set amid the wax-like green-bronze leaves.

☐ N213—FIREFLY. The most brilliant of all rose bud begonias. Flowers scarlet with center flower glowing scarlet stippled yellow. Leaves are an attractive deep bronze.

☐ N225—CARMINE QUEEN. A new variety with large "rose buds" that open into full-blown, double, deep pink flowers. Leaves are an attractive coppery red. Blooms most of the time.

POSTPAID PRICES on above six new named varieties of "rose bud" begonias: 98c each; 3 for 2.69.

ALL 6 for 4.98

N604X—1 each of all six of the new, named varieties of "Rose Bud" Begonias listed above for only 4.98.

"ROSE BUD" BEGONIAS

These are not ordinary begonias. The plants grow round and solid, with many clusters of small, double flowers that look just like little rose buds. Easy to grow, very beautiful. Wonderful indoor plants and also ideal outdoors in summer in semi-shaded pots, and in window and porch boxes because they bloom profusely and almost constantly.

"Rose Bud" Begonias by Color

These three are the original, standard varieties, and are very good too:

☐ N222—Double Rose Bud Begonia White.

☐ N220—Double Rose Bud Begonia Red.

☐ N221—Double Rose Bud Begonia Pink.

POSTPAID PRICES on above three: 75c each. See also collection at left with pictures.

New Named Varieties of "Rose Bud" Begonias

These new, improved "Rose Bud" Begonias have larger, brighter, long-lasting double flowers:

☐ N216—VARIEGATA. The deepest pink of all. Huge double "rose buds" in clusters. Leaves attractive green-bronze.

Henry Field's Finest HOUSE PLANTS

We Offer You Better Varieties Only— FRESH from Our Own Greenhouses

We grow our own house plants and ship them directly to you from our own greenhouses. That's why we know they are the better varieties only, and that's why, in spite of comparatively low prices, they are healthy, husky, young plants.

We send them to you out of 2" pots, ready for you to grow them into mature specimens even more beautiful than the pictures shown here. We suggest, as soon as you receive your plants, you re-pot them immediately into 3" or 4" pots.

We ship house plants postpaid as soon as weather permits. We do not ship them when there is danger of their freezing in transit. They are shipped separately—not included with garden seed or nursery stock shipments.

ALL HOUSE PLANTS SHIPPED POSTPAID

AFRICAN VIOLETS NOT PICTURED

We are sorry we didn't have room to picture the following varieties, because they are very fine ones. And since we have such an ample supply of these varieties, we are able to sell them at only \$1.00 each this year. Last year we sold some of them at much higher prices. These are bargains in beauty.

N142—ALL ALGOW. Single flowers of glowing pink.

N168—RUFFLED QUEEN. Deep purple. Huge, ruffled blossoms.

N147—GENEVA BEAUTY. Single flowers of royal purple with broad edge of white.

N166—DOUBLE KING NEPTUNE. Huge double flowers of deep, black-purple.

N171—DOUBLE DELIGHT RAINBOW. Clear blue. A prolific bloomer.

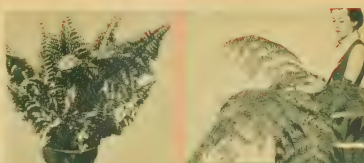

N152—INNOCENCE. The largest single. Cream white flowers contrast beautifully with deep green leaves that are red underneath.

N155—HOLLY. The deep bronze-green leaves look like holly leaves. Single flowers of light blue.

N153—INDIANOLA. Huge soft lavender blossoms. Foliage is deep green, red underneath.

N176—PAINTED GIRL. A white single edged deep pink.

POSTPAID PRICES on above nine varieties: 1.00 each; 3 for 2.75.

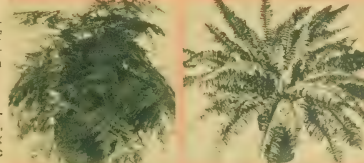

Fluffy Ruffles Fern

N82—The long fronds are daintily frilled and cut until they make a great mass of fluff foliage. Very beautiful. 55c each; 3 for 1.49.

KING FERN

N86—(Cibotium schiedelii). Handsomest, most decorative of all ferns. Geta very large, an you can see. Give it room. 1.50 each; 3 for 4.19.

LACE FERN

N87—(Asparagus Plumosus). Foliage so fine it looks like lace. Good in bouquets too. 49c each; 3 for 1.39.

BOSTON FERN

N76—Rich dark green. Likes light but no direct sunshine. 49c each; 3 for 1.39.

N587X—FERN COLLECTION. 1 each of Fluffy Ruffles, Boston, and Lace Ferns—all 3 for only 1.25.

GREEN RIPPLES FERN

N84—Much like Fluffy Ruffles excepting smaller. Will grow well for several years without need for repotting. 85c each; 3 for 2.39.

- **N332—GOULDIN.** Brilliant, double, crimson blooms; bright green foliage. 98c each; 3 for 2.59.
- **N332—TRINKET.** Large double salmon

blossoms on dwarf, compact plant. 1.98 each.

■ **N334—SNOW BABY.** Brand new. We believe we are the only ones offering this double pure white dwarf. 1.98 each.

■ **N643X—1** each of Firefly, Goblin and Fleurette—all 3 for only 2.49.

REGULAR GERANIUMS

Brightest, heaviest blooming, easiest to grow of all house and bedding plants.

- **N340—DOUBLE FLOWERED IMPROVED RICKARD.** Everblooming. Bright red flowers.
- **N342—SNOWBALL.** An everblooming pure white flower.
- **N345—PINK PHENOMENAL.** Flowers clear rich pink.

■ **N343—SALMON FIAT.** Clusters of clear salmon flowers.

POSTPAID PRICES on Regular Geraniums: 55c each; 3 for 1.49.

■ **N603X—1** each of above four regular Geraniums—all four for only 1.79.

IVY LEAF GERANIUMS

■ **N316—WILLY.** Very dark black red. A fine variety.

■ **N313—DOUBLE SALMON.** Rich color and large flowers.

■ **N312—GODDRIFT.** The best of the double whites.

■ **N312—CHARLES TURNER.** Very popular bright rose-pink.

HOUSE PLANTS

See also pages 72, 73, 74 & 75

IVY-LEAF GERANIUM

■ **N314—INTENSITY.** Most brilliant double red.

POSTPAID PRICE on Ivy Leaf Geraniums: 55c each; 3 for 1.49.

■ **N646X—1** each of all 5 Ivy-Leaf Geraniums above for only 2.25.

SCENTED GERANIUMS

■ **N658X—**Their charm is in their delightful scents. We ship them in a collection of three only: 1 Lemon Scented; 1 Nutmeg Scented; 1 Rose Scented—all 3 for only 1.49.

SEE ILLUSTRATIONS AT LEFT

BIG DOUBLE PETUNIAS

Double Flowers 3 to 4 inches Wide

Your friends will marvel at the beauty and size of these named varieties of double Petunias, pictured at left. The flowers on all of them are a good 3 to 4 inches across, and heavily ruffled.

Each flower is a blend of different shades of one color, accented by brighter veins. Our pictures fall far short of showing their true beauty.

The plants grow low and broad, rather than upright. They make wonderful house plants, and simply can not be beat for trimming boxes, porch boxes, edgings along the walk, and in the flower garden. Make fine bouquets too.

They do best in sunshine; practically take care of themselves.

■ **N1075—ALLEGRO.** Soft pink and white.

REX BEGONIAS

(Painted Leaf Begonias)

In our opinion, these are the most beautiful and brilliantly colored of all foliage plants. The range of colors and tones is simply amazing—reds, browns, greens, pinks, yellows, purples, and combinations of these colors, often shot with gleaming silver.

■ **N239—HELEN LEWIS.** A beauty. Center and edges of leaves are deep brown-purple with light pea-green zone in between, flushing rich rose with age.

■ **N253—SCARLET O'HARA.** The really red-leafed Rex. Its red tones vary with the seasons of the year and the age of the leaves, going from rich black maroon to flaming crimson. Showiest of all the Rex.

■ **N1076—CAPRICE.** Fringed old rose.

■ **N1079—MINUET.** Delicate lilac and white.

■ **N1082—NOCTURNE.** Rich deep purple.

■ **N1087—RHAPSODY.** A wine red.

■ **N1091—SONATA.** Purest white.

POSTPAID PRICES: 49c each; 3 for 1.19.

■ **N610X—1** each of the above five Rex Begonias—all 5 for only 1.79.

■ **N611X—1** each of the above five Rex Begonias—all 5 for only 1.79.

BIRD OF PARADISE

■ **[DD] N1126—(Streletzia regina).** This beautiful plant is easy to grow, and will live with little care for many years, constantly increasing in size and beauty.

It is sun loving, but does well in partial shade. The gorgeous flower is an unusual combination of red, yellow, blue and orange. Flowers last two or three weeks after cutting by changing the water every two or three days. Flowers prized by florists; they retail them at \$3.50 to \$5.00 per dozen.

At maturity, gets about two or three feet tall, and continues to make a wider center and flares out to 20 flowers at one time. 2.50 each; 3 for 6.50.

■ **N1138—WHITE BIRD OF PARADISE (Streletzia nicotiana).** For those of you who want a plant that will grow into a large tropical-looking specimen for your big picture windows, or some other equally well-lighted place, we suggest this rare plant. Will grow something like a compact banana tree. It may flower for you, or it may not, but the large tropical, rich green foliage will be strikingly ornamental alone. Plant in large pot or tub. Can be put outside in the summer if desired. 3.50 each.

DWARF TROPICAL FRUIT

■ **[EE] N1131—EVERBEARING DWARF**

LEMON. Just as easy to grow indoors as a geranium. The fruit actually weighs from one to three pounds apiece and there are almost always fruit on the plant in some stage of development. Lemons are just as good as those you buy at the store. And the blossoms are fragrant as orange blossoms, which they resemble somewhat. The plants make a nice pot plant, eventually getting about two feet high, and lives for years. 98c each; 3 for 2.59.

■ **N1132—DWARF TANGERINE.** This is a real tangerine, only a dwarf variety that you can grow as a house plant. Beautiful, glossy green leaves with brilliant orange-glossy fruit that is very fragrant to eat. Blooms have orange blossom fragrance. 98c each; 3 for 2.59.

■ **N808X—1** Everbearing Dwarf Lemon and 1 Dwarf Tangerine—both plants for only 1.79.

EVERBLOOMING SULTANAS

(Impatiens). These are among the easiest of all house plants to grow, and they bloom just about twelve months of the year. Grow well outdoors in summer too.

■ **N453—White.** N450—Red.

■ **[FF] N452—VARIATED** leaf. Green and white leaves; showy red flowers.

POSTPAID PRICES on above 3 Sultanas: 55c each; 3 for 1.49.

■ **N454—White** with wine colored eye.

■ **[GG] N455—Brilliant Orange.**

POSTPAID PRICES on above two Sultanas: 59c each; 3 for 1.49.

■ **N751X—1** each of all Sultanas colors for 2.29.

LANTANAS

■ **[HH] A** good house plant, and ideal in window boxes, beds, and borders. Thrives in hot, sandy soil but does well in almost any soil. Stays loaded with blooms until frost. N403—Red. N400—Lavender. N402—Orange. N404—Yellow. N401—Pink. 55c each; 3 for 1.49.

■ **N701X—LANTANA COLLECTION.** 1 each of all 5 colors listed above for only 2.29.

PERSIAN RUG COLEUS

The well known, brilliantly colored foliage plants for house or garden. Like full sun. We offer some new varieties which are named after Persian rugs.

■ **[JJ] N1038—FATIMA.** A clear, brilliant scarlet that blooms in torch.

■ **[KK] N1039—TEHRAN.** Bright green

color is needed in border.

■ **N1086—Potted plants.** 49c each; 3 for 1.19; 12 for 4.19.

■ **N175—Packet of seed.** 1.00.

■ **BLUE LUSTRE.** A new F-1 hybrid of deep velvety petunia blue, beautifully fringed and frilled. A spreading plant covered with blooms all season.

■ **N1077—Potted plants.** 49c each; 3 for 1.19; 12 for 4.19.

■ **N136—Packet of seed.** 1.00.

NEW RUFFLED GIANTS

■ **Huge,** beautifully ruffled and fringed single flowers in every combination of colors known to petunias. The plants are bushy, grow about 12" high, and produce immense blossoms freely all summer and fall. Mixed colors.

■ **N1089—Potted plants.** 49c each; 3 for 1.19; 12 for 4.19.

■ **N137—Packet of seed.** 36c.

soms of milky white with tube and turned-back sepals of shiny red. Free blooming, and striking red and white color combinations.

■ **N268—AFTERGLOW.** Double, frilly, glowing pink with tube and recurving sepals cream. Plant bushy.

■ **N288—SNOWBALL.** Finest of all double whites. Huge, double, creamy white blooms on a vigorous plant.

■ **N287—CARGUNDY.** Best of the real scarlet Fuchsia. Very large flowered. Fully double.

POSTPAID PRICES on all Fuchsias: 69c each; 3 for 1.89.

4 MILLIONAIRE FUCHSIAS

■ **N625X—1** each of Millionaire, Yuletide, Cargundy, and Tutu—all 4 only 2.35.

leaves with red-brown centers and a light pea-green border.

■ **[LL] N1040—INDUS.** Virtually a Persian rug pattern of yellows and browns.

■ **[MM] N1041—TIGRIS.** Bright green leaves with bright yellow centers and veins.

POSTPAID PRICES on above four: 48c each; 3 for 1.19.

■ **N774X—1** each of all four Persian Rug Coleus for 1.89.

A2265X—A collection of 1 Editor McFarland, 1 Poinsettia, 1 Talisman, 1 K.A. Victoria, 1 Golden Sastago—good roses in a good color assortment. ALL 5 for only 4.35 PPD.

The "HENRY FIELD" Rose

BIG, BRIGHT RED AND BEAUTIFUL

We named this beautiful rose after Henry Field, and you know we wouldn't have named it after him if it hadn't been an exceptional rose.

The "Henry Field" is one of the new red strains of Brownell hybrid tea roses. (Plant Pat. No. 841). It is extra hardy—stands heat and drought, and cold down to 20 below zero. The flowers are big, and rich red, and the foliage is bright green, and the plants make a broad, vigorous growth and bear an abundance of large, many-petalled blossoms. You'll like it.

We are propagating this rose as fast as possible because we want all of Henry Field's friends to have one, but the demand continues to exceed the supply. So please order early.

A1025—2.00 each, postpaid.

4 BROWNELL'S for only 5.79

A2180X—1 each of Queen of the Lakes, Lily Pons, Tip Toes, and V for Victory—all 4 in 2-year, field-grown good commercial grade, for only 5.79, postpaid.

A2185X—Good commercial grade, 13.50, postpaid.

TEA ROSES

ALL 2-YEAR-OLD FIELD-GROWN PLANTS
Bloom This Year From June Until Frost

SHIPPED TO YOU TRIMMED FOR PLANTING

(You could help, however, by cutting them back still more, to about 8", before planting.)

A1161—NIGHT. One of the blackest reds of all dark roses. Almost black buds open into a brilliant black-crimson shaded crimson. You'll like it.

A1160—TALISMAN. A gorgeous blend of gold, scarlet, yellow and orange. Has a beautiful and distinctive shape. Looks like a florist's rose.

A1136—GOLDEN SASTAGO. A wonderful clear yellow that holds its color well through the summer heat. Fine tea fragrance.

A1130—CONTRAST. Well named; a striking contrast of colors. One of the most beautiful of tea roses.

A1132—COUNTESS VANDAL. A gorgeous rose that we consider an improved Hoover. Has long pointed buds on long stems, yet plant grows bushy. Was expensive until its patent expired.

A1170—POINSETTIA. This is probably the most brilliantly colored rose, with the possible exception of the "Henry Field." Long stems; beautiful for cutting.

A1133—CRIMSON KING. A popular, brilliant crimson rose. The plant grows bushy, with long stems, and bears an abundance of very large, double, fragrant flowers.

A1134—EDITOR MCFARLAND. A beautiful, golden yellow with long-pointed buds. Flowers are large, slightly fragrant. A vigorous, compact grower.

POSTPAID PRICES ON HYBRID TEA ROSES

(except Field's Giant)

	Select Standard	2-Year	2-Year
	No. 1	Medium	
Each	1.19	1.00	
Per 3	3.39	2.85	
Per 6	6.30	5.55	
Per 12	11.98	10.59	

Please specify on your rose order whether you want a "Select" or "Standard" grade. An explanation of these grades is given in the column immediately to the right.

A1147—K. A. VICTORIA. For years the most popular white. It is clear, glistening white. Beautifully shaped buds and flowers, and a profuse bloomer.

A1127—FIELD'S GIANT. Perfect in its beauty despite the huge size. Very vigorous—and hardy. A deep rich red that is offered by Henry Field's for many years. 1.25 each; 2 for 2.39, postpaid.

A1137—HINCHINBIDE. Has large, nasturtium-red flowers with orange-red centers. Foliage is a glossy bronze, and it has a raspberry fragrance.

A1134—EDITOR MCFARLAND. We believe this is the best of the pink roses. A glowing pink, with very large, pointed buds, and a delightful fragrance.

Here's Why You Get Extra Value When You Buy Henry Field Roses

When our Roses come in from the field, we separate them into three grades:

1. Select Two-year No. 1
2. Standard Two-year Medium
3. Light, or No. 2 (not for sale)

Now most nurseries make 4 grades, the other one being Jumbo XX, the largest ones, a premium grade, and they sell those plants for a premium price—1.35 or more apiece. We put the Jumbo XX sizes right in with the "Select Two-year No. 1" grade with the one exception of our collection of specially selected Jumbo Tea Roses on the opposite page. Our regular Select Two-year No. 1 grade compares absolutely with the Horticultural Standard of The American Association of Nurserymen, of which we are a member. But by throwing this premium grade in at an extra cost to you, you get a bargain, over and above standard grading requirements. That's the good old Henry Field policy of giving extra value.

Our Standard Two-year Medium grade is a little smaller; otherwise just as good. Grown at the same time in the same field. It is a big value. Bloom first year from June to frost and soon get just as big as any grade.

The "Light" grade we don't sell. We put those back in the field to grow up.

"Two-Year-Old, Field-Grown"

All of the above is an explanation of the grading according to size and shape. But there is another quality in roses that you want, and which Henry Field's gives you. This is the inherent ability of the rose plant to grow when you plant it—its vigor and hardiness. To assure this to you, we ship you only rose plants that already have been grown in the field for two years. They already have bloomed in the field for one full year and have enough age and size to grow well, and bloom the same year you plant them.

TOM THUMB

MINIATURE "FAIRY ROSES"

THE TINY ROSE

Miniature rose bushes only about 10" high, flowers no larger than a thimble but perfectly formed double roses complete with long, pointed buds, beautifully shaped flowers, and a real and very noticeable tea rose fragrance. Not a house plant. Makes a neat edging for the taller, larger roses, as shown in picture at right. Good in window boxes. And ideal to plant in pockets of soil in the rock garden. Dainty, but hardy and free-blooming.

B2174—New Red Rose KOUTZETTE (Tom Thumb, Pat. #109). Ruby-red color. 1.25 each; 3 for 3.29, post.

B2175—WHITE ROSE ROULETTE (Pixie, Pat. #408). Double white. 1.25 each; 3 for 3.29, post.

B2173—PINK ROSE ROULETTE. The original Roulette rose. Soft pink. 98¢ each; 3 for 2.98, post.

B2176—BABY GOLD STARE (Pat. #407). Golden yellow from heart of the double flower to the tips of the petals. Little larger than the other miniature—only yellow miniature—and an enchanting variety. 1.50 each; 3 for 3.99, post.

ROULETTE

Twirl Collection
B2175K—each of New Red Roulette and Pink Roulette both for only 1.98, postpaid.

BIG

Little Collection
B2176K—each of Tom Thumb, Pixie and Pink Roulette—all 3 for only 2.98, postpaid.

Save! BUY ROSES BY COLOR!

All 2-Year Standard Grade, Labeled By Color

Like the bread and jam that never comes out even, we can never anticipate our sales closely enough to grow exactly the right quantity of each kind of rose. So, we at all times have a surplus of many of our varieties. We are glad to pass on to you these surplus roses at reduced prices. Thus we get rid of our surplus, and you get a bargain—a good deal both ways. These are not seconds, nor culls, nor damaged roses. On the contrary, they often are our most expensive roses.

BROWNELL HYBRID TEA ROSES

Just as Beautiful, but a Great Deal More Hardy

The Brownell's are a new race of hybrid teas developed from hardier species. Not only do they have the beauty of form, the color, the size and the fragrance of regular hybrid teas but, in addition, they have far greater hardiness and vigor.

Under ordinary conditions, Brownell's do not kill back to any extent in the winter and, therefore, unless deliberately pruned back to keep the bush small in the spring, they will, from year to year, gain size until, after three or four years, you have a bush four to five feet high, loaded with hundreds of roses throughout the summer.

In extremes of temperature which kill out the ordinary hybrid tea roses, the Brownell's may kill back close to the ground, but they will always come out again in the spring and bloom all summer as usual.

Brownell roses probably will cost you less in the long run than any other hybrid tea rose because, with them, you avoid culling, frequent replacement of your hybrid tea roses.

A1013—LILY PONS (Pat. #420). Exquisitely shaped, fully double blossoms of pure white that has a soft, canary yellow in the center on a bush that is

vigorous and free blooming. Probably the finest of all for cut flowers.

A1020—TIP TOES (Pat. #849). Looks like an overall salmon but, if you look closely, you will see that it is a delightful mixture of red, orange and pink tints. The buds and opening flowers are long and slender. In addition, they have a sweet, spice-like fragrance.

A1001—BREAK O'DAY. Huge, very double blooms with a delicate pastel color that occasionally makes it so useful in toning down the brighter colors of some of the other roses. A soft orange to apricot, and borne profusely on a very large bush.

A1003—COUNTRY DOCTOR. One of the largest flowered of all. Has huge, solitary, double blossoms. Color is a deep, silvery pink with a satiny luster that shows up well on the long upright stems characteristic of this variety.

A1011—ORANGE RUFFLES (Pat. #1124). Because of its fragrance alone, this rose is a must for your garden. To us, it has the most refreshing, spicy, room-filling fragrance of any rose. In addition it has a true orange color seldom found in such purity in rose blossoms. Buds tend to broaden out rather than be tight.

A1007—HANDSOM RED (Pat. #1182). No printed page can show the full beauty of this new variety. It has its own wonderful velvety sheen. In fact, so many garden visitors have exclaimed: "That is the most beautiful scarlet rose I have ever seen." That is what we offer to refund your payment for the first bush purchased or if you do not agree, and you may keep that plant. 2.50 each, postpaid.

A1005—DELIGHTFUL (Patented). A perfect name for this new Brownell creation. That you see not only the flowers are a delicate buff, others a glistening yellow-ochre splashed with crimson centers.

A1002—CURLY PINK (Pat. #2842). In our opinion, this is the finest of all pink roses regardless of kind or price. Rolls its petals back slightly so that you see not only the face but the reverse side of the petals, thus presenting a two-toned effect. Also has a tendency to form several blossoms in a cluster various stages of opening, so often a single cut stem makes a gorgeous bouquet.

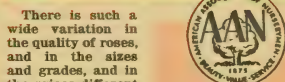

Brownell Bushes 5 Feet High

This picture was taken here in Shenandoah in our garden. The bushes were left untrimmed and unprotected for four winters. They came through almost 100%, with hundreds of flowers, each one about as large as those on the new and better bushes of common hybrid tea.

A1016—QUEEN OF THE LAKES (Pat. #1003). Deep crimson with large flowers on upright plant. Beautifully shaped buds on long stems. Named after Queen of Minnesota's aquatic sports, and no diving beauty can show more grace, brilliance, elegance and beauty of form.

A1021—V FOR VICTORY (Pat. #543). We have seen a lot of yellow roses come and go here at Henry Field's, and we believe this is one of the very finest. It has a very large, double, bright yellow flowers that do not fade. And while weakness of growth generally is associated with yellow tea roses, V for Victory has strong growing qualities.

WHAT YOU SHOULD KNOW BEFORE YOU BUY ROSE PLANTS

All Henry Field Roses are graded according to the Horticultural Standards of the American Association of Nurserymen.

There is such a wide variation in the quality of roses, and in the sizes and grades, and in the prices different nurseries ask for their roses, that it is confusing. So we want to tell you this: First, all Henry Field's roses are two-year-old, field-grown plants. No other kind is shipped. Second, they are true to name, healthy, heavy, and hardy. They are absolutely free of disease and fungus—we are one of the very few nurseries using germicidal lamps in our rose storage room. In fact, we pioneered this practice.

There are no better roses than Henry Field's. You can pay more for roses but they will not be any better. Also, we advise you to be careful about buying exceptionally cheap roses. They usually are low-grade culls, in very small sizes, or frozen roses. When you get them you will be disappointed and a lot of them probably will never live and grow for you.

ROSE DUST. An insecticide made especially for roses. Keeps them clean and blooming. See page 41.

ROSESTONE. A hormone and vitamin mixture that causes the luxuriant growth, earlier blooms. See page 41.

Henry Field's ROSE GUARANTEE

1. All roses two-year-old plants.
2. Field-grown, clean, healthy, free of disease.
3. All hybrid teas will bloom the first year.
4. State and government inspected.
5. Carefully handled, packed and shipped to arrive in perfect planting condition.
6. 100% guarantee of satisfaction in every way.

POSTPAID PRICES for Brownell Hybrid Teas (excepting the "Henry Field" and Handsom Red)

Brownell's are the only patented roses giving you a choice of grade and size to suit your pocketbook and purpose. And they are one of the very few patented roses that you can buy for as little as 1.60 each. All are 2-year-old, field-grown plants: Each Per 3 Per 12

Rainbow of Non-Patented FLORIBUNDAS
A2323X—1 each of Floradora, Dagmar Spath, Eutin, the Sweetheart Rose, and Red Lafayette—all 5 for only 5.25, postpaid.

FLORADORA
A1340—A new color in roses—a clear, brilliant orange. Often has 7 to 10 open blooms and many unopened buds at one time. A very hardy, free-blooming plant.

DAGMAR SPATH
A1332—Has large clusters of big, white semi-double, fragrant blossoms. A bushy, upright plant. Hardy and blooms all summer. Very good in mass plantings and for cut flowers.

EUTIN
A1337—Has flowers of glowing carmine-red, with up to 125 semi-double blossoms in one great cluster. This is the showiest, and freest blooming plant in our whole rose field.

Brownell NEARLY WILD
A1348—This is a Brownell Floribunda with large clusters of single flowers that are apple-blossom pink and white, and about the size of a silver dollar. A wonderful rose for hedge or border.

A2324X—3 NON-PATENTED FLORIBUNDAS FOR 3.25. One each of Floradora, Dagmar Spath and Eutin—3 fine roses for 3.25, postpaid.

"SWEETHEART ROSE"
A1355—(Cecil Brunner). A wonderful old-time favorite and one of the best cut flowers. Bears loads of small, exquisite buds and flowers of light pink with yellow base.

RED LAFAYETTE
A1354—One of the brightest of all red roses—actually a flaming red. Colorful in mass plantings. Fine cut flower. Stands dryness better than any other rose.

RAINBOW OF CLIMBING ROSES
 1 Paul's Scarlet 1 Primrose
 1 Prosperity 1 New Dawn
 All for only \$4.19 PPD No. A2233X

FAMOUS CLIMBER "BLAZE"
A1056—The flowers of this new climber are the same brilliant red as Paul's Scarlet. However, it is everblooming—blooms both in the spring and the fall. 1.25 each; 3 for 3.45, postpaid.

PRIMROSE—One of Best Yellow Climbers
A1077—Primrose has clean, shiny leaves and immense, double blossoms of primrose yellow. Very hardy—grows almost anywhere. It is one of the best yellow climbing roses. 1.19 each; 3 for 3.39; 6 for 6.30; 12 for 11.98, postpaid.

Non-Patented FLORIBUNDA ROSES

Postpaid Prices on Non-Patented FLORIBUNDA ROSES at left (Excepting New Dawn): \$1.19 each; 3 for \$3.39; 6 for \$6.30; 12 for \$11.98. Patented Floribundas Are On Pages 80 and 81.

There are some gorgeous roses in the non-patented class of Floribundas. In fact, among them are found some of the most outstanding roses of all time. For instance, there never has been a bush rose that would produce year after year the abundance of flowers that *Eutin* will. Nor do we know of a Floribunda, or any other type of rose, that equals the absolutely clear orange color of *Floradora*.

These Floribundas are a vigorous class of roses, unsuited for mass planting, or for planting with shrubs to give color to the shrub border throughout the summer. They also are ideal as a rose edging for walks, and they make gorgeous hedges. And, they are one of the best for cutting because only stem or two makes a beautiful bouquet without any arranging.

This photograph shows how Floribunda roses can be used to create great beauty in a mass planting.

Henry Field's CLIMBING ROSES

We offer here the varieties of climbing roses that we think are among the very best available. All of our plants are two-year-old, field-grown stock. Plant them six feet apart.

ALL CLIMBING ROSES SHIPPED TO YOU ALREADY TRIMMED FOR PLANTING.

Choose Varieties to Fit Your Color Scheme

When most houses were white, a red climber was standard. Red still is most popular, but with houses now in all colors of the rainbow, you should give consideration to the whites, yellow and pinks also. Even for lawn or garden planting, the different colors may be helpful to you.

NEW DAWN

A1074—The first everblooming climbing rose, and fast becoming one of the most popular. No other climber has shown so constantly from spring until frost.

The blooms are a large, double, apple-blossom pink borne on long stems. Fine for cutting. Also very fragrant. 1.25 each; 3 for 3.49, postpaid.

WHITE DAWN

A1094—The beautiful white counterpart of New Dawn. The finest everblooming white climbing rose. Hundreds of pure white, completely double, *Gardenia*-like blooms on long stems. A fine new original on the University of Minnesota. 1.50 each; 3 for 3.90, postpaid.

PAUL'S SCARLET

A1078—This is the most brilliantly colored of all climbing roses, and one of the most beautiful. It has even the highest rating of all climbers by the American Rose Society. It has large, full, showy flowers and arches the branches that you can hardly see the foliage. It is the great climbing rose; more of them are planted than any other variety. 1.19 each; 3 for 3.39; 6 for 6.30; 12 for 11.98, postpaid.

CORAL DAWN

A1063—(Patent 1117). A brand new everblooming climber of the best, sparkling, deep coral-pink coloring. This

THE NEW BROWNELL EVERBLOOMING CLIMBERS

They Grow late Fine Hardy Climbers and Bloom as Freely as Hybrid Teas

These are hardy climbers with the everblooming habit of hybrid teas. Their outstanding, and new, feature is that they bloom on the canes the year they grow—yes, even the first year, like hybrid teas do.

Although they make fine everblooming climbers, you may, if you wish, cut them back to grow giant hybrid tea bushes 4 to 8' high. Also, they make fine specimens for a compact bush on the lawn or in the shrubbery.

The first year they make a tea rose bush, and flower like one. The fol-

lowing year they start to climb and bloom at the same time. If they are killed back by exceptional freezes, they will still come up again and bloom the same year.

We have chosen six varieties to list; all are so new that Mr. Brownell has not yet named them:

A1071—#19, Rhode Island Red, a magnificent double climber.

A1073—#73, double soft red.

A1072—#33, very double pure white.

A1064—#34, double yellow.

A1083—#32, double deep pink.

A1062—#12, double orange.

3.00 each, or any three for 8.50, postpaid.

CLIMBING ROSE BARGAIN

A2220X—1 *Blaze*, 1 *New Dawn*, 1 *Primrose*—all three in heavy, 2-year-old, field-grown plants, for only 3.29, postpaid.

is the first time that this popular color has been available in a climber. Has dainty, pointed buds which open up to double, 4½-inch blooms. Lustrous, dark green foliage—very disease resistant and a fine background for the huge coral-pink blooms. Does well in all regions. 2.50 each; 3 for 6.80; 12 for 26.40, postpaid.

GOLDEN PYRAMID

A1066—A hardy Brownell climber of pure white blooms on a strong, free-growing plant. It is especially good against red brick walls. It blooms the first year you plant it; that is unusual in a climbing rose. 1.19 each; 3 for 3.39; 6 for 6.30; 12 for 11.98, postpaid.

PROSPERITY

A1079—This one has great clusters of pure white blooms on a strong, free-growing plant. It is especially good against red brick walls. It blooms the first year you plant it; that is unusual in a climbing rose. 1.19 each; 3 for 3.39; 6 for 6.30; 12 for 11.98, postpaid.

ELEGANCE

A1064—Another hardy Brownell climber of exceptional beauty. It has very large blooms with a perfectly formed pure yellow center shading to white toward the outside. It makes a magnificent display, and is a fine cut flower. We rate this as one of the most beautiful of all climbing roses. 1.80 each; 3 for 3.90, postpaid.

Beautiful Red and Gold Offer

A2215X—1 *Paul's Scarlet* and 1 *Primrose*—a beautiful combination for a trellis or arbor. Both fine 2-year-old plants for 2.19, ppd.

Now You Can Buy Your Favorite Varieties Of Roses ACTUALLY GROWING in POTS!

Henry Field's "GARDEN-FRESH" POTTED ROSES Reach You Green, Fresh, Usually in Bud

Why waste a month waiting for dormant plants to start growing and coming into bloom? You can get Henry Field's pot-grown roses in full leaf and bud, even a bloom here and there, as shown in these actual pictures taken here at the Seedhouse.

Henry Field's "Garden Fresh" potted roses are two-year-old Select Grade rose plants grown in a pot filled with a pre-fertilized growing media, not dirt.

You can plant them any time after danger of frost is over, from late spring to late fall. If you can't get them planted right away, they keep right on growing in their own pot. They are easier to plant and practically eliminate any loss in planting.

You get a longer blooming season because they start giving you blooms practically from the day you plant them right up

until freezing time in the fall.

Shipped Separately

These plants will be shipdipping to you by parcel post (we pay postage right to your door). Do not expect them too soon; we cannot ship until danger of frost for your area is past, and also when danger of frost injury in our area is past if you live south of us. Therefore, you probably will receive them as a separate package about April 15th.

Tested and Proved

These potted roses are the result of several years of painstaking research on our part. We have grown them and planted them under all sorts of conditions and they give perfect satisfaction. Thousands of our customers have bought them and are happy with them. You pay a little more for them than you do for bare-root, dormant rose plants, but you get a whole lot more. We don't see how you possibly could lose one of these potted roses.

1 Your Henry Field "Garden Fresh" potted rose comes to you well packed in a heavy carton. When you unwrap the package, you take out a live, growing plant, heavy rooted, green leafed, and usually in bud or blooming, like the above.

It Costs Little More to Buy a Rose Garden That Is GROWING When It Arrives

2 This is the same plant as in picture 1 above but the tarred paper pot has been removed, and the rose is ready to plant. No pruning is necessary. The ball will rot if left in and all away; just dunk it in a pail of water and start digging a hole.

3 Dig the hole a little larger than the ball. Set the ball in the hole so that the top of the ball is a little below ground level. Be sure the tarred paper pot has been removed before planting.

4 Pull the dirt in around it; tamp it down firmly to keep air out. Then water it good. Fertilizer already is in the ball. You then have a big, live growing rose bush. Chances are you can pick roses the same day!

ALL SHRUBS SHIPPED PARTIALLY PRUNED FOR PLANTING Unless Otherwise Noted, All Shrubs Are 12 to 18" Size

AI 1490—SPIREA AZURE BLUE MIST (Caryopteris). A brand new, blue Mist Spirea from the U.S.D.A. Field Station at Cheyenne, Wyoming. Makes a compact, gray-green little shrub about 2 to 3 ft. high and about as broad. During Sept. and Oct., it is covered with masses of deepest clear blue flowers. In cold climates, it often dies to the ground in winter but then comes up again in spring. We ship either field grown or potted plants, depending on the season. 1.50 each; 3 for 3.75, ppd.

AI 1492—SPIREA BLUE MIST (Caryopteris). This is the original blue Mist. Same type as above excepting flowers are blue-gray. Blooms in Sept. and Oct. 79c each; 3 for 2.10, ppd. (See Page 27 for Spirea Hedging;)

The new patented hybrid lilacs have larger flowers and an array of surprising colors never before seen in lilacs.

NEW CLARKE HYBRID LILACS

AI 1477—PURPLE HEART (Pat. No. 832). Purple-chinck-buds, open to single, deep purple flowers 1½" wide in large clusters.

AI 1480—SWEETHEART (Pat. No. 1128). Buds of deep red open to large double flowers of palest lavender, almost white.

AI 1478—SPLENDOR (Pat. No. 837). Dark reddish-purple buds open to pale blue. Flowers not overcrowded, avoiding a trait that often spoils otherwise good doubles. Blooms midseason to late.

AI 1479—SUNSET (Pat. No. 937). Nearest of all to red double red buds deep mauve-carmine; flowers red with slight purple cast.

Grape Myrtle undoubtedly is one of the most beautiful shrubs in the world. The plant stays covered with giant clusters of bloom all summer long. It is perfectly hardy south of central Missouri. Farther north, the tops die down in winter, but if well protected, live over and bloom on new wood.

All Grape Myrtle are slow to leaf out in the spring they are planted, so be patient with them.

New Brilliantly Colored GRAPE MYRTLE

This is the first time anyone anywhere has offered these four fine new varieties of Grape Myrtle. We are very happy to be able to offer them to

AI 1495—SPIREA VAN HOUTTEI (Bridal Wreath). Always a popular shrub. Hardly with beautiful arching habit of growth. The branches are covered with pure white flowers in early spring. Grows every place.

POSTPAID Each Per 3 Per 5
Standard 12 to 18" size 39 1.05 1.49
Select 12 to 18" size 49 1.35 1.98
Extra Select 18 to 24" size 59 1.95 2.49

AI 1491—LILAC SPIREA (Spirea Billardi). Here is the spirea with big, pink, lilac-spiked blooms borne on the ends of each branch. Blooms all summer long. Grows 3 to 4 feet tall. 79c each; 3 for 2.10, postpaid.

POSTPAID PRICES on

above four: 12 to 18" size, 2.50 each; 3 for 6.75. 18 to 24" size, 2.75 each; 3 for 7.50.

OLD-FASHIONED LILAC

AI 1446—PURPLE HEART. Grows about 9" tall. Soft lilac flowers in large, fragrant clusters in late spring. 79c each; 3 for 2.10; 5 for 3.39, postpaid.

AI 1465—WHITE. Same as above except white. 79c each; 3 for 2.10, postpaid.

HYBRID LILAC FAVORITES

AI 1451—KATHERINE GREYER. Huge double lilac-pink flowers. Beautifully fragrant.

AI 1448—BELLE DE NANCY. Double clear soft pink.

AI 1453—PRES. GREYVY. Immense, double, porcelain blue flowers. Makes solid bush.

Henry Field's customers. These new varieties were bred particularly for large flowers, deep colors, abundance of blooms, and a more compact habit of growth. They are definitely superior to any Grape Myrtle offered previously.

AI 1520—FIREBIRD (Texas No. 21). Huge flowers of deep watermelon red. Plant broad and spreading with large shiny foliage.

AI 1521—NEW SNOW (Texas No. 33). Masses of pure white blooms over very dark green foliage. Plant definitely a semi-dwarf grower.

AI 1522—PINK LACE (Texas No. 11). Large flowers of clear, bright pink. The crepe paper-like flowers are in beautiful large clusters.

ordinary soil, pink. To make blue, acidify soil by adding aluminum sulphate (see page 40). To make pink (if soil is already acid), add agricultural lime. Prefers partial shade. Not reliably hardy north of Missouri. 89c each; 3 for 2.49.

ROSE TREE OF CHINA

Covered with Blooms Before Leaves Appear. [E] AI 1481—(Prunus Tri-loba). Grows 5 to 7 ft. tall. Covered with double, rose-pink blooms in spring. No bare leaves appear. Upright and hardy. One of the loveliest of flowering shrubs. 18" size, 98c each; 3 for 2.79. 18 to 24", 1.49 each; 3 for 4.18, postpaid.

HIGH BUSH CRANBERRY

[F] AI 1442—Viburnum Opulus (European Cranberry). A big, beautiful bushy shrub that will make well in sun or partial shade. Grows 6 to 8 feet high. Has

AI 1493—DOUBLE BRIDAL WREATH (S. Prunifolia). Just like the popular Bridal Wreath only its blooms are double. Blooms profusely; flowers literally cover the bush. More delicate in appearance than regular Bridal Wreath. 79c each; 3 for 2.10, postpaid.

AI 1490—ANTHONY WATERER (Dwarf Red Spirea). Grows two feet tall. America's most popular low-growing shrub. Covered all summer with big, bright blooms, compact-growing with many branches. An ideal shrub to fill in front of taller growers or in front of house foundation. 9 to 12" size, 79c each; 3 for 2.10. 12 to 18" size, 98c each; 3 for 2.65, postpaid.

1 Pres. Greyv (double blue)

AI 1523—TWILIGHT (Texas No. 22). Very large flowers of intense royal purple. Deep green shiny leaves. Probably the most striking variety of all.

POSTPAID PRICES on above 4: 1.50 each; 3 for 4.29.

AI 1420—WILLIAM TOOVEY GRAPE MYRTLE. This is a fine Grape Myrtle that always remains neat and compact in growth. The large flower clusters are solid masses of red blossoms. Even the young, small plants are covered with bloom. 89c each; 3 for 2.49, postpaid.

GRAPE MYRTLE BY COLOR

AI 1417—Red. **AI 1415—Pink**. **AI 1418—Purple**. Extra select plants, 89c each; 3 for 1.89, postpaid.

dark green leaves shaped like maple leaves, and the bright scarlet berries remain in winter, as they are too sour for the birds. A very ornamental and satisfactory shrub. 89c each; 3 for 2.69, postpaid.

GOLDEN MOCK ORANGE

[G] AI 1403—This is a fine, dense shrub, the best of all the golden-leaved ones. In full sun, its foliage is a brilliant, rich yellow, and its fragrant white blossoms are like those on the common Mock Orange. It is excellent for scattering in a shrub planting, making a refreshing change of foliage color. 12 to 15" size, 98c each; 3 for 2.79, postpaid. 15 to 18" size, 1.10 each; 3 for 2.98, postpaid.

PURPLE LEAF BUSH

Ideal for Color Contrast [H] AI 1476—(P. rufus Newbold). Grows 6 to 8 feet tall. Rich, purple foliage all summer besides

SHRUBS

AI 1497—RUBY GLOW (Spirea Japonica Coccinea). A new dwarf red spirea that grows like Anthony Waterer but flowers are a much brighter crimson and do not fade. Gets about two feet high and almost as broad. Leaves are small and ferny. 89c each; 3 for 2.39, postpaid.

AI 1494—DAINTY THUNBERGI (pictured at right). Spirea to bloom in spring. Covered with dainty white flowers long before leaves appear. Graceful in shape and with foliage so fine that it looks like a giant fern. Grows 3 to 4 feet tall. 79c each; 3 for 2.10, postpaid.

A2354X—CRAPE MYRTLE COLLECTION. 1 each of red, pink, and purple—all 3 for only 1.75, postpaid.

VARIEGATED-LEAF DOGWOOD

[AA] AI 1425—(Cornus alba elegantissima). A strikingly beautiful shrub with large, attractive, green leaves, each of which is edged shovily with a broad border of white. The red bark of this variety is very attractive in winter. An exceedingly hardy shrub, a good grower, and a welcome change from the ordinary green-leaved shrubs which usually predominate a planting. 89c each; 3 for 2.79, postpaid.

TAMARIX "SUMMER GLOW"

[JJ] AI 1506—A new and improved Tamarix with thin, blue-green foliage that mantles it like a silvery veil. Spikes of filmy glowing pink flowers all summer. 79c each; 3 for 2.19, postpaid.

CHINESE BEAUTY BUSH

[KK] AI 1418—This graceful, vigorous, arching, branched plant was introduced from China. The leaves are small and pointed, and the branches are loaded with bell-shaped pink flowers in June. Grows 5 to 6 feet high. Hardy everywhere. 79c each; 3 for 2.19, postpaid.

SHRUBS

AI 1497—RUBY GLOW (Spirea Japonica Coccinea). A new dwarf red spirea that grows like Anthony Waterer but flowers are a much brighter crimson and do not fade. Gets about two feet high and almost as broad. Leaves are small and ferny. 89c each; 3 for 2.39, postpaid.

FORSYTHIA "GOLDEN BELL"

▲ A1428—This is the common Forsythia so popular in the past. Has bright golden bell-like flowers which line the arching branches even before the leaves appear. Foliage is rich dark green all summer, turning to plum color and bronze in the fall. Very hardy. Grows 4 to 6 feet tall. 69c each; 3 for 1.80; 5 for 2.79, postpaid.

FORSYTHIA "LYNWOOD GOLD"

▲ A1427—(Golden Bell Lynwood Gold). Probably the most brilliant yellow colored of all Forsythias. Originated in Ireland; has been a sensation wherever grown in this country. It is erect, or upright, growing, with branches literally smothered with very large blooms of bright golden yellow. The petals of the flowers have a firm texture, making it an ideal cut flower. This also enables it to withstand adverse weather that ruins the blooms of an ordinary Forsythia.

The plant does grow tall, eventually attaining a height of about 7 feet, but it can be kept down by pruning if you desire a lower shrub. 1.25 each; 2 for 2.39, postpaid.

FRAGRANT VIBURNUM

▲ A1511—(Viburnum Carlesii). This is a beautiful, shapely shrub covered in the spring with many bloom clusters. So fragrant it is commonly called the Mayflower Viburnum. Very hardy. Strong plants, 1.50 each; 2 for 2.59, postpaid.

FIVE-LEAF ARALIA

▲ A1510—(Acanthopanax pentaphyllum). One of the most useful of all shrubs because it will grow practically anywhere in sun or heavy shade, and it is not attacked by many insects, and it can be pruned to any shape or size. The leaves are five-parted, and of a rich, shiny green. The shrub is thorny and will make a fine, impenetrable hedge, or screen. Hardy anywhere. 89c each; 3 for 2.29, postpaid.

WEIGELA CARDINAL RED

▲ A1515—Also known as Weigela Vanocke. This is the first really hardy red Weigela—lives through

DEUTZIA GRACILIS

A Beautiful Low-Growing Shrub

▲ A1422—A low-growing type of this hardy shrub; gets only 2 to 3 feet tall. In June, you can hardly see the pretty foliage for the mass of lovely white blooms. Plant with Spirea Anthony Waterer for low groups. 79c each; 3 for 2.19, postpaid.

GOLDEN ELDER

▲ A1433—CUTLEAF GOLDEN ELDER (Sambucus plumosus racemosus aurea). This is the very rare and beautiful cut leaf variety. At certain seasons the filmy leaves are a brilliant golden yellow; at others, a striking chartreuse. We have one of the few stocks of this variety in the country. 2 to 3-foot size, 2.75 each, postpaid.

A1434—GOLDEN ELDER. This one has bright golden foliage all summer. Not cut leaf like one above. Makes a striking contrast with your other shrubs. Full and dense growing. Colors best in full sun. Grows fast, and makes a show early. 75c each; 3 for 1.98, postpaid.

YEDDO BURNING BUSH

▲ A1462—(Euonymus Yedoensis). This is another rare and very beautiful shrub which we offered last year for the first time. The unique thing about it is its beautiful shell-pink seed containers. These form just as the leaves are falling in the fall. They grow in great clusters and, as they open, disclose the bril-

20 below zero where the older variety, Eva Rathke, will kill out entirely. The bright rosy-red, bell-like flowers cover the plant from June until frost. The new plants you set out this spring will bloom this summer. 1.25 each; 2 for 2.39, postpaid.

WIEGELA ROSEA

▲ A1516—The big, round, dense, dark green shrub with hundreds of pink blooms in June. Foliage is rich and heavy. Found in 1843 by Robert Fortune in the garden of an old mandarin on the beautiful Island of Chusan off the coast of North China; has continued popular ever since. 69c each; 3 for 1.89, postpaid.

is a deep reddish purple. 69c each; 3 for 1.89, postpaid.

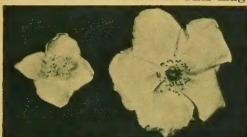

▲ A1412—PINK CHARMING. Now a really charming true pink. 69c each; 3 for 1.89, postpaid.

▲ A1413—RED GLORY. The brand new reddest of red. A strikingly brilliant plant that we hope every customer will try. 75c each; 3 for 2.10, postpaid.

MOCK ORANGE

▲ A1458—DOUBLE MOCK ORANGE "Virgatus". Best double variety. Wonderfully fragrant. Medium height. Likes sun but will grow in partial shade. Very hardy. Grows 4 to 6 feet tall. 89c each; 3 for 2.39, postpaid.

▲ A1461—ATLAS MOCK ORANGE. The new French Mock Orange that has the largest Mock Orange blossoms we have ever seen. This mag-

Picture-above shows how the nearly 3" flowers of Atlas are much larger than ordinary Mock Orange blossoms. All these pictures are actual photographs.

Before Shipping, All Shrubs Are Pruned by Experts and Are Ready for Planting

lant orange berries, much like Bittersweet berries.

This plant is entirely hardy everywhere. It grows to an ultimate height of 6 to 8 feet, although it can be kept lower by pruning. The foliage is dense. Its richly colored leaves are large and dark green, and its bark has the distinctive cork-like appearance peculiar to plants of this family. It does not sucker. All in all, it is one of the finest shrubs you can have. 12 to 18" plants, 1.75 each; 3 for 4.80, postpaid.

DWARF BURNING BUSH

▲ A1469—(Euonymus alatus compactus). One of the finest of the small sized shrubs. Seldom gets more than four feet tall and about as broad. A compact, shapely shrub with interesting, cork-like bark. Has dense, deep green leaves throughout the summer. In fall, the leaves turn to a brilliant carmine red and the bushes are loaded with bright red beautiful berries which attract birds.

Burning Bush is hardy in all parts of the country and tolerant of considerable shade although it grows and looks better in abundant sunlight. This is a perfect shrub for the new modern ranch-type home. 2.39 each; 2 for 4.19, postpaid.

WHITE SNOWBALL

▲ A1429—One of the most popular and beautiful decorative shrubs. An old favorite. Will grow to 8 or 9 feet tall but can be kept down by pruning. Blooms late in spring with large clusters of white flowers that look like giant snowballs. Foliage is a deep, rich green in color. It is a rapid grower and hardy everywhere, in sun or shade. 98c each; 3 for 2.69, postpaid.

DOUBLE PINK ALMOND

▲ A1421—This is the early spring beauty, a lovely shrub that grows 3 to 5 feet tall. The upright branches are loaded in earliest spring with double, rose-pink blossoms. Rest of season, it forms lovely green bush ideal for foundation planting. 12 to 18" size, 89c each; 3 for 2.39. 18 to 24" size, 1.10 each; 3 for 2.98, postpaid.

SEE ILLUSTRATIONS AT LEFT

a rich looking plant. Grows about 3 to 5 feet tall. 69c each; 3 for 1.80; 5 for 2.79, postpaid.

Three Fine New Flowering Quince

The following are the three best, in our opinion, of the fine new Clarke varieties which they have been working on for twenty years. All three have double flowers, and grow to a height of 5 to 6 feet but may be pruned lower if desired. These fine double varieties also would make a magnificent multi-colored hedge; plant three feet apart and trim as desired.

▲ A1484—RED CHIEF. The popular color in flowering quince—a deep clear crimson. Makes a mass of brilliant color in the spring. Red Chief will brighten up any home planting. 18 to 24" size, 2.75 each; 2 for 5.00, postpaid.

▲ A1483—CAMEO. The large double flowers, each with twenty or more petals, are of a soft, pleasing apricot-pink. In early spring, clusters of them are borne in great profusion on a compact, bushy plant. 18 to 24" size, 2.75 each; 2 for 5.00, postpaid.

▲ A1485—AFTERGLOW (Plant Pat. #347). A magnificent double white becoming soft pink toward the close of the flowering season. Striking when used in combination with Red Chief. 2.75 each; 2 for 5.00, postpaid.

nificant variety, imported from France a few years ago, will certainly replace the common Mock Orange as it becomes better known. Easy to grow and very hardy. Covered with flowers in June. 1.25 each; 3 for 3.49, postpaid.

ALTHEA—"Rose of Sharon"

▲ A1421—This is the early spring beauty, a lovely shrub that grows 3 to 5 feet tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in August and September. The flowers are needed. Blossoms look like big roses when open.

▲ A1429—Double Althea Red.

▲ A1431—Double Althea White.

▲ A1430—Double Althea Pink. Above three, 69c each; 3 for 1.80; 5 for 2.80, postpaid.

▲ A1432—ALTHEA COELESTIS. This is a beautiful china blue single Althea. It is harder than most varieties, and very showy. 89c each; 3 for 2.39, postpaid.

FLOWERING QUINCE

Flowering Quince is the earliest shrub to bloom. Its branches are covered with blossoms as its leaves appear. And the fruit makes fine quince jelly.

▲ A1487—SCARLET FLOWERING QUINCE. Has single flowers of fiery scarlet, with foliage that is a glossy green. Together, they make

SHRUBS

Illustrated at left

SUNSHINE SHRUB

▲ A1437—(Hypericum kalmianum). Here is another topnotch, low-growing shrub, so needed in the planting of a modern home, and attractive anywhere. Dense, small, shiny-green leaves in a neat mound two to three feet high and wide. Its bright golden yellow flowers are clustered about over the plant all summer long. Does best in full sun in any good soil, even in quite dry locations where other shrubs will not do well. Fine in shrub plantings, particularly where low shrubs are needed. Also makes an excellent low hedge. Select plants, 1.29 each; 3 for 3.00, postpaid.

KAZAN FIRETHORN

▲ A1426—(Pyracantha coccinea Kazan). Perfectly hardy in Shenandoah, Iowa (southwest Iowa) and south of there. It is a tall, attractive shrub with dense, shiny, dark green leaves. Has hundreds of large clusters of tiny white flowers in the spring, followed by masses of brilliant orange-red berries in the fall and early winter. Makes a fine shrub, an impenetrable screen or hedge, and it may be trained up walls or trellises. Does not transplant well bare-root so we ship plants from 2½" pots that will make amazingly rapid growth. 98c each; 3 for 2.69, postpaid.

6 CUSHION MUMS for only \$2⁵⁹ POST PAID

Every Plant a Mound of Solid Color

FOR BORDERS . . .

CUT FLOWERS . . .

FOUNDATION PLANTING

To Keep Your Garden Alive with Color from Early Fall to Frost

CB3185X—These Cushion Mums bloom from late August right through the early fall frosts, when most other flowers are finished—thus keeps your garden alive with color into late fall. Each plant makes a solid mound of flowers 12 to 18 inches high and 2½ feet across—blossoms set so thickly they literally cover the foliage.

Ideal for borders and foundation plantings, and you never miss a dozen stems of flowers cut daily for indoor bouquets.

We ship you healthy, green, pot-grown, pre-fertilized plants, 1 each of pink, bronze, yellow, red, white, and the new purple.

NOTE: Our Chrysanthemums, being potted and in green leaf, are shipped later than, and separately from, other perennials and nursery stock.

2-Year-Old Field-Grown HYBRID TEA ROSES

- 1 TALISMAN, the tawny orange and gold combination
- 1 FIELD'S GIANT, deep rich crimson
- 1 K.A. VICTORIA, pure white
- 1 GOLDEN CHARM, bright yellow
- 1 POINSETTIA, brilliant red

All 5 for only \$4²⁹ PPD.

These are five of the best and most popular of all Hybrid Tea Roses, and in a good assortment of colors. We guarantee them to bloom this year from June until frost.

This is a money-saving bargain. It would pay you to buy several collections if you can use them.

Henry Field's RAINBOW "BORDER" DAHLIAS

Brilliantly Colored Easy-to-Grow Dwarfs

For Loads of Long-Lasting, Gorgeous Cut Flowers

BG550X—You need not baby these Rainbow Border Dahlias to reap a rich harvest of bright colors. Just plant the bulbs four to six inches deep in your flower border. Allow 18 inches between the plants. Your border will blaze with brilliant rainbow colors of red, white, yellow, orange and orange-bronze. Blossoms are two to four inches in diameter, some semi-double and others fully double. Plants grow from two to four feet tall.

4 for only 60¢ PPD. 8 for only 100¢ PPD. 12 for only 125¢ PPD.

No climber gives you more beauty than Clematis

HYBRID CLEMATIS

2 Large-Flowering JACKMANI for only 215 PPD.

Use on Trellis, or on Both Sides of Doorway, Porch, or Gate Entrance

A2412X—Hybrid Clematis Jackmani probably is the most gorgeously colored of all vines, having solid masses of huge flowers of deep, rich purple.

They are hardy everywhere, and so easy to grow, but do best on east or northeast side as they do not like full day of hot sun. We ship you plants out of 2½" pots as we find this size grows better for you. Be careful not to break the stem when setting them out.
